Часть 1

УЧЕБНИК ДЛЯ ВУЗОВ
Под редакцией Н.И.Черновой

Москва
2026

УДК 811.111 (075.8)

ББК 81.2Англ

Учебник содержит адаптированные аутентичные страноведческие и профессионально ориентированные тексты, а также комплекс упражнений для развития целевых иноязычных речевых компетенций. Материал разработан в соответствии с требованиями государственного образовательного стандарта по направлениям подготовки «Информационные системы и технологии» и «Инфокоммуникационные технологии и системы связи».

Издание соответствует актуальным требованиям Федерального государственного образовательного стандарта высшего образования.

Предназначен для студентов технических вузов и факультетов указанных направлений, а также для всех, кто стремится самостоятельно совершенствовать практическое навыки владения английским языком в профессиональной сфере.

Благодарим наших коллег Новикову А.Р. и Лакомова А.Р., принявших участие в озвучке видео для данного учебника, за их ценный вклад и творческий подход.

Авторский коллектив:

Чернова Надежда Ивановна, профессор каф. иностранных языков РТУ МИРЭА

Ялаева Наталья Вячеславовна, доцент каф. иностранных языков РТУ МИРЭА

Быстров Никита Александрович, старший преподаватель каф. иностранных языков РТУ МИРЭА

Костеева Дарья Юрьевна, старший преподаватель каф. иностранных языков РТУ МИРЭА

Улюмджиева Гиляна Саналовна, ассистент каф. иностранных языков РТУ МИРЭА

Шовгенин Александр Николаевич, доцент каф. иностранных языков РТУ МИРЭА

Прокопчук Анна Реональдовна, старший преподаватель каф. иностранных языков РТУ МИРЭА

Гаврилова Елена Алексеевна, старший преподаватель каф. иностранных языков РТУ МИРЭА

Кудинова Татьяна Викторовна, старший преподаватель каф. иностранных языков РТУ МИРЭА

Рецензенты:

Брованов Сергей Викторович, д-р тех. наук, профессор, Новосибирский государственный технический университет НЭТИ

Боровкова Марина Владимировна, к.ф.н., доцент кафедры русского, иностранных языков и культуры речи Уральского государственного юридического университета им. В.Ф. Яковлева

ПРЕДИСЛОВИЕ

Учебник «Английский язык для технических вузов» представляет собой комплексное учебное издание, состоящее из двух частей и рекомендованное студентам, обучающимся по укрупненным группам специальностей и направлений подготовки технического и инженерного профиля. Первая часть учебника рассчитана на студентов первого курса, владеющих английским языком на уровне B1, и направлена на последовательное достижение уровня B2.

Авторы учебника обладают многолетним опытом преподавательской работы в МИРЭА – Российском технологическом университете на разных направлениях подготовки, что позволило создать учебник, максимально отвечающий потребностям современного технического образования. Учебник полностью соответствует требованиям ФГОС ВО (3++) к результатам освоения дисциплины «Иностранный язык», согласно которым выпускник должен быть способен к деловой коммуникации в устной и письменной формах на иностранном языке.

Главная задача первой части учебника – сформировать базовые умения деловой коммуникации в рамках тем, наиболее актуальных для начального этапа обучения в вузе. Уникальность учебника заключается в реализации подготовки универсального издания для обучающихся технических вузов, позволяющего укрепить базовую общелингвистическую подготовку будущих профессионалов и подготовить их к работе со второй частью учебника, в которой внимание будет сосредоточено на профессиональных темах и работе со специальными текстами. Материал учебника способствует развитию межкультурной компетенции и системно развивает навыки чтения, говорения, письма и аудирования.

Содержание первой части охватывает широкий спектр тематических блоков, начиная с вопросов личности, семьи и самопрезентации, переходя к обсуждению увлечений и повседневной жизни, затем к проблематике высшего образования в России и за рубежом. Значительное внимание уделяется страноведческим аспектам, включающим географию, экономику, политическую систему и культуру России и стран изучаемого языка. Завершающие разделы посвящены роли науки и технологий в современном обществе, актуальным социальным проблемам, а также вопросам занятости и трудоустройства.

Структура каждого урока продумана таким образом, чтобы обеспечить последовательное и комплексное усвоение материала. Занятие начинается с вводных упражнений для начальной дискуссии, которые активизируют имеющиеся знания студентов и мотивируют их к изучению новой темы. Фонетические упражнения помогают совершенствовать произносительные навыки, а грамматические блоки обеспечивают необходимую структурную основу для построения высказываний. Особое внимание уделяется работе с лексикой. Новые слова и выражения вводятся систематически, закрепляются через разнообразные упражнения и активизируются перед тем, как студенты встретят их в основном тексте урока.

Работа с текстом сопровождается лексико-грамматическими упражнениями, направленными на углубление понимания прочитанного и

отработку языковых структур в контексте. В некоторых уроках предусмотрены дополнительные тексты и упражнения, обогащающие знания по теме и расширяющие словарный запас студентов. Важным компонентом каждого урока является работа с аутентичными видео- и аудиоматериалами, после которой следуют упражнения на проверку понимания. Многие упражнения по указанию преподавателя могут быть выполнены письменно, что способствует дополнительному закреплению пройденного материала.

В основу учебника положены современные лингводидактические подходы, доказавшие свою эффективность в обучении иностранным языкам. Коммуникативный подход обеспечивает акцент на развитие всех видов речевой деятельности и формирование навыков реального общения. Интегрированное обучение языковым навыкам позволяет комплексно развивать чтение, говорение, письмо и аудирование в их естественной взаимосвязи. Лексический подход реализуется через систематическую работу с вокабуляром на всех этапах: введения, закрепления и активизации. Обучение на основе заданий предполагает выполнение практических коммуникативных задач, приближенных к реальным ситуациям общения. Контекстное обучение осуществляется через работу с аутентичными текстами, видео и аудиоматериалами, что способствует формированию естественного языкового чутья. Интерактивное обучение реализуется через парную и групповую работу, а также дискуссии. При этом соблюдается принцип постепенного усложнения материала от простого к сложному, что обеспечивает комфортное и эффективное продвижение студентов к поставленным целям.

По окончании работы с первой частью учебника студенты приобретут обширные знания в области словообразования и овладеют лексическим минимумом в рамках пройденных тем. Они усвоят необходимый грамматический материал, достаточный для построения корректных высказываний и понимания разнообразных текстов. Студенты познакомятся с форматами и структурой различных типов устных и письменных сообщений, а также освоят основные тактики ведения диалога, включая способы выражения согласия и несогласия, аргументацию своей позиции.

На практическом уровне студенты научатся эффективно общаться в устной форме в стандартных ситуациях, готовить и представлять сообщения и презентации на изученные темы. Они смогут создавать различные виды письменных текстов, такие как эссе, деловые и личные письма, электронные сообщения. Важным достижением станет умение извлекать как детальную, так и общую информацию из аутентичных текстов и аудиоматериалов, а также находить специализированную информацию в англоязычных интернет-источниках.

Помимо конкретных языковых навыков, студенты овладеют техниками самостоятельной работы над языком и научатся эффективно использовать справочную и учебную литературу. Они приобретут опыт продуктивного взаимодействия в паре и в команде, что особенно важно для будущей профессиональной деятельности. Все эти компетенции создадут прочную основу

для дальнейшего личностного и профессионального роста через использование английского языка.

Авторы надеются, что данный учебник станет надежным помощником в освоении английского языка и послужит прочным фундаментом для дальнейшего профессионального и личностного развития студентов технических вузов.

UNIT 1.

I am an Engineering Student

Theme 1.1. MY FAMILY AND ME

LEAD-IN

Discuss the following questions with a partner:

- Who are the members of your family?
- What do you like doing together as a family?
- What makes a family strong and happy?

Write some key family-related words on the board. Can you add more?

Below are some scrambled words related to family. Work with a partner to unscramble them.

1. tbroehr → _____
2. rntpaes → _____
3. osicnu → _____
4. geaopnrtdnsra → _____
5. omylifa ninotidar → _____

Think of three more family-related words and write them down.

KEY WORDS AND WORD COMBINATIONS

cyber security specialist	[ˈsʌɪbə sɪˈkjʊərɪtɪ ˈspeʃəlɪst]	специалист по кибербезопасности
enterprise (n)	['entəpraɪz]	предприятие
first-year student (n)	[fɜ:st ˈjɪə ˈstju:dənt]	студент-первокурсник
hiking	[ˈhaɪkɪŋ]	туризм, пешая прогулка
Institute of Artificial Intelligence (n+prep+adj.+n)	['ɪnstɪtju:t ɔv ['ɑ:tɪ'fɪʃ(ə)lɪn'telɪʤ(ə)ns]	Институт искусственного интеллекта
programmer (n)	['prəugræmə]	программист
robotics engineer (n+n)	[rə(u)'bɔtɪks 'enʤɪ'nɪə]	инженер-робототехник
support (n)	[sə'pɔ:t]	поддержка, помощь, опора
system analyst (n+n)	['sɪstɪm'ænəlɪst]	системный аналитик
to follow the tradition (v+n)	[tə 'fɔləu ðə trə'dɪʃ(ə)n]	следовать традициям
to go hiking (v+n)	[tə gəu 'haɪkɪŋ]	ходить в походы
to share *(smth with smb)*	[tə ʃeə]	делиться чем-либо с кем-либо
to solve problems (v+n)	[tə sɔlv 'prɔbləmz]	разрешать проблемы
to support (v)	[tə sə'pɔ:t]	поддерживать
to take pictures (v+n)	[tə teɪk pɪkʧəz]	фотографировать
to work for a company (v+prep.+n)	[tə wɜ:k fɔ: ə 'kʌmpənɪ]	работать в компании
understanding (n)	[ˌʌndəˈstændɪŋ]	понимание

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Reading rules. Read the words paying attention to the reading rules.

Letter “A”

[eɪ]: name, table, famous, great, places;

[æ]: family, travel, character, relax;

[ɑː]: father, basketball, large, park;

[eə]: share, parents, there.

Letter “E”

[iː]: me, engineer, leading, dream, week;

[e]: let, rest, lecture;

[ɪə]: career, real, year;

[ɜ:]: her, term.

Letter “I”

[aɪ]: scientist, hiking, enterprise;

[ɪ]: family, tradition, consist;

[ɜ:] girl, bird, first;

[aɪə] fire, liar.

Letter “O”

[əʊ] no, hope, most, before;

[ɒ] not, stop, mom;

[ɔː] born, port, more, for;

[ʌ] love, company, become.

Letter “U”

[juː] introduce, student, university;

[ʌ] but, study, summer;

[ɜː] turn, burn, hurt;

[jʊə] pure, cure.

Create five sentences using at least one word from each vowel sound category.

Model: *The engineer had a great idea for a university project in Moscow***.**

Exercise 3

Read the following international words and translate them into Russian:

university, park, problems, basketball, student, character, lecture, tradition, sport, seminar, technology, cybersecurity, discipline, career.

VOCABULARY

Exercise 4

Add more words to each list and provide a general term that describes each group.

Grandmother, grandfather, mother, father, ... family;

computer programmer, system analyst, ... _____.

hiking, swimming, … _____.

Exercise 5

Make as many word combinations as possible and translate them into Russian.

1) to be	at for of	a) four people
2) to work		b) university
3) to study		c) busy
4) to consist		d) born
5) to have		e) a good time
		f) enterprise/company

GRAMMAR I

Verb to be

Study grammar rules on the use of the verb TO BE (see GRAMMAR REFERENCE p. 417)

Exercise 6

Write the correct form of the verb 'to be'.

Model:

Sergei Korolev _____ the leading Soviet rocket engineer.

Sergei Korolev was the leading Soviet rocket engineer.

1. My name _____ Ivan and I _____ born in Volgograd.
2. Yury Gagarin _____ always _____ a national hero in Russia.
3. His mother _____ a cyber security specialist.
4. Vladimir Kotelnikov _____ a Soviet and Russian scientist and radiophysicist.
5. We _____ first year students of the Russian Technological University.
6. Mikhail Kalashnikov _____ a Soviet and Russian inventor and military engineer.
7. My friend _____ a computer programmer in 5 years.

Exercise 7

a. Complete the dialogue with the correct forms of the verb 'to be'.

A: Hi! Who _____ you?

B: Hi! I _____ Lisa. And you?

A: I _____ Mark. _____ you new here?

B: Yes, I _____. This_____ my first day at the university.

A: That's great. I _____ a second-year student of the Russian Technological University MIREA. Where _____ you from?

B: I _____ from Saint Petersburg, but my family _____ in Sochi now.

A: Oh, really? _____ your parents teachers?

B: No, they _____ not. My mum _____ a systems analyst, and my dad _____ a robotics engineer.

A: That _____ cool! Welcome to MIREA!

b. Practice the dialogue with a partner.

After completing the dialogue, work with a partner to practice speaking and answering the questions using the correct verb forms. Take turns playing the roles of A and B.

Exercise 8

Transform the following sentences into questions.

	Yes/No-Questions	**Wh-Questions (What? When? Who? Why? Where?)**
1. Her name is Lisa.	Is her name Lisa?	What is her name?
2. We are first year students.		
3. Ann is a second-year student.		
4. My father is a systems analyst.		
5. Her mother was born in Tomsk.		
6. We will be cyber security specialists.		
7. My grandparents were engineers.		

Exercise 9

Translate the following sentences into Russian.

1. Our family is quite large by modern standards.
2. My mother is a systems analyst.
3. I believe that family **is** important for personal growth and development.
4. My brother is two years older than me.
5. My goal is to become a cyber security specialist.
6. My grandparents were engineers at a leading enterprise.

7. My friend Ivan will be a robotics engineer in two years.

GRAMMAR II

Verb Tenses

Study grammar rules on the use of VERB TENSES – ACTIVE VOICE (see GRAMMAR REFERENCE pp.417-419)

Exercise 10

Identify the base (infinitive) form of the following verbs:

worked, went, found, did, took, decided, studied, gave, chose, read, helped, consisted.

Exercise 11

Say that you completed these actions in the past using the following time expressions:

last night (week, year, month, Sunday) / yesterday evening / yesterday morning / when I was … / … days (years) ago

☑ ***Model:*** *I* ***go*** *for a walk.* ➔ *I* ***went*** *for a walk* ***yesterday evening****.*

1. I watch movies.
2. I study English at school.
3. I do my homework.
4. I go to the swimming pool.
5. I play football.
6. I have a lot of free time.
7. I take guitar lessons.
8. I give much time to exam preparation.

Exercise 12

Read pairs of sentences. Choose the correct one.

1.

a. Where does your brother study?

b. Where your brother study?

2.

a. Kate works hard to achieve her goals.

b. Kate work hard to achieve her goals.

3.

a. Boris and Ann enjoys travelling to new places.

b. Boris and Ann enjoy traveling to new places.

4.

a. I don't study at this university.

b. I no study at this university.

5.

a. Artem was interested in swimming when he was a teenager.

b. Artem interested was in swimming when he was a teenager.

6.

a. Did Vladimir follow your family tradition to become a doctor?

b. Did Vladimir followed your family tradition to become a doctor?

7.

a. Do you often watch basketball matches on TV?

b. You often watch basketball matches on TV?

8.

a. Will you join the dancing team this year?

b. Will join you the dancing team this year?

Exercise 13

Rewrite the sentences to express the opposite meaning.

Model: *I* ***study*** *at school.* ⮕ *I* ***don't study*** *at school.*

*He **did not know** what to give his sister for her birthday.* ➔ *He **knew** what to give his sister for her birthday.*

1. My family consists of six people.
2. My friend Ivan will work as a robotics engineer.
3. My father does not work at a big enterprise.
4. Yegor did not decide to become an engineer.
5. Danil did not choose the profession of a cyber security specialist.
6. We will study at Bauman Moscow State Technical University.

Exercise 14

Complete the sentences putting the verbs in brackets into the correct tense form.

1. My family (to consist) of four people.
2. I (to move) to this city in 2010.
3. Alex (to become) a systems analyst in two years.
4. Lena usually (to watch) movies with her family.
5. Last winter they (to go) skiing in the mountains.
6. My brother (to love) playing the guitar.
7. Danil (to work) at a tech company next year.
8. My friend (to enjoy) hiking.

Exercise 15

Transform the following sentences into questions.

Sentence	***Yes/No*-Questions**	***Wh*-Questions**
1. My mother works as a systems analyst for a leading IT company.	Does your mother work as a systems analyst for a leading IT company?	Who works as a systems analyst for a leading IT company? Where does your mother work?

2. My friend chose the profession of a cyber security specialist.		
3. He will become a cyber security specialist.		
4. I play computer games every day.		
5. Ann goes to the swimming pool at weekends.		
6. My brother worked for the leading IT company three years ago.		
7. We will go hiking next summer.		
8. My friend enjoys swimming.		

READING

Exercise 16

Read the text and find the names of the professions and adjectives describing people.

MY FAMILY AND ME

Hi, I'm Yegor Yermakov. I was born in Moscow and come from a large family of engineers, which plays an important role in shaping my interest in technology. My family consists of four people: my parents, my elder brother Danil, and me. My mother works as a systems analyst for a leading IT company, while my father is a robotics

engineer at a large enterprise. My brother, Danil, is a third-year student at Bauman Moscow State Technical University, he wants to become a cybersecurity specialist.

Growing up in such an environment inspired* me to follow the family tradition in the field of engineering. After graduating from school, I chose a career in technology. Now I am a first-year student at the Russian Technological University MIREA, studying at the Institute of Artificial Intelligence. My goal is to become a computer programmer, and I'm working hard to make this dream come true.

Though I'm quite busy with my studies and preparing for lectures and seminars, I always look forward to* relaxing on the weekends. One of my favorite things is evening dinners with my family, where we gather together to watch movies, talk, laugh, and share our experiences. We have a good time, solve our problems, support each other, and my parents always give us valuable* advice.

In summer, our family loves hiking and traveling to different places, such as national parks, where we enjoy the beauty of nature. We also adore* taking pictures of the wildlife and landscapes around us, capturing the moments that make our trips memorable.

Sports play an important role in my life as well. I personally enjoy basketball and swimming, and my brother is a swimmer too. Every Sunday, we go to the pool together. I believe that sports help build strength, character, and discipline, traits we carry into our daily activities. It also brings us closer as a family.

My family, with their constant support, is a guiding force in my life, and I am grateful for their love and understanding.

Notes:

**to inspire [ɪnˈspaɪə] - вдохновлять*

**to look forward to [lʊk ˈfɔːwəd tuː] - с нетерпением ждать*

**valuable [ˈvæljʊ(ə)b(ə)l] – ценный*

**adore [ə'dɔː]- обожать, любить*

Exercise 17

Answer the questions.

1. What does Yegor Yermakov think about his family?
2. Why did Yegor choose to study engineering, and where does he study now?
3. Are there good relations in the Yermakovs family? Why?
4. What family traditions do the Yermakovs have?
5. What sports does Yegor enjoy, and why does he find sports important?

Exercise 18

Find sentences in the text that contain the following words. Identify the parts of speech for each word and translate them into Russian: understanding, love, support, hard, busy, leading, enterprise, talk, valuable, joke, share, discipline, constant.

Exercise 19

Identify words in the text that correspond to the following definitions:

1. A place where people study after finishing school.
2. An IT professional who protects computer systems, networks, and data from cyber threats.
3. A person who attends a university.
4. Someone in their first year of university studies.
5. Lessons or classes held at a university.
6. A person who is skilled at analyzing data.
7. Showing or expressing thanks to someone.

Exercise 20

Fill in the blanks with the correct preposition:

(in (2), of, at, for (3), on, with, to)

1. Yegor Ermakov was born _____ Moscow.
2. Our family consists _____ four people.
3. He is quite busy _____ his studies and preparing _____ lectures and seminars but he always looks forward _____ relaxing _____ the weekends.

4. My mother works as a systems analyst _____ a leading IT company.
5. His father works _____ a big enterprise.
6. I chose a career _____ technology.
7. _____ Sundays, we go to the pool together.
8. I followed my family tradition and chose a profession _____ a computer programmer.

Exercise 21

A. Complete the sentences about Yegor Yermakov:

1. Yegor Yermakov is a _____.
2. He studies at _____.
3. His dream is to become a _____.
4. Yermakov's family is _____, always full of love, understanding, and support.
5. His parents are _____.
6. His brother _____ at Bauman Moscow State Technical University.
7. Yegor plays _____.
8. Yegor enjoys _____.
9. In summer, his family goes _____.
10. He is grateful _____.

B. Now it's your turn.Write sentences about yourself and your family.

1. I am a _____.
2. I study at _____, where I learn _____.
3. My dream is to become a _____because _____.
4. My family is _____ and means a lot to me.
5. I love playing _____ or spending time _____.
6. I enjoy _____ during my free time.
7. In summer, my family and I usually go _____.
8. I am happy because _____.

WATCHING AND LISTENING

Exercise 22

You are going to watch a video "Talking about your family" at

https://vkvideo.ru/video-231870953_456239018

a. BEFORE YOU WATCH. Answer the the following questions:

1. How many people are there in your family? Who are they?
2. What do your family members do?
3. What do you enjoy doing together as a family?
4. How would you describe your relationship with your family members?
5. What is one thing you love most about your family?

b. WHILE YOU WATCH.

Watch Parts 1—5 of the video lesson and try to guess the meanings of "immediate family" and "extended family." Then, fill in the blanks to complete the sentences about your family.

1. There are _____ people in my family.
2. I have a _____ sister (brother).
3. My immediate family consists of _____.
4. _____ my extended family.
5. We _____ together.

c. Listen to Part 6 of the lesson and make notes which will help you to speak about your family.

d. AFTER YOU WATCH. Speak about your family traditions and the role of the family in your life using the plan of the lesson.

e. Work in pairs. Write down the questions asked by the speaker and come up with possible answers. Take turns asking and answering these questions with your partner.

1. What is your favorite family tradition?
2. Who is the oldest member of your family?
3. How do you usually spend time with your family?

4. What is your favorite memory with your family?
5. What makes your family special or unique?

SPEAKING

Exercise 23

a. Study the table below to express your opinions.

Introductory Phrases	Formulas of Agreement	Formulas of Disagreement
As far as I know … Насколько я знаю, …	I agree with you. Я согласен с вами.	You are wrong. Вы ошибаетесь.
I suppose … Я полагаю …	Yes, you are right. Вы правы.	I don't think so. Я так не думаю. Думаю, что нет.
As far as I remember … Насколько я помню, …	Quite so. Совершенно верно. Вот именно.	You are mistaken. Вы ошибаетесь.
I think … Я думаю (считаю, полагаю), …	I am of the same opinion. Я того же мнения.	Nothing of the kind. Ничего подобного.
The way I see it … На мой взгляд, …	That's true / correct. Вы правы / верно.	Far from it. Сильно ошибаетесь. Отнюдь нет.

b. Work in pairs or small groups.

Discuss the statements below using the phrases from the table to express agreement or disagreement.

Each student must give their opinion and respond to their partner's opinion using appropriate phrases. Have fun while practicing speaking.

Statements for Discussion:

1. Family is the most precious thing in life.
2. Children should always follow their parents' advice.
3. Spending time with family is more important than spending time with friends.
4. In the modern world, family traditions are no longer important.
5. Parents should allow children to make their own decisions from an early age.
6. Having a big family is better than having a small one.
7. Grandparents play a more important role in a child's life than teachers.
8. Technology has made family communication weaker.

***Model**:*

Student A: *As far as I know, family is the most precious thing because they always support and understand us.*

Student B: *I agree with you. Family gives us love and helps us in difficult times.*

Student A: *I think spending time with friends is as important as spending time with family.*

Student B: *I don't think so! Family relationships last forever, but friends can change over time.*

WRITING

Write an email to a foreign pen pal* about your family and your life.

Scenario:

You recently joined an international student exchange program, and you've been paired with a pen pal from another country. They are curious to learn more about your family and your studies. Write a friendly and engaging email to introduce yourself.

Email Guidelines:

Greeting: Start with a warm greeting (e.g., "Hi Alex," or "Dear Alex,").
Introduction: Briefly introduce yourself and mention that you're excited to connect.
About Your Family: Share some details about your family members, their jobs, and your relationship with them. Do you have any brothers or sisters? Do your parents influence your career choice?

Your Life as an Engineering Student: Describe your studies—what field of engineering are you in? What do you enjoy about it? What are the challenges?
Daily Life & Interests: Mention your hobbies and how you balance studies with family time.
Ask a Question: Encourage your pen pal* to reply by asking about their family or studies.
Closing: End with a friendly goodbye (e.g., "Looking forward to your reply." or "Talk soon.").

Notes:

**pen pal [pen pæl] - друг по переписке*

Email Sample

Subject: Nice to Meet You.
Hi Alex,
I hope you're doing well. My name is Yegor Yermakov, and I'm excited to be your pen pal. I'm a first-year engineering student at the Russian Technological University MIREA, studying Artificial Intelligence.
I come from a family of four — my parents, my brother Danil, and me. My dad is a robotics engineer, my mum is a systems analyst, and my brother is studying cybersecurity. I guess engineering runs in the family!
In my free time, I enjoy basketball, swimming, and spending time with my family. We love traveling, hiking, and taking photos of nature.
What about you? What's your family like? Looking forward to hearing from you!
Best,
Yegor

Theme 1.2. HOBBIES AND INTERESTS

LEAD-IN

Would You Rather?

Work with a partner or in a small group. Take turns answering the questions below. Then ask follow-up questions like "Why?" or "Have you tried it before?"

1. Would you rather go hiking in the mountains or relax on the beach?
2. Would you rather learn to play the guitar or take a dance class?
3. Would you rather join a photography club or a book club?
4. Would you rather do something creative like painting or something active like rock climbing?
5. Would you rather spend the weekend paying games or cooking new recipes?

Challenge: Can you think of your own "Would you rather...?" question about hobbies? Ask your partner.

Discuss:

- What do these activities have in common?
- What's the difference between a free-time activity and a hobby?

KEY WORDS AND WORD COMBINATIONS

benefits (n)	['benɪfɪts]	преимущества
entertainment (n)	[entəˈteɪnmənt]	развлечение
fascinating (adj)	[ˈfæsɪneɪtɪŋ]	увлекательный, чрезвычайно интересный
hobby (n)	['hɔbɪ]	хобби, любимое занятие
inner world (adj+n)	[ˈɪnə wɜːld]	внутренний мир
occupation (n)	[ɒkjʊˈpeɪʃn]	профессия, род занятий
pastime (n)	[ˈpɑːstaɪm]	приятное времяпрепровождение
rare (adj)	[reə]	редкий
rewarding (adj)	[rɪ'wɔːdɪŋ]	приносящий внутреннее удовлетворение, дающий результат
sense of purpose (n+prep+n)	[sens ɒv ˈpɜːpəs]	целеустремлённость
skills (n)	[skɪlz]	навыки, умения
to be in high spirits (v+ adj+n)	[tu: biː ɪn haɪ ˈspɪrɪts]	быть в хорошем/ прподнятом настроении
to bring happiness (v+n) в тексте joy	[tu: brɪŋ ˈhæpɪnɪs]	приносить счастье
to collect (v)	[tə kəˈlekt]	собирать
to enrich (v)	[tə ɪn'rɪʧ]	обогащать
to have a passion for (v+n+prep)	[tə hæv ə pæʃn]	увлекаться чём-либо
to improve (v)	[tə ɪmˈpruːv]	улучшать
to look forward to smth (v)	[tə lʊk ˈfɔːwəd tə]	ждать с нетерпением чего-то

to master (v)	[tə 'mɑ: stə]	овладевать, совершенствовать
to prefer (v)	[tə prɪˈfɜː]	предпочитать
to stay focused on (v+part.+ prep)	[tə steɪ ˈfəʊkəst ɒn]	сконцентрироваться на чём-то

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

a. Choose the words with the stress on the first syllable:

satisfaction, to collect, reset, inner, to prefer, fascinating, entertainment, to improve

b. Look at the remaining words with the stress on the second syllable. What part of speech are they all?

VOCABULARY

Exercise 3

a. Word building. Form nouns from the given verbs.

Verb	**Noun (suffix *-tion*)**
to motivate	motivation
to occupy	
to collect	
to satisfy	
to communicate	
to solve	

b. Complete the sentences with a noun formed from the verbs in (a).

1. Long-term _____ comes from believing your work matters.
2. Good _____ helps solve problems in relationships.
3. My _____ is engineering, but my passion lies in innovation.
4. Developing new technologies brings great _____ when they actually help people's lives.
5. I once had a _____ of vintage rockets, but now I focus on building real ones.
6. After thinking for hours, they found the best _____ to the problem.

c. Form nouns from the verbs using *-ing* and translate them into Russian.

Verb	**Noun + (*-ing*)**
1) to write	writing
2) to learn	
3) to walk	
4) to collect	
5) to dive	
6) to work	

Exercise 4

Match the synonyms.

1) pastime	a) work
2) purpose	b) advantages
3) occupation	c) hobby
4) benefits	d) happiness
5) well-being	e) goal

Exercise 5

Match the antonyms.

1) important	a) busy

2) free	b) outer
3) inner	c) widespread
4) challenging	d) old
5) fascinating	e) unimportant
6) rare	f) boring
7) new	g) easy

Exercise 6

a. Make up all possible word combinations.

Match the verbs on the left with the nouns or phrases on the right to form meaningful expressions. More than one answer may be possible.

1) to have	a) burnout
2) to prevent	b) happiness
3) to improve	c) a passion for
4) to bring	d) time
5) to spend	e) skills
6) to master	f) joy
	g) satisfaction

b. Complete the sentences using the correct word combinations from (a). Choose the best option for each sentence.

1. It's important _____ by taking regular breaks and doing things you enjoy.
2. Many people take up hobbies _____ outside of work.
3. Creative hobbies like painting or writing can _____ and help reduce stress.
4. If you want to get better at your hobby, you need _____ through regular practice.
5. Hobbies often help people _____ and feel more confident.
6. Some people _____ photography and love learning new techniques.
7. Volunteering in your free time can _____ and make you feel useful.

8. I try _____ outdoors every weekend to relax and refresh my mind.

c. Choose two sentences and rewrite them using your own hobby as an example.

Exercise 7

a. Match the word combinations with their Russian equivalents.

1) to enrich the inner world	a) сосредоточиться на целях
2) to have a passion for	b) коллекционировать редкие (необычные) вещи
3) to become a harmoniously developed person	c) увлекаться чем либо
4) to stay focused on goals	d) доставлять радость
5) to collect rare items	e) обогатить внутренний мир
6) to bring joy	f) стать гармонично развитой личностью

b. Make your own sentences with the word combinations from (a).

GRAMMAR REVISION

Study grammar rules on the use of the verb VERB TENSES – ACTIVE VOICE and the verb TO HAVE (see GRAMMAR REFERENCE pp.417-419)

Exercise 8

Open the brackets using the correct form of the verb "to have". Translate the sentences.

1. On weekdays I _____ (don't / doesn't) have much free time.
2. _____ (Do/Does) the Institute of Artificial Intelligence _____ (have/has) a robotics lab?
3. Our system analyst _____ (don't/doesn't) have enough data,
4. First-year students _____ (have/has) exams in Python and C++ this semester.

5. _____ (Do/Does) your enterprise _____ (have/has) cybersecurity training for employees?

6. We _____ (have/has) a tight deadline, so we _____ (don't/doesn't) have time for breaks.

Exercise 9

Write questions for the answers.

1.Question: _____?

Answer: My boss has three assistants.

2.Question: _____?

Answer: They don't have any vacancies at the moment.

3.Question: _____?

Answer: This app has over 10 million users.

4.Question: _____?

Answer: She doesn't have practical experience in teaching programming languages.

5.Question: _____?

Answer: The hotel has a swimming pool but doesn't have a gym.

6.Question: _____?

Answer: Our University has a cyber zone.

b. Work in pairs. Ask your groupmates questions using the verb "to have".

GRAMMAR I

Verb Patterns (Verb + -ing)

Talking about hobbies

Study grammar rules on the use of the "VERB + -*ING* form" (see GRAMMAR REFERENCE p.416)

We often use the -ing form after certain verbs and phrases to talk about our likes, dislikes, and interests.

There are two common patterns:

1. Verb + -ing

Verbs: enjoy, love, like, dislike, hate, can't stand, don't mind

Examples:

I enjoy playing computer games.

*She can't stand waiting in long queues***.**

2. Verb + Preposition + -ing

Phrases: be interested in, be keen on, be crazy about, be fond of

Examples:

He is interested in learning about AI.

They are crazy about watching football.

Exercise 10.

What's Your Vibe? Look at the list of activities. Choose 3 you enjoy, 2 you dislike, and 1 you're not sure about. Then, share your ideas using *verb + -ing*.

Activities: going to theatres; playing online games; visiting other countries; creating videos or blogs; learning new skills; designing cool websites or apps; reading about new technologies; having picnics; watching documentaries; doing extreme sports.

Model:

I'm crazy about visiting other countries — I love learning about new cultures.

I don't mind reading, but I need to be in the mood.

I am interested in designing cool apps.

Exercise 11.

a. Work in pairs or small groups. Take turns reading the statements below. The others must agree or disagree using phrases like:

Totally agree! / I see your point, but... / I'm not sure. / I disagree, because …

1. I avoid watching horror movies.
2. I can't stand waking up early.
3. I love working with computers.
4. I enjoy learning languages.
5. I don't mind staying late to finish a project.

6. I’m interested in artificial intelligence.
7. I dislike doing paperwork.

b. How do you feel about these hobbies? Use verb + -ing phrases to express your opinion.

Hobbies: learning languages; watching movies; creating videos or blogs; listening to music; collecting rare items; programming; designing websites or apps; walking in the rain; making memes; snowboarding; Lego building.

Model:

I enjoy making memes — they’re a fun way to express creativity.

I can’t stand walking in the rain. It always ruins my mood.

c. Pair up with a partner. Make a list of your likes and dislikes. Then compare lists and find:

One hobby you both love;

One you both dislike;

One that only one of you enjoys.

Share your findings with the class. When you share, you can say:

*"We both love **hiking**."*

*"We both dislike **doing** paperwork."*

*"Maria is interested in **collecting** stamps, but I'm not."*

READING

Exercise 12

a.You are going to read an interview with Elon Musk about his hobbies. Match these words from the interview with their meanings:

1. hobby	a) a funny internet picture or video
2. meme	b) to rest and not feel stressed

3. relax	c) a story about future technology, space, or scientific ideas
4. sci-fi	d) a fast-paced video game where a player fights, jumps, or shoots in real-time
5. action game	e) an activity you enjoy in your free time

b. Answer the questions.

1. What hobbies do you know?
2. Do you think busy people like Elon Musk have time for hobbies? Why?
3. Look at the title. What 3 hobbies do you think Elon Musk might have?

Exercise 13

Read quickly and check: Which hobbies from your prediction are mentioned?

INTERVIEW WITH ELON MUSK: THE IMPORTANCE OF HOBBIES AND INTERESTS

Interviewer: Elon, thank you for your time. You're very busy. Do you have time for hobbies?

Elon: Contrary to popular belief, having a hobby is an important part of life. Even with everything going on, I need ways to relax, have fun, and learn to master and improve skills outside of work. Paradoxically, stepping away helps you stay focused on goals when you return — like a mental reset.

Interviewer: Elon, you work on space travel. What hobbies do you have?

Elon: Well, some people like collecting things — I went through a phase of collecting rare sci-fi books and vintage rocket models. Now, I prefer entertainment that challenges limits. I'm particularly fond of extreme sports — like cave diving in Thailand.

Interviewer: That was... controversial. Any less life-threatening hobbies?

Elon: There are many fascinating hobbies to choose from. I enjoy playing games — especially challenging action games like *Elden Ring,* where you spend time honing strategies. I also have a passion for learning about ancient civilizations and their technologies. And of course, memes.

Interviewer: Memes? Seriously?

Elon: Absolutely. A hobby helps us become harmoniously developed people. Memes enrich our inner world while providing efficient communication. They're the modern equivalent of cave paintings.

Interviewer: That might be the best Elon Musk answer ever. How do hobbies help someone as driven as you?

Elon: Hobbies give my brain a rest and help me recharge. When you work too hard on big goals, hobbies help you relax. They make you see things differently, and this actually improves your focus later. Sometimes you solve problems when you're not even thinking about them.

Interviewer: Like how? Can you share an example?"

Elon: One great thing about having a hobby is that it can provide a sense of purpose beyond your main work. Even strange hobbies — like studying memes — can teach you useful things. And losing repeatedly in the *Elden Ring* teaches you not to give up.

Interviewer: Would you recommend everyone take up hobbies?

Elon: I believe hobbies are essential for our well-being. They bring joy and satisfaction into our lives while preventing burnout — the psychological benefits are empirically proven.

Interviewer: That's ... one approach. Any final thoughts?

Elon: The universe is 13.8 billion years old. Enjoy life before everything ends. So why not take up a hobby that makes you happy?

Exercise 14

a.Answer the questions based on the interview.

1. Why does Elon Musk believe having hobbies is important, even for busy people?

2. What are some of Elon Musk's current or past hobbies? Name at least three.
3. How does Elon describe the benefit of stepping away from work?
4. What kind of video games does Elon enjoy, and why?
5. What unusual explanation does Elon give for why memes are valuable?
6. How do hobbies help Elon solve problems?
7. What example does Elon give of a lesson he learned from gaming?
8. According to Elon, what psychological benefits do hobbies provide?

b. **Discuss with a partner**

1. Do you agree with Elon that stepping away from work helps you focus better later? Why or why not?
2. Do you think unusual hobbies are more interesting or useful?
3. If you could ask Elon one question about his hobbies, what would it be?

WATCHING AND LISTENING

Exercise 15

You are going to watch a short dialogue between two students about their hobbies at https://vkvideo.ru/video-231870953_456239019

a. BEFORE YOU WATCH: Work in pairs or small groups. Discuss the questions below:

1. Do you have any interesting or unusual hobbies?
2. What kind of hobbies make you feel relaxed or excited?
3. Are hobbies different from free-time activities? Why or why not?
4. Why do you think people enjoy collecting things?
5. If you could start a new hobby today, what would it be?

b. WHILE YOU WATCH:

Listen for the main ideas.

What are the two main hobbies the speaker talks about?

1._____

2._____

Listen for more detail. Complete the summary using the words in the box. You can listen twice if needed.

to go to those countries / to read / hobbies / science / to collect things / pastime / to have a stamp (stamps) / all over the world / especially like

Summary:

I have several _____. I do like _____. I like _____.

I collect _____ from _____ because I hope _____ from every country.

I think I won't be able _____ myself.

I like _____ a lot. I like to read about _____.

I _____ to read about nature and electronics. I think this _____ exercises my brain.

c. AFTER YOU WATCH:

Make a Dialogue:

Work in pairs. Create a short dialogue (6–8 lines) where two students talk about their hobbies. Use expressions from the video, such as:

- *I especially like…*
- *It's my favorite pastime.*
- *I collect…*
- *I won't be able to stop myself.*
- *It really exercises my brain.*

GRAMMAR II

Continuous Tenses

Exercise 16

Talking about What's Happening (Now, Then, and Soon).

a. WHILE YOU WATCH. You'll watch a video: Street Talk with Emi K at https://vkvideo.ru/video-231870953_456239020

Look at these sentences from the video. Can you guess the missing words? Now, watch the video and check your answers. Fill in the blanks. Underline the verbs in the -ing form.

Today's question is, what (1) _____ you (2) _____ these days?

I (3) _____ a lot of things these days.

I (4) _____ to drive.

I (5) _____ tennis lessons.

I'm also (6) _____ a good book.

I (7) _____ French.

I (8) _____ English here for a month.

I (9) _____ in a lot of great restaurants.

I (10) _____ a lot of shopping, too.

I (11) _____ ready for a trip to Brazil.

b. NOTICE THE GRAMMAR. Work with a partner. Look at the sentences you just completed. Not all actions are happening at this exact moment. Categorize them:

A. Happening these days / around now: _____

B. A future plan: _____

C. A temporary situation: _____

c. MATCH THE RULE. Now, match each sentence from the video to its correct usage of the Present Continuous tense. Choose the correct rule letter (a–f).

Sentences:

1. She is doing her homework while I am drinking coffee.
2. We are moving into a new house.
3. He is staying in Kazan for three months.
4. Your English is getting better.
5. Next week we are buying a new car.
6. You are always interrupting me!

Rules:

a. A change that has started to happen

b. A temporary situation

c. The action takes place now but is not limited to the moment

d. Emotionally coloured speech (annoyance/displeasure)

e. The action is happening right now

f. A planned future event

Example: *Sentence 6 → d* (annoyance)

c. FILL IN THE RULES. Complete the patterns below. Then check your answers in your GRAMMAR REFERENCE p.420-421.

Past Continuous

Affirmative: I/She/He _____ French.

Negative: I _____ not _____ French.

Question: _____ you _____ French?

Future Continuous

Affirmative: I/We/They/You _____ be _____ English.

Negative: I/She/They _____ not be _____ English.

Question: Will they be _____ English?

Exercise 17

Make sentences in all 3 tenses using the word prompts below.

Model: to drive / they / to Moscow

→ ***Present:*** **They are driving to Moscow.**

→ ***Past:*** **They were driving to Moscow at 5 pm yesterday.**

→ ***Future:*** **They will be driving to Moscow this time tomorrow.**

Your turn:

to play / they / video games / all evening

she / not / to listen / to music

to travel / to Thailand / they

memes / my brother / to watch

to read / sci-fi books / my friend

b. Complete the sentences. Put the verbs in brackets into the correct Present, Past, or Future Progressive tense.

1. Please don't make so much noise. I _____ (to try) to write an article about vintage rocket models.
2. The first-year students _____ (not to have) a lecture next week — they're preparing for a conference instead.
3. Andrew recently started evening classes. He _____ (to learn) Japanese and practicing calligraphy.
4. We _____ (to play) computer games all evening yesterday.
5. My family and I _____ (to chat) on the phone tomorrow about planning our summer trip.
6. It _____ (to rain) all day yesterday, so I stayed in and watched documentaries about ancient civilizations.
7. While Alan _____ (to work) in his room, his friends _____ (to swim) in the pool.
8. I tried to tell them the truth, but they _____ (not to listen) — they were too busy building LEGO rockets.

c. Use the sentences from part (b) to create Yes/No and Wh- questions.

Example:

Sentence: *He is learning Japanese.*

→ *Is he learning Japanese?*

→ *What language is he learning?*

Exercise 18

Answer these questions using Continuous Tenses.

1. Are you having an English class right now?

2. What are you working on in your studies these days?
3. Are you learning any new hobbies or skills, like a game or a language?
4. What are you reading now? Is it something fun or interesting like sci-fi or history?
5. What will you be doing this weekend to relax or have fun?
6. What were you doing at this time yesterday? Were you playing games or studying?
7. What will you be doing next year to improve yourself or enjoy life more?
8. Is the weather changing where you live?

SPEAKING

Exercise 19

Interview a Hobby Star.

Work in pairs. One of you is a reporter, and the other is a famous person with an interesting hobby (e.g. underwater photographer, volcano climber, ancient language decoder, kite builder, etc.).

The reporter asks questions using Continuous Tenses:

What hobbies are you doing these days?

Were you doing that hobby when you were younger?

What will you be doing next year related to your hobby?

After a few minutes, switch roles.

Try to ask follow-up questions and keep the conversation going.

WRITING

Exercise 20

Future Hobby Blog Post

Imagine it is 5 years in the future. Write a short blog post (about 100–120 words) about your future hobbies. Describe what you will be doing, where you'll be living, and how your interests will have changed.

Use Future Continuous tense to describe your activities:

Model: *"In 2030, I'll be living near the mountains and paragliding every weekend."*

You can be creative – even imagine a new hobby you haven't tried yet.

Theme 1.3. A STORY OF A BRILLIANT MIND

LEAD-IN

Imagine you lived in a time before phones, the Internet, or even radios.

How do you think people shared important news or sent messages across long distances?

- First, think on your own.
- Then, discuss your ideas with a partner.
- Finally, share your thoughts with the class.

Follow-up: What kind of person might come up with a way to send messages through the air? What skills or qualities would they need?

KEY WORDS AND WORD COMBINATIONS

acquired skills	[əˈkwaɪəd skɪlz]	приобретённые навыки
advanced equipment	[ədˈvɑːnst ɪˈkwɪpmənt]	передовое оборудование
brilliant scientist	[ˈbrɪljənt ˈsaɪəntɪst]	выдающийся учёный
cheerful	[ˈtʃɪəfəl]	весёлый
confidence	[ˈkɒnfɪdəns]	уверенность
dedication	[ˌdedɪˈkeɪʃən]	преданность делу

determined	[dɪˈtɜːmɪnd]	целеустремлённый
hardworking	[ˈhɑːdˌwɜːkɪŋ]	трудолюбивый
highest scores	[ˈhaɪɪst skɔːz]	высшие оценки
(to) make ends meet	[meɪk endz miːt]	сводить концы с концами
modest	[ˈmɒdɪst]	скромный
natural curiosity	[ˈnætʃrəl ˌkjʊəriˈɒsɪti]	природное любопытство
(to) pass away	[pɑːs əˈweɪ]	скончаться
PhD	[ˌpiː eɪtʃˈdiː]	кандидат наук
radio receiver	[ˈreɪdiəʊ rɪˈsiːvə]	радиоприёмник
to refine	[tə rɪˈfaɪn]	усовершенствовать
secondary education	[ˈsekəndəri ˌedjʊˈkeɪʃən]	среднее образование
shy and timid	[ʃaɪ ənd ˈtɪmɪd]	застенчивый и робкий
stringent requirements	[ˈstrɪndʒənt rɪˈkwaɪəmənts]	строгие требования
tirelessly	[ˈtaɪələsli]	неустанно
transmitting and receiving information	[trænzˈmɪtɪŋ ənd rɪˈsiːvɪŋ ˌɪnfəˈmeɪʃən]	передача и приём информации
wireless	[ˈwaɪəlɪs]	беспроводной
wit	[wɪt]	ум

PRONUNCIATION PRACTICE

Exercise 1

Practice reading key words and word combinations.

Exercise 2

a. Read international words. Pay special attention to pronunciation, stress, and intonation:

university, physics, mathematics, innovation, dissertation, technology, communication, presentation.

b. Read the words below and underline the stressed syllable in each word. Then group them under the correct heading:

Stress on the first syllable	Stress on the second syllable	Stress on the third syllable

modest, achieve, dissertation, radio, impressive, innovation, presented, scientist, develop, electromagnetic, research, education, confident.

VOCABULARY I

Exercise 3

Match the word combinations with their Russian equivalents:

1) to make ends meet	a) передавать информацию
2) acquired skills	b) строгие требования
3) stringent requirements	c) сводить концы с концами
4) highest scores	d) скончаться
5) to transmit information	e) яркий пример
6) vivid example	f) приобретённые навыки
7) to pass away	g) наивысшие баллы

Exercise 4

Match the verbs in column A with the correct words or phrases in column B to make word combinations. Then, translate them into Russian.

A	B
1) to defend	a) building things

2) to achieve	b) a student
3) to become	c) in public
4) to enjoy	d) with high scores
5) to graduate	e) a dissertation
6) to present	f) impressive results
7) to speak	g) an invention

b. Complete the sentences using the correct word combinations from part (a) in the correct tense (Present, Past, or Future):

1. After years of preparation, he finally _____ at Saint Petersburg State University.
2. The young scientist _____ at tomorrow's conference — it's her first time showing her work.
3. She was nervous but successfully _____ her _____, which she had been writing for five years.
4. All children _____ that let them play and learn at the same time.
5. Study regularly and stay focused, and you _____ from Higher School of Economics (HSE) by the end of the year.
6. Every year, the best students _____ and receive awards.
7. Despite her fear of crowds, Maria now _____ confidently _____ at academic events.

Exercise 5

Personality Adjectives.

Match each adjective with its correct definition.

Adjectives	Definitions
1) modest	a) very smart, quick to understand
2) intelligent	b) not showing off
3) hardworking	c) always happy and smiling
4) cheerful	d) putting in a lot of effort
5) determined	e) extremely clever or talented
6) brilliant	f) not giving up easily
7) shy	g) nervous around people

Adjectives from the text are given below. Write opposites in the space provided. Use the words from the box or think of your own.

lazy / confident / boastful / pessimistic / unimaginative / indifferent / indecisive

1. Modest → _____
2. Hardworking → _____
3. Cheerful → _____
4. Innovative → _____
5. Curious → _____
6. Determined → _____
7. Timid → _____

Exercise 6

a. Complete each sentence with the correct adjective from the box:

brilliant / modest / determined / timid / innovative / hardworking / cheerful / curious

1. Elon Musk is a(n) _____ businessman who created Tesla and SpaceX. He's not afraid to try completely new ideas.
2. Alexander Popov was a _____ scientist who invented radio technology, but he never boasted about his achievements.
3. Yuri Gagarin, the first man in space, always had a _____ smile that made people like him immediately.
4. Marie Curie was extremely _____ - she spent years studying radioactivity without giving up.
5. Albert Einstein wasn't just smart; he was truly _____ - his theories changed physics forever.
6. Though Thomas Edison was _____, working long hours on thousands of experiments, he also knew how to learn from failures.
7. Bill Gates was _____ about computers from childhood, always asking how they worked.
8. Unlike many famous people, the inventor Nikola Tesla was quite _____ and preferred working alone.

b. Study the *Model*:

*I admire my maths teacher, Mrs. Ivanova. She is **brilliant** because she explains difficult concepts in a simple way. Even though she is very knowledgeable, she remains **modest** and never boasts about her achievements. What I like most is that she is always **cheerful**, making every lesson interesting and fun. Her **innovative** teaching methods help us understand science better.*

c. Now write 3–5 sentences about someone *you* admire (a scientist, teacher, celebrity, or family member). Use at least three adjectives from the list:
brilliant / modest / determined / timid / innovative / hardworking / cheerful / curious
Example starters:

- "I admire my grandfather because he is..."

- "Albert Einstein was..."
- "My favorite singer is..."

WATCHING AND LISTENING I

Exercise 7

Watch a video on how people describe their personalities at

https://vkvideo.ru/video-231870953_456239022 .

a. BEFORE YOU WATCH. Answer the questions.

Is it easy to characterize yourself?

Is there any difference in how other people see us and how we see ourselves?

b. WHILE YOU WATCH. Listen to how three speakers characterize themselves. Fill in the gaps using the words from the video.

Catherine

(1) _____, I guess, some people would describe me as. I'm very (2) _____. I will basically talk to anybody about anything, if they ask me.

It takes me a little while to get comfortable in new surroundings. But then once I'm comfortable, I kind of (4) _____ and I'm OK.

They see me a little more (5) _____ than I feel inside. But overall, no, I think they see me as a very (6) _____, trustworthy person.

Angelique

I'm generally a happy person. I try to stay (7) _____ and not let that much get me down, and I'm very (8) _____. Just walking down the street you meet new people and friends, and things like that. So, yeah, pretty (9) _____ in general.

I probably see myself a little bit (10) _____ than other people see me.

Sam

I am very outgoing. I'm . . . fun. I'm very (11) _____. And . . . gosh . . . I'm . . . sometimes I can be (12) _____.

I think I have a lot of qualities that an outgoing person would have, but I also have qualities that maybe a (13) _____ person would have, so it kind of balances me

out. Sometimes it depends on the environment; sometimes I'm off the wall, other times I'm a little more (14) _____.

c. AFTER YOU WATCH – Talk About Yourself.

Describe your own personality in 2–3 sentences. Use some of the words from the video (e.g., outgoing, shy, positive, reserved, confident, fun).

Example:

"I'm quite a positive person. I'm outgoing when I'm with friends, but sometimes shy around new people."

WATCHING AND LISTENING II

Exercise 8

Slang Showdown: Decoding Personality Talk.

a. BEFORE YOU WATCH. Vote for the slang type you encounter most.

Internet slang

Colloquial phrases

I prefer formal language

Discuss:

Which slang word best describes *your* personality? Why?

b. WHILE YOU WATCH. Watch the video at https://vkvideo.ru/video-231870953_456239023 and:

1. **Define the words (**klutz, homebody, arrogant**).**
2. **In pairs, improvise a short scene using one word (e.g., a "klutz" dropping things).**

c. **AFTER YOU WATCH. Write down 2 slang personality traits you learned/heard before. Take turns acting them out *without speaking*—others guess.**

GRAMMAR REVISION

Simple and Continuous Tenses

Exercise 9

Choose the correct verb form (Simple or Continuous) in *italics*.

1. My relatives *live/are living* in a quiet village near the mountains.
2. Elon Musk *works/is working* on new space technology right now.
3. My friend often develops*/is developing* new apps.
4. Right now, my sister *reads/is reading* an article about electric cars.
5. We *have/are having* dinner with my grandparents every Sunday.
6. Elon Musk *launches/is launching* a new project next month.
7. My best friend *enjoys/is enjoying* playing chess after school.

Exercise 10

Put the verbs in brackets into the correct tense (Present/Past/Future Simple or Continuous).

1. Elon Musk (to work) _____ on a Mars mission right now.
2. My parents (not to watch) _____TV every evening.
3. I (to write) _____ a message when the phone rang.
4. My cousin (not to play) _____ video games at the moment.
5. What _____ your sister (to do) _____ every Saturday?
6. Elon Musk (to create) _____ a new type of battery in 2020.
7. My friend (to help) _____ me with maths tomorrow.
8. _____ you (to go) _____ to the country next week?

Exercise 11

Translate the sentences from Russian into English.

1. Чтобы видеть четко, я ношу очки.
2. Птицы не щебечут на деревьях.
3. Они пьют кофе по утрам?
4. Прямо сейчас она читает интересную книгу.

5. Автобус прибывает в 8 часов?
6. Иван работает над новым проектом?
7. Сегодня магазин не закрывается рано.
8. Каждую субботу Антон играет в волейбол.
9. В этом месяце мои родители проживают в Турции.
10. Ей нравится плавать в океане?

VOCABULARY II

Exercise 12

Write the numbers in digits (for words) or words (for digits).

Practice reading them aloud with a partner.

Words → Digits	**Digits → Words**
seven → 7	42 → _____
fifteen → _____	108 → _____
ninety-three → _____	720 → _____
two hundred → _____	1,500 → _____
four thousand → _____	3,002 → _____
eleven thousand → _____	15,000 → _____
six hundred thousand → _____	200,100 → _____
three million → _____	1,000,000 →_____

Exercise 13

Number Dictation.

- **Write down 10 numbers (mix of simple and challenging).**
- **In pairs, take turns dictating your numbers to your partner.**
- **Check how many your partner wrote correctly.**

Model:

Student A: "Seven hundred twenty-one... three thousand four..."

Student B writes: 721, 3004...

Exercise 14

Read and guess. What historical events happened on these dates?

A. November 2, 1721

B. June 27, 1954

C. April 12, 1961

D. May 9, 1945

E. December 25, 1993

F. June 6, 1944

b. Make your own list of dates. Let your groupmates guess what happened on them.

Exercise 15

Some numbers and dates in the sentences are false. Correct them.

1. Alexander Popov invented the radio in 1935.
2. Spiders have 8 legs.
3. They opened The Crimean Bridge for motor vehicles on 16 May 2018.
4. There are two suns in the Solar System.
5. Yuri Dolgoruky founded Moscow in 1147.
6. Dmitry Mendeleev presented the first variant of his Periodic Table on 27 March 1869.
7. Octopuses have 2 hearts.

Exercise 16

Study the use of prepositions of time: AT / ON / IN.

Use "at" for:

Exact **times**: at **10:11**, at **midnight**, at **lunchtime**

Special **holiday times**: at **Christmas**, at **Thanksgiving**

Other specific moments: at **night**, at **the weekend**, at **the beginning**, at **the moment**

Use "on" for:

Days: on **Tuesday**, on **Sunday**

Parts of specific days: on **Friday morning**

Dates: on **14 July**, on **9 May**

Special days: on **Victory Day**, on **New Year's Day**

Use "in" for:

Months: in January, in October

Years: in 2022, in 1945

Seasons: in the winter, in the summer

Parts of the day: in the morning, in the evening

b. Write at/on/in.

1. Victory Day is celebrated __ 9 May.
2. We watched a documentary about space __ the evening.
3. Yuri Gagarin flew to space __ 12 April 1961.
4. The bridge was opened __ May 2018.
5. German forces attacked the USSR __ 22 June 1941.
6. I like to drink coffee __ the morning to help me wake up.
7. The lesson starts __ 9 o’clock.

READING

Exercise 17

a. Read the statements below. Decide if you think they are TRUE or FALSE before reading the text. Then check your answers while reading.

1. Alexander Popov was born into a wealthy and noble family.
2. He made scientific equipment with his own hands.
3. Popov invented the radio after seeing a similar invention in the USA.
4. He loved speaking at public events and was very confident.
5. He was passionate about science and spent most of his time in a lab.
6. He demonstrated his invention on May 7, 1895.
7. Popov became world-famous during his lifetime.

b. Read the text, check your answers and correct any false ones.

ALEXANDER STEPANOVICH POPOV, THE INVENTOR OF RADIO

Alexander Stepanovich Popov was born on March 16, 1859, in the village of Turinsky Mines, located in the Northern Urals of Russia. He grew up in a large family that highly valued education, even though their financial situation was modest and they barely made ends meet.

From an early age, Popov enjoyed building things with his hands, often creating simple devices with his friends. This natural curiosity and technical talent helped him develop useful, acquired skills that later contributed to his work as a scientist.

In 1869, he began his studies at a religious school, then continued at a seminary, where he received a full secondary education under stringent requirements. Intelligent and hardworking, Popov graduated with the highest scores in all subjects and became a student at the St. Petersburg University in 1877. He was a cheerful, positive, and

determined young man, with a deep love for science and a constant desire to learn more.

On November 29, 1882, he defended a dissertation and earned a PhD in Physics and Mathematics. The following year, he began working as a physics teacher in Kronstadt, where he had access to advanced equipment for scientific research. Around this time, he became interested in the work of Heinrich Hertz on electromagnetic waves. Popov refined Hertz's experiments and achieved impressive results in transmitting and receiving information wirelessly—a vivid example of innovation driven by dedication and skill.

On May 7, 1895, he presented his invention—a radio receiver capable of detecting electromagnetic signals—to the public. This day is now celebrated as Radio Day in Russia, marking the birth of radio communication.

Popov was a brilliant and modest scientist, fully devoted to his research. He was shy and timid, and did not like to speak in public, often avoiding presentations when possible. Although he lacked confidence as a speaker, he worked tirelessly, often through holidays. Thanks to his wit, discipline, and passion, he achieved results that changed the world. Popov passed away on January 13, 1906, but his work continues to influence modern communication.

c. As you read the text, look for and highlight or underline:

- a date when something important happened;
- a place connected with Popov's early life;
- a reason why he could study for free;
- a personal quality that helped him become a great inventor;
- a word related to his invention.

d. Discuss or write.

Choose one of the questions below and either discuss with a partner or write a short answer (4–5 sentences):

1. What do you admire about Alexander Popov?

2. Do you think he was a successful person? Why or why not?

3. What modern invention do you think changed the world the same way radio did in Popov's time?

SPEAKING

Exercise 18

Create a timeline of the most important events in Alexander Popov's life. Then, present it to the class or in pairs.

1. **Draw a timeline** on a sheet of paper or use https://dashboard.visme.
2. Mark and label at least **5–7 key dates** from Popov's biography.
3. Next to each date, write **one sentence** about what happened.
4. Practice talking about the events using your timeline.

Useful Phrases:

In [year], Popov…
This was important because…
At this time, he was...
Later, he…
Finally...

WRITING

Exercise 19

Writing a Blog Post – A Person Who Inspires Me.

Write a blog post (80–100 words) about someone who inspires you — it can be a famous inventor like **Alexander Popov**, a modern tech genius like **Elon Musk**, or even someone from your life like a teacher or family member.

Your blog post should include:

A short **introduction** (Who is this person?)

Key **facts about their life** (Dates, events, education, work, etc.)

Their **character traits** (Use key vocabulary)

Why they **inspire you personally**

A **closing sentence** with your opinion or a question for your readers.

Useful phrases to help you:

- He/She was born in...
- He is known for…
- One interesting fact about him/her is...
- I admire this person because...
- This person is a vivid example of...

UNIT 2.

Higher Education in Russia and Abroad

Theme 2.1. HIGHER ENGINEERING EDUCATION IN THE UK

LEAD-IN

a. Discuss the following questions with a partner or in a small group:

- What do you know about universities in the UK?
- Can you name any famous British universities?
- Would you consider studying in the UK if you had a chance? Why or why not?

Share your ideas with the class.

b. Look at the four pictures. Each photo represents a different UK university. Match the pictures with the correct names from the list below:

. Imperial College London

. University of Southampton, Waterfront Campus

. University of Oxford

. University College London (UCL)

(1)

(2)

(3)

(4)

After matching the pictures with the university names, discuss the following questions:

- Which university looks the most modern? The most traditional?
- Do you think it is better to study in a capital city or in a smaller student town? Why?
- Which university would you most like to visit? Why?

KEY WORDS AND WORD COMBINATIONS

academic	[ˌækəˈdemɪk]	академический, учебный, научный
applicant	[ˈæplɪkənt]	абитуриент
to apply (for a place/to Oxford University)	[tə əˈplaɪ]	подавать заявление
to award (a degree)	[tə əˈwɔːd]	присваивать, присуждать (учёную степень)
bachelor's degree	[ˈbætʃələz dɪgriː]	степень бакалавра
to complete	[tə kəmˈpliːt]	завершить, закончить
to enter	[tə ˈentə(r)]	поступить (в вуз)
Further Education (FE) college	[ˈfɜːðə(r) ˌedʒuˈkeɪʃn ˈkɒlɪdʒ]	колледж профессионального образования
(to) graduate*	[tə ˈgrædʒueɪt], [ˈgrædʒuət]	(глаг.) окончить учебное заведение, выпуститься (сущ.) выпускник
master's degree	[ˈmɑːstəz dɪgriː]	степень магистра
PhD (Doctor of Philosophy)	[ˌpiː eɪtʃ ˈdiː]	степень доктора наук, доктор наук
postgraduate*	[ˌpəʊstˈgrædʒuət]	аспирант
(to) research	[tə rɪˈsɜːtʃ]	(глаг.) исследовать (сущ.) исследование
vocational	[vəʊˈkeɪʃənl]	профессиональный
undergraduate	[ˌʌndəˈgrædʒuət]	студент бакалавриата

***Note:** The terms *graduate student*, *postgraduate student*, and *PhD student* all refer to people studying after a bachelor's degree, but they are used a bit differently: *Graduate student* is the usual term in the USA and Canada. It includes both master's and PhD students.

Postgraduate student is more common in the UK. It also includes both master's and doctoral students.

PhD student refers specifically to someone doing research to earn a PhD degree.

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Choose the words with the stress on the second syllable:

degree, education, support, bachelor, engineering, vocational, research, applicant, to complete, university, to award

Exercise 3

a. Remember how the letter 'c' is pronounced. Then read the words below:

C	
[s] before **e, i, y** *for example: c**e**nter, c**i**ty, c**y**ber*	[k] before **a, o, u** or **any consonant** *for example: c**a**mpus, c**o**llege, c**l**ass*

applicant, necessary, certificate, academic, experience, course, vocational, college, exercise, structure, success

VOCABULARY I

Exercise 4

a. Study the most common academic degree abbreviations:

Abbreviation	**Full Form**

BA	Bachelor of Arts*
BSc	Bachelor of Science
BEng	Bachelor of Engineering
MA	Master of Arts
MSc	Master of Science
MRes	Master of Research
PhD	Doctor of Philosophy

**Note: Arts – subjects of study that are not science (such as history, languages, etc.)*

b. Match each term with its description. Then give possible translations in Russian for each degree.

1. BA	a) an undergraduate programme in engineering
2. BSc	b) a master's degree focused on research, often leading to a PhD
3. MA	c) a first degree in an arts subject
4. MSc	d) a second university degree in humanities
5. PhD	e) a science-focused bachelor's degree
6. BEng	f) an advanced academic research qualification
7. MRes	g) a second university degree in sciences or technology

c. Fill in the blanks with one of the degree abbreviations.

1. Most science students in the UK graduate with a _____, not a BA.
2. Last year he was awarded a master's degree and then he applied for a _____ program in robotics.

3. Mike is planning to study English literature and get a _____ at a university in Scotland.
4. I would like to study mechanical engineering and get a _____.
5. To teach political science at university level, you usually need at least an _____.
6. Ann is applying for a postgraduate research programme and hopes to get an _____.
7. After finishing her BSc in computer science, Alex applied for an _____ programme to specialize in cybersecurity.

Exercise 5

Match the words and word combinations with similar meaning.

1) vocational	a) qualification
2) to graduate	b) scientific
3) academic	c) study
4) degree	d) to get into
5) to enter	e) professional
6) research	f) to complete studies

Exercise 6

Complete the sentences with words from the list. Use each word only once.

applicant / academic / Further Education / undergraduate / research / graduate

1. Every _____ must provide the application documents.
2. His _____ background helped him get a job in a top company.
3. They are doing _____ on robotics in medicine.
4. As a recent _____, Nick is now looking for his first job in the engineering field.
5. Many students choose to go to a _____ college after finishing school.
6. Ann is an _____ student working towards her first degree in engineering.

GRAMMAR

Study grammar rules on the use of SIMPLE AND CONTINUOUS PASSIVE (see GRAMMAR REFERENCE pp.422-423)

Exercise 7

Choose the correct form to complete the sentence.

1. Higher education in the UK (provides / is provided) by different universities and colleges.
2. The science lab (is renovated / will be renovated) next year.
3. The research project (was discussed / is being discussed) by the research team at the moment.
4. Higher education in Great Britain (is offered / offers) a wide range of options for students.
5. A new online learning platform (was used / will be used*)* by the university last year.
6. Engineering degrees (are offering / are offered) by many UK universities.
7. Final-year projects (will present / will be presented) in May.
8. When I entered the lab, the 3D printer (was using / was being used).

Exercise 8

Complete each sentence with the correct passive form of the verb in brackets.

1. A bachelor's degree _____ (to award**)** after three years of studies.
2. All international applications _____ (review) yesterday.
3. The graduation ceremony _____ (hold) in the concert hall every July.
4. Research data _____ (collect) at the moment.
5. The project _____ (not complete) by the deadline.
6. The old computers _____ (replace) last year.
7. Engineering students _____ (not allow) to use the lab without supervision.
8. Important data _____ (transfer) to the university server when the system crashed.

Exercise 9

Rewrite the sentences in the passive voice. Pay attention to the tense.

Model: The tutor explains the topic. –> The topic is explained by the tutor.

1. The university introduced a new engineering course last year.
2. Researchers are testing the new system right now.
3. They will publish the exam results next week.
4. The university provides accommodation for first-year students.
5. The professor was explaining the home assignment when the bell rang.
6. The faculty organises workshops for engineering students.

Exercise 10

Translate the following sentences into English using the passive voice.

1. В нашем университете постоянно разрабатываются новые курсы.
2. Семинар был отменен.
3. В Великобритании степень бакалавра присуждается после трех лет обучения.
4. Курс «Профессиональная коммуникация» будет преподаваться на английском языке.
5. На этот вопрос правильно ответили все студенты.
6. Разработка новой программы была завершена в прошлом году.
7. Результаты будут объявлены завтра.
8. Для студентов первокурсников запланирована экскурсия по университету.

READING I

Exercise 11

a. Guess the correct answer and then check after reading.

1 How many years does a typical bachelor’s degree take in England?

a) two

b) three

c) four

2 What is a sandwich course?

a) a short programme with no exams

b) a degree with a year of work experience

c) a course that includes food and hospitality training

3 What are tutorials?

a) large group lectures

b) one-to-one or small group discussions

c) online courses

4 Which university is known for engineering and science?

a) Oxford

b) Cambridge

c) Imperial College London

b. Read the text.

HIGHER EDUCATION IN THE UK

Higher education in the UK is known for its high academic standards and practical focus. But what is it really like and how does it differ from what many students imagine?

The UK has over 160 universities. Some, like Oxford and Cambridge, were founded many centuries ago and still keep many of their old traditions. Others, such as Imperial College London, are known for modern research and strong engineering departments.

In addition to traditional universities, the UK also has vocational colleges or Further Education (FE) colleges, where individuals can study more practical and job-focused programmes. These colleges are popular with applicants who want to gain specific skills and enter the job market more quickly.

A typical academic journey starts with a bachelor's degree – for example, a BA, BSc, or BEng. Most students enter university after finishing secondary school and begin an undergraduate programme, which generally takes three years to complete. Some students choose an integrated programme such as MEng, which combines bachelor's and master's level study in a single four-year course.

After completing an undergraduate degree, students can apply for a postgraduate programme, for example, MA, MSc, or MRes. A master's degree usually lasts for one year. Those who want to work in science or research often go on to do a PhD – the highest qualification awarded by universities in the UK.

Teaching methods in UK universities combine theory and practice. Students attend lectures, take part in seminars, and work in laboratories or on group projects. In certain institutions, such as Oxford and Cambridge, students also attend tutorials – small, discussion-based sessions where they receive personalised feedback.

In engineering and other technical fields, students often take a sandwich course – a programme that includes a year-long work placement between the second and final year. These placements are organised in partnership with companies, so students can put their knowledge into practice in real working environments.

The academic year begins in September or October and ends in June. It is usually divided into three terms or two semesters, depending on the university. Students are assessed by exams, coursework, presentations, and final projects.

Most first-year students live in university accommodation, known as halls of residence. Later, they often rent shared flats or houses. Student life is active and rich: there are sports teams, societies, and various student clubs.

To sum up, higher education in the UK offers different routes depending on students' goals and interests and helps them develop the knowledge and skills they need for their future careers.

c. There are passive voice structures in the text. Find them and explain why the passive is used in each case.

Exercise 12

Match the terms with their definitions:

1. further education	a) an integrated degree that combines bachelor's and master's level study in one programme
2. undergraduate degree	b) one-to-one or small group sessions that focus on discussion, critical thinking, and individual feedback
3. an MEng	c) a course that includes a period of full-time work between years of academic study
4. tutorials	d) education that is provided for people after leaving school, but not at a university
5. sandwich course	e) the highest college or university degree
6. a PhD	f) the first level of university qualification

Exercise 13

a. Decide if the statements are true or false. Correct the false statements.

1. The UK has more than 160 universities.
2. Vocational colleges focus mainly on research and academic theory.
3. Students usually enter university after completing secondary education.
4. A bachelor's programme in technical fields normally includes a year-long work placement.
5. Tutorials are large classes where students mainly listen to the tutor.
6. Engineering students often work on real-life projects during their studies.
7. All UK universities follow the same academic calendar, divided into three terms.

b. Make up your own true or false statements about the UK system of higher education.

c. Work in pairs. Read your statements to each other and agree or disagree with them. If you disagree, correct the statement.

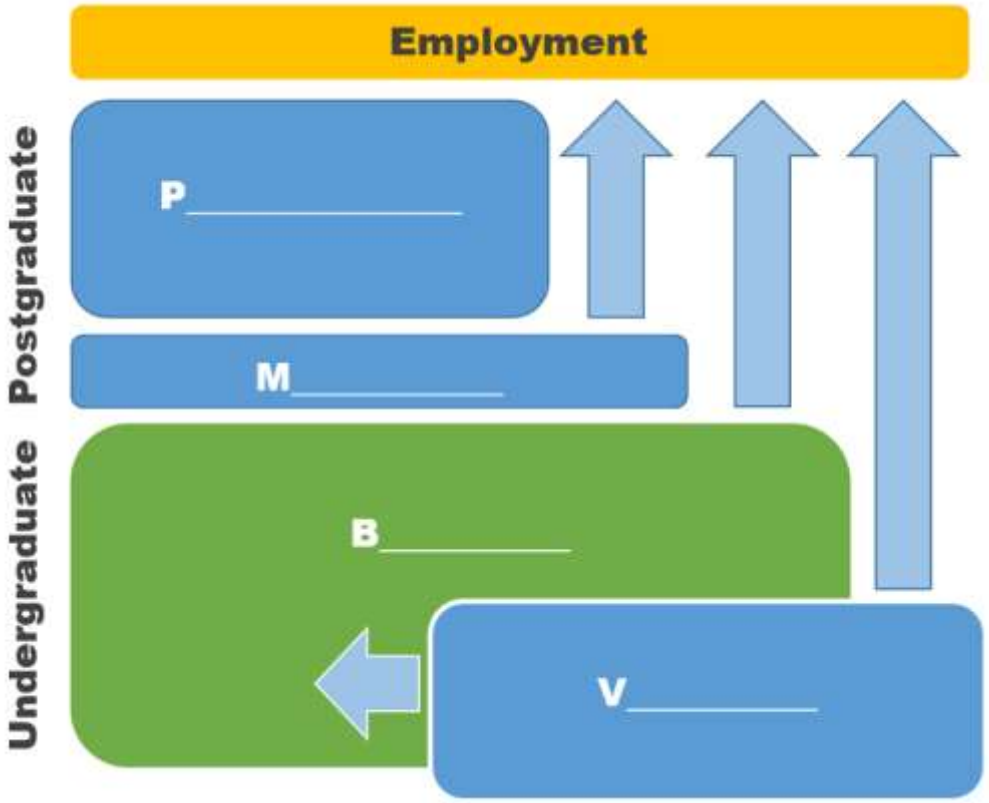

Exercise 14

Answer the questions using information from the text.

1. What are the main differences between traditional universities and Further Education (FE) colleges?
2. What degrees can a student earn at the undergraduate and postgraduate levels?
3. How long does it usually take to get a bachelor's and a master's degree?
4. How is an MEng programme different from a regular bachelor's degree?
5. What teaching methods are commonly used in UK universities?
6. What is the purpose of a sandwich course?
7. When does the academic year usually begin and end?
8. How are students typically assessed during their studies?
9. What kinds of activities are part of student life outside the classroom?

Exercise 15

Complete the graph and speak about the stages of higher education in the UK.

WATCHING AND LISTENING I

Exercise 16

a. BEFORE YOU WATCH.

1. Answer the following questions:

1. What types of classes do you usually have at university?
2. Have you ever had a one-on-one or small group session with a professor?
3. In your opinion, what is the most effective way to learn: listening to lectures or discussing your ideas?

2. Match the English phrases with their Russian equivalents:

1. to get into the nitty-gritty	a) решать задачи
2. to brace yourself	b) на равных
3. not to hold back	c) получить удовольствие
4. to tackle problems	d) соберитесь с духом, приготовьтесь
5. like an equal	e) не сдерживаться
6. to sneak in	f) вникать в суть/важные детали
7. to have a blast	g) решающая схватка, столкновение
8. showdown	h) тайком сделать что-то, проникнуть

b. WHILE YOU WATCH.

You are going to watch a short video about Oxford Tutorials at https://vkvideo.ru/clip-231870953_456239025 . Fill in the missing words you hear.

1. Forget crowded _____, at Oxford it's all about _____: small groups, or sometimes just you and your tutor, getting into the _____ of your subject.

2. Every week you _____ problems, write essays, and _____ yourself for the moment of truth – a one-on-one session where your tutor _____ your work and discusses it with you.
3. And let me tell you, they do not _____ _____ on the feedback.
4. Tutorials are surprisingly _____ – the tutors talk to you like _____ _____.
5. When one of us was at the board struggling, the rest of us were _____ in some dog cuddles.
6. It's like a mini academic _____, but with all the stress left at the door.
7. You get instant feedback, _____ your thinking, and honestly, you do have a _____ doing it.

c. AFTER YOU WATCH.

Discuss in pairs or small groups.

1. Would you enjoy studying in a tutorial system like this? Why or why not?
2. What are the benefits of getting instant and honest feedback?
3. Have you ever experienced a "mini academic showdown"? Share your experience.

*VOCABULARY II***

Exercise 17

a. Read the word combinations below. Decide which type of skill each phrase belongs to: technical, academic, or soft.

give a presentation write a report work in a team run simulations manage time do experiments design a prototype analyse data collaborate effectively attend lab sessions

Technical Skills	Academic Skills	Soft Skills

b. Choose one skill from each category and explain:

- Why is this skill important for engineering students?
- Have you already used this skill in your studies? If not, would you like to develop it?

Exercise 18

a. Match the words to make word combinations.

1. to run	a) your time
2. to solve	b) a 3D model
3. to complete	c) equations
4. to manage	d) a (work) placement
5. to get into	e) simulations
6. to design	f) data
7. to analyse	g) a top university

b. Complete the sentences using the correct word combinations from (a).

1. Many students feel excited when they _____ to study engineering.
2. In engineering courses, you often need to _____ to test how systems behave.
3. As part of a team project, students usually _____ before building a prototype.
4. To write a good report, students first need to _____ from their experiments.
5. Some students have a chance to _____ in a real company between academic years.
6. It can be hard to _____ when you're working on multiple tasks at once.

7. In the first year, engineering students often practise how to _____ in maths and physics classes.

c. Make your own sentences with the word combinations from (a).

READING II **

Exercise 19

Read the text and give it a title.

When Olivia got into Mechanical Engineering at Imperial College London, she felt proud and a bit nervous. “It all sounded very serious,” she says. “I thought I’d spend my life solving equations.”

In reality, her first year was a combination of lectures, maths, group work, and lots of time spent in the lab. “We were learning things like fluid mechanics and materials science and then testing them in real experiments. Once, we tested how different metals react under pressure. It was surprisingly fun.”

In the second year, Olivia’s group was assigned a team project: to design a small, energy-efficient vehicle for urban transport. They had to go through every stage of the engineering process – from initial concept and technical drawings to 3D modelling and testing. “We didn’t always agree,” she says. “But in the end, we actually built something that worked.”

After her second year, Olivia completed a summer placement at a local engineering firm. “They put me on this project about airflow in underground stations. At first, I felt totally lost, but gradually I started connecting it with things we’d studied.” She was surprised how useful her academic knowledge turned out to be.

Now, in her final year, Olivia is working on an independent research project to improve the energy efficiency of heating systems in public buildings. Most of her time is spent analysing data and running simulations using specialist software. “It can be

frustrating," she admits, "but it's also really satisfying when the results finally make sense."

What surprised her most about studying engineering? "It's not just about numbers," she says. "You also need to manage your time, give presentations, write reports, and collaborate effectively. That part isn't always explained at the start, but it's essential."

Even though the course remains challenging, Olivia now feels much more confident and far better prepared for what comes next. "It's a bit chaotic," she smiles. "But honestly, I think that's what real engineering is like."

Exercise 20

Put the events in the correct order according to the text (1–7).

A. Olivia worked on a heating system project.

B. She helped design a small transport vehicle.

C. Olivia started her first year at Imperial College London.

D. She joined a summer placement at a company.

E. The vehicle project team had disagreements.

F. She tested materials in lab experiments.

G. Olivia became more confident and better prepared.

Exercise 21

Complete the summary with the correct words from the box. There are two extra words.

placement / project / equations / communicate / underground / design / research / lectures

Olivia is a Mechanical Engineering student at Imperial College London. In her first year, she studied theory in (1) _____ and did lab work, including experiments where students tested how metals react under pressure. Later, she joined a group (2) _____ to create a small, energy-efficient vehicle. After her second

year, Olivia completed a summer (3) _____ at an engineering firm, where she worked on airflow in (4) _____ train stations. In her final year, she is working on a (5) _____ project. She also learned that engineers need to (6) _____ clearly and collaborate with others.

Exercise 22

Read the quotes from the text. What do they mean? Do you agree? Why or why not?

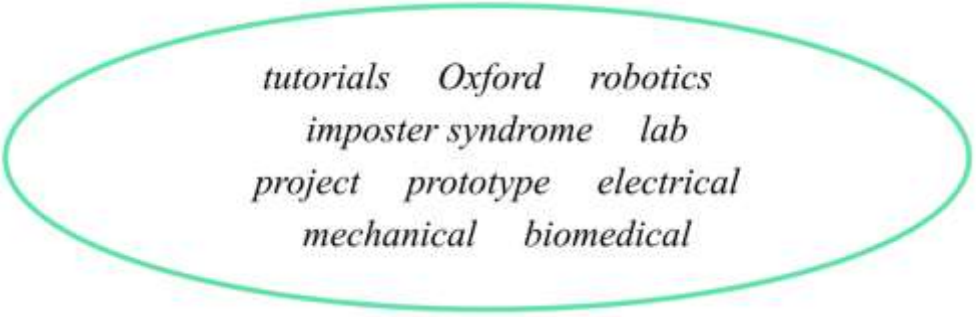

1. "It's not just about numbers."
2. "We didn't always agree … but in the end, we actually built something that worked."
3. "It's a bit chaotic … but honestly, I think that's what real engineering is like."

WATCHING AND LISTENING II

Exercise 23

a. BEFORE YOU WATCH.

Have a look at the following words:

- **Which of these words do you know? Which ones are new to you?**
- **What do these words have in common?**
- **What do you think the video might be about?**

b. WHILE YOU WATCH.

You will hear real Oxford students talk about their experiences studying engineering: https://vkvideo.ru/video-231870953_456239027 .Try to understand the main ideas, not every word. Then choose the correct answer.

1. Why is the Oxford engineering course described as general?
    a. Students study maths and physics only
    b. Students explore several areas of engineering before specialising
    c. The course is focused mainly on civil and mechanical engineering
2. What is the purpose of tutorials at Oxford?
    a. To prepare students for group presentations
    b. To give detailed feedback in a small group setting
    c. To test students' memory of lecture content
3. How did one student discover their interest in electrical engineering?
    a. They were assigned a project in electronics by chance
    b. They chose it before the course started
    c. The general structure of the course helped them realise their interest
4. What do students say about the tutorial atmosphere?
    a. It feels more like a conversation than a formal lesson
    b. It's quite competitive and exam-focused
    c. It is mostly led by senior students rather than professors
5. What is mentioned about imposter syndrome?
    a. It disappears after the first few months
    b. Most students experience it when they arrive
    c. It affects only students from outside the UK
6. What do students say about the social side of Oxford engineering course?
    a. Everyone is quiet and mostly keeps to themselves
    b. Engineers are mostly focused on academic competition
    c. Students are sociable, diverse, and accepted as they are
7. Which of these is a true statement about the engineering department's facilities?
    a. Most classes take place in temporary buildings off campus
    b. Students have access to both modern labs and specialised equipment

c. The department is mainly focused on theoretical work, not practicals

8. What kinds of career paths do students mention?
    a. Teaching, publishing, and education policy
    b. Civil service, public administration, and economics
    c. Formula One, space technology, renewable energy, and robotics

c. AFTER YOU WATCH.

Work in pairs or small groups. Choose one or two questions to discuss.

1. Would you enjoy studying engineering in a place like Oxford? Why or why not?
2. Have you ever experienced “imposter syndrome”? What helps you deal with self-doubt?
3. Do you prefer learning one subject in depth or exploring many topics before choosing?

SPEAKING

Exercise 24

Imagine you are applying to a university in the UK.

You can choose the ideal combination of everything: place, format, duration, assessment, support, and more.

Based on what you have learned about higher education in the UK, design your perfect British engineering degree and explain:

- Where would you study (city or campus)?
- What kind of degree would it be (BEng, MEng, etc.)?
- Would it include a sandwich course, tutorials, group work, or labs?
- How would your academic year be structured?
- What kind of support and student life would you expect?

Use the phrases below to help you organise your ideas and speak more fluently. Try to use at least 5 different phrases in your monologue.

Introducing your idea	• I would like to study… • If I had the chance, I would choose… • My ideal university experience in the UK would be…
Giving reasons	• I think this would be the best option because … • The main reason is that … • I prefer this format since … • This kind of programme would suit me because …
Adding and organising ideas	• First of all, … • Another important thing is… • Also, … • What's more, … • Finally, …
Describing course structure	• The course would last for … • It would include both lectures and tutorials. • I would like the programme to offer …

	• Students would be expected to …
Expressing preferences and opinions	• Personally, I believe that … • In my opinion, it's better to … • I'm not a fan of … so I would avoid …

WRITING

Exercise 25

Writing an email to your professor.

a. Read the sample email below.

To: drradley@unoxf.com **Subject:** Request for materials
Dear Dr. Radley, My name is Tom White, and I am a student in your Mathematics class. I apologise for missing the lecture on Monday due to a family emergency. I wanted to ask if there are any materials or resources, I could review to catch up on what I missed. If lecture slides or notes are available, I'd be very grateful if you could let me know where to find them. Alternatively, I'm happy to reach out to a groupmate if that's preferred. Thank you in advance for your assistance. Best regards, Tom White

b. Study these guidelines for writing academic emails.

1. Use your academic email address

If your university has given you an official email address, always use it. Personal emails (e.g. cooltom123@gmail.com) may look unprofessional and might end up in the spam folder.

2. Write a clear and specific subject line

The subject line should briefly summarise the purpose of your email (e.g. Request to reschedule test).

3. Use a formal salutation

Begin with Dear Professor [Last Name] or Dear Dr [Last Name].

4. Introduce yourself

Mention your full name and the course you are taking. Your professor may have hundreds of students and won't always recognise you by name alone.

5. Explain your reason for writing – briefly and politely

State your request or concern clearly. Be respectful and use formal language. Avoid slang or emojis.

6. End the email with a formal closing

Use a formal closing such as "Best regards" or "Sincerely" followed by your full name.

7. Check for spelling and grammar errors

Always check your spelling, punctuation, and grammar before sending your email.

c. Write an email to your professor saying that you would like to retake a test or exam. Use the structure and guidelines above. Make sure your email is polite, formal, and clear.

Theme 2.2. HIGHER ENGINEERING EDUCATION IN THE USA

LEAD-IN

1. **If you had a chance to study in the USA, which university would you prefer?**

a. A cheaper school with basic classes;

b. A world-famous school where students study 18 hours a day.

Tell your groupmates why in 1 sentence.

2. Test Your Guess!

Try to answer, just guess:

1. How many years does a standard US university degree take?

○ 2 years ○ 4 years ○ 6 years

2. Can students pick the subjects they study?

○ Yes ○ No ○ Sometimes

3. College admission always depends on students' academic performance at school.

○ True ○ False

KEY WORDS AND WORD COMBINATIONS

to achieve	[tə əˈʧiːv]	достигать, добиваться, выполнять
to aim	[tə eɪm]	стремиться, ставить целью
compulsory	[kəmˈpʌlsərɪ]	обязательный, общеобразовательный
credit hours	[ˈkredɪt ˈaʊəz]	единица учебной нагрузки, определённое количество которых необходимо набрать для получения зачёта
elective	[ɪˈlektɪv]	факультативный, элективный, по выбору
to evolve	[tə ɪˈvɒlv]	развиваться, изменяться
extensive	[ikˈstensiv]	обширный, пространный
to fulfil	[tə fʊlˈfɪl]	выполнять, соответствовать
grades	[greɪdz]	баллы, оценки
major	[ˈmeɪʤə]	ведущее направление подготовки, специальность, основной предмет
to major	[tə ˈmeɪʤə]	специализироваться в изучении какого-либо предмета
to pursue	[tə pəˈsjuː]	продолжать, стремиться
requirements	[rɪˈkwaɪəmənts]	требования
to specialise in	[tə ˈspeʃəlaɪz ɪn]	специализироваться на чём-то
to tailor	[tə ˈteɪlə]	приспосабливать, проектировать, специально разрабатывать

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Give the correct word for each phonetic description.

[əˈsəʊʃ(ɪ)ət, əˈsəʊsɪət]	
[kəmˈpʌlsərɪ]	
[rɪˈsɜːʧ]	
[ɪˈlektɪv]	
[əˈʧiːv]	
[sɪgˈnɪfɪkənt]	

VOCABULARY I

Exercise 3

Match the word combinations with their Russian equivalents.

1) intended career	a) старшие классы средней школы
2) job market	b) вуз
3) high school	c) будущая карьера
4) higher school	d) окружной двухгодичный колледж, муниципальный колледж
5) community college	e) степень (диплом) младшего специалиста
6) associate degree	f) магистратура
7) graduate school	g) рынок труда

Exercise 4

Choose the correct synonym:

1. to evolve → a) to develop b) to decline c) to simplify;
2. to obtain → a) to lose b) to get c) to reject;
3. to fulfill → a) to ignore b) to postpone c) to achieve;
4. to pursue → a) to follow b) to abandon c) to delay;
5. to pass (an exam) → a) to fail b) to forget c) to succeed in;

6. to require → a) to suggest b) to discourage c) to demand;
7. to offer → a) to refuse b) to take c) to propose;
8. to attend → a) to be present at b) to miss c) to ignore;

Exercise 5

Select the antonym.

1. advanced → a) modern b) extra c) basic;
2. dynamic → a) active b) static c) changing;
3. higher → a) lower b) bigger c) upper;
4. mandatory → a) compulsory b) optional c) obligatory;
5. elective (course) → a) core b) optional c) extra;
6. significant → a) unimportant b) important c) substantial;
7. extensive → a) wide b) large c) limited;
8. intended (career) → a) future b) chosen c) unplanned.

Exercise 6

a. Make word combinations.

1) to meet	a) exams
2) to pass	b) a particular field
3) to fulfil	c) critical thinking skills
4) to tailor	d) goals
5) to specialize in	e) requirements
6) to practice	f) research
7) to conduct	g) demands
8) to achieve	h) education

b. Complete the sentences using words or word combinations from (a) in a correct form. Translate the sentences from English into Russian.

1. The Master's program in Computer Science offers you a vast number of opportunities to _____.

2. Students learn to work together and _____ conflict resolution and _____.
3. The research _____ on the basis of Harvard University.
4. Kate _____ her _____ to study at a US university.
5. The full-time program is designed _____ the growing _____ for graduates with analytical skills.
6. He _____ his final _____ and got into college without difficulty.
7. Elective courses allow students to _____ their _____ to meet personal and professional goals.
8. This program enables students to _____ of their national or state educational systems.

c. Translate sentences from Russian into English using word combinations from (a).

1. Курс по кибербезопасности удовлетворит запросы даже самых опытных специалистов.
2. После получения общего инженерного образования Михаил решил специализироваться в области искусственного интеллекта.
3. Владимир выполнил все требования для получения лицензии пилота.
4. Чтобы изучить влияние онлайн-обучения на успеваемость, университет провёл специальное исследование.
5. Чтобы достичь цели продаж, компания инвестировала в новые технологии.
6. Анна усердно училась и успешно сдала все экзамены.
7. Данная программа позволяет студентам адаптировать образовательный процесс под свои цели и задачи.
8. Родители могут помогать детям развивать навыки критического мышления, задавая им вопросы "Как?" и "Почему?".

GRAMMAR I

Study grammar rules on the use of the PERFECT AND PERFECT CONTINUOUS (see GRAMMAR REFERENCE p.423-425)

Exercise 7

Put the words in brackets in the correct form.

1. She _____ the university of her dreams this year. (to enter)
2. He _____ diligently all the semester, preparing for his final exams. (to study)
3. By the time she entered the university, she _____ already _____ for a course in medicine and gained significant practical experience. (to apply)
4. He plans to enter the university next year and believes that by the time he graduates, he _____ a degree that opens up opportunities for employment. (to obtain)
5. They _____ diligently _____ on their projects, pursuing their Master's degrees. (to work)
6. By the time he retired, he _____ at the school for over 40 years. (to teach)
7. In five years, he _____ at the university for twenty years. (to lecture)
8. She _____ the piano for three hours. (to practice)

Exercise 8

Study the Model. Choose 1 of the given verbs. Write sentences in 6 tenses (Present, Past and Future Perfect and Present, Past, and Future Perfect Continuous). Use the following: *do, send, make, study, graduate, award, prepare, complete, gain***.**

Model:

Present

Amy has sent many emails this morning. Amy has not sent many emails this morning. Has Amy sent many emails this morning?	He has been studying mathematics for six years only. He has not been studying mathematics. Has he been studying mathematics for six years?
I have written many letters this week. I have not written many letters this week. Have you written many letters this week?	I have been writing a novel for two years. I have not been writing a novel. Have you been writing a novel for two years?
Past	
The student had done everything he could. The student had not done everything he could. Had the student done everything he could?	He had been doing everything the doctors told him to. He had not been doing everything the doctors told him to. Had he been doing everything the doctors told him to?
Future	
Tom will have graduated from the university in two years. Tom will not have graduated from the university in two years. When will Tom have graduated from the university?	I will have been studying for two hours by the time you arrive. I will not have been studying for two hours by the time you arrive How long will I have been studying by the time you arrive?

Exercise 9

a. Translate sentences from Russian into English using Perfect.

1. Анна только что закончила первый год обучения на очном отделении.
2. В этом году университет выдал дипломы тысячам выпускников, завершившим обучение на бакалавриате.
3. Перед тем как перейти на курс профессиональной переподготовки, Диана прошла курс, совмещающий теорию и практику, и приобрела ценный опыт.
4. В течение 3 месяцев Том работает над своим исследовательским проектом.
5. К концу следующего года Денис завершит обучение в магистратуре.
6. Юлия путешествовала по миру в течение года, прежде чем поселиться в своем родном городе.
7. Татьяна поступила в колледж профессионального образования, чтобы изучать менеджмент.
8. К моменту подачи заявления в IT магистратуру, Антон уже завершил курс, совмещающий теорию и практику.

WATCHING AND LISTENING I

Community Colleges in the USA

Exercise 10

a. BEFORE YOU WATCH. Discuss in pairs.

What do you know about community colleges in the U.S.? How are they different from universities? What advantages might community colleges have? Write down 3 ideas.

Look up the meanings of these words—*associate degree, tuition, transfer, vocational training*—and write simple definitions.

b. WHILE YOU WATCH.

Watch a video at https://vkvideo.ru/video-231870953_456239029 .

Try to answer the questions.

How long does it take to complete a community college program?

What degree do students earn after graduating?

What other programs (besides degrees) do community colleges offer?

Fill in the Table: Community Colleges vs. Universities

Category	**Community College**	**Four-Year University**
Duration	① _____ years	② _____ years
Degree Earned	③ _____ Degree	Bachelor's Degree
Average Cost (Yearly)	~$④ _____ (Seattle Central)	$⑤ _____ to $50,000+
Class Size	⑥ _____	Larger
Transfer Support	⑦ _____ Center, advisors	Varies (less structured for transfers)
Student Life	Gym, ⑧ _____ (40+ at Seattle Central)	Typically, more options

Add 2 more differences from the video.

Model:

Community colleges offer vocational training; universities focus more on academic degrees.

List the 3 myths the video mentions and briefly explain why they're not true.

c. AFTER YOU WATCH.

1. Discuss with your groupmates:

- Why do you think some students might not choose a community college?
- If you studied in the U.S., would you pick a community college? Why/why not?

2. Imagine you work for Seattle Central. Create a short social media post (3–4 sentences) to attract international students.

GRAMMAR II

Articles

Study the Article Navigator (See GRAMMAR REFERENCE p.427)

Exercise 11

Below are sentences with the articles (a, an, the) removed. Fill in the blanks with the correct article. If no article is needed, mark an "X".

1. Many students pursue higher education after high school to achieve their goals of obtaining (1) ___ bachelor's degree or (2) ___ advanced degree, such as (3) ___ Master's or PhD.
2. To earn (4) ___ degree in (5) ___ USA, students must fulfill (6) ___ requirements of their chosen program.
3. Community colleges are (7) ___ popular option for students who want to start their higher education with lower costs or who are unsure of their major.
4. There are over 2,300 four-year institutions in (8) ___ USA, where students typically spend four years completing their degrees.

5. Obtaining (9) ___ advanced degree opens doors to more specialized careers. However, it requires (10) ___ significant dedication.
6. He decided to major in (11) ___ engineering at (12) ___ large university.
7. For (13) ___ associate degree, students often attend (14) ___ community college.
8. (15) ___ professor who teaches my math class also leads (16) ___ research team.

READING I

Exercise 12

a. Skim the text THE SYSTEM OF HIGHER EDUCATION IN THE UNITED STATES and complete the following tasks:

1. **Based on the text, identify and write down:**
    - **3 key features of U.S. higher education.**
    - **2 advantages of community colleges.**
    - **1 main difference between bachelor's and advanced degrees**
2. **Find examples of the articles *a/an, the,* and *no article* in the text. For each example, explain why that specific article is used.**

b. Analyze the use of Perfect Tenses.

There are sentences with Perfect Tenses in the text. Find them and comment on why the Perfect tense is used in each.

THE SYSTEM OF HIGHER EDUCATION IN THE UNITED STATES

The system of higher education in the United States has evolved significantly over the years. It has always aimed to prepare students for their intended careers, but its structure has changed to meet the demands of a dynamic job market.

Many students pursue higher education after high school to achieve their goals of obtaining a bachelor's degree or an advanced degree, such as a Master's or PhD.

To earn a degree in the USA, students must fulfill the requirements of their chosen program at a higher educational institution, such as a university, community

college, or other specialized school. This includes the need to pass exams. Students can often tailor their education to their interests, as some courses are compulsory while others are elective.

Community colleges are a popular option for students who want to start their higher education with lower costs or who are unsure of their major. They offer two-year programs that can lead to a certificate, an associate degree, or transfer to a four-year university. According to the National Center for Education Statistics, there were approximately 1,200 public community colleges in the U.S. as of the 2023-2024 academic year.

Universities are the most common choice for pursuing a bachelor's degree, such as a BA (Bachelor of Arts), BSc (Bachelor of Science), or BBA (Bachelor of Business Administration). There are over 2,300 four-year institutions in the USA, where students typically spend four years completing their degrees. Many universities also offer master's degrees (like the MSc - Master of Science) and PhD programs for those looking to specialize in a particular field.

Obtaining an advanced degree opens doors to more specialized careers. However, it requires significant dedication. In these programs, students practice critical thinking skills and conduct research extensively.

Whether attending a community college, pursuing a bachelor's degree, or obtaining an advanced degree, higher education is a crucial step for students to achieve their goals in the USA.

Exercise 13

a. In pairs, discuss:

1. What do these numbers from the text refer to: 1200, 2300, 2, and 4?
2. Why is the high number of community colleges significant for the U.S. higher education system?
3. How does the difference between a 2-year program and a 4-year program impact a student's decision?

b. Analyze academic degrees in the USA.

Based on the text, complete the following:

1. List all abbreviations related to academic degrees.
2. For each abbreviation, provide:
   - full form;
   - typical duration to complete the degree;
   - key features mentioned in the text.
3. Identify non-degree abbreviations and explain their purpose in the text.

c. What degree levels does the text mention but does not abbreviate?

d. A student wants to become a financial analyst. Which bachelor's degree abbreviation—BA, BSc, or BBA—are they most likely to pursue? Justify your choice based on the text.

Exercise 14

a. Find the words in the text that mean:

1) required by law or a rule, obligatory;

2) the highest degree awarded by a graduate school or department, usually after several years of original research culminating in a dissertation;

3) an undergraduate academic degree awarded by colleges and universities upon completion of a course of study usually lasting three to five years;

4) optional or chosen according to individual preference;

5) two-year institutions of higher education that offer courses leading to an associate degree or certificate;

6) a postgraduate academic degree such as a master's or doctoral degree;

7) institution of higher education that typically consists of several colleges and graduate schools and are authorized to confer degrees in various fields.

b. Use these words in your own sentences.

Exercise 15

a. Read each statement below and decide if it is Fact (True) or Fiction (False), based on the text.

1. The structure of the U.S. higher education system has remained static over the years.
2. Community colleges can be a starting point for students who later transfer to a four-year university.
3. All courses a student takes in a U.S. degree program are compulsory; there are no elective choices.
4. The main goal of higher education in the U.S. has always been to prepare students for their careers.
5. A PhD is an example of an advanced degree mentioned in the text.
6. According to the text, there are more four-year universities in the U.S. than public community colleges.
7. Passing exams is a mandatory requirement to earn a degree in the U.S.
8. Master's and PhD programs do not involve the practice of critical thinking skills.

b. Create a "Myth vs. Fact" quiz.

Model: *"Myth: Community colleges don't offer real degrees. Fact: They award associate degrees and prepare students for transfers."*

Exercise 16

a. Pair up as Journalist (Student A) and University Representative (Student B). Use the text THE SYSTEM OF HIGHER EDUCATION IN THE UNITED STATES to answer questions with evidence.

Step 1: Choose Your Questions

Student A (Journalist) picks 3 questions from the list below *or* creates 1–2 original questions.

Student B (University Rep) answers using direct quotes or paraphrases from the text.

Question List:

1. What are the requirements for completing a degree in the USA?
2. What types of institutions offer higher education programs?
3. What is the difference between compulsory and elective courses?
4. Why are community colleges popular?
5. What is the most common choice for a bachelor's degree, and how long does it take?
6. What opportunities do advanced degrees (Master's/PhD) provide?
7. What skills do students gain in advanced degrees?

Step 2: Conduct the Interview

Journalist (A): Ask your 3 chosen questions clearly.

Rep (B): Answer in 2–3 sentences, using text evidence.

Step 3: Reflect & Discuss

- Swap roles and repeat!
- Create 1 new question not listed (e.g., *"What percentage of students attend community colleges?"*)

b. Retell the text as a news report or podcast script, using:

- 1 statistical fact.
- 1 quote (real or imagined).
- 1 future prediction about U.S. higher education.

Exercise 17

UK vs. US Academic Vocabulary Challenge

Study the terms (UK/US) and create your own sentences.

Term	**UK English**	**US English**	**Example Sentence**
Higher education institution	university	college/school	UK: I applied to ___ last year. US: My ___ has great sports teams.
Type of "public school"	private	state-funded	UK: ___ schools require tuition. US: ___ schools are free.
Meaning of "tuition"	teaching quality	fees/cost	UK: The ___ in Chemistry was outstanding. US: ___ rises every year.
Studying a subject	to read/do	to major in	UK: She ___ History. US: He ___ Business.
Exam preparation	to revise	to review	UK: We ___material for entrance exams. US: They ___ lecture notes.

Academic results	marks	grades	UK: She earned top _____ in her Psychology module. US: His ___ are A+.
Year labels	1st/2nd/3rd-year	freshman/ sophomore	UK: ___ students choose modules. US: ___ can take advanced chemistry classes.

Exercise 18

Decide if these statements are about the UK or the USA or both:

1. Alex read History at the university.
2. He majored in computer science at college.
3. Tom was awarded high marks for his project.
4. Examinations are graded honors, pass, low-pass or fail.
5. Students attending full-time programs receive free tuition at state institutions.
6. This scholarship not only covers tuition fees but also covers living expenses.
7. Each year has a name: freshman, sophomore, junior, senior.
8. She is a third-year student.

WATCHING AND LISTENING II

Exercise 19

U.S. Higher Education System

a. BEFORE YOU WATCH.

1. **Discuss with a partner:**

What words come to mind when you hear "American universities"? How do you think U.S. universities differ from those in Russia?

2. Match these terms to their definitions:

1. undergraduate	a. a student in their second year of study.
2. freshman	b. a student in their third year of study
3. sophomore	c. a student studying for a bachelor's degree
4. junior	d. a student in their fourth and final year
5. senior	e. units earned for completing a course
6. credit hours	f. a student in their first year of study.

3. Guess what you expect to learn from the video.

b. WHILE YOU WATCH. Watch the video at https://vkvideo.ru/video-231870953_456239030 . Listen and complete the summary of the video.

The U.S. higher education system is a bit like the American character. It celebrates (1) _____, (2) _____, (3) _____, and (4) _____.

The U.S. higher education system also has its own names for each year of an (5) _____ degree, which you may or may not be familiar with. For example, the first year of a degree is known as the (6) _____ year, the second as the (7) _____ year, the third as the (8) _____ year, and the final as the (9) _____ year.

A typical American student will complete 12 years of education before progressing to college (10) _____ a bachelor's degree, which takes (11) _____ years to complete.

Some students continue to graduate school to study for a (12) _____, which takes an additional (13) _____ to (14) _____ years. U.S. undergraduate degrees usually require four years of (15) _____ study.

The academic year runs for (16) _____ months, with (17) _____ semesters per year. Each semester, you'll study four or five courses, and each course you study will earn (18) _____. There are usually three to four (19) _____ per course, and

you'll be expected to complete 120 to 130 credit hours in order to complete an undergraduate degree.

c. Answer the questions.

1. What are the names of each year of an undergraduate degree in the US higher education system?
2. How many years does it take to complete a bachelor's degree in the US?
3. What is the typical educational background of an American student before pursuing a bachelor's degree?
4. What is the duration of an academic year in the US higher education system?
5. How many courses do students usually study per semester in the US higher education system?
6. How many credits are usually earned per course in the US higher education system?
7. How many credit hours are required to complete an undergraduate degree in the US?
8. What is the duration of a Master's degree program in the USA?
9. What are the values celebrated by the US higher education system?

d. In small groups debate: Is the 4-year bachelor's system effective? Why/why not?

e. Name 3 terms you learned today. Use each in a sentence.

*VOCABULARY II***

Exercise 20

a. Match the word combinations with their Russian equivalents.

Note: Some phrases are idioms.

1) to work your socks off	a) нестандартный подход

2) stellar reputation	b) обеспечение высоких стандартов обучения
3) academic excellence	c) выдающиеся выпускники
4) rigorous demands	d) много работать
5) to drink from a firehose	e) студенческий состав
6) accomplished alumni	f) имеющий хорошую успеваемость
7) student body	g) безупречная репутация
8) academically proficient	h) любознательность
9) intellectual curiosity	i) жёсткие требования
10) unconventional approach	j) быть перегруженным информацией

c. Make your own sentences with the word combinations from (a).

*READING II***

Exercise 21

Read the text and annotate:

Underline all Perfect tenses.

Circle idioms.

Translate paragraphs 1–2 into Russian. As you translate, pay special attention to how you render the Perfect tenses and idioms you have identified

WHAT'S IT LIKE TO STUDY AT MIT?

Studying at the Massachusetts Institute of Technology (MIT) is a dream come true for many aspiring minds. Named the number one university in the world in the latest QS* league table, MIT has earned a stellar reputation not only for its academic excellence but also for its rigorous demands. As the saying goes, "If you are considering studying at the best university in the world, you'd better be prepared to work your socks off."

The pace of learning at MIT has often been likened to "drinking from a firehose," and this reputation is well deserved.

The workload is intense. Amy Guyomard, a third-year maths major, shares her experience, mentioning that she had already submitted two problem sets and a writing assignment just four days into the semester. Her to-do list includes two more problem sets and a 20-minute presentation, not to mention reading "All The President's Men" by week's end.

MIT is known not only for its challenging workload but also for producing some of the brightest minds in the world. The university boasts a long list of accomplished alumni, including the fictional Tony Stark (Iron Man) and the genius character Will Hunting, from "Good Will Hunting," played by Matt Damon.

Admission to MIT is highly competitive. The institute seeks exceptional students who are not only academically proficient but also exhibit initiative and intellectual curiosity.

MIT's student body is diverse, encompassing a wide range of personalities and interests. This diversity reflects the institute's philosophy that "MIT is as hard as you want to make it." While the journey may be challenging, MIT ensures that students come out better than they went in.

One of the remarkable aspects of MIT is its focus on fostering personal growth and individual learning styles. As Michael Plasmeier, a management and computer science student, notes, "Information is not spoon-fed**; you need to find your own personal style of learning." This emphasis on self-discovery and adaptability prepares students for the real world, where innovation and problem-solving often require unconventional approaches.

(Retrieved from: https://www.theguardian.com/education/)

Notes*:

**QS –Quacquarelli Symonds – A British company specializing in education analytics;*

**to be spoon-fed – to be given too much help or information.*

Exercise 22

a. Find in the Text.

1. Why is MIT called "№1 university"?
2. Read one sentence that shows MIT is hard to study at.
3. What 2 things does MIT want in students?

b. Quick Online Search (circle best answer).

1. A fun fact about MIT:

a. MIT has a chocolate lab;

b. Students built a rollercoaster;

c. All dorms have pools.

2. Tick real MIT graduates:

a. Elon Musk;

b. Harry Potter;

c. SpongeBob;

d. Tony Stark;

e. Kofi Annan.

3. Research one famous invention, startup, or policy created by MIT students/alumni that changed society. Draw it and write 1 sentence:

"This helps people by _____."

SPEAKING

Exercise 23

Interview an MIT Student.

a. Prepare Questions.

Work with a partner. Imagine you want to study at MIT. Write 6 questions to ask a current MIT student. Use these categories:

1. Courses & Studies

Example: ***"What subjects are the most challenging?"***

2. Daily Life

Example: ***"How do you manage your time?"***

3. Admissions & Scholarships

Example: ***"What tips do you have for applicants?"***

b. Role-Play Conversation. Take turns being the interviewer (Student A) and the MIT student (Student B). Use your questions and ask 2 follow-up questions (e.g., ***"Why do you think that subject is hard?"*****).**

WRITING

Exercise 24

Writing a Motivation Letter for University.

a. Analyze the model letter. Underline all verbs in the Past Simple and Present Perfect. Circle three phrases used to express purpose or future goals .

Degree: Master

Major: Computer Science

University: Harvard University, USA

Author: Peter Atkins

Dear Admissions Committee,

I am Peter Atkins, a Network Engineer at Americatelecom and a recent Computer Science graduate from Princeton University. My B.Sc coursework in Artificial Intelligence, Software Engineering, and Network Security provided a strong theoretical foundation, which I applied in developing my research paper "Machine Learning Approaches for Detecting Zero-Day Cyber Threats" that achieved 92% threat detection accuracy in tests.

My goal is to specialize in AI-driven cybersecurity to address real-world challenges like protecting critical infrastructure from state-sponsored hacking attempts. Harvard's Cybersecurity Lab under Professor James Walden aligns perfectly with this vision due to its groundbreaking work in developing neural networks that predict emerging cyberattack patterns.

I am eager to contribute to Harvard's academic community through the Engineering Student Research Initiative and innovate solutions that bridge technology and societal needs. My experience in network protection systems combined with Harvard's resources will help me develop next-generation defense mechanisms against evolving cyber threats. Thank you for your consideration.

Sincerely,

Peter Atkins

b. Plan Your Letter

Use this structure:

1. Introduction – Who are you? What program do you want?

2. Your Skills – What have you studied/achieved? (Give 2 examples.)

3. Why This University? – Name one reason (e.g., a famous lab or professor).

4. Future Goals – How will this degree help your career?

c. Write & Improve

1. Write your letter (150–200 words).

2. Swap with a partner. Check:

Formal language (no slang);

Clear examples.

Theme 2.3. HIGHER ENGINEERING EDUCATION IN RUSSIA

LEAD-IN

a. Work in pairs and explain how you understand the quotation:

"Knowledge is of no value unless you put it into practice."

Anton Chekhov

- Do you agree with this statement, especially for engineers?
- Can you think of an example where theoretical knowledge became a revolutionary practical application?

b. Test Your Knowledge!

1. How long does a standard Bachelor's degree in engineering take in Russia?
   a) 3 years
   b) 4 years
   c) 5 years
2. What is the main exam for university admission in Russia?
   a) SAT

b) Unified State Exam (USE)

c) A-Levels

3. Russian engineering programs typically include compulsory humanities courses as part of the curriculum.

a) True

b) False

KEY WORDS AND WORD COMBINATIONS

admission	[ədˈmɪʃn]	поступление, приём
competitive	[kəmˈpetɪtɪv]	на конкурсной основе
comprehensive	[ˌkɒmprɪˈhensɪv]	общеобразовательный, всесторонний
contribution	[kɒntrɪˈbjuːʃn]	вклад, содействие
core subjects	[kɔː(r) 'sʌbʤɪkts]	основные, базовые предметы
curriculum	[kəˈrɪkjʊləm]	учебная программа
high academic performance	[haɪ ækəˈdemɪk pəˈfɔːməns]	превосходная академическая успеваемость
highly skilled	[ˈhaɪlɪ skɪld]	высококвалифицированный
humanities	[hjuːˈmænɪtɪz]	гуманитарные предметы
opportunity	[ɒpəˈtjuːnɪtɪ]	возможность
to advance	[tə ədˈvɑːns]	продвигать, развивать
to last	[tə lɑːst]	продолжаться, длиться
to specialise in engineering in depth	[tə ˈspeʃəlaɪz ɪn enʤɪˈnɪərɪŋ ɪn depθ]	углубляться в изучение инженерных наук /получить специализацию
training	[ˈtreɪnɪŋ]	обучение, подготовка
Uniform State Examination	[ˈjuːnɪfɔːm steɪt ɪgzæmɪˈneɪʃn]	Единый Государственный Экзамен
well-rounded education	['wel'raundɪd 'edju'keɪʃ(ə)n]	всестороннее образование

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Which of the following words have the stress on the second syllable?

research, curriculum, core, competitive, range, opportunities, humanities, performance, uniform, admission.

VOCABULARY

Exercise 3

Which word is odd?

1. dissertation, Bachelor, Master, Specialist diploma, Candidate of Sciences;
2. degree, exam, diploma, certificate;
3. full-time, part-time, correspondence, qualification;
4. curriculum, dissertation, thesis, research paper;
5. admission, enrollment, graduation, application.

Exercise 4

Match the words with their definitions.

1) curriculum	a) a widely recognized standard of achievement
2) admission	b) the subjects that form the main part of a program
3) qualification	c) the process of being accepted into a program
4) core subjects	d) the range of courses offered by an institution
5) opportunity	e) a chance for advancement or progress

Exercise 5

Complete the table with the correct verb, noun or adjective forms.

Verb	**Noun**	**Adjective**
to apply		
	specialisation	
to qualify		
		competitive
to admit		

Exercise 6

a. Make up all possible word combinations.

1) to fall into	a) high academic performance
2) to demonstrate	b) highly skilled engineers
3) to study	c) opportunity
4) to produce	d) categories
5) to provide	e) research
6) to be interested in	f) humanities
	g) core subjects
	h) training

b. Make your own sentences with the word combinations from (a).

Exercise 7

Understanding Latin Abbreviations in Academic Texts

Academic writing often uses concise Latin abbreviations. Knowing them is crucial for understanding academic texts.

a. Study the following abbreviations:

Abbreviation	**Latin**	**English**
i.e.	id est	that is
e.g.	exempli gratia	for example
etc.	et cetera	and so on
vs. or v.	versus	against
C.V.	curriculum vitae	course of life
P.S.	post scriptum	after what has been written

b. Choose the correct abbreviation (i.e., e.g., etc.) to complete the sentences.

1. Renowned universities _____ MIPT, MIREA and MISIS are known for engineering.
2. The final requirement, _____ the state exam, is challenging.
3. Students can specialize in various fields _____ robotics, thermodynamics, _____.
4. To apply for this research position, please submit your full _____.
5. The keynote lecture will focus on the advantages of traditional lectures _____ online courses.
6. Thank you for your application. _____**.** Please note that the interview dates are flexible.

Exercise 8

Forming the Plural

a. Study the following examples:

Forming	**Singular**	**Plural**

-us →-i	alumnus syllabus	alumni syllabi
-um→-a	curriculum datum medium	curricula data media
-on→-a	criterion phenomenon	criteria phenomena
-is→-es	thesis analysis	theses analyses

b. Complete the sentences using the correct plural form of the words from the table above.

1. As successful _____, we are now in a position to help younger students. (alumnus)
2. The _____ for the engineering and computer science programs are very demanding. (curriculum)
3. The researcher presented the _____ from her experiment, which clearly supported her hypothesis. (datum)
4. Modern _____ like television, radio, and the internet shape public opinion. (medium)
5. The professor has very strict _____ for excellent academic writing. (criterion)
6. New _____ in physics often challenge our understanding of the universe. (phenomenon)
7. She reviewed several _____ on artificial intelligence before starting her own research. (thesis)
8. Their _____ of the market trends were crucial for the company's new strategy. (analysis)

Exercise 9

Complete the following sentences using words with Latin origin (in singular or plural form where necessary). The first letter is given.

1. The **c**_____ at MIT has a strong focus on technical and analytical skills, leadership and communication skills, and includes opportunities to engage deeply with top global companies.
2. This research was a part of my master **t**_____.
3. The study found that digital **m**_____ are becoming an increasingly large part of everyday life.
4. Ilon Mask is an **a**_____ of the University of Pennsylvania.
5. The **p**_____ of climate change continues to be a topic of intense scientific research.
6. The team of scientists conducted in-depth **a**_____ of the **d**_____ to understand AI challenges.
7. The university's admission **c**_____ include grades, test scores, and personal essays.

GRAMMAR

Study grammar rules on the use of the PERFECT PASSIVE TENSES (see GRAMMAR REFERENCE p.425)

Exercise 10

a. Read each sentence and underline the time clue (e.g., "By the time...", "After...", "Before..."). Then, choose the correct perfect tense required by the context: Present Perfect, Past Perfect, or Future Perfect.

Model: By the time she completes her studies, Sarah (will have gained / had gained) a degree in psychology.

Time Clue: By the time she completes... (future)

Tense: *Future Perfect*

1. By now, the students have completed their final projects.

2. After years of hard work and dedication, their long-term goals *had been achieved/ had achieved*, bringing them a sense of fulfillment.
3. Before the article was published, extensive research *will be conducted/had been conducted* to gather substantial evidence.
4. A long process of publishing a new book in English *has just been completed/had just completed.*
5. By the time graduation comes around, all the required exams *will have been passed/had been passed,* demonstrating the students' academic proficiency.
6. The specifications for the new engineering curriculum will have been finalized / will have finalized by the academic committee next month.

b. Complete the sentences. Choose the correct form, focusing on whether the subject is doing the action (Active) or receiving it (Passive).

1. All the demands of the project (*have met / have been met*), ensuring its successful completion.
2. This issue (*has not been studied / has not studied*) experimentally.
3. The specifications for the new engineering curriculum (*will have been finalized / will have finalized*) by the academic committee next month.
4. The final version of the thesis (*has been submitted / has submitted*) to the examination board.

Exercise 11

a. Put the words in brackets in the correct form.

1. Will the laboratory equipment _____ by next month? (to repair)
2. By 2025, however, none of these goals _____. (to achieve)
3. Will the program _____ by tomorrow? (to install)
4. The research _____ yet. (not to complete)
5. Unfortunately, the final prototype _____ by Monday. (not to deliver)
6. All the demands of the project _____. (to meet)
7. Their innovative design _____ for the national engineering award last year. (not to nominate)

8. The new computer lab _____ by June 2026. (to open)

b. Choose 1 verb from the list. For each verb make sentences in Present, Past and Future Perfect Passive: *to achieve, to evolve, to develop, to aim, to specialize in, to determine, to tailor, to fulfill*.

Model: to approve

Present Perfect Passive: The new curriculum *has been approved* by the academic board.

Past Perfect Passive: The research grant *had been approved* before the team ordered the equipment.

Future Perfect Passive: All theses *will have been approved* by the end of July.

Exercise 12

a. Translate sentences from Russian into English using Passive voice.

1. Письма будут отправлены всем первокурсникам к пяти часам.
2. Вузом уже достигнут ряд важных целей, некоторые из них упомянуты в докладе ректора университета.
3. В этом году образовательные программы нашего вуза были адаптированы к потребностям каждого студента.
4. Все требования к проекту были выполнены командой к установленному сроку.
5. Перед тем как поступить на работу, она получила диплом по специальности "компьютерные технологии", что значительно расширило её карьерные возможности.
6. Университетская библиотека будет открыта к сентябрю.
7. ЕГЭ был сдан к середине лета.
8. К началу сентября для проекта были разработаны три информационных интернет-портала.

b. There are Passives in the text (Ex.13). Find them and comment on their use.

READING

Exercise 13

Read and translate the text. While reading:

1. **Underline at least three words with Latin origins.**
2. **Circle all Latin abbreviations.**
3. **Fill in the graphic organizer below with information from the text.**

Structure of Higher Engineering Education in Russia

Level of Education	**Duration (Full-Time)**	**Key Features**
Bachelor's Degree	4 years	
Master's Degree		
Specialist's Degree		
Postgraduate (Candidate of Science)		Requires defense of a thesis with original research.

HIGHER ENGINEERING EDUCATION IN RUSSIA

Higher education in Russia has a wide range of opportunities, including engineering programmes provided by both state and non-state accredited higher education institutions. These institutions fall into different categories such as national

universities (e.g., Moscow State University and St. Petersburg State University), federal universities, national research universities, universities, academies, and institutes. Admission to engineering universities is competitive and

selection criteria are based on the results of the Uniform State Examination (USE). Future engineering students are required to demonstrate high academic performance, especially in subjects related to the chosen speciality, such as mathematics, physics, computer science etc.

According to the 2012 "Law on Education" there are such qualifications of higher engineering education in Russia as Bachelor's, Master's, and Specialist's diploma.

Undergraduate programmes typically take four years of full-time study. Part-time and e-learning (or correspondence) are available for those who work but take more time to complete. The curriculum for engineering students in Russia is highly structured and challenging. Alongside core subjects such as maths and physics, students also study humanities such as history, philosophy, and foreign languages. This is because a well-rounded education is necessary to produce highly skilled engineers who are able to think critically and creatively. Undergraduate engineering programmes are practice-oriented with an emphasis on fundamental engineering disciplines. Graduates of Bachelor's programmes can work as engineers, project managers or technical consultants in various industries. After obtaining a bachelor's degree, graduates can continue their education by pursuing a master's degree. Master's programmes usually last two years and provide the opportunity to specialise in engineering in depth. However, some engineering professions may only require a specialist degree.

A Specialist degree programme is a traditional form of Russian higher education lasting for five years. It provides comprehensive and specialised training in engineering disciplines. Each stage of engineering education ends with a degree paper (a graduation thesis) and a final state examination.

For those who are interested in advanced engineering research, postgraduate studies are available (usually 3-4 years), including Candidate of Science and Doctor of Science degrees. These degrees are awarded after the defence of a thesis in the form of a public presentation and scientific debates demonstrating original research results that significantly advance the engineering science.

Engineering education in Russia has always been characterized by competitive admissions and rigorous academic standards. Graduates have the opportunity to assist the development of various industries as engineers, researchers, and innovators, and to pursue higher education to make significant contributions to the advancement of engineering science.

Exercise 14

Find in the text terms for the definitions. What do we call:

a) the courses offered by an educational institution;

b) a department of a higher school where students study in the evening;

c) exams in Russia that pupils take after finishing school;

d) academic disciplines that are considered essential for students to learn;

e) a department of a higher school where students study in the day time;

f) an examination administered at the end of the university course;

g) a department of a higher school at which students study on their own and only come to the school at the examination time;

h) a research paper defended in order to obtain a doctoral degree;

i) promotion or elevation to a higher rank or position;

j) the act or process of accepting someone as a student at a school?

Exercise 15

Answer the questions.

1. What are the different categories of higher education institutions in Russia?
2. What is the admission procedure in Russian engineering universities?
3. What qualifications of higher engineering education exist in Russia?
4. How long does it typically take to complete an undergraduate programme?
5. What do engineering students study?
6. Where can graduates of bachelor's programmes in engineering work?
7. How long do Specialist degree programmes last?
8. Are there any postgraduate programs at Russian universities? What are they?

Exercise 16

a. Decide if the statements below are true or false. Use formulas of agreement and disagreement.

1. Engineering programmes in Russia are provided only by state higher education institutions.
2. Future engineering students are required to demonstrate high academic performance in subjects related to their chosen speciality.
3. Undergraduate engineering programmes in Russia typically take three years of full-time study.
4. The curriculum for engineering students in Russia is highly structured and includes only core subjects such as maths and physics.
5. Graduates of Bachelor's programmes in engineering have excellent career prospects.
6. After obtaining a Bachelor's degree, graduates cannot continue their education.
7. Specialist programmes in engineering provide comprehensive and specialised training in engineering disciplines.
8. There are no engineering postgraduate programmes in Russia.

b. Make up your own true or false statements.

c. Work in pairs. Read your statements to each other and agree or disagree with them. If you disagree, correct the statement.

Exercise 17

a. Match the degree level with potential career paths.

Degree Level	Sample Career Paths
1. Bachelor's	a) Research Scientist, University Professor, R&D Director

2. Master's / Specialist	b) Engineer, Project Manager, Technical Consultant, Software Developer
3. Candidate of Sciences	c) Lead Engineer, System Architect, R&D Team Lead, Start-up Founder
4. Doctor of Sciences	d) Senior Research Fellow, Chief Technology Officer (CTO), Head of Innovation

Discussion: Which path seems the most interesting to you and why?

Exercise 18**

Web Quest

a. Choose one of the leading Russian technical universities below. Visit its official English website and find the answers to these questions. Prepare a short (2-minute) presentation for the class.

Universities to choose from:

Peter the Great St. Petersburg Polytechnic University (SPbPU);

National Research Nuclear University MEPhI;

Moscow Institute of Physics and Technology (MIPT);

Ural Federal University (UrFU);

Novosibirsk State University (NSU).

b. Questions to answer:

1. What are 3 most interesting Bachelor's or Master's programs offered in English?
2. What is the approximate tuition fee for international students?
3. Can you find information about international student dormitories?
4. What is one famous research achievement or laboratory associated with this university?
5. Does the university have a "Preparatory Course" for international students? What does it include?

WATCHING AND LISTENING

Exercise 19

You are going to watch a video about Russian Technological University MIREA.

a. BEFORE YOU WATCH. Answer the questions:

1. What do you think makes a university "technological"?
2. What facilities and opportunities would you expect to find at a modern technological university?

b. WHILE YOU WATCH.

Watch a video about MIREA University at https://vkvideo.ru/video-231870953_456239033 .

Put the words in brackets in the correct form.

1. Will the laboratory equipment _____ by next month? (to repair)
2. By 2025, however, none of these goals _____. (to achieve)
3. Will the program _____by tomorrow? (to install)
4. The research _____ yet. (not to complete)
5. Unfortunately, the final prototype _____ by Monday. (not to deliver)
6. All the demands of the project _____. (to meet)

7. Their innovative design _____ for the national engineering award last year. (not to nominate)

8. The new computer lab _____ by June 2026. (to open)

Listen for the first time and choose the main purpose of this video:

a) to provide a detailed history of technological education in Russia;

b) to advertise RTU MIREA and attract potential students;

c) to explain the differences between various engineering degrees.

Watch the video again and complete the summary. Use the words and numbers from the box and the numbers you.

4,000 • 500 • 3,500 • seven • cutting-edge • hands-on

1. RTU MIREA has _____ campuses in Moscow.
2. The university offers more than _____ state-sponsored scholarships.
3. There are _____ beds in dormitories for students.
4. Students can choose from _____ educational programmes.
5. The university's labs are furnished with advanced tools to work with _____ systems.
6. The culture of the university is based on _____ learning.

c. AFTER YOU WATCH

Answer the questions:

1. According to the students, what is the university's infrastructure like? Mention at least two details.
2. What kind of practical skills do students mention learning? (e.g., handling the darknet, etc.)
3. Why do the students say that an employer would recognize a degree from RTU MIREA?
4. What personal reasons did one of the students give for being interested in technology from a young age?

5. How does the video describe the overall atmosphere and the type of people at the university?
6. What was the most impressive or interesting thing for you in this video?
7. Based on the video, name three main advantages of studying at RTU MIREA.

SPEAKING

Exercise 20

1. **Group Work. You are an admissions team for the Russian Technological University.** Create a 3-minute pitch to attract international students to your university. Use the information from the WebQuest and the key vocabulary from this unit.

What to include:

- Strengths and reputation of the university.
- Unique programs or specializations.
- Campus life and opportunities for students.
- Career prospects after graduation.
- Persuade your classmates that your university is the best choice!

2. Create a Quiz: In your group, create a short quiz with 5 questions “Higher Education in Russia and abroad" based on unit 2.

Compete: Your group will present your quiz to another group. They will answer, and you will act as the judge, checking their answers. Then, you will answer their quiz. The group with the highest total score wins the title of "Top Admissions Experts"!

WRITING

Exercise 21

Task: Write a short compare-and-contrast paragraph (100-150 words) on the following topic:

"The Key Differences Between the Specialist Degree and the Bachelor/Master System in Russian Engineering Education."

To help you write, use this outline:

Sentence 1 (Introduction): Introduce the two systems that exist in Russian engineering education.

Sentences 2-3 (The Specialist Track): Describe the key features of the Specialist degree (duration, focus, outcome).

Sentences 4-5 (The Bachelor/Master Track): Describe the key features of the Bachelor/Master system (duration, structure, flexibility).

Sentence 6 (Conclusion): Conclude by stating the fundamental difference between them**.**

Useful Phrases:

Whereas..., In contrast..., On the other hand..., However....

The primary difference is..., Another key distinction..., While the first system... the second....

In conclusion..., Ultimately..., Therefore, the choice depends on....

UNIT 3.

Different Countries. Different Worlds.

Theme 3.1. A TALE OF TWO NATIONS DIVIDED BY ONE LANGUAGE

3.1.1. History, Geography and Economic Landscape of the UK

LEAD-IN

Look at the picture of the White Cliffs of Dover. For centuries, these cliffs have been the first sight of Britain for many people arriving by sea. The Latin word for "white" is *albus*, which is the origin of the old name for Britain, "Albion."

Why do you think a country with such a bright, white landmark is also known as "Foggy Albion"?

KEY WORDS AND WORD COMBINATIONS

ancient	[ˈeɪnʃənt]	древний
cattle	[ˈkætəl]	крупный рогатый скот
cereals	[ˈsɪəriəlz]	злаковые культуры
chemicals	[ˈkemɪkəlz]	химическая продукция
coal	[kəʊl]	уголь
coastline	[ˈkəʊstlaɪn]	побережье
hill	[hɪl]	холм
humid	[ˈhjuːmɪd]	влажный
independence	[ˌɪndɪˈpendəns]	независимость
indigenous population	[ɪnˈdɪdʒɪnəs ˌpɒpjəˈleɪʃən]	коренное население
island	[ˈaɪlənd]	остров
latitude	[ˈlætɪtjuːd]	широта
maritime	[ˈmærɪtaɪm]	морской
mild	[maɪld]	мягкий
petroleum	[pəˈtrəʊliəm]	нефть, нефтепродукты
poultry	[ˈpəʊltri]	птицеводство
rolling plain	[ˈrəʊlɪŋ pleɪn]	холмисто-равнинная местность
shipbuilding	[ˈʃɪpbɪldɪŋ]	кораблестроение
temperate	[ˈtempərɪt]	умеренный
topography	[tɒˈpɒgrəfɪ]	рельеф, ландшафт
to aid in	[tə eɪd in]	помогать, способствовать
to be located	[tə bi ləʊˈkeɪtid]	быть расположенным
to be made up of	[tə bi ˌmeɪd ˈʌp əv]	состоять из
to conquer	[tə ˈkɒŋkə]	завоёвывать
to defeat	[tə dɪˈfiːt]	победить, нанести поражение
to found	[tə faʊnd]	основывать
to inhabit	[tə ɪnˈhæbɪt]	населять

to invade	[tə ɪnˈveɪd]	вторгаться

VOCABULARY

Exercise 1

Look at these easily confused words. Use dictionaries to tell the difference.

Channel v. Canal

Economy v. Economics

Exercise 2

Match each group of words with a general term describing them. Continue the lists.

1) hill, plain, mountain …	a) industry
2) snowy, foggy, windy ...	b) terrain
3) shipbuilding, petroleum processing, metalwork …	c) agriculture
4) poultry, cattle breeding …	d) body of water
5) lake, river, ocean …	e) weather

Exercise 3

a. Match the words with similar meaning. Mention the difference if there is any. Use dictionaries if necessary.

1) windy	a) mist
2) wet	b) temperate
3) mountain	c) blowy
4) fog	d) rock
5) rainy	e) humid
6) mild	f) drizzly

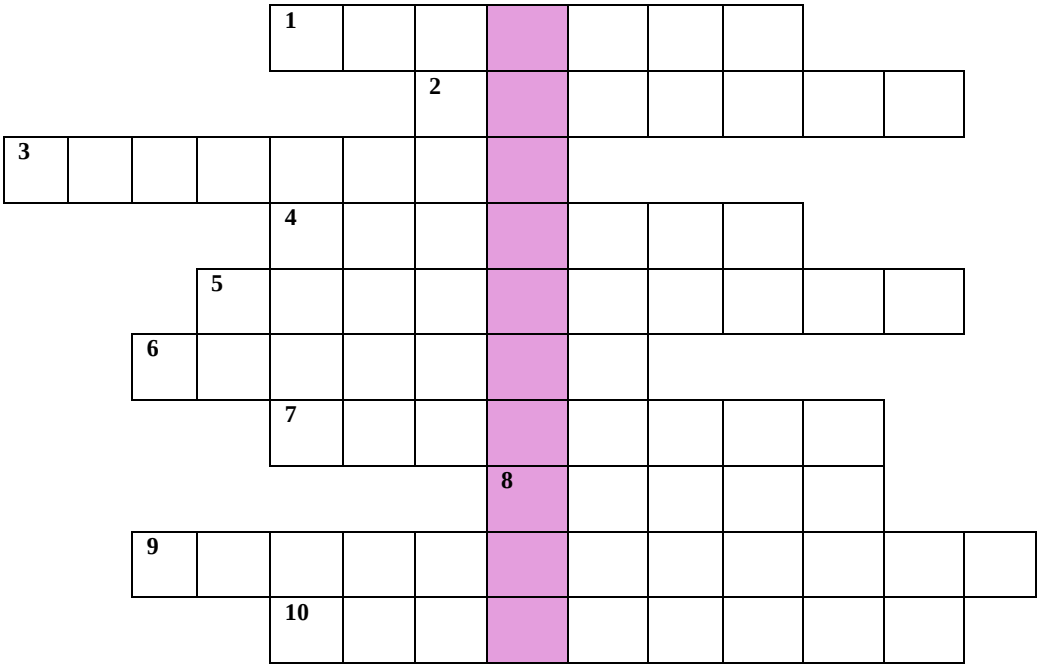

b. Match the words with opposite meaning.

1) humid	a) hilly

2) cloudy	b) rainy
3) sunny	c) arid
4) flat	d) overcast
5) dry	e) clear

Exercise 4

Solve the clues and read the keyword highlighted in blue.

1. Something used to transport people or goods.
2. To live in or occupy a place.
3. The metal tracks on which trains run.
4. Belonging to the very distant past and no longer in existence.
5. The arrangement of the natural and artificial physical features of an area.
6. To take control of a place or people by military force.
7. A raised part of the earth's surface, much larger than a hill.
8. A body of salt water larger than a sea.
9. The activity of building ships.
10. A part of the land next to the sea.

Exercise 5

a. Match these terms with Russian equivalents.

1. chemicals	a) гора
2. coal	b) железная дорога
3. mountain	c) химическая продукция
4. railroad	d) уголь
5. tribe	e) транспортное средство
6. vehicle	f) племя

b. Match the words with their definitions and translate them into Russian.

1) independence	a) the position north or south of the equator
2) maritime	b) a piece of land that is completely surrounded by water
3) latitude	c) to enter a country or region by force and occupy it
4) invade	d) different types of grain used for food
5) island	e) the science or practice of farming
6) defeat	f) large animals with horns, domesticated for meat or milk
7) agriculture	g) near the sea or coast
8) cereals	h) freedom from being governed or ruled by another country
9) cattle	i) to win a victory over someone in a battle

Exercise 6

a. Match the verbs (1-8) with the nouns (a-h) to make common word combinations.

1) to conquer	a) cities
2) to found	b) independence
3) to inhabit	c) invaders
4) to achieve	d) islands
5) to be made up of	e) control
6) to maintain	f) the land

7) to fight off g) a country

b. Make your own sentences with these word combinations.

Model:

*The ancient Romans **founded cities** all across Europe.*

GRAMMAR

There + to be

Study grammar rules on the use of THERE + TO BE (see GRAMMAR REFERENCE p.429)

Exercise 7

Fill in the gaps using the constructions given in the box. Translate the sentences into Russian.

There was / There will be / There are (x3) / There has been (x2) / There were

1. Before the Roman conquest, _____ a period of Celtic rule in Great Britain.
2. In the UK today, _____ many historical landmarks, such as Stonehenge and the Tower of London.
3. _____ three countries on the island of Great Britain: England, Scotland, and Wales.
4. _____ a long-standing monarchical tradition in Britain for centuries.
5. After World War II, _____ significant economic challenges that the UK had to face.
6. Recently, _____ much debate about the UK's relationship with the European Union.
7. In the future, _____ new challenges and opportunities for the British economy.

8. _____ several key sectors that drive the British economy, such as finance, manufacturing, and creative industries.

Exercise 8

Rewrite the sentences so they mean the same as the first. Use *There + to be* construction:

1. Throughout history, many different peoples invaded the British Isles.	There were…
2. In the past, England and Scotland often fought against each other.	In the past, there…
3. Great Britain faced numerous economic and political challenges after World War II.	
4. Great Britain has a variety of landscapes, including mountains, plains and coastlines.	
5. Nowadays, many people worry about the influence of climate change on the United Kingdom.	
6.It often rains in England.	
7. A lot of rivers and lakes contribute to the water supply in Great Britain.	

Exercise 9

Translate the sentences form Russian into English using *There + to be* construction.

1. В Британии комфортный для человека умеренный климат.
2. В составе Великобритании находятся три страны.
3. Были времена, когда основными источниками пищи были злаки, овощи и местная рыба.
4. Ещё до прибытия римлян на Британских островах существовали человеческие поселения.
5. После правления Генриха VIII в Великобритании происходили религиозные конфликты.

6. В Британии есть сильные промышленные отрасли, такие как автомобилестроение или судостроение.

7. В Британии по-прежнему существуют споры о влиянии Брексита на экономику островного государства.

8. До объединения с Англией в Шотландии был собственный король.

READING

Exercise 10

a. Before you read, discuss these questions with a partner:

1. **What do you already know about the United Kingdom? List 3 facts.**
2. **Look at the title and the map. What information do you expect to find in this text? (e.g., geography, history, culture)**
3. **What is the difference between the United Kingdom and Great Britain?**

b. Read the text "THE UNITED KINGDOM: AN OVERVIEW" and explain the use of articles.

THE UNITED KINGDOM: AN OVERVIEW

The United Kingdom (UK) is an island nation located in Northwestern Europe. Its official name is the United Kingdom of Great Britain and Northern Ireland (Great Britain includes only England, Scotland, and Wales). The UK's land area is made up of the island of Great Britain, Northern Ireland, and many smaller nearby islands. The UK has coastlines along the Atlantic Ocean, the English Channel, and the North Sea.

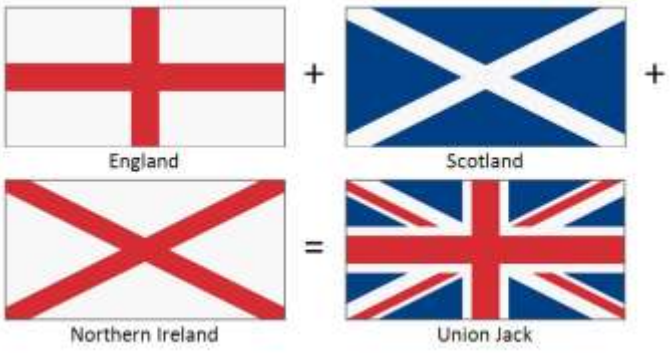

Formation of the United Kingdom

The UK has a long history. The indigenous population was later influenced by various tribes, including the Celts. In AD 43, Britain was conquered by the Romans, who maintained control for centuries. They brought with them writing, ancient culture, and crafts. They built fortresses*, roads, and founded cities such as Londinium (London).

After the Roman era, the Anglo-Saxons came to inhabit the land. They established kingdoms that later united to fight off Viking invaders, leading to the

formation of England. In 1066, the Normans, led by William the Conqueror, defeated the English. This Norman rule aided in significant cultural and political development.

The unification of the UK was a gradual process. In the 13th century, England took over Wales. To secure control, the title of "Prince of Wales" was given to the English king's heir, a tradition that continues today. In 1707, Scotland joined to form the Kingdom of Great Britain. A legislative union with Ireland took place in 1801. After a long conflict, most of Ireland gained independence in 1922, forming the Irish Free State (now the Republic of Ireland), while Northern Ireland remained part of the UK.

Geography and Climate of the United Kingdom

The United Kingdom is located in Western Europe to the northwest of France and between the North Atlantic Ocean and the North Sea. Its capital and largest city is London, but other large cities are Glasgow, Birmingham, Liverpool, and Edinburgh. The UK has a total area of 243,610 square kilometres.

The UK's topography consists of hills, low mountains, and gently rolling plains in the eastern and southeastern areas. The highest peak is Ben Nevis at 4,406 feet (1,343 m), located in the northern UK in Scotland.

The climate of the UK is considered temperate and mild despite its latitude close to the North Pole. Its humid climate is determined by the relatively small size of the territory, its maritime location and the proximity* of the Gulf Stream. So, the UK is known for being very cloudy and rainy throughout much of the year.

Economy and Land Use in the United Kingdom

The United Kingdom has the third largest economy in Europe and is a global financial hub. There is a major financial center in London, which is home to the London Stock Exchange, one of the oldest and largest stock exchanges in the world.

The majority of the UK's economy is within the service and industrial sectors. There are many key industries, including shipbuilding, aircraft and motor vehicle manufacturing, railroad equipment, electronics and communications equipment, petroleum processing, metalwork, chemicals, coal, petroleum, and food processing.

Jobs in agriculture represent less than 2% of the workforce. Despite this small percentage, there is a diverse range of agricultural production. The main products are cereals, vegetables, cattle, sheep, poultry, and fish.

Notes:

**fortresses [ˈfɔːtrəs] - крепости*

**proximity [prɒkˈsɪməti] - близость*

Exercise 11

Find English equivalents of the following words and phrases in the text:

1) островная страна
2) состоять из
3) населять
4) племя
5) древний
6) ремёсла
7) способствовать
8) законодательный союз
9) юго-восточный
10) морское расположение
11) транспортное средство
12) уголь

Exercise 12

Answer the questions.

1. What parts does the UK consist of?
2. According to the text, which group conquered Britain in AD 43?
3. What long-term impacts did the Romans have on the British Isles, according to the text? (Name at least two).
4. How was England formed?
5. How did the Irish Free State appear?
6. What does the topography of the UK consist of?
7. What is the typical weather in the United Kingdom like?
8. What is the largest sector of the UK's economy?
9. What industrial products does the UK produce?
10. What agricultural products does the UK produce?

Exercise 13

Mark the following statements as true or false.

Statement	**True**	**False**
1. The United Kingdom and Great Britain are the same thing.		
2. Britain was never conquered by foreign invaders.		
3. Scotland was formally united with England in the 18th century.		
4. London is not the only large city in the UK.		
5. The UK highest mountain is located in Wales.		
6. The UK is famous for its harsh winters and snowy weather.		
7. Agriculture represents the biggest part of the workforce.		
8. The UK produces a lot of agricultural products such as poultry and fish.		

WATCHING AND LISTENING

Exercise 14

You are going to watch a video about the United Kingdom's geography and history at https://vkvideo.ru/video-231870953_456239034 and complete the tasks below.

a. BEFORE YOU WATCH. Answer the preliminary questions:

- Have you ever been to the United Kingdom? If yes, what places did you visit? If no, would you like to go there? What would you like to see?
- What do you already know about the UK's geography, culture, or history?

b. Here are some key words from the video. Match them with their definitions.

1. terrain (n)	a) to start living in a place permanently
2. invaders (n)	b) the natural home of a plant or animal
3. lochs (n)	c) the physical features of an area of land
4. glaciers (n)	d) people who enter a country by force
5. habitat (n)	e) the Scottish word for lakes
6. to settle down (v)	f) a slow-moving mass of ice

c. WHILE YOU WATCH

Part 1 (Start - 2:25): Answer these questions about geography and early history.

1. Which four nations make up the United Kingdom? Which three nations comprise Great Britain?
2. Who were the first Britons? Where did they come from?
3. Who gave the name "England" to the country, and what does it mean?
4. Is the UK covered by thick forests today? What percentage of the land is forest?

Part 2 (2:25 - End): Answer these questions about empire and modern government.

5. What generated immense wealth and helped create the huge British Empire?
6. When and why did most British colonies become independent?
7. What did the council of advisors to the king eventually expand into?
8. Does the British monarch have political power today?

d. AFTER YOU WATCH

Complete the summary. **Use the words the box below.**

terrain / invaders / lochs / wildlife species / Celts / mountain ridges / habitat / settled down / marshes / landscapes / tall cliffs / glaciers

Most of the Northern and Western part of the UK is covered in high-ground and (1) _____ separated by deep valleys. This (2) _____ was formed in the last ice age when thick (3) _____ covered it completely. North-west England and the Scottish Highlands are home to dozens of lakes known as (4) _____. British people are the creation of waves of (5) _____ and migrants, including the (6) _____, Romans, and others. Many came from former colonies and (7) _____ in the UK during the 1950s and 60s.

The UK's geology gives rise to a wide variety of (8) _____ and habitats for its plants and animals. The most successful (9) _____ live alongside humans. The rugged mountains offer a (10) _____ that is relatively untouched, and the shoreline, from (11) _____ to (12) _____, also provides homes for wildlife.

WRITING

Exercise 15

Writing a Summary

a. Answer the question: What characteristics should a proper summary have?

b. Watch a video at https://vkvideo.ru/video-231870953_456239058 .

Mark the statements as True or False. Justify your answers.

Statement	True	False
1. The primary goal of a summary is to state the main ideas of the original text in your own words.		
2. A summary should be significantly shorter than the original source.		
3. You should include specific examples, statistics, and minor details from the text in your summary.		
4. It is acceptable to copy full sentences from the original text as long as you use quotation marks.		
5. A summary should be objective and should not include your personal opinions or analysis.		
6. A well-structured summary should have a clear topic sentence, supporting sentences, and a concluding sentence.		

c. Based on the video and the true/false exercise, list the 3-5 most important rules for writing a good summary.

d. Write a summary of the text "THE UNITED KINGDOM: AN OVERVIEW" (from the Reading section). Use the rules you have just learned. (Approx. 100-150 words).

Exercise 16

Jigsaw Summary and Peer Review

Part 1: Expert Groups

1. **Split into three "Expert Groups": Group A, Group B, and Group C.**
2. **Each group reads and summarizes a different article:**

Group A: Scotland - A Short History

Group B: Irish Culture: 9 Things That Make Our Little Island Tick

Group C: Geography and Fun Facts About Great Britain

In your Expert Group, discuss the main ideas of your article. Then, individually, write a summary (100-150 words).

Part 2: Form new groups with at least one person from **Group A, one from Group B, and one from Group C**. **Exchange your summaries with your new groupmates**.

Read the article that your partner summarized (e.g., if you read Article A, now read Article B). Assess your partner's summary. Use the checklist below. Provide constructive feedback.

The summary captures the main idea of the article.
It is concise and written in the student's own words.
It is objective (no personal opinion).
The grammar and spelling are correct.
Feedback: One thing done well is ... One thing to improve is ...

SPEAKING

Exercise 17

Expert Group Presentations

Work in small groups (2-3 students). Each group will become an expert on one of the topics below.

Group 1: Nations and Identity: Research the four nations of the UK. What are some key cultural, historical, or political differences between England, Scotland, Wales, and Northern Ireland?

Group 2: A Sporting Nation: Research the role of sport in British culture. Which major sports originated in the UK? Choose one (e.g., football, rugby, cricket) and explain its significance.

Group 3: Literary Heritage: Research great authors from the UK (you may choose one specific author or a literary period). How has British literature influenced the world?

Group 4: Natural Environment: Research the flora and fauna of the British Isles. What are some native species, and what are the major environmental challenges they face?

Group 5: The UK Economy: Research the three sectors of the UK economy (primary, secondary, tertiary). What is the current biggest contributor to the economy, and what are key future trends?

Prepare a Mini-Presentation to share your findings with the class.

3.1.2. History, Geography and Economic Landscape of the US

LEAD-IN

Two famous writers had very different views on the discovery of America:

“It was wonderful to find America, but it would have been more wonderful to miss it”

Mark Twain

"The discovery of America was a turning point in history, marking the beginning of a new era of exploration, colonization, and globalization"

Francis Fukuyama

Discuss with your group:

Who do you agree with more, and why?

KEY WORDS AND WORD COMBINATIONS

border	['bɔ:də]	граница
Columbus	[kəˈlʌmbəs]	Колумб
desert	[ˈdezət]	пустыня
diversity	[daɪˈvɜ:rsətɪ]	разнообразие
explorer	[ekˈsplɔ:rə]	исследователь
food processing	[fu:d ˈprəʊsesɪŋ]	пищевая промышленность
grain	[greɪn]	зерно, зерновые культуры
mining	[ˈmaɪnɪŋ]	горнодобывающая промышленность
mountain ranges	[ˈmaʊntɪn ˈreɪndʒɪz]	горные хребты

nation’s wealth	[ˈneɪʃən welθ]	национальное богатство, богатство страны
Native Americans	[ˌneɪtɪv əˈmerɪkənz]	коренные американцы
opportunity	[ɒpəˈtjuːnɪtɪ]	возможность
Pacific Ocean	[pəˈsɪfɪk ˈəʊʃən]	Тихий океан
plain	[pleɪn]	равнина
terrain	[təˈreɪn]	рельеф, местность
to be washed by	[tə biː wɒʃt baɪ]	омываться
to border (with, on)	[tə ˈbɔːdə(r)ən]	граничить
to establish	[tə ɪˈstæblɪʃ]	основывать, создавать
to vary	[tə ˈværi]	варьироваться

VOCABULARY

Exercise 1

a. Match types of terrains with images.

rainforest	*desert*	*prairie*	*plain*	*mountain ranges*

A.

B.

C.

D.

E.

b. Which of these terrains do you think are most common in the USA? Discuss with a partner.

Exercise 2

Match types of climates with their definitions. Use dictionaries if necessary.

1) tropical climate	a) an extremely hot and dry climate, characterized by small number of animal and plant species;
2) arid climate	b) is characterized by relatively moderate annual temperatures and distinct seasonal changes;
3) arctic climate	c) the rainy and hot climate, zones of this climate receive more solar energy than anywhere else;
4) temperate climate	d) a climate characterized by cool summers and very cold winters.

Exercise 3

Fill in the gaps using the words from Key Words and Words Combinations section.

1. The northern border of the country also has _____ which are hundreds of meters high above sea level.
2. _____ is best known for his voyages across the Atlantic Ocean, which ultimately led to the European awareness of the Americas.
3. The USA _____ the Atlantic Ocean, the Pacific Ocean, and the Arctic Ocean.
4. _____ in the United States is a vital economic sector that extracts over 80 types of minerals, including coal, copper, gold, iron ore, and rare earth elements.
5. The USA _____ Canada in the north and Mexico in the south.
6. A great _____ of climate zones owes to a wide range of topography.
7. A _____ is an area, often covered with sand or rocks, where there is very little rain and not many plants.

GRAMMAR

Some/Any/No/Every

Study grammar rules on the use of SOME/ANY/NO/EVERY (See GRAMMAR REFERENCE p.438)

Exercise 4

Read the sentences from the text in Exercise 7. Complete the rules and the table below using the highlighted words.

1. **Some** other big and important cities are New York, Boston, Chicago, Detroit, Los Angeles, etc.
2. America needs to preserve and encourage this diversity, while making sure that **everyone** has equal opportunity to succeed.

3. The country has **no** borders with other countries except for Canada and Mexico.

4. The major characteristic of the United States is probably its great variety, much greater than in almost **any** country.

5. For years, it was thought that the United States was and should be a 'melting pot' – in other words, that people from **everywhere** would come and adopt the American culture as their own.

A. Complete the grammar rules:

- *We use (1) _____ in positive statements to talk about an indefinite quantity or number.*
- *We use (2) _____ in negative sentences and questions.*
- *We use (3) _____ to mean 'not any'.*
- *We use every- with singular nouns to mean 'all' or 'each'.*

B. Categorize the highlighted words from the sentences (1-5) in the table below.

Pronoun/Adverb	**Meaning / Use**	**Example from the text**
Some	An indefinite amount or number (in positive statements)	
Any	Used in questions and negative sentences	
No	Not any; not one	
Every-	Means 'all' or 'each'. Used with: one, thing, where, body.	

Exercise 5

You are reading the comments on a popular travel blog about the USA. Several comments have grammar mistakes with some, any, no, or every-. Find the errors and rewrite the comments correctly.

Blog Post User Comments:

1. **@WanderingSoul:** "I'm planning a trip to the Southwest. Does anyone know something about good hiking trails in the desert?"
2. **@HistoryBuff88:** "I have **any** understanding of the colonial history of Virginia, so I found Williamsburg fascinating."
3. **@MountainLover:** "I visited the Great Plains. It's amazing! There are no mountains **nowhere**!"
4. **@GlobalTraveler:** "Are there **some** traditional festivals in Louisiana that a tourist can attend?"
5. **@ScottishVisitor:** "I don’t know **nothing** about the Rocky Mountains, but the photos are breathtaking. I must go!"
6. **@EconomyWatcher:** "The USA has a diverse economy. However, **any** key industries are facing challenges.
7. **@**Songbird: 'We sang 'Country Roads' on the bus! **Everyone** in my tour group know the words
8. **@UK_Travel_Compare:** "I was surprised. There are **none** ancient Roman ruins in the USA, unlike here in Britain."

Exercise 6

Translate the sentences from Russian into English.

1. Существуют ли какие-нибудь документы о ранних торговых путях на территории Англии?
2. В истории Британии не было ни одной войны за независимость.
3. Я прочитал много статей о погоде в Лондоне. Джон не прочитал ни одной.
4. Любой автобус отсюда довезёт тебя до станции метро «Пентагон Сити».
5. Как-то можно добраться из Филадельфии в Бостон?
6. Любой может приехать и восхититься красотой Шотландии.
7. Ты знаешь что-нибудь об автомобилестроении Соединённых Штатов?
8. Все в США знают про события Гражданской войны.

9. Благодаря разнообразной географии, в США можно встретить практически любой тип климата.
10. Ты знаешь что-нибудь о климатических зонах Соединённого Королевства?

READING

Exercise 7

a. Practice saying these geographic names from the text. Mark the stress. Translate them into Russian.

1. Pacific Ocean [pəˈsɪfɪk ˈəʊʃən]
2. Atlantic Ocean [ətˈlæntɪk ˈəʊʃən]
3. Arctic Ocean [ˈɑːktɪk ˈəʊʃən]
4. Alaska [əˈlæskə]
5. Mississippi River [ˌmɪsɪˈsɪpi ˈrɪvər]
6. Great Basin [greɪt ˈbeɪsən]
7. Hawaii [həˈwaɪi]
8. Florida [ˈflɒrɪdə]

b. Draw a simple outline map of the USA. Based on the names you just learned and your own knowledge, try to label the following on your map *before* you read the text:

- The three oceans that border the country.
- The two countries it borders.
- The state of Alaska.
- (Approximate location of) the Mississippi River.

c.Read the text about the USA and be ready to do the tasks that follow. Check your map as you read.

THE UNITED STATES OF AMERICA. AN OVERVIEW

The USA is the third-largest country in the world by size (after Russia and Canada) and by population (after India and China). In 2024, the population in the United States exceeded 340,000,000. The national capital is Washington D.C. Some other big and important cities are New York, Boston, Chicago, Detroit, Los Angeles, etc.

Geography and Climate

The USA is washed by the Pacific Ocean in the west, the Atlantic Ocean along the eastern coast, and Alaska is washed by the waters of the Arctic Ocean. The country has no borders with other countries except for Canada and Mexico. The major characteristic of the United States is probably its great variety, much greater than in almost any country. Its physical environment ranges from arctic to subtropical, from the moist rainforest to the arid desert, from mountain ranges to plains and flat prairies; some areas feature volcanic topography.

Like its terrain, the climate of the U.S. also varies depending on location. It is considered mostly temperate but is tropical in Hawaii and Florida, arctic in Alaska, semiarid in the plains west of the Mississippi River and arid in the Great Basin of the southwest.

Economy and Agriculture

The nation’s economic wealth is partly a reflection of its rich natural resources and its enormous agricultural output, but it owes more to the country’s highly developed industry. The main industries include petroleum, steel, motor vehicles, aerospace, ship-building, telecommunications, chemicals, electronics, mining, and food processing. The country’s agriculture is wide-spread and highly mechanized. Agricultural production, though only a small part of the economy, includes grains, fruit, vegetables, cotton, beef, pork*, poultry, dairy products*, and fish.

History and Population

The story of the United States is defined by its people. The first inhabitants were Native Americans, whose ancestors migrated from Asia thousands of years ago. The first European explorer credited with reaching the New World was Christopher Columbus in 1492. Shortly after, Amerigo Vespucci recognized it as a new continent, and his achievement led to it being named "America". Beginning in the 17th century, the British established permanent colonies along the eastern coast, thoroughly implanting British culture, governance, and language. The USA formally came into existence on July 4, 1776, when thirteen of these colonies declared independence from Britain.

Since its founding, the U.S. has been a nation of immigrants. For a long time, the prevailing idea was that America was a "melting pot", where different cultures would blend into a single American identity. More recently, this concept has been compared to a "mosaic", highlighting the strength found in diversity, where individual cultural identities are preserved and valued as part of the whole nation. This ongoing dialogue reflects the country's core values of opportunity and the unique contributions*** of all its people.

Notes:

**pork [pɔːk] - свинина*

**dairy products [ˈdeərɪ ˈprɒdʌkts] - молочные продукты*

**contributions [ˌkɒntrɪˈbjuːʃənz] - вклад*

Exercise 6

Find English equivalents to the words given below.

1. омываться
2. Северный Ледовитый океан
3. граничить
4. пустыня
5. умеренный
6. хлопок
7. молочные продукты
8. исследователь
9. достижения
10. разнообразие

Exercise 7

Qualify the statements as true or false:

1. The USA is the first-largest country in the world by population.
2. Rich natural resources contribute significantly to the nation’s wealth.
1. The U.S. climate varies greatly depending on location.
2. Petroleum and motor vehicles are among the main U.S. industries.
3. Agricultural production makes up the largest part of the U.S. economy.
4. The ancestors of Native Americans originally migrated from Asia.
5. Christopher Columbus was the first European to reach America.
6. The American continent was named after Christopher Columbus.
7. The USA as a country began in 1776.

Exercise 8

a. Answer the questions.

1. How big is the population of the country?
2. What oceans is the USA washed by?
3. What types of terrain are there in the USA?

4. What climate zones does the United States include?
5. What are the main industries in the country?
6. What agricultural products are present in the USA?
7. What is known about the first people that inhabited the American continent?
8. What were the respective roles of Christopher Columbus and Amerigo Vespucci in the European discovery and naming of America?
9. Why was the culture of the American colonists thoroughly British?
10. What is the difference between the idea of a 'melting pot' and the idea of a 'mosaic'?

b. Compare and Contrast. Work with a partner. Based on the information from the text (Exercise 7) and Unit 3.1.1. discuss what do you think is the biggest difference between the two countries? What is the most surprising similarity?

WATCHING AND LISTENING

Exercise 9

You are going to watch a video about Washington D.C., the capital of the United States at https://vkvideo.ru/video-231870953_456239036 .

Complete the tasks below.

a. BEFORE YOU WATCH

Discuss with a partner:

- What comes to mind when you think of Washington D.C.? List 3-4 monuments, buildings, or symbols.
- If you were to visit, what would you be most interested in seeing and why?

b. WHILE YOU WATCH

Watch the first part of the video (Start - 1:30) and decide if these statements are True (T) or False (F).

1. Washington D.C. is located on the banks of the Delaware River.
2. The city was founded as the nation's capital in the 18th century.

3. The National Mall is a large shopping center.
4. The White House is the official residence of the U.S. President.
5. The Washington Monument is the tallest structure in the city.

Answer these questions in your own words (1:30 - End).

6. What is the purpose of the many memorials around the Reflecting Pool?
7. Name one museum mentioned that is interactive or good for families, and explain what you can do there.
8. Besides the National Mall, what are two other interesting districts or areas to visit in Washington D.C.?
9. Where is the "Eternal Flame" located, and who does it honor?

c. AFTER YOU WATCH

Imagine you are a tour guide. A visitor only has time to see two places from the video. Which two do you recommend and why? Use the language below to help you.

I would highly recommend visiting _____ because it is the most famous landmark for ...

For a different experience, you should see _____. It offers a chance to [learn about/see/experience] ...

The _____ is a must-see due to its historical significance/beautiful architecture/unique exhibitions.

SPEAKING

Exercise 10

Plan your one- or two-day trip across Washington DC and describe it. When would you go there? What places would you visit in the morning? In the afternoon? In the evening? What means of transport would you prefer? Find

some supplementary information on the Internet. Tell your groupmates about your trip.

WRITING

Exercise 11

Writing a Tourist Leaflet

a. Read the tips on writing a leaflet.

When writing a tourist leaflet, do not forget to mention the following things:

1. Brief description of a place.

You need to describe the place you invite people to. Use as picturesque language as you can to persuade tourists to visit your place.

2. Any preparation needed?

Is your place challenging? Do you invite people to visit vast and thick woods? Or the place you want to attract people to is a high and unfriendly mountain? Prepare your target audience to it! Perhaps, one should have some specific equipment, skill or knowledge.

3. How to reach/go?

You should answer the question "How can I get there?" Describe means of transport and routes to the place. Tell which transport and route will be cheaper, faster, and more comfortable. For example, people can go to your place *by plane/by train/by bus/by car/by bicycle*, or *on foot*.

4. Where to stay?

If you describe a place to visit, you need to mention some places to stay! Name *hostels* and *hotels* which are available for tourists. Also, you can mention some other ways to find a shelter like *apartments/houses for daily rent* or *home swap*.

5. What to see?

Here, name landmarks you find interesting and exciting. It could be *buildings*, *monuments*, *areas*, *mountains*, *rivers* or even *natural phenomena*. You know some unique *restaurants*, *museums* or *theaters*? Mention them! Also, you can tell your

readers about *"hidden gems"* which are unknown to the majority of tourists but certainly worth seeing!

6. Best time to visit.

It is a very bad idea to go to Murmansk to watch the northern lights in June or go to Japan to see cherry blossom in December, right? Mention the best time for visiting in your tourist leaflet.

b. Create a Tourist Leaflet.

Choose ONE of the following options:

- **A leaflet for a 2-day trip to Washington D.C., using the information from the video and your own research.**
- **A leaflet for a road trip across one region of the USA.**

Theme 3.2. COMPARING POLITICS IN THE UK AND THE US

3.2.1. Political System of the UK

LEAD-IN

Answer the question.

What is this building called, and what is its primary political function?

Comment on the quote by Sir Winston Churchill.

"The monarchy is so extraordinarily useful. When Britain wins a battle she shouts, God, save the Queen; when she loses, she votes down the prime minister".

Winston Churchill

KEY WORDS AND WORD COMBINATIONS

bicameral legislature	[baɪˈkæmərəl ˈledʒɪslətʃə]	двухпалатное законодательство
constitutional monarchy	[kɒnstɪˈtjuːʃənəl ˈmɒnəkɪ]	конституционная монархия
elections	[ɪˈlekʃəns]	выборы
executive branch	[ɪgˈzekjʊtɪv brɑːntʃ]	исполнительная ветвь власти
government	[ˈgʌvərnmənt]	правительство
House of Commons	[haʊs ɒv ˈkɒmənz]	Палата о́бщин
House of Lords	[haʊs ɒv lɔːdz]	Палата лордов

issue	[ˈɪʃuː]; [ˈɪsjuː]	предмет, вопрос
judge	[dʒʌdʒ]	судья
judicial branch	[dʒuːˈdɪʃəl brɑːntʃ]	судебная ветвь власти
legal document	[ˈliːgəl ˈdɒkjəmənt]	юридический документ
legislative branch	[ˈledʒɪslətɪv brɑːntʃ]	законодательная ветвь власти
Member of Parliament (MP)	[ˈmembə ɒv ˈpɑːləmənt]	член парламента, депутат
parliamentary democracy	[ˌpɑːləˈmentərɪ dɪˈmɒkrəsɪ]	парламентская демократия
Supreme Court	[suːˈpriːm kɔːt]	Верховный Суд
to appoint	[tuː əˈpɔɪnt]	назначать
to implement	[tuː ˈɪmplɪmənt]	выполнять, осуществлять, реализовывать
to make laws	[tuː meɪk lɔːz]	создавать законы, заниматься законотворческой деятельностью
to run the government	[tə rʌn ðə ˈgʌvərnmənt]	управлять государством
uncodified	[ˌʌnˈkəʊdɪfaɪd]	некодифицированный

VOCABULARY

Exercise 1

Internet activity. Look at these usually confused words referring to politics and organizational structure of nations. Search for information on the Internet and explain the difference between them.

Exercise 2

Group the following words according to their stress pattern.

appoint / constitutional / issue / Parliament / parliamentary / government / Supreme / Commons / elections / bicameral / legislature / judicial / democracy / monarchy / implement

1st syllable is stressed	2nd syllable is stressed	3rd syllable is stressed

Exercise 3

Match the words with their definitions and translate them into Russian.

1) constitutional monarchy	a) a form of monarchy where the monarch holds supreme autocratic authority, not restricted by written laws or a legislature;
2) absolute monarchy	b) the branch of government having the power to make laws;
3) executive branch	c) a legislature with two houses, or chambers;
4) legislative branch	d) the head of government in a country with a parliamentary or semi-presidential political system;
5) judicial branch	e) a system in which the king or queen's power is severely limited, because they act only on the advice of the politicians who form the government;
6) bicameral legislature	f) a formal statement of a planned new law discussed before being voted on;

7) Prime-Minister	g) a definite course or method of action selected from among alternatives and in light of given conditions to guide and determine present and future decisions;
8) bill	h) the branch of government responsible for the interpretation of laws and the administration of justice;
9) policy	i) the branch of government responsible for the execution and enforcement of laws and policies and the administration of public affairs.

Exercise 4

a. Examine the table of possible collocations with the word "laws". Find out the meaning of each collocation using the dictionaries and translate them into Russian.

to make/pass	laws/legislation
to remove	
to break	
to implement	
to enforce	
to approve	
to introduce	
to revise	

b. Use verbs from (a) to complete the sentences.

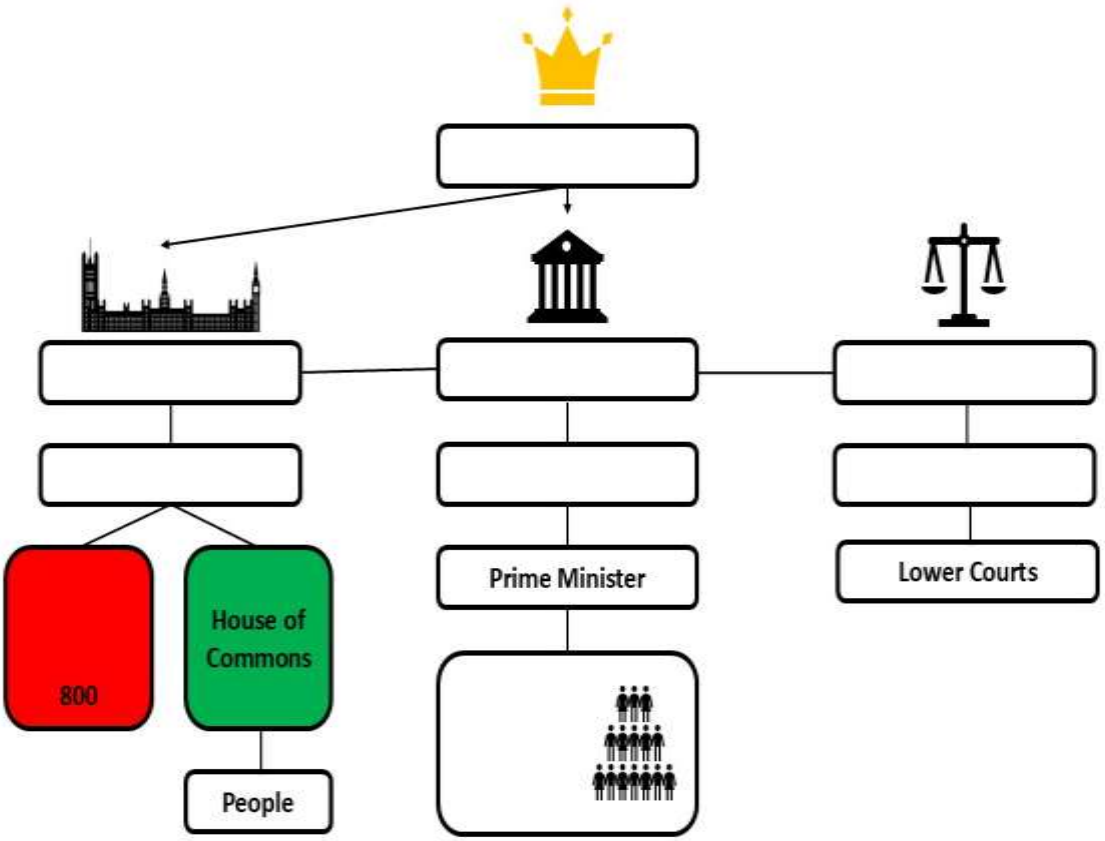

1. House of Commons is authorized to _____, or, in other words, create laws.
2. Police have the duty to _____ laws and arrest criminals.
3. After much public debate, the parliament decided to _____ the outdated tax legislation.

4. Government needs to _____ the new law on education and reduce the school dropout.
5. Antisocial people are more likely to _____ laws.
6. On the other hand, the courts not being the legislative branch are not empowered to _____ laws.
7. The opposition plans to _____ a new bill to protect the environment.
8. The president has the power to _____ or veto the laws passed by the legislature.

READING

Exercise 5

Read the text and translate it. While reading, use the information in the text to complete the following diagram of the UK's political system.

THE UK POLITICAL SYSTEM

Who is in charge of the UK?

The United Kingdom is a parliamentary democracy under a constitutional monarchy. This means that a monarch, currently King Charles III, serves as the head of state while the Prime Minister of the United Kingdom serves as the head of the government. The Monarch does not get to make most of the decisions about how the government is run;

that job belongs to the Prime Minister, or PM. Nowadays, the Monarch's role is mostly ceremonial.

Speaking of legislature, it is necessary to remember that the United Kingdom has no codified and written constitution. On the contrary, the UK has an uncodified constitution: its rules have never been written down together in a single legal document and some have not been written down at all.

Branches of power in the UK

In the UK, power is divided among three branches: the legislative, executive, and judicial branches. **The legislative branch** is responsible for making new laws and removing old ones. The UK has a bicameral legislature, i.e. this power is held by Parliament, which is made up of the House of Lords and the House of Commons. The House of Commons is the lower chamber. It is made up of 650 Members of Parliament (MPs), each elected in one of 650 constituencies throughout the UK. The key functions of the House of Commons are to make laws, to inspect the work of the executive branch, and to debate important issues.

At present, the House of Lords (the upper chamber) has about 800 members. Most of them are appointed by the Monarch on the advice of the Prime Minister or the Appointments Commission. The House of Lords shares many of the functions of the lower House and its main role is to revise legislation introduced in the House of Commons.

The executive branch is empowered to implement and enforce laws and represented by the British Government. The Prime Minister, as the leader of the Government, is formally appointed by the Monarch and works on behalf the Monarch. In fact, the Prime Minister is the leader of the party that wins most seats at a general election. The UK Government consists of the Cabinet which usually includes about 20 heads of the government departments and other ministers. The Prime Minister hires

and fires the Cabinet ministers, directs and coordinates the work of the Government, and represents the country in international relations.

The role of **the judicial branch** is to interpret and apply laws made by Parliament. It oversees both public and private law through civil and criminal courts. The highest court in the country is the Supreme Court of the United Kingdom. Its judges are appointed by the Monarch on the advice of the Prime Minister based on their legal expertise and experience. They are independent of the legislative and the executive branches and their decisions are based on the law.

Exercise 6

Find English equivalents of the following words and expressions in the text.

1) глава правительства / государства
2) церемониальный
3) законодательство
4) кодифицированный
5) юридический документ
6) исполнительная ветвь власти
7) двухпалатный
8) Палата общин
9) вопрос
10) выборы
11) Верховный Суд
12) судья

Exercise 7

Answer the questions.

1. Which form of government is there in the UK?
2. Who makes decisions about how the government is run?
3. Who is the Monarch in the UK nowadays?
4. How can the UK constitution be characterized?
5. Who holds the power to make new laws and remove old ones?
6. What legislature does the United Kingdom have?
7. What are the functions of the House of Commons?
8. What are the functions of the House of Lords?
9. Who controls the executive power in the UK?
10. What is the function of the judicial branch?

Exercise 8

Read the false statements. Use the information from the text to correct each statement.

1. King or Queen of England is both the head of the government and the head of state.
2. The United Kingdom has an ancient codified constitution.
3. Powers in Great Britain are not separated.
4. Both chambers of British Parliament are elected by ordinary people.
5. The UK Government works on behalf of the Prime Minister.
6. The judicial branch in the UK functions in the tight cooperation with the legislative and the executive branches of the country.

GRAMMAR I

Degrees of Comparison

Study grammar rules on the use of ADJECTIVES COMPARISON (See GRAMMAR REFERENCE p.433)

Exercise 9

Complete the sentences using prompts given in brackets. Put adjectives in either comparative or superlative form. Translate the sentences into Russian.

1. The UK has _____ (developed) system of constitutional monarchy in the world.
2. The British Parliament is _____ (old) than most parliaments in Europe.
3. The Supreme Court is _____ (high) judicial authority in the UK.
4. Political parties in Britain are _____ (diverse) now than they were a century ago.
5. The UK has _____ (long) continuous parliamentary tradition in the world.
6. The role of the monarch is _____ (little, powerful) today than it was historically.
7. The British political culture is one of _____ (rich) in Europe.
8. The Conservative Party is _____ (successful) political party in British history.
9. The House of Lords is _____ (large) than the House of Commons.
10. The Queen Elizabeth II is _____ (long-reigning) monarch in British history.

Exercise 10

Translate the sentences from Russian into English.

1. Палата лордов насчитывает большее количество членов, чем Палата общин.
2. Монарх обладает меньшим количеством политических полномочий, чем раньше.
3. Британский парламент является одним из старейших в Европе.
4. Букингемский дворец – это одна из самых известных королевских резиденций в мире.
5. Белфаст – самый молодой столичный город Соединённого Королевства.
6. Политические дебаты в Британском Парламенте более оживленные, чем в других парламентах Европы.
7. Северная Ирландия обладает более разнообразной партийной системой, чем Уэльс.

8. Система правления в Соединённом Королевстве намного сложнее, чем многие думают.

9. Уровень автономии Шотландии выше, чем у Уэльса.

10. Чем больше узнаёшь об истории Британии, тем яснее понимаешь: Лондон уже много столетий — один из важнейших городов планеты.

WATCHING AND LISTENING

Exercise 11

The UK Parliament Structure Explained.

You are going to watch a video at https://vkvideo.ru/video-231870953_456239037

about how the UK Parliament works.

a. BEFORE YOU WATCH: Quick Guess!

With a partner, take 1 minute to make your best guess:

1. How many politicians are in the UK's main elected chamber?
   a) 325 b) 650 c) 1,200
2. How does someone become the Prime Minister?
   a) The public votes for them directly.
   b) The King/Queen chooses them.
   c) They lead the party that wins the most seats.
3. The House of Lords is full of people who:
   a) Are elected every 5 years.
   b) Are experts appointed for life.
   c) Are all members of the royal family.

b. WHILE YOU WATCH: Fill in the Blanks

Watch the video and complete these key sentences.

The House of Commons is the _____ chamber of Parliament.

They belong to either a political party or are _____.

Parties not in power are called _____.

The House of Lords is the second chamber and shares the _____ of laws.

The monarch's role is mainly _____.

c. AFTER YOU WATCH:

Roleplay: You are a tour guide outside the Houses of Parliament. A tourist asks you the questions below. How do you answer in your own words?

Tourist 1: "This 'House of Commons'... who are these people and what do they actually *do* all day?"

- **Your Answer:**

Tourist 2: "I heard there's also a 'House of Lords.' That sounds old-fashioned! Why does it still exist?"

- **Your Answer:**

Tourist 3: "So, does the King just live in his palace, or does he have a real job in government?"

- **Your Answer:**

d.If you want to study this topic in more detail and test your advanced understanding, do the task in the Supplementary materials section *VIDEO 1***.**

GRAMMAR II

Countable and uncountable nouns

Study grammar rules on the use of COUNTABLE AND UNCOUNTABLE NOUNS (See GRAMMAR REFERENCE p.430)

Exercise 12

The words below are directly connected with the topic of the UK Parliament. Using the Oxford English dictionary website (or app), decide if each word is Countable (C), Uncountable (U), or can be Both (B).

monarchy government constitution legislation constituency
law advice election policy opposition power

Countable	Uncountable	Both
…	…	…

Exercise 13

Choose the correct variant in italics.

1. The news about the election results *is/are* surprising, and two *MP/MPs* have already made statements.

2. There are *many/much* political parties in the UK, but only *a few/little* of them have *much* power.

3. How *many/much* influence does the media have on public *opinion/opinion*s?

4. Many/much constituencies need more funding for *these/this* programs.

5. The Parliament has two main *chamber/chambers*, and each *plays/play* an important role.

6. A few/a little ministers proposed *little/few* policies to improve education.

7. *Many/Much* attention is given to human rights in UK *law/laws*.

8. The *power/powers* of democracy *is/are* strong only when there *are/is* separate and independent branches of government, each with its own *powers/power*.

SPEAKING

Exercise 14

The UK System in 60 Seconds

Choose one of the topics below. Prepare a 60-second talk explaining it. Your goal is to be clear and convincing.

Topic 1: The Monarchy's Real Power

Explain what power the King *really* has in politics today. Is he a powerful ruler or a symbolic figure? Give one example.

Topic 2: The Two Houses

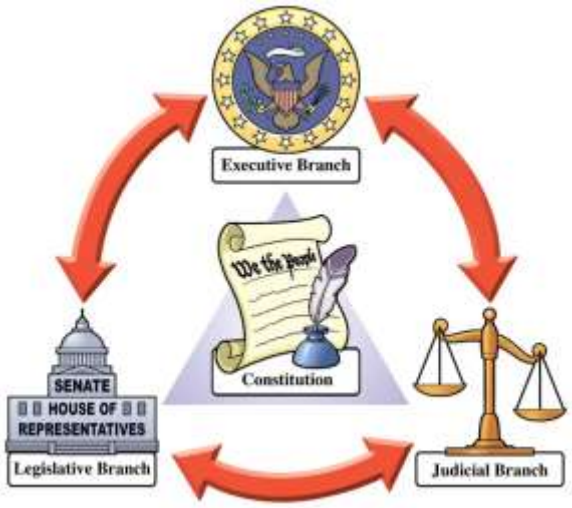

The House of Commons is elected, but the House of Lords is not. In your opinion, what is one strength and one weakness of having an unelected chamber?

Topic 3: Your Opinion

The UK is a democracy, but its system has unelected members and a hereditary monarch. Do you think this is a contradiction? Why or why not?

3.2.2. Political System of the USA

LEAD-IN

The USA is famous for its checks and balances system. What does it mean and how does it work? Look at the picture and try to guess.

KEY WORDS AND WORD COMBINATIONS

autocratic rule	[ɔːtəʊˈkrætɪk ruːl]	автократическое правление
Commander-in-Chief	[kəˈmɑːndərɪnˈtʃiːf]	Верховный главнокомандующий
Congress	[ˈkɒŋgres]	Конгресс
emergence	[ɪˈmɜːdʒəns]	появление
government	[ˌgʌvərnˈmentl]	правительство
House of Representatives	[haʊs ɒv ˌreprɪˈzentətɪvz]	Палата представителей
Navy	[ˈneɪvɪ]	военно-морской флот
power	[ˈpaʊə]	власть
Senate	[ˈsenɪt]	Сенат
system of checks and balances	[ˈsɪstɪm ɒv ʧeks ænd ˈ 'bæləns əz]	система сдержек и противовесов

term	[tɜːm]	срок
tie	[taɪ]	равенство голосов
to appoint	[tə əˈpɔɪnt]	назначать
to collect taxes	[tə kəˈlekt ˈtæksɪz]	собирать налоги
to elect	[tə ɪˈlekt]	избирать
to establish	[tə ɪˈstæblɪʃ]	создавать, учреждать
to impeach	[tə ˌɪmˈpiːtʃ]	объявлять импичмент
to interpret	[tə ɪnˈtɜːprɪt]	толковать, объяснять
to override a veto	[tə ˌoʊvəˈraɪd əˈviːtoʊ]	преодолевать вето
to reject a law	[tə reˈject ə lɔː]	отклонять закон
to rule	[tə ruːl]	править
to take a post	[tə teɪk ə pəʊst]	занимать должность

VOCABULARY

Exercise 1

Choose the correct term from the box to complete each sentence.

Congress, Commander-in-Chief, system of checks and balances, collect taxes, appoint, autocracy, interpret

1. The U.S. _____ consists of two chambers: the Senate and the House of Representatives.
2. The President's most important military title is _____ of the armed forces.
3. The _____ ensures that no single branch of government becomes too powerful.
4. A key function of government is to _____ from citizens and businesses.

5. The President can _____ Supreme Court justices, but the Senate must confirm them.

6. In an _____, a single ruler holds all political power, unlike in a republic.

7. The Supreme Court's main role is to _____ the laws and the Constitution.

Exercise 2

a. Match words and word combinations with the definitions. Translate them into Russian.

1) presidential republic	a) country in which power is held by elected representatives;
2) parliamentary republic	b) the form of government where the main role in the management and formation of the state structure is played by the parliament;
3) democracy	c) a country governed by a single person or small group that has unlimited power;
4) autocracy	d) the form of government where the main role is played by a president who is both the head of state and the head of government.

b. Fill in the gaps using the words and word combinations from (a).

1. In a _____, the head of government is the prime minister, who is elected by the parliament and is responsible for running the government.

2. _____ is a system of government that emphasizes the participation and representation of its citizens.

3. _____ suppressed dissent and political opposition, leaving little room for freedom of expression.

4. The _____ model provides a clear separation of powers between the branches of government and allows for a strong executive authority.

Exercise 3

a. Match the left column with the right one and complete the word combinations. Use dictionaries if necessary.

1) to interpret	a) the position
2) to collect	b) the country
3) to elect	c) the laws
4) to take	d) a veto
5) to override	e) the President
6) to rule	f) taxes

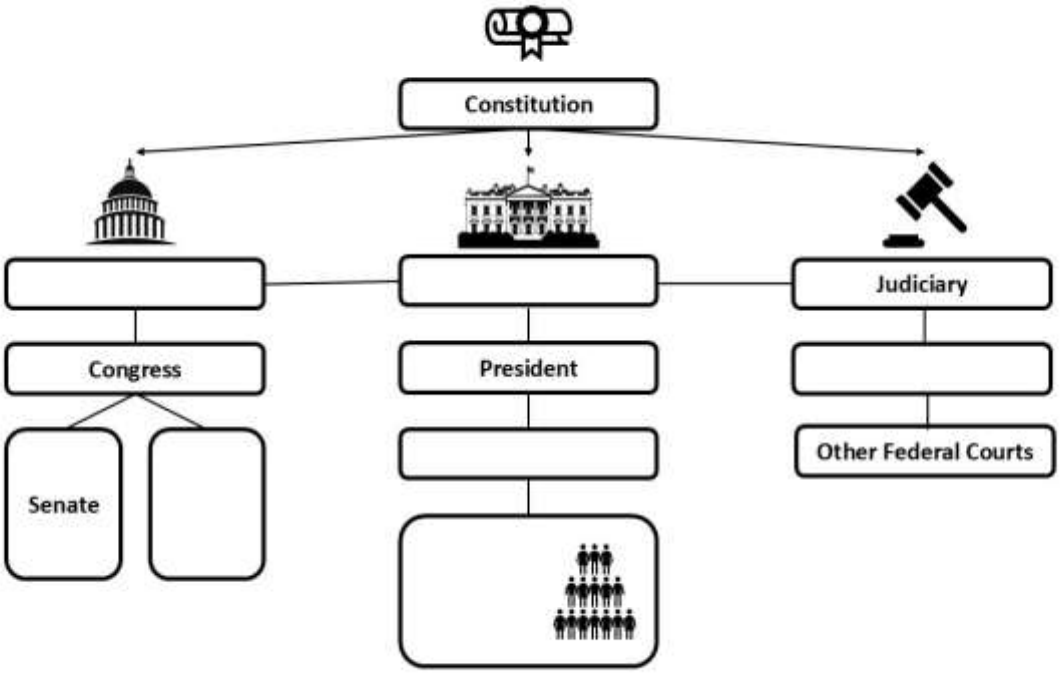

b. Fill in the gaps using the word combinations from the previous part of the exercise.

1. The main job of the judicial branch is to _____.
2. After receiving this position, in the future, you can _____ of director.
3. Congress has the power to _____ on income.
4. The winners should be given the right to _____.
5. Congress must _____ a presidential _____ if necessary.
6. If no candidate receives an absolute majority of the electoral votes, the House of Representatives _____.

READING

Exercise 4

Read the text and translate it. While reading, use the information in the text to complete the following diagram of the US political system.

THE U.S. POLITICAL SYSTEM

The United States is **an indirect democracy** – that is, the people rule through representatives they elect. In the US government, power is divided among three branches: the legislative, executive, and judicial branches.

The legislative branch, also called Congress, has a variety of powers, e.g. it writes the laws governing the country, it is also empowered to declare war on other countries, elect the president in case of a tie, impeach politicians at the federal level, etc. It consists of two parts - the Senate and the House of Representatives. The members of both chambers are directly elected by the people of each state. There are 100 senators (two from each state) and 435 representatives (the House of Representatives is meant to directly represent the will of the people, so each state gets a number of

representatives proportional to its population). Senators serve a six-year term. Representatives serve a two-year term.

The executive branch of government is responsible for enforcing the laws of the land, i.e. making sure the laws are executed. It is made up of the President, the Vice-President, the Cabinet and a number of independent federal agencies which regulate specific areas. The Cabinet includes the heads of 15 executive departments appointed by the President. The head of the executive branch and the country is the President who is also the Commander-in-Chief of the Army and Navy. The President and the Vice-President are elected by the Electoral College for a four-year term. They must be thirty-five years old or more and natural-born citizens – they cannot come from another country. The President can serve two four-year terms.

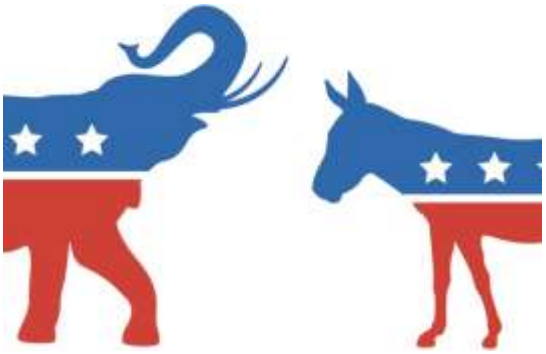

The judicial branch interprets (explains) the laws and makes sure that new laws are in keeping with the Constitution. There are several levels of federal courts. The Supreme Court is the most important since it is the last court to hear cases. Its decisions are final. There are nine Supreme Court justices who are appointed for life by the President.

The system of checks and balances, established by the Constitution, is meant to prevent any branch from having too much power. Each branch has certain controls over the other branches. For example, Congress makes the laws, but the President can veto, or reject, a law. Congress may override a veto from the President if two-thirds of each chamber vote in favour. The Supreme Court can decide a law is unconstitutional. The Senate, in turn, to further check the power of the President, must approve each

Cabinet member and Supreme Court justices before they take their post. So, the system of checks and balances is meant to prevent the emergence of autocratic rule.

The United States is a living example of **federalism**. In a federalist system, there are individual states, each with its own government, and there is a federal, or national, government. The Constitution gives certain powers exclusively to the federal government, other powers belong to the state governments, and yet other powers to both. For example, only the national government can print money, the states establish their own school systems, and both the national and the state governments can collect taxes.

The United States has two main political parties – **the Democrats** (donkeys) and **the Republicans** (elephants), which dominate the country's politics and contest seats in both Chambers of Congress. Nowadays, there are not clear differences between the Republican and Democratic parties. In general, the Republicans tend to be more conservative and to have more support among the upper classes, while the Democrats tend to be more liberal and to have more support among the working classes and the poor. Many other smaller parties play little if any role.

Exercise 5

Explain the opposition given below and describe the system of two overlapping governmental structures.

STATE GOVERNMENT vs FEDERAL GOVERNMENT

Exercise 6

Find English equivalents to the following words.

1) судебная ветвь власти
2) избирать
3) равное количество голосов
7) коллегия выборщиков
8) четырёхлетний срок
9) издавать законы

4) представитель
5) назначать
6) военно-морской флот
10) одобрять
11) занимать должность
12) поддержка среди рабочего класса

Exercise 7

Answer the questions.

1. What is the idea of an indirect democracy?
2. What is the structure of US Congress?
3. What is the executive branch responsible for?
4. What are the functions of the judicial branch?
5. What is the purpose of the system of checks and balances?
6. Why is the United States a living example of federalism?
7. What parties dominate American politics?

Exercise 8

Mark the statements as True or False.

Statement	**True**	**False**
1. In the US government, power is divided among three branches: the legislative, executive, and judicial branches.		
2. The President has the right to veto a law passed by Congress.		
3. The members of the House of Representatives are appointed by the President.		
4. Each state is given a number of representatives in the Senate proportionate to its population size.		
5. The Vice-President is the Commander-in-Chief of the US Army and Navy.		
6. The lower federal courts do not have to obey the Supreme Court’s interpretation of the law.		
7. There are two parallel governmental structures in the US.		

8. There are only two major parties in the United States.		

WATCHING AND LISTENING

Exercise 9

Watch a video on the US Electoral College at https://vkvideo.ru/video-231870953_456239038 and do the tasks listed below.

a. BEFORE YOU WATCH. Answer the questions:

Do you know how Americans elect their presidents?

Is it similar to the elections in Russia? If not, how is it different?

b. WHILE YOU WATCH.

Mark the statements as True or False:

Statement	**True**	**False**
1. The Electoral College is a group of people who educate the population and explain them how to vote.		
2. Nowadays, District of Columbia has no electors.		
3. The number of electors of each state is based on population size.		
4. If a candidate wins a state, he or she gets all the votes.		
5. All states in the USA "cost" equal number of electoral votes.		
6. A candidate cannot completely ignore small states or geographically large states with small populations.		
7. "Safe states" are the states with low crime rates.		
8. Mississippi, Alabama, Kansas and Idaho are traditionally "Republican" states.		

c. AFTER YOU WATCH. Answer the questions:

1. How many electors are there?

2. How many electoral votes does each candidate need to win to become a president?

3. What is the census?

4. Why are such states as Texas, Florida, and New York so important to candidates?

5. Is it possible for a candidate to win the presidency without winning the popular vote? Why?

6. What are “swing states”?

7. Many people criticize the Electoral College system. Based on the video, what is one potential *weakness* of this system?

GRAMMAR

Modal Verbs

Study grammar rules on the use of MODAL VERBS (See GRAMMAR REFERENCE p.434)

Exercise 10

In the previous section you’ve learnt the basic structure of the American state. Now read the text about the US President. It contains some Modal Verbs which are underlined. Examine the context and try to explain their usage.

The President of the United States

The President of the United States (or POTUS) is probably one of the two most important figures in American government system, along with Congress.

To be elected as the president, you must be at least 35 years old and have been a natural-born citizen of the United States of America or someone who has been naturalized for at least 20 years (according to Section 1 of Article II of the U.S. Constitution). However, some states can impose some more requirements like actual residence within that state's borders.

According to the Constitution, the President must guarantee that all U.S. laws are carried out and that the federal government runs effectively. It is their primary concern. The president cannot introduce new laws — that's one of the duties of Congress – but the head of the state may veto a bill before it can become a law.

The president is to address the full Congress to report on the State of the Union. They call it The State of the Union Address (SOTU). The contents of this speech should be governed by tradition, but it is generally used to outline specific policies conducted by the government and the president.

As the nation's chief executive, the president has to control both domestic and foreign policy, but many of his powers cannot be enacted without the approval of the Congress.

The president and his administration represent the interests of the United States abroad, and this goes beyond official agreements. Thus, the U.S. presidents have to meet with and develop the relationships with other heads of state. With the Senate's approval, they can make treaties with foreign nations and appoint ambassadors to other countries and the United Nations.

Also, the president is to make sure that the nation's economy is healthy and functional.

(Retrieved from: https://www.trumanlibrary.gov , https://www.thoughtco.com/)

Exercise 11

Choose the correct variant in italics.

1. According to the U.S. Constitution, a presidential candidate *must be / has to be* at least 35 years old.
2. In the United States, voters *mustn't / don't have to* publicly reveal who they voted for, as voting is secret.
3. In most states, members of the Electoral College *should / have to* vote for the candidate who won the popular vote in their state.
4. In a healthy democracy, people *have to / don't have to* respect different political views and opinions.
5. For a democracy to function well, citizens *should / have to* be kept informed about the political situation.
6. For national security reasons, government officials *must not / don't have to* disclose classified information.
7. Members of Parliament *shouldn't / mustn't* use their position for personal financial gain, as it is illegal.
8. The primary duty of any elected official *must / has to be* to represent their constituents' needs and rights.
9. While it is often expected, presidential candidates *don't have to / should not* make their detailed medical history public.

10. To pass effective legislation, political parties *have to / should be* willing to work together and compromise.
11. The Prime Minister doesn't *have to / must not* use government funds for personal expenses, as this is considered corruption.
12. All candidates in an election *must / should* follow campaign finance laws.

Exercise 12

Match the sentences from the left column with the correct meaning from the right one.

Sentence	Meaning
1. The future reforms may lead to some positive changes in the school education system.	a. It is possible that the reforms will lead to changes in the school education system.
	b. It is certain that the reforms will lead to changes in the school education system.
2. These Acts of Parliament must address the concerns of local communities.	a. I am sure that these Acts of Parliament will address the concerns of local communities.
	b. I am sure that these Acts of Parliament will address the concerns of local communities.
3. Changes in racial and religious landscape can have a huge influence on future elections.	a. It is unlikely that changes in racial and religious landscape will have a huge influence on future elections.
	b. It is likely that changes in racial and religious landscape will have a huge influence on future elections.
4. Implementation of various technological advancements may enhance transparency and efficiency of governance.	a. It could be possible that implementation of various technological advancements will enhance transparency and efficiency of governance.

	b. It is certain that implementation of various technological advancements will enhance transparency and efficiency of governance.
5. There must be space for successful cooperation between local people and governmental bodies.	a. We strongly believe that governmental bodies should collaborate with local people.
	b. We are not sure that governmental bodies should collaborate with local people.

WRITING

Exercise 13

Compare-and Contrast Essay

a. Watch a video at https://vkvideo.ru/video-231870953_456239039 .

b. Answer the questions:

1. What is the structure of a compare-and-contrast essay?
2. What are the functions of each element?
3. What is the main difference between a compare-and-contrast essay and other essays?
4. What is block method? Describe it.
5. What is the point-by-point compare-and-contrast essay?
6. What is the purpose of the conclusion in a compare-and-contrast essay?
7. Why is it important to mention the points of comparison in the thesis statement?

Exercise 14

Write a compare-and-contrast essay (100-150 words) on similarities and differences of British and American political systems. Use the information provided in this textbook and find some additional information on the Internet. Follow the structure suggested in the video from the previous exercise. In your

essay, you might want to compare: *the head of state, the structure of the legislature, how the executive is chosen, and the role of a constitution.*

SPEAKING

Exercise 15

Work in small groups, become experts on the U.S. political system and create an interactive, digital quiz to test your classmates. Your mission is not just to test facts, but to create a fun and challenging game that proves you understand how the U.S. government works!

Theme 3.3. TRADITIONS AND CULTURE OF THE UK AND THE US

LEAD-IN

What noteworthy difference does the picture show? Tell your groupmates about your guesses.

Work in pairs and explain how you understand these quotations:

"The biggest difference between England and America is that England has history, while America has geography."	*"England and America are two countries separated by the same language."*
Neil Gaiman, an English author	*attributed to George Bernard Shaw, an Irish playwright and critic*

KEY WORDS AND WORD COMBINATIONS

accent	[ˈæksᵊnt]	акцент
bonnet	[ˈbɒnɪt]	капот автомобиля
cabinet	[ˈkæbɪnɪt]	шкафчик / комод
celebration	[ˌsɛlɪˈbreɪʃᵊn]	празднование
commemoration	[kəˌmɛməˈreɪʃᵊn]	празднование / ознаменование
conversation	[ˌkɒnvəˈseɪʃᵊn]	беседа / общение

dialect	[ˈdaɪəlɛkt]	диалект
dignity	[ˈdɪgnəti]	достоинство
dish	[dɪʃ]	блюдо
draw	[drɔː]	ничья
holiday	[ˈhɒlədeɪ]	праздник / отпуск / каникулы
idiom / idiomatic expression	[ˈɪdiəm / ˌɪdɪəˈmætɪk ɪkˈsprɛʃᵊn]	идиома
meal	[miːl]	блюдо / приём пищи
pronunciation	[prəˌnʌnsiˈeɪʃᵊn]	произношение
queue	[kjuː]	очередь
spelling	[ˈspɛlɪŋ]	правописание
storey	[ˈstɔːri]	этаж
variant	[ˈveəriənt]	вариант языка
variety	[vəˈraɪəti]	разнообразие / вариант
vocabulary	[vəˈkæbjəlᵊri]	лексика
wardrobe	[ˈwɔːdrəʊb]	гардероб / платяной шкаф

VOCABULARY

There are numerous regional varieties of English: British English, American English, Australian English, Indian English etc. Out of so many dialects and accents there are two major variants: British English and American English.

The spelling differences between the two variants are one of the most numerous ones. Here are some examples of them:

British English	*American English*
colour	color
honour	honor
dialogue	dialog

storey	story
tyre	tire
pyjamas	pajamas
cancelled	canceled
traveller	traveler

Also, there are many differences in vocabulary between two variants:

British English	*American English*
lorry	truck
biscuit	cookie
fuel	gas
autumn	fall
torch	flashlight
tap	faucet
jumper	sweater
trousers	pants
pants	underwear
waist coat	vest
vest	undershirt
plaster	band-aid
cabinet	chest
chemist's	drugstore

Exercise 1

Match British English words to their equivalents and translate them into Russian. Use dictionaries if necessary.

British English	*American English*
1. underground (the tube)	a. highway
2. carpark	b. schedule
3. motorway	c. hood

4. timetable	d. drapes
5. bonnet	e. subway
6. post	f. closet
7. draw	g. line
8. queue	h. parking lot
9. wardrobe	i. mail
10. curtains	j. tie

Exercise 2

Here, you are given two short dialogues between Mathew and Bill. Mathew comes from Liverpool, and Bill was born in Dallas. Read their dialogue and choose the correct variant.

A. Mathew: Finally! (1) *Holidays/vacation* has/have come! Do you want to drop in and watch a (2) *movie/film*?

Bill: Sure! Shall I fetch some (3) *crisps/chips* and Coke?

Mathew: No, take (4) *crisps/chips*!

Bill: Right, that's what I said.

Mathew: Erm, no! Never mind. There is one thing… The (5) *elevator/lift* doesn't work.

Bill: What?! Gosh… Not (6) *elevator/lift!* I wish you lived on the first floor…

B. Bill: Have you taken my (7) *trainers/sneakers*? I can't find them.

Mathew: How should I know? I don't know where your stupid (8) *trainers/sneakers* are!

Bill: I am already late for my (9) *football/soccer* practice!

Mathew: Really? I thought Americans are more interested in baseball or something like that…

Bill: Don't be so narrow-minded… Wait… Now I remember! I forgot them in my (10) *boot/trunk*! So, off I go.

Mathew: Bye! And don't forget the (11) *rubbish/trash*!

Exercise 3

Brits and Americans count floors or storeys (UK)/stories (US) differently. In Britain, people start with "the ground floor" and continue with "the first floor". Americans start counting with "the first floor". A British block of flats is in the first picture, whereas, an American apartment building is in the second picture.

Fill in the gaps with the floor number using the pictures above.

1. Helen lives on the _____ storey.
2. Jacob's apartment is on the _____ floor.
3. Tiffany's flat is located on the _____ floor.
4. Melanie lives on the _____ story.
5. Jack has moved to the flat on the _____ storey.
6. Kendall has chosen the apartment on the _____ story.
7. John has been living on the _____ floor since 2020.
8. Eric bought an apartment on the_____ floor in 2018.

READING

Exercise 4

1. Before you read, look at the topics below. As you read, find one key difference for each topic.

	UK	US
1. Communication Style		
2. Relationships Building		

3. Humour		
4. Social Division		
5. Work Culture		

2. Read the text about the differences between the United Kingdom and the United States and be ready to do the tasks that follow it.

UK V. US CULTURE GUIDE

At first glance, life in the UK and the US can seem similar to each other. After all, both countries share a language, historical ties, and many surface-level similarities, from familiar shops to overlapping popular culture. However, beneath the surface lie important cultural differences that affect communication, relationships, work, and daily routines. These differences rarely manifest as dramatic shocks. Instead, they appear as small, persistent misunderstandings or discomforts, often invisible until they build up.

Remember, reserved doesn't necessarily mean unfriendly. American culture places a high value on openness, friendliness, and verbal clarity. By contrast, British communication tends to be more reserved and indirect. It's common to express disagreement through understatement, and politeness can mask discomfort or disagreement rather than resolve it. Requests may be phrased as suggestions, and praise is often muted. Americans may find themselves wondering whether an invitation is genuine or whether feedback is more critical than it seems.

Such reserve is also typical of British way to build social relationships. One of the most common surprises for Americans is the pace at which relationships develop. In the US, it's common to form friendships quickly, sharing personal stories and building emotional connection in early conversations. In the UK, friendships tend to form more slowly and are often rooted in shared experience over time. This slower progression can feel like rejection or coldness.

British humour is often cited as one of the most noticeable cultural differences. It tends to be dry and laced with irony or self-deprecation. Sarcasm and "banter" are

common, and jokes are often delivered with a straight face. Americans are more accustomed to expressive or literal humour.

More formal interactions between people do also differ. Class dynamics in the UK are more layered and less openly discussed than in the US, but they still influence many aspects of life, from professional opportunities to how people interpret your accent or choice of words. While Americans often define class through income or education, the British model incorporates factors like school background, where someone grew up, family ties and even hobbies.

And last, but not least: work culture. The American professional environment often rewards assertiveness, clarity, and personal branding. In the UK, professional success is equally valued, but self-promotion is viewed with more suspicion. Confidence must be tempered with modesty, and performance is often expected to speak for itself. In emails, for example, instructions are often phrased as polite questions or indirect suggestions.

Many Americans who have moved to the UK and Brits who have decided to settle down in America underestimate the combined effect of small daily differences. It is frequently described as “cultural friction” which are enough to cause stress. In this situation, it is commonly advised to accept the daily differences as part of the experience. The quicker you stop expecting things to be the same, the easier adaptation becomes.

Based on https://www.expertsforexpats.com/advice/relocation/cultural-differences-us-to-uk

Exercise 5

Read the statements below. Based on the text "UK V. US CULTURE GUIDE," mark them as follows:

T (True) - if the statement agrees with the information in the text.

F (False) - if the statement contradicts the information in the text.

NG (Not Given) - if the information is not found in the text.

Part A

1. American communication style is generally more open and direct than the British one.
2. In the UK, class is defined solely by a person's income, similar to the United States.
3. British humour often uses irony and is delivered without much expression.
4. Public transport in the UK is known for being extremely punctual.
5. In British work culture, being overly confident and promoting oneself is often viewed negatively.
6. The cultural differences between the US and the UK are usually large, immediate shocks.

Part B

Explain your answers for two of the False statements from Part A. Write a sentence from the text that proves your choice.

1. Statement #____ is False because the text says:
   "_____"
2. Statement #____ is False because the text says:
   "_____"

Exercise 6

Match the names of traditional British and American dishes and their descriptions. Then try to identify them marking dishes as A (for American) or B (for British). Search for some additional information on the Internet if necessary.

1. Beef Wellington 	a. The dish with a layer of cooked lamb and vegetables, topped with mashed potatoes, and baked in the oven until the mashed potatoes are well browned.

2. Mac and Cheese 	b. The name may fool you since it is not actual pudding, on the contrary, it is made of eggs, flour, milk, and fat.
3. Grits 	c. This dish is basically a beef fillet, and the challenging part is to cook it just right since it is served medium rare, which is difficult to achieve.
4. Buffalo Wings 	d. One of the most popular dishes among tourists in England. As the name suggests, this dish is either served with a single fish or fish sticks with fries on the side.
5. Yorkshire Pudding 	e. It is popular all over the UK, especially on weekends. This popular morning dish includes bacon, eggs, sausages, beans, toasted bread, and various vegetables, depending on your personal preference.
6. Apple Pie	f. Unbreaded and deep-fried chicken wings tossed in a vinegar-based hot sauce.

	
7. Fish and Chips 	g. A true expression of Southern love on a plate. It's buttermilk biscuits with meat or sausage drippings! This apparently simple combination goes back to the American Revolutionary War when there wasn't much to eat.
8. Shepherd's Pie 	h. A dish made of dried and ground white corn kernels. Grits go back to the Native American tribes.
9. Biscuits and gravy 	i. Sliced apples, sugar, and brown spices are a common filling, topped with a golden and flaky pie crust and served with vanilla ice cream.
10. English Breakfast 	j. The ingredients come together in the oven. What makes this casserole unique is the cheddar sauce, often mixed with breadcrumbs for a crunchy bite.

Exercise 7

Match traditional British and American holidays with their descriptions. Then try to identify them marking holidays as A (American) or B (British). Search for some additional information on the Internet if necessary.

1. Veteran's Day 	a. It is celebrated on July 4. This holiday commemorates the day the Declaration of Independence was approved by the Continental Congress in 1776, declaring the American colonies free from Great Britain's rule. July 4th celebrations often include large gatherings of family and friends, preparing grilled American staples like hotdogs and hamburgers, and enjoying fireworks displays. Americans decorate with red, white, and blue, American flags, and stars and stripes.
2. Remembrance Day 	b. This holiday, also known as Guy Fawkes Night, is an annual commemoration observed on November 5 involving bonfires and fireworks displays. All over Britain there are firework displays and bonfires with models of Guy Fawkes, which are burned on the fire. The Guy is made of old clothes and filled with newspaper. The fireworks are a reminder of the gunpowder that Guy Fawkes hid in the cellar of Parliament.
3. Independence Day 	c. This holiday falls on the last Thursday in November. In modern times, it is celebrated as an opportunity to gather with family and friends over a large meal. It is believed to be modeled after the legend of a feast that took place between the English Colonists and the Wampanoag people in 1621. Decorations often include fall leaves and harvest-related items like squash and turkeys.

4. Bonfire Night 	d. It is celebrated on November 11 and is also known as Poppy Day. This holiday honors the heroic efforts, achievements and sacrifices that were made in past wars. The Royal Family attends solemn events such as church services, military parades and the laying of red poppy wreaths at the Cenotaph in London as a symbol of remembrance and respect for those who have fallen.
5. Thanksgiving Day 	e. This holiday is celebrated on March 17. It is celebrated in Irish pubs to commemorate the saint patron of Ireland. In Belfast, a large parade is held.
6. St. Patrick's Day 	f. It is celebrated on November 11 to honor all military veterans (living and dead). An official wreath-laying ceremony is held at the Tomb of the Unknown Soldier in Arlington National Cemetery, while parades and other celebrations are held in states around the country. Another holiday to honor U.S. military personnel is Memorial Day. It is celebrated on to pay respect to those who sacrificed their lives in the service to American nation.

WATCHING AND LISTENING

Exercise 8

You are going to watch a video at https://vkvideo.ru/video-231870953_456239040

about three varieties of English.

a. BEFORE YOU WATCH.

What do you know about regional variations of English? Can you give some examples of differences between Englishes?

b. WHILE YOU WATCH.

You are given several extracts from the video. Watch the video for the first time and fill in the gaps by using words and expressions below.

spelling	*center*	*colour*	*pronunciation*	*color*	*centre*

It isn't just _____ (1) that's different. It's also _____ (2). British English sometimes uses extra letters. Here are a few examples.

British _____ (3)

US _____ (4)

Sometimes the British use different letter order too.

British _____ (5)

US _____ (6)

pavement	*gas station*	*unit's*	*vocabulary*	*petrol station*
servo	*apartment's*	*confused*	*footpath*	

But the major difference is _____ (7). Sometimes even though people from the United States, Britain and Australia all speak English, they can still get very _____ (8) when talking to each other because they use different words for the same thing. Listen to these.

If you walk down the _____ (9) past the _____ (10), my _____ (11) on the left.

If you walk down the _____ (12) past the _____ (13), my flat's on the left.

If you walk down the sidewalk past the _____ (14), my _____ (15) on the left.

c. AFTER YOU WATCH.

1. Discuss the video you've just watched with your groupmates and mark the following statements as True or False.

Statement	**True**	**False**

1. There are no differences in the types of English spoken around the world.		
2. Pronunciation is the only difference between the types of English spoken in different countries.		
3. British English uses extra letters in some words compared to American English.		
4. People from the United States, Britain, and Australia can understand each other perfectly when speaking English.		
5. It is important to stick to one type of English and not mix them up.		

Exercise 9.

You are given 3 summaries of the video you have just watched. Pick the one which corresponds to the video.

1. In the video, Amelia explores the impact of globalization on the English language. She discusses how the rise of technology and travel has led to the blending of different English accents and vocabulary. Amelia highlights the importance of understanding and appreciating the diversity of English worldwide. She concludes by encouraging viewers to embrace the richness of different English varieties and to continue developing their language skills.

2. In the video, Amelia suggests that all types of English are exactly the same. She claims that there are no differences in pronunciation, spelling, or vocabulary. Amelia states that people from different English-speaking countries never get confused when talking to each other. She concludes by saying that it doesn't matter which type of English you use in Cambridge English exams.

3. In the video, Amelia discusses the different types of English spoken around the world, focusing on pronunciation, spelling, and vocabulary differences. She gives examples of how words and phrases vary between the United States, Britain, and Australia. Amelia emphasizes that there is no right or wrong type of English and encourages listeners to be consistent in their usage.

WRITING

Exercise 10

A. Match the types of report with their purpose.

1. Academic report	a. Identifies information useful n business strategy (such as *marketing reports*, *internal memos*, *SWOT analysis*, *feasibility reports*).
2. Business report	b. Shares research findings (such as *research papers*, *case studies*).
3. Scientific report	c. It tests student's comprehension of the subject matter (such as *book reports*, *reports on historical events*, *biographies*).

B. Match the steps of a report writing with their description.

1. Choose a topic based on the assignment	a. Make a plan separating your report by headings and subheadings. A solid outline makes sure that you stay on track while writing without missing anything.
2. Conduct research	b. Go over your report one final time to focus on your wording and check for grammatical or spelling mistakes.
3. Write a thesis statement	c. One of the most important steps. It is better to pick a topic on which there is adequate information and which covers something you are interested in.
4. Prepare an outline	d. Write a thesis statement to help you conceptualize the main theme of your report.
5. Write a rough draft	e. It's important to first reread your report for any major issues such as cutting or moving around entire sentences and paragraphs.
6. Revise and edit your report	f. With business and scientific reports the research is usually your own or provided by the company,

	although there's still plenty of digging for external resources in both. For academic papers you're largely on your own for research unless you're required to use class materials.
7. Proofread and check for mistakes	g. Avoid getting overwhelmed and follow your outline step by step to make sure you don't accidently leave out anything.

Exercise 11

Watch the video at https://vkvideo.ru/video-231870953_456239041 and learn how to write a solid information report. Answer the following questions to the video?

1. What is the structure of a report? Is it necessary to follow it?
2. What should be included into the Introduction section?
3. What are subtopics? What should it include?
4. What is the function of the Conclusion? Can we add any new information in it?
5. What language features of an information report were mentioned in the video?

Exercise 12

Pick one topic out of the suggested below and write an information report. Conduct research on the Internet and present the results.

1. One of the five major cultures.
2. Cultures of English-speaking countries (pick one culture).
3. The importance and problems of intercultural communication.
4. Culture shock. How can we deal with it?

Make sure that you have a clear outline and stick to it. Remember to use appropriate language.

SPEAKING

Exercise 13

Prepare a brief presentation (no more than 5 minutes) of 2-3 interesting customs and traditions of one region of the UK or the US:

- **one of 4 countries constituting the United Kingdom or their parts**
- **one of 7 US regions or one of 50 states**

Theme 3.4. RUSSIA: FROM ANCIENT RUS' TO MODERN FEDERATION

LEAD-IN

Look at the picture. Do you know this monument and its location? What does it symbolize? If necessary, search for some information on the Internet and tell your groupmates about it.

KEY WORDS AND WORD COMBINATIONS

biome	[ˈbaɪəʊm]	биом / природная зона
coniferous	[kəˈnɪfərəs]	хвойный
draft legislation	[drɑːft ledʒɪˈsleɪʃən]	законопроект
duties	[ˈdjuːtɪz]	обязанности
export income	[ˈekspɔːt ˈɪnkʌm]	поступления от экспорта
federal entity	[ˈfedərəl ˈentɪtɪ]	субъект Федерации
freshwater	[ˈfreʃwɔːtə]	пресная вода
grassland	[ˈgrɑːslænd]	степь / луг
implementation	[ˌɪmplɪmenˈteɪʃn]	внедрение / исполнение
iron ore	[aɪən ɔː]	железная руда
permafrost	[ˈpɜːməfrɒst]	вечная мерзлота

policy (domestic, foreign, financial, monetary)	[ˈpɒləsi (dəˈmestɪk, ˈfɒrən, faɪˈnænʃl, ˈmʌnɪtri)]	политика (внутренняя, внешняя, финансовая, денежно-кредитная)
precious metals	[ˈpreʃəs ˈmetlz]	драгоценные металлы
regional body	[ˈriːdʒənl ˈbɒdi]	региональный орган
seafood	[ˈsiːfuːd]	морепродукты
soil	[sɔɪl]	почва
term	[tɜːm]	срок
tier	[tɪə]	уровень
timber	[ˈtɪmbə]	лесоматериалы
to be renowned	[tə bi rɪˈnaʊnd]	быть широко известным
to be vested	[tə bi ˈvestɪd]	быть наделённым правами
to stretch through	[tə stretʃ θruː]	протягиваться через

VOCABULARY

Exercise 1

a. Match the geographical term with its correct description.

1. Taiga	a) a large area of grassland with fertile soil;
2. Tundra	b) frozen ground that never melts;
3. Steppe	c) water that is not salty, found in lakes and rivers;
4. Freshwater	d) a flat, treeless Arctic region;
5. Permafrost	e) a large forest of pine and coniferous trees.

b. Fill in the gaps using the words from the previous section.

1. The Siberian _____ is so large that it affects the whole world's climate.
2. Building on _____ requires special technology so that houses don't sink.

3. The rich black soil of the Russian _____ is called "chernozem."
4. Lake Baikal is famous for its clean _____.
5. The _____has a very short summer when small plants and flowers bloom.

Exercise 2

Place the following words and word combinations into the correct category: Economy (E), Politics (P) or both. Translate them into Russian.

- export income
- duties
- timber
- raw materials
- term
- soil
- implementation
- precious metals
- draft legislation
- financial policy

Exercise 3

a.Match the verbs/verb phrases on the left with the correct noun or noun phrase on the right. Translate them into Russian.

1. to be located on	a) 89 federal entities
2. to stretch through	b) its scale and complexity
3. to be full of	c) coniferous trees
4. to be rich in	d) the border of Europe and Asia
5. to consist of	e) eleven time zones
6. to be vested with	f) natural resources
7. to be renowned for	g) authority

b. Choose any three collocations from (a) and use them to write sentences about Russia or any other country.

READING

Exercise 4

a. What words do you associate with Russia's geography, economy, and government?

b. Read the text. As you read, underline the key geographical features, circle the main economic resources, and highlight the central political bodies and their functions. Be prepared to explain the connection between them in your own words.

THE RUSSIAN ENIGMA: GEOGRAPHY, POWER, AND POLITICS

Geography: A Land of Extremes and Riches

Russia's identity is shaped by its geography. It is a vast country situated on the border of Europe and Asia. It stretches through eleven time zones and encompasses a wide variety of biomes. In the north, there is the frozen, treeless tundra, where permafrost makes building very difficult. South of that is the taiga—the world's largest forest. This immense area is full of coniferous trees, making it a critical source of timber. Further south are the steppes—fertile grasslands with rich black soil. This is Russia's most important farming region.

The country is also rich in natural resources. For example, Lake Baikal holds one-fifth of the world's freshwater. Russia's long coastlines provide access to rich seafood stocks.

Economy: Powered by Natural Wealth

The Russian economy relies heavily on its vast natural resources for export income, positioning it as a global leader in supplying raw materials. Key to this is its extractive sector, which provides iron ore, precious metals such as nickel and gold, along with coal, oil, and natural gas. The country's broader economic and financial policies are closely tied to the export of these energy resources.

Beyond resources, Russia possesses a diverse industrial base. Its manufacturing output includes automobiles, industrial machinery, electrical equipment, and **consumer durables**. Other significant industries encompass chemicals, textiles, and food processing. Agriculture also plays a vital role, with the country cultivating a wide variety of crops.

Politics: A Centralized Federal System

Politically, modern Russia is a democratic federal state with a republican form of government. The nation is a federation, consisting of 89 federal subjects, meaning it is divided into numerous federal entities, each with its own local regional bodies. However, power is highly centralized at the top.

The Head of State is the President, who is elected for a six-year term and is vested with significant authority. The President determines the basic guidelines of domestic and foreign policy, is the Supreme Commander-in-Chief of the Armed Forces, and can submit draft legislation or veto laws passed by parliament. The **executive power** is exercised by the Government. It is led by the Chairman of the Government (often called the Prime Minister). The Chairman and the other ministers form the Cabinet. The

Government's main duty is the implementation of laws and state policy. This includes managing the day-to-day financial and monetary policy.

The **legislative branch** is the bicameral Federal Assembly, consisting of the State Duma, which has 450 deputies, and the Federation Council, composed of two representatives from each of the 89 federal subjects. The **judicial duties** are carried out by a multi-tiered system, headed by the Supreme Court and the Constitutional Court.

Russia is a nation renowned for its scale and complexity. Its vast geography dictates its economic strengths, while its political system is designed to manage this immense and diverse country from a strong, centralized authority.

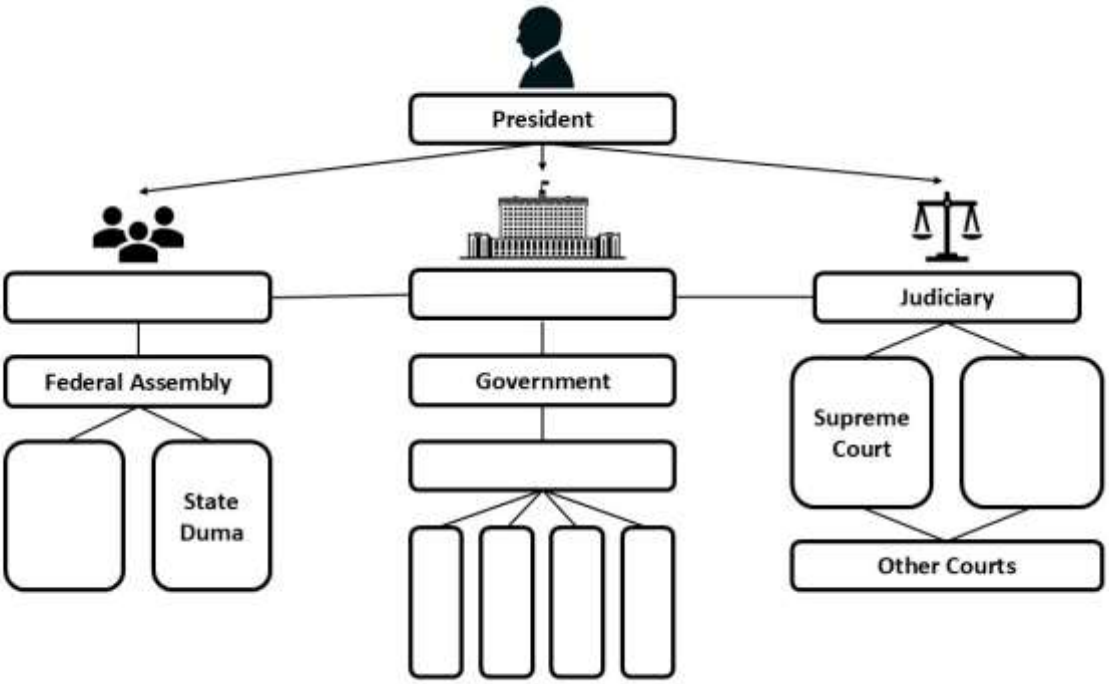

Exercise 5

Mark the following statements as True (T), False (F), or Not Stated (NS) based on the text.

1. Russia is located in only one continent.
2. The taiga is larger than the Amazon rainforest.
3. Agriculture is impossible in Russia due to the cold climate.
4. The Russian economy gets most of its export income from selling manufactured goods like cars and electronics.
5. The President of Russia has the power to reject laws passed by the parliament.
6. The Government of Russia is responsible for creating new laws.
7. The President appoints the Prime Minister.
8. The judicial system in Russia includes a Supreme Court and a Constitutional Court.

Exercise 6

Complete the diagram below with the names of the political bodies and their primary functions as described in the text.

Exercise 7

Translate these sentences into English, using the key words from the lesson.

1. Россия расположена на границе Европы и Азии, и её территория протянулась через одиннадцать часовых поясов.
2. Озеро Байкал, чудо природы, содержит почти пятую часть мировых запасов пресной воды.
3. Экономика России получает большую часть доходов от экспорта сырья, такого как нефть, газ и лесоматериалы.
4. Парламент должен рассмотреть законопроект, касающийся финансовой и денежно-кредитной политики.
5. Обязанности региональных органов включают решение местных вопросов, но реализация общенациональной политики контролируется из центра.
6. Президент, наделён значительными полномочиями, именно он определяет основные направления внешней политики.
7. Судебная система России включает в себя многоуровневую структуру, возглавляемую Верховным и Конституционным судами.

Exercise 8

Answer the questions in 2-3 sentences, using at least ONE key word or phrase from the lesson in each answer.

1. How does Russia's geography influence its economy? *(Use words like: export income, timber, permafrost, challenges)*.
2. Why is the political system described as "centralized"? What tiers and bodies are mentioned? *(Use words like: federal entity, regional body, to be vested, duties)*.
3. In your opinion, what is Russia most renowned for—its geography, its resources, or its political system? Explain your choice.

WATCHING AND LISTENING

Exercise 9**

Watch a video on Russian history at https://vkvideo.ru/video-231870953_456239052

and do the tasks listed below.

a. BEFORE YOU WATCH. Check your background knowledge and answer the following questions on Russian history. Then watch the video and check your answers.

1. Who founded and led the first East Slavic state, the Rus'?
2. When was Christianity introduced as the state religion?
3. What was the name of the first Russian code of law?
4. What was the name of the nomadic empire conquering the Kievan Rus'?
5. Under whose reign did the Grand Duchy of Moscow become the Tsardom?
6. What city became the new capital of Russia when it turned into the Empire?
7. What were two major blocks fighting against each other during the WWI?
8. When was the Soviet Union established?
9. What was the Cold War and how long did it last?
10. Who was the first publicly elected President of the Russian Federation?

b. WHILE YOU WATCH. The following statements contain one factual error each. Correct the error based on the information in the video.

1. The Rus' was located between the Volga and Dniester river basins.
2. The Rus' took Christianity from the Holy Roman Empire.
3. Vladimir Monomakh was the author of the first Russian code of law.
4. Moscow gained its independence from the Mongol rule in 1380.
5. Over its history, Russia stretched over two continents: Europe and Asia.
6. During the WWI Germany and Austria-Hungary were the closest allies of the Russian Empire.
7. The Russian Civil War broke out as the result the February Revolution in 1917.
8. Under the rule of Joseph Stalin, the Soviet Union remained an agricultural society with predominantly a peasant society.
9. Soviet Union launched the first human into space under the rule of Leonid Brezhnev.
10. The Soviet Union hasn't left any internationally recognized successor states.

c. AFTER YOU WATCH.

The video you've just watched may contain some inaccuracies and lacks the information on some important periods of our country's history. What information is incorrect? What information should be added? Discuss it with your groupmates.

SPEAKING I

Exercise 10

Winston Churchill called Russia 'a riddle wrapped in a mystery inside an enigma.' Based on the text and the video, what do you think is the biggest 'riddle' or contradiction about Russia? Discuss with your groupmates.

GRAMMAR

Reported Speech

Revise grammar rules on the use of Reported Speech (see GRAMMAR REFERENCE p.443)

Exercise 11

You are writing a report for a news article or a guidebook about Russia. Below are quotes from interviews with various people. Integrate their statements into your report by transforming them from direct speech into reported speech.

Example:

- *Direct Speech: The mayor said, "The city will invest in new infrastructure this year."*
- *Reported Speech: The mayor announced that the city would invest in new infrastructure that year.*

Transform these quotes:

1. The guide explained, "The Amber Room in the Catherine Palace was lost during World War II."
2. A student commented, “I am trying to understand the complexities of the Russian political system.”
3. The geography teacher asked a colleague, “Does the Volga River flow into the Caspian Sea?”
4. The director of an industrial plant stated, “Next year, we will expand our machine-building plant in Tatarstan.”
5. A tourist admitted to me, “I have never seen the vast coniferous forests of the Siberian taiga.”
6. An engineer inquired, “Why is permafrost a significant challenge for construction in Russia?”
7. An economist is asking, “Are precious metals a major part of Russia’s export income?”
8. A local farmer told us, “We were harvesting wheat in the fertile steppes all last week.”

9. She asked me, “Did you visit the historic Kremlin in Moscow last year?”

10. The teacher asked his student, “When is he going to read the text about The October Revolution?”

Exercise 12

Find a mistake in each sentence and correct it.

1. John said that he had been to the Caucasus last month.

2. Kim promised me last Friday that he will come to Vladivostok on Saturday. Today is Monday!

3. I asked if did Peter speak Russian or Tatar.

4. The teacher wondered Helen had brought her report on oil exploration expeditions in the Soviet Union.

5. They told me that he had visited Baikal five years ago.

6. Nikolay asked me why was I studying the history of Peter the Great’s reforms.

7. Sofia reported that she was baking this kurnik (chicken pie).

8. We wanted to know whether we would go to the Victory Day Parade.

9. You said Bill is going to take part in our expedition to the Urals?

10. Frederik asked us if did we want to watch firework displays for Maslenitsa.

Exercise 13

Translate the sentences from Russian into English.

1. Майкл рассказал мне, что история России сложна и захватывающа.

2. Я спросил, знают ли они о развитии атомной промышленности в России.

3. Учительница поинтересовалась, написали ли мы сочинение об операции «Багратион».

4. Питер сказал, что попробует сам приготовить борщ.

5. Мария спросила, приедем ли мы на празднование Дня народного единства.

6. Журналист рассказал, что российское сельское хозяйство является стремительно развивающейся отраслью.

7. Профессор рассказал, что Иван Грозный провозгласил себя царем 16 января 1547.

8. Они спросили нас, когда мы собираемся поехать в Карелию.

SPEAKING II

*PROJECT WORK***

"My Homeland – A Presentation of Our Region"

Your Task: Create a 5-minute presentation about a region in Russia or your home country. Show what makes it special!

Structure Your Presentation:

Slide 1: *Geography & Climate*

Show your region on a map of Russia/the world

Describe the landscape in 2-3 words (mountains, forests, plains, etc.)

Name the main city and show one photo

Describe the climate simply: "very cold winters," "mild weather," "hot summers"

Slide 2: *Language & Culture*

Name the main language(s) spoken

Choose ONE:

Teach us 1-2 simple words (hello, thank you)

OR share one interesting local tradition or festival

Show one picture of traditional crafts, clothing, or celebration

Slide 3: *Food*

Name one traditional dish from your region

Mention 2-3 main ingredients

Say when people usually eat it (everyday food or special occasions)

Show a photo of the dish

Slide 4: *Why I Love This Place*

Share one personal reason why this region is special to you

Give one recommendation for visitors: "If you come here, you should see/try..."

Visual Aid Requirements:

Use 4-6 slides OR one poster with 4 sections

Include maps and photos in every section

Write only key words, not full sentences

Practice speaking about each picture

Presentation Tips:

Speak slowly and clearly

Look at your audience

You can use brief notes, but don't read everything

Remember: you're the expert about your region!

Useful Phrases for presentation:

"I would like to tell you about the fascinating region of..."

"My presentation is divided into five main parts."

"Let me start with the geography and climate."

"As you can see on the map ..."

"Now, let's turn to the linguistic heritage of my region."

"In the local language, we say ... which means ..."

"The name of our city, ..., comes from the word for ..."

"Moving on to the culture and traditions ..."

"One of the most famous local dishes is ..."

"It is made from ..."

"In conclusion, ..."

"Thank you for your attention. Are there any questions?"

Vocabulary to use:

· **Geography:** is located in, landscape, plains, mountains, taiga, steppe, river, coast, climate, continental, severe winter, mild summer.

· **Language:** official language, native tongue, dialect, pronunciation, phrase, greeting, meaning, origin, to come from, to be derived from.

· **Culture:** traditions, customs, folklore, handicrafts, pattern, costume, embroidery, celebrate, festival.

· **Food:** traditional dish, ingredients, to be made from, to be served with, sour, sweet, salty, hearty.

Assessment Criteria

1. **Content & Structure (40%):** Is all the information from all five parts included? Is it well-organized and interesting?

2. **Language (40%):** Grammar, vocabulary, pronunciation, and fluency. **Correct use of the new linguistic terms is a plus!**

3. **Visual Aid & Presentation Skills (20%):** Is the visual aid clear and attractive? Do you speak confidently and make eye contact with the audience?

Good luck! We are looking forward to discovering the amazing linguistic and cultural diversity of Russia through your eyes!

UNIT 4.

Technology, Science, and Innovation

Theme 4.1. TECHNOLOGY OR MAGIC? EXPLORING THE BOUNDARIES OF INNOVATION

LEAD-IN

Look at the pictures. This is how people at the beginning of the 20th century imagined the future.

Discuss with your groupmates:

1. Are there any technologies now that are close to what you see in the pictures below?
2. Which predictions did not come true?
3. What do you think the world will be like in the 22nd century?

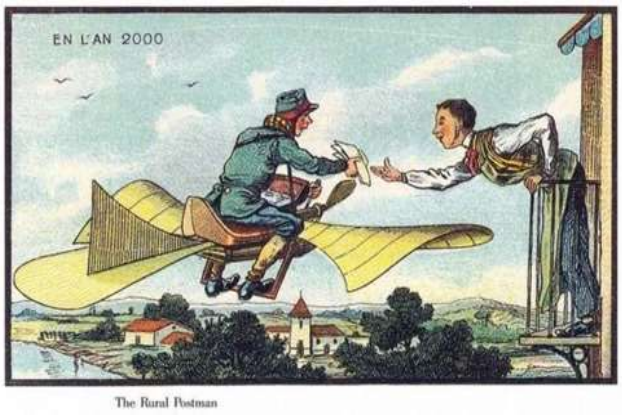

At School

A Home Rolling Through the Countryside

Electric Scrubbing

The Rural Postman

Work in pairs and explain how you understand this quotation:

"Any sufficiently advanced technology is indistinguishable from magic."

Arthur C. Clarke, a British science fiction writer

KEY WORDS AND WORD COMBINATIONS

attempt	[əˈtempt]	попытка
assembly line	[əˈsemblɪ ˈlaɪn]	конвейер
breakthrough	[ˈbreɪkˌθruː]	прорыв
convenience	[kənˈviːniəns]	1) удобство; 2) устройство
engine	[ˈendʒɪn]	двигатель
enterprise	[ˈentəpraɪz]	предприятие
incandescent light	[ɪnkænˈdes(ə)nt ˈlaɪt]	лампа накаливания
invention	[ɪnˈvenʃən]	изобретение
inventor	[ɪnˈventə(r)]	изобретатель
marvel	[ˈmɑːvəl]	чудо
prediction	[prɪˈdɪkʃən]	прогноз
to credit to (to be credited with)	[tə ˈkredɪt tuː]	приписывать авторство
to invent	[tə ɪnˈvent]	изобретать

to lay foundation	[tə ˈleɪ faʊnˈdeɪʃən]	заложить основы
to outperform	[tə ˌaʊtpəˈfɔːm]	превосходить (по техническим характеристикам), опережать
to pave (the way to/for)	[tə ˈpeɪv]	проложить путь, положить начало
to predict	[tə prɪˈdɪkt]	прогнозировать, предсказывать
to tackle	[tə ˈtækəl]	взяться за дело, постараться решить
to usher smth in	[tə ˈʌʃə(r)]	положить начало, стоять в начале чего-то (периода, перемен)
to wear down	[tə ˈweə(r)ˈdaʊn]	изнашиваться
vehicle	[ˈvɪəkəl]	транспортное средство

PRONUNCIATION PRACTICE

Exercise 1

Check the meaning and pronunciation of the following international words.

Airplane, automobile, camera, design, industry, mass production, patent, service, transportation, revolution, electric, version, aviation, photography, prototype.

Exercise 2

Give for each phonetic description the correct word. The first one is done for you.

1) invention	[ɪnˈven.ʃən]
2)	[ˈvɪə.kəl]
3)	[ˈtæk.əl]
4)	[ˈen.dʒɪn]
5)	[prɪˈdɪk.ʃən]

6)	[kənˈviː.ni.əns]
7)	[ˈʌʃə(r)]
8)	[ˈen.tə.praɪz]

VOCABULARY

Exercise 3

a. Match the synonyms.

1) convenience	a) discovery
2) marvel	b) automobile
3) invention	c) wonder
4) breakthrough	d) comfort
5) motor vehicle	e) creation

b. Match the opposites.

1) to outperform	a) to restore
2) to achieve	b) to avoid
3) to take off	c) to underperform
4) to tackle	d) to land
5) to wear down	e) to fail

Exercise 4

a. Fill in the gaps using the words given below.

engine invention enterprise attempt breakthrough

1. The _____ in renewable energy technologies opened up a world of possibilities for sustainable power sources.
2. The new _____ design revolutionized the automotive industry, setting the stage for more efficient and powerful vehicles.

3. The startup quickly grew into a successful _____, attracting investors and expanding its market reach.

4. Henry Ford's _____ of the assembly line revolutionized automobile production.

5. After several unsuccessful trials, the scientists made a final _____ to conduct the experiment with a new method.

b. Fill in the gaps using the verbs given below in the correct form.

to credit smth to *to wear down* *to usher smth/ smb into* *to pave the way for* *to lay foundation*

1. Their work _____ a solid _____ for a just and lasting peace in the Middle East.

2. The advent of the Internet _____ us _____ a new era in which most social interactions occur online.

3. The constant traffic _____ the old bridge and led to its eventual collapse.

4. She _____ her success _____ hard work and determination.

5. Pioneers like her _____ women to have a career in science.

Exercise 5

Use a dictionary or an online resource to look up the following words. Work in pairs or small groups. Arrange the given words into the categories below. Be prepared to explain your choices to the class.

practicality creation discovery breakthrough to launch design usefulness efficiency uniqueness ingenious to set the groundwork for revolutionary groundbreaking game-changing creative clever to support to showcase

What else may we call an invention?	What qualities does a good invention have?	How else can we define a good invention?	What else can we do with an invention?
Innovation	*Originality*	*Brilliant*	*To introduce*

Exercise 6

Translate the sentences from Russian into English. Use the new words from "Key Words and Word Combinations" section.

1. Томас Эдисон известен как один из величайших изобретателей в истории, ему принадлежало более 1000 патентов.
2. Ещё до того, как Эдисон улучшил технологию, российский инженер Лодыгин изобрёл эффективную электрическую лампочку.
3. Японские автопроизводители превзошли своих американских и европейских коллег в 1980-х годах, выпустив более экономичные и надёжные автомобили.
4. Изобретение интернета открыло новую эру общения, мгновенно соединив людей по всему миру.
5. Архитектор разработал уникальный и современный дизайн нового офисного здания.
6. Новый смартфон предлагает различные удобства (удобные функции), такие как беспроводная зарядка и распознавание лиц.
7. Первые фотоаппараты заложили основу для развития фотографии, что привело к появлению современных камер и цифровых фотографий.
8. Постоянное использование может со временем изнашивать компоненты машины.

GRAMMAR

Participles

Study grammar rules on the use of PARTICIPLES (see GRAMMAR REFERENCE p.447) and then do the exercises.

Exercise 7

Choose the correct variant:

1. The robot, *designing/designed* with advanced technology, was programmed to do tasks well.
2. The invention, *using/used* modern technology, has changed the way we communicate.
3. The smartphone, *featuring*/*featured* the latest updates, has become an essential part of our daily lives.
4. The drone, *developing*/*developed* for surveillance purposes, can take high-quality pictures.
5. The app, *creating*/*created* for tracking expenses, has made budget management easier.
6. The computer, *equipping*/*equipped* with modern components, performs exceptionally well.
7. The virtual reality headset, *offering/offered* immersive experiences, has gained popularity among gamers.
8. The self-driving car, *relying/relied* on artificial intelligence, can navigate through traffic without human help.
9. The smart home, *connecting*/*connected* to your smartphone, makes remote control more convenient.
10. The 3D printer, *using/used* special printing technology, can create complex designs with accuracy.

Exercise 8

Make Past Participle or Present Participle out of the given verbs and fill in the gaps.

develop *test* *enhance* *patent* *integrate* *analyse* *learn* *sync* *evolve* *monitor*

1. The AI assistant, _____ with natural language processing, understands complex commands.
2. This medical device, _____ into a smart watch, saves lives and improves healthcare.
3. The robot, _____ from its environment, is constantly adapting to new challenges.
4. The security system, _____ for suspicious activity, warns users about potential dangers.
5. The invention, _____ by a brilliant scientist, could change the way we power our homes.
6. The AI algorithm, _____ data in real-time, can predict future trends with accuracy.
7. The self-driving car, _____ in real-world scenarios, has reduced accidents and increased traffic efficiency.
8. The event, _____ by the police, ended peacefully.
9. The app, _____ by a team of talented designers, has simple and easy-to-use design.
10. The device, _____ with users' calendars, helps organize schedules and appointments.

Exercise 9

Combine the two sentences into one, using a participle clause (Present or Past Participle). The first one is done for you.

Model:

The software was developed by a startup. It helps to learn languages faster.

The software, developed by a startup, helps to learn languages faster.

1. The new battery is made from graphene. It can charge in under a minute.

2. The satellite orbits the Earth. It collects data about climate change.
3. The material was invented by accident. It is stronger than steel.
4. The AI program uses a complex neural network. It can compose original music.
5. The device is worn on the wrist. It monitors the user's heart rate and sleep patterns.

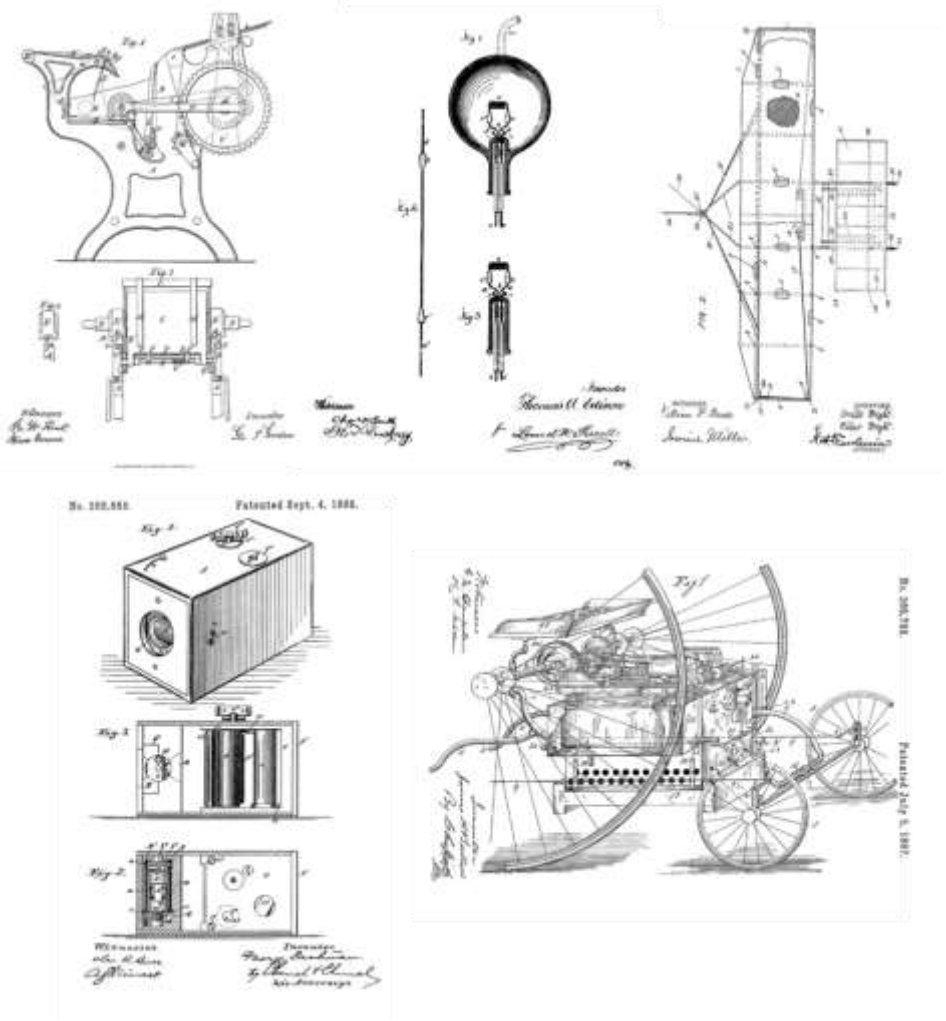

Exercise 10

Write 5 sentences about modern innovations (gadgets, apps, software, etc.) using Participles. Work in pairs. Read your sentences aloud and say which kind of Participle (Present or Past) your partner uses in each sentence.

READING

Exercise 11

a. Before reading, look at the pictures and guess what inventions are depicted in them. These images show official patents for some famous inventions.

b. Read the text, check your guesses. Suggest an appropriate title for the text.

The printing press has always been a marvel of invention, especially in printing newspapers. Initially, newspapers began on Gutenberg presses in the mid-15th century, often printed once a week as a large, single-sided page called a broadside. Building upon earlier printing techniques, Gutenberg introduced a revolutionary concept: movable type. He devised a system where individual metal characters could be arranged and rearranged to form words, sentences, and entire blocks of texts. However, these presses required great force to operate, and over time, the wood would crack, and the metal type would wear down. Despite these issues, the mechanics of the printing press remained almost unchanged for 300 years. Since their inventions, these remarkable machines have revolutionized the way information is disseminated, forever altering the course of civilization.

The electric light, a major everyday convenience, wasn't invented solely by Thomas Edison in 1879, even though he built the first commercially feasible* incandescent light. In fact, many inventors attempted to design such a bulb before him, yet Edison is credited with the invention because his version outperformed earlier ones. He achieved this through effective materials, a higher vacuum, and a high resistance that made centralized power distribution economically viable*. What makes Edison's contribution to electric lighting so extraordinary is that he didn't stop with improving the bulb – he developed a whole stack of inventions that made the use of light bulbs practical.

Orville and Wilbur Wright made a major breakthrough by inventing the first airplane. On December 17, 1903, they launched the era of human flight when they successfully tested a flying vehicle that took off, flew at even speeds, and landed without damage. Before that breakthrough, many other inventors had tried to tackle human flight with kites, balloons, and gliders; nevertheless, the Wright brothers' work paved the way for modern aviation. The craft they designed weighed 700 pounds and came to be known as the Flyer. The Wright brothers built a movable track to help launch the Flyer by giving it enough airspeed to take off and stay afloat. After two attempts, Orville Wright took the Flyer for a 12-second sustained flight, marking the birth of the airplane.

The art of photography, as we know it today, started in the early 1800s in France when inventor Joseph Nicéphore Niépce created a prototype of a photographic camera in 1816. He is credited with taking the oldest surviving photograph in 1826, which depicts the view from a window of his house. Ultimately, his success laid the foundation for rapid advancements in photography.

Carl Benz, a renowned German engineer, ushered in the era of the automobile by patenting a gas-powered engine for his car, leading to the formation of the Mercedes-Benz enterprise. This invention sparked a transportation revolution. Later, Henry Ford utilized mass-production techniques, including the assembly line, to make cars more affordable, paving the way for a global automotive industry, with Japan emerging as the leading automaker by 1980.

***Notes*:**

**commercially feasible - *целесообразный (с коммерческой точки зрения);*

**economically viable - *конкурентный, экономически целесообразный:*

c. Read the text again and identify all instances of Participle I (present participle) and Participle II (past participle). Translate the sentences.

Exercise 12

Answer the questions to the text above.

1. What were the first newspapers called and why?
2. Why did the first printing presses wear down quickly?
3. Was Thomas Edison the first person to try and design an incandescent light bulb?
4. Why is Thomas Edison credited with the invention of the incandescent light bulb?
5. When did the Wright brothers carry out the first successful test of their flying machine?
6. Which contraptions preceded the airplane invented by the Wright brothers?
7. How long did the first sustained flight last?
8. Who invented the prototype of the photographic camera?
9. When was the oldest surviving photograph taken? What does it depict?
10. Which breakthrough in automotive industry was made by Carl-Benz?
11. What was Henry Ford's contribution to the development of automotive industry?

Exercise 13

Read the text again and fill the table with the missing information:

Invention	Inventor(s)	Time
		1440
The light bulb		
	Wright brothers	

The camera		
The automobile		1885

Exercise 14

Discuss the questions with your group mates:

1. In what ways do you think the invention of the printing press changed society at the time it was developed?
2. How do you think photography has evolved over the years?
3. Which invention discussed in the text had the most significant impact on modern society? Why?
4. What other inventions can you call revolutionary? Why?
5. What qualities should a good inventor have?
6. Is it easy to make money out of your inventions? What can help a talented inventor to become a successful entrepreneur?

WATCHING AND LISTENING

Exercise 15

You are going to watch a video about Alexander Graham Bell at

https://vkvideo.ru/video-231870953_456239059

a. BEFORE YOU WATCH.

Discuss the questions:

- What do you know about Alexander Graham Bell? What invention did he make?
- How do you think this invention changed people's lives?

B. WHILE YOU WATCH

Complete the sentences while watching the video.

1. Alexander Graham Bell was _____ by sound from the very start.
2. His father, grandfather and brother worked with _____ and _____.

3. Bell's family also faced _____ when his mother started losing her _____ when Bell was just a boy.
4. Bell settled in Boston where he became a _____ for the _____.
5. Bell wasn't the only person with this idea. Other inventors _____ _____ to build something similar.
6. Bell even invented tools that could help doctors find _____ _____ inside people. An early version of the _____ _____.

C. AFTER YOU WATCH

Answer the questions:

1. Where was Alexander Graham Bell born?
2. What was his father's job?
3. What inspired Bell to learn more about the sound and the way people communicate?
4. Where did the family move when Alexander Graham Bell was in his twenties?
5. Why is the date March 10th 1876 important? What happened on that day?
6. Why did Bell decide to get a patent for his invention as soon as possible?
7. What new machines did Bell experiment with after inventing the telephone?
8. What organization did Bell help to found?

SPEAKING

Exercise 16

Imagine that you were thrown back in time, more specifically in the medieval period. Unfortunately, people in the Middle Ages were not so kind to strangers and now they want to burn you as a warlock or a witch! You have just two minutes to prove that your 'witchcraft' may be useful for their own good! Choose one device or technology to talk about. You have got around 2 minutes to persuade the angry peasants that this 'magic' can be easily explained and it may change their life for the best.

You can use the following expressions to explain the technology	
Describe the thing	*It is made of …* *It is … (round, square, big, small …)*
Explain how it works	*It is used for …* *You can use it to … in (the kitchen, your workplace)* *To use it you need to …* *It needs some (water) to work*
What advantages does it give?	*With this thing you can …* *You can sell it to …* *You can build it from …*

WRITING

Exercise 17

Choose one modern technology (e.g., smartphones, electric lights, airplanes) and write a short paragraph (5-7 sentences) explaining how it might seem like "magic" to someone from the past. Use the following prompts to guide your response:

1. **Describe the technology (What is it? What does it do?).**
2. **Explain why it could appear magical (e.g., instant communication, flying, etc.).**
3. **Mention one challenge people from the past might face in understanding it.**

Example:

"A smartphone would seem like magic to someone from the 19th century. This small device can instantly send messages across the world, take photos, and even answer questions by 'talking' to it. For someone who has never seen electricity, the bright screen and touch controls would look like sorcery. They might struggle to believe that tiny wires and invisible signals make it work, not spells!"

Submit your paragraph to your teacher or share it with a classmate for discussion.

Exercise 18**

a. BEFORE YOU WATCH

Discuss with a partner:

1. When you take notes, what is your main goal?
2. What is your usual method?
3. What is the biggest problem with your notes?
4. Share one tip that has helped you take better notes.

b.WHILE YOU WATCH. Watch a video at https://vkvideo.ru/video-231870953_456239043 . As you watch, use one of the methods mentioned in the video to take notes. After watching, answer these questions based on your notes:

1. What are two consequences of taking ineffective notes?
2. What does L-I-S-T-E-N stand for in the context of note-taking?
3. Name two specific note-taking methods presented in the video.
4. Which method is recommended for subjects with lots of formulas or sequential steps? Briefly describe it.
5. What is the “5 R’s”?
6. What is one practical tip for making your notes more useful for later study?

c. AFTER YOU WATCH

1. Pair Work: Compare your notes with your partner’s. Did you use the same method? Whose notes are easier to understand at a glance?
2. Discussion: Based on the video, what is one specific change you will try in your next class?
3. Practice Task: Re-read the paragraph in Exercise 11 about Thomas Edison. Take new notes on this paragraph using the Cornell Method you learned. Leave space for a summary or key questions.

Theme 4.2. CELEBRATING INNOVATION: BREAKTHROUGHS SHAPING OUR FUTURE

LEAD-IN

a. Work in pairs and explain how you understand this quotation:

"Innovation is the ability to see change as an opportunity – not a threat."

Steve Jobs

b. Test Your Knowledge!

1) What is the maximum number of people who can be awarded a Nobel Prize in a single category in one year?

○ 1 ○ 2 ○ 3

2) Can someone win the Turing Award for developing a computer algorithm?

○ Yes ○ No

3) The Ig Nobel Prize is awarded for improbable research that brings humour while also provoking thought.

○ True ○ False

c. Discuss the following questions with a partner or in a small group:

- What do you know about the Nobel Prize?
- Can you name any famous inventors or scientists in history? What was their contribution?

- Why is it important to recognize and reward innovations?

KEY WORDS AND WORD COMBINATIONS

achievement	[əˈʧiːvmənt]	достижение
application	[æplɪˈkeɪʃn]	приложение, применение
award	[əˈwɔːd]	награда, премия
contribution	[kɒntrɪˈbjuːʃn]	вклад
cornerstone	[ˈkɔːnəstəʊn]	краеугольный камень, фундамент, основа
essential	[ɪˈsenʃəl]	существенный
to explore	[tuː ɪksˈplɔː]	исследовать, изучать
to honour	[tuː ˈɒnə]	чтить, почитать
impact	[ˈɪmpækt]	влияние
to be involved in something	[tuː bi ɪnˈvɒlvd ɪn]	участвовать, быть вовлечённым во что-то
groundbreaking	[ˈgraʊndbreɪkɪŋ]	совершающий прорыв, новаторский
legacy	[ˈlegəsɪ]	наследие
to recognize	[tuː ˈrekəgnaɪz]	выражать признание
to remain	[tuː rɪˈmeɪn]	оставаться

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Identify and read words with stress on the second syllable: algorithm, technology, cryptography, computer, innovation, cybersecurity, machine, database, programming, design, intelligence, pioneer.

Exercise 3

Give the correct word for each phonetic description. The first one is done for you.

[ˈdeɪtəbeɪs]	database
[ˈɪmpækt]	
[ˈkɔːnəstəʊn]	
[əˈʧiːvmənt]	
[ˈælgərɪðm]	
[kəmˈpjuːtɪŋ]	
[ɑːtɪˈfɪʃəl]	

VOCABULARY I

Exercise 4

a. Match the words and phrases with their Russian equivalents.

1) laureate	a) выдающиеся достижения
2) international award	b) выдвигать кандидатов
3) explosives	c) лауреат
4) to nominate candidates	d) получить медаль
5) landmark achievements	e) взрывчатые вещества
6) to receive a medal	f) международная премия, награда

b. Now, complete the text about the Nobel Prize using the words from the list:

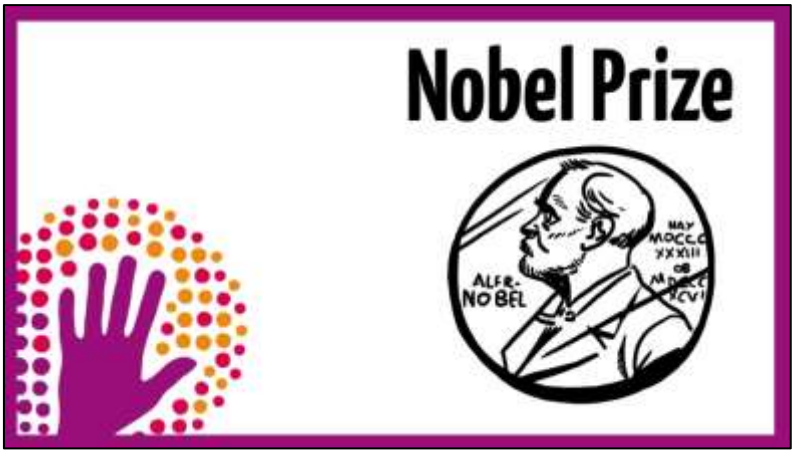

laureate, international award, explosives, nominate, landmark achievements, receive a medal.

The Nobel Prize is a prestigious (1) _____ given for (2) _____ in several fields. Interestingly, its founder, Alfred Nobel, made his fortune by inventing (3) _____ like dynamite. Every year, thousands of scientists and professors are asked to (4) _____ candidates for the prize. Each (5) _____ is invited to a ceremony in Stockholm to (6) _____ and a diploma.

WATCHING AND LISTENING

Exercise 5

You are going to watch a video on the Nobel Prize at https://vkvideo.ru/video-231870953_456239060 .

A. BEFORE YOU WATCH

Answer the question:

Can you guess in which fields the Nobel Prize is awarded? Two options are extra:

Physics	Chemistry	Medicine (Physiology)	Law
Mathematics	Literature	Economics	Peace

B. WHILE YOU WATCH

Fill in the gaps to complete the sentences:

1. He's known for inventing dynamite – a _____ in chemistry.
2. When he died, he left most of his _____ in a trust to _____ what would later be known as the Nobel Prizes.

3. These prizes are a set of annual _____ _____ given for _____ _____ or discoveries made during the preceding year.
4. They are widely regarded as the most _____ _____ in the fields of literature, _____, physics, chemistry, _____, and _____.
5. Each winner receives a _____ _____, a diploma, and a _____ __ _____.
6. You surely know some of the most famous laureates:

- _____ _____ won for writing “The Old Man and the Sea”.
- What would humanity look like without Alexander Fleming, who discovered _____.
- _____ _____ won for discovering the law of the photoelectric effect.
- Martin Luther King Junior showed the Western world that struggle can be won _____ _____.
- The only person to win two Nobel Prizes in different fields is Marie Curie – one for her work on _____ and another for _____ _____ ___ _____.
- And the _____ _____ won a record three Nobel Prizes, mostly for their work _____ ___ _____ of prisoners of war.

C. AFTER YOU WATCH

Answer the questions:

1. What is the Nobel Prize?
2. What are the six fields in which Nobel Prize is awarded?
3. How is the selection process for Nobel Prize winners organized?
4. What is the maximum number of laureates that can receive a single award, and what is the exception?
5. What do Nobel Prize winners receive along with the award?
6. Who is the only person to have won two Nobel Prizes in different fields, and what were they awarded for?
7. How many times has the Red Cross won the Nobel Peace Prize, and for what kind of work?

8. What are some examples of famous Nobel laureates mentioned in the video? What did they receive the Nobel Prize for?

VOCABULARY II

Exercise 6

Put the paragraphs of the text in the correct order and complete the gaps with the prepositions below.

for (3), before, after, on, in (2), to, at, with

Alexander Fleming

a) During World War II, however, two Oxford University scientists Howard Florey and Ernst Boris Chain completed Fleming's work which resulted (1) ____ the mass-production of the world's first antibiotic. Alexander Fleming, Howard Florey and Ernst Chain collectively received the Nobel Prize in Physiology or Medicine in 1945. The discovery of penicillin laid the foundation (2) ____ modern antibiotics and is credited (3) ____ saving over 80 million lives.

b) Alexander Fleming was a great Scottish biologist and pharmacologist who paved the way (4) ____ antibiotic medicines with his discovery of penicillin from the mould 'Penicillium notatum'. Fleming's discoveries brought new hope to mankind (5) ____ battling many diseases and treating bacterial infections.

c) In 1928, he was working (6) ____ the properties of some staphylococci bacteria in his laboratory. Fleming was notorious (7) ____ his messy lab, and he once stacked some bacterial cultures in the corner of his laboratory (8) ____ he went on holiday. Upon his return, he found mould growing on one of the cultures, and the bacteria surrounding the mould had been destroyed. He then grew the pure mould from the penicillium family separately and found out that it produced an intriguing substance

which killed certain bacteria. He named the new substance penicillin in 1929. Fleming then tried to isolate the antibiotic agent but finally abandoned his work due (9) ____ lacking funds and manpower.

d) After graduating from St. Mary's Hospital Medical School in 1906, he began bacteria vaccine and immunology research (10) ____ the hospital and then served at the Royal Army Medical corps during World War I. He later returned to the hospital determined to find antibacterial agents (11) ____ witnessing the deaths of so many of his friends from sepsis or infection.

Exercise 7

Match the verbs with the definitions.

1) to honour	a) to include or engage someone or something in an activity
2) to recognize	b) to stay in a particular place, condition, or state without changing
3) to involve	c) to display or show something publicly
4) to explore	d) to show respect or admiration for someone
5) to shape	e) to investigate or examine something
6) to exhibit	f) to acknowledge
7) to remain	g) to influence or give form to something, such as an idea, structure, or behaviour

Exercise 8

Match English word combinations with their Russian equivalents.

1) the award recognizes achievements a) усовершенствовать криптографию

2) to advance cryptography b) демонстрировать разумное поведение

3) to process information c) участвовать в разработке

4)	to be involved in designing	d)	поощрять новаторов
5)	to exhibit intelligent behaviour	e)	премия присуждается за достижения
6)	to recognize innovators	f)	внести новаторский вклад
7)	to honour somebody's legacy	g)	обрабатывать информацию
8)	to make a groundbreaking contribution	h)	чтить наследие

Exercise 9

a. Fill in the gaps using the following word combinations:

to recognize innovators in computing advanced cryptography honours smb's legacy was involved in designing to process information exhibit intelligent behaviour recognizes achievements

1. Early computers were designed _____ more efficiently than any previous machine.
2. The prize _____Alan Turing's_____ and influence across generations of scientists and technologists.
3. The Turing Test was designed to see if machines could _____ similar to humans.
4. The Turing Award was created _____ who shaped the future of technology.
5. Alan Turing _____ some of the earliest computing machines that influenced the development of modern computers.
6. The award _____ in areas such as artificial intelligence, programming languages, and cybersecurity.
7. During World War II, Turing's work _____ and helped shorten the war.

b. Make your own sentences with the word combinations from ex. 9.

Exercise 10

Translate the sentences from Russian into English. Use the new vocabulary from the "Key Words and Word Combinations" section and vocabulary exercises for the underlined words.

1. Премия Тьюринга предназначена для поощрения ученых-новаторов, которые внесли значительный вклад в развитие компьютерной науки.
2. Эта церемония призвана отметить достижения Алана Тьюринга, в частности его новаторские работы в области компьютерных вычислений.
3. Исследовательская группа участвует в разработке алгоритмов машинного обучения, способных улучшить обработку данных.
4. Образование является краеугольным камнем развития общества.
5. Наследие великих ученых навсегда останется в сердцах людей.
6. Открытия, сделанные нобелевскими лауреатами, оказывают значительное влияние на общество и часто приводят к появлению новаторских технологий.
7. Применение новых технологий приводит к новым достижениям в различных областях.
8. Ученые внесли значительный вклад в исследование космоса.

READING

Exercise 11

You are going to read a text about Alan Turing. What have you heard about him? Take a moment to think about his contributions and legacy. Based on what you know, predict what you think the text will explain about Alan Turing and the importance of the Turing Award.

a. Write down two things you expect to learn about the significance of the Turing Award.

b. Read and translate the text.

THE TURING AWARD

The Turing Award, often called the Nobel Prize of Computing, honours individuals who have made groundbreaking contributions to the field of computer science. Named after Alan Turing, the award recognizes achievements in areas such as artificial intelligence, programming languages, databases, and operating systems. Turing's revolutionary work during World War II, including breaking the Nazi Enigma code, was critical in laying the foundation for modern computing. His work during World War II helped end the war sooner and advanced cryptography, which is now a key part of modern cybersecurity.

Beyond his wartime achievements, Turing's impact on computing is significant. In 1936, he introduced the concept of the Turing Machine, a theoretical model that defined how computers process information. This idea is still essential in understanding algorithms and programming. Turing was also involved in designing some of the earliest computers, such as the Automatic Computing Engine (ACE), and explored ideas like machine learning. His famous "Turing Test," which measures a machine's ability to exhibit intelligent behaviour, remains a cornerstone in discussions of artificial intelligence.

The Association for Computing Machinery (ACM), established in 1947, created the Turing Award in 1966 to recognize innovators in computing. Since 2014, the award includes a one-million-dollar prize, sponsored by Google. Key figures like John McCarthy, a creator of artificial intelligence and the LISP programming language, and Donald Knuth, renowned for his work in algorithms and programming theory, received the award.

The Turing Award not only honours Alan Turing's legacy but also displays innovations that shape modern life, from artificial intelligence applications to internet algorithms. His work continues to influence the fields of cryptography, machine learning, and computational theory, making him a true pioneer in computer science.

c. List two major contributions made by Alan Turing that were mentioned in the text. Explain why each of these contributions is important in the field of computer science.

Exercise 12

Find in the text words and phrases for the given definitions.

a) something given to recognize or honour a success;
b) a branch of computer science dealing with creating systems that can learn and adapt;
c) the process of encoding messages to keep them secure;
d) the study of systems and models used in the processing of information by computers;
e) a set of rules or steps used in problem-solving or calculations;
f) the way someone or something acts or responds in a given situation;
g) a field of computer science focusing on creating intelligent machines;
h) a significant result or success gained through effort.

Exercise 13

Answer the questions on the text.

1. What is the Turing Award, and why is it often compared to the Nobel Prize?
2. Which areas of computer science does the Turing Award recognize achievements in?
3. How did Alan Turing's work during World War II contribute to the development of modern computing?
4. What is the significance of the Turing Machine in computing? Why is it still important today?
5. What is the Turing Test? Why is it considered a cornerstone in artificial intelligence discussions?
6. Who created the Turing Award? When was it established?

7. Which key figures in computing have received the Turing Award? What are their contributions?

Exercise 14

Decide which statements are true, false or not stated. Explain why.

1. The Turing Award exclusively recognizes achievements in artificial intelligence and programming languages.
2. Alan Turing's work on breaking the Nazi Enigma code significantly contributed to the development of modern cryptography and computing.
3. The Turing Machine, introduced by Turing, is a physical device used to process information in modern computers.
4. The Turing Test is still considered a fundamental tool in evaluating whether machines can demonstrate human-like intelligence.
5. The ACM established the Turing Award in 1966 to honour computer science innovators, and it initially included a one-million-dollar prize.
6. The Turing Award not only celebrates technological achievements but also highlights innovations that have shaped modern society, such as internet algorithms.
7. Donald Knuth, who contributed to programming theory, and John McCarthy, the creator of the LISP language, were both awarded the Turing Award.

GRAMMAR REVISION

Study grammar rules on the use of PARTICIPLES (see GRAMMAR REFERENCE p.447)

Exercise 15

Fill in the blanks with the correct form of the verb in italics (Participle I or Participle II).

1. Malala Yousafzai, *awarding/awarded* the Nobel Peace Prize in 2014, has become a global advocate for girls' education.
2. Albert Einstein, *recognized/recognizing* for his contributions to physics, was awarded the Nobel Prize in 1921.
3. The scientist *researched/researching* artificial intelligence is making groundbreaking discoveries in machine learning.
4. Ivan Bunin, *honoured/honouring* with the Nobel Prize in Literature in 1933, was the first Russian to receive this award.
5. Marie Curie, *awarded/awarding* two Nobel Prizes, is the first woman to achieve this honour.
6. The team of experts *analyzed/analyzing* algorithms is focused on improving the efficiency of data processing.
7. The Nobel Committee, *forming/ formed* in 1895, aims to recognize outstanding achievements in various fields.
8. Leo Tolstoy, *known/knowing* for his literary contributions, is often regarded as one of the greatest writers, even though he never received a Nobel Prize.
9. Martin Luther King Jr., *leading/lead* the civil rights movement, inspired millions with his commitment to nonviolent activism and equality.
10. Anna Akhmatova, often *celebrated/celebrating* as one of Russia's greatest poets, was nominated for the Nobel Prize multiple times but never won.

Exercise 16

Open the brackets using Participle I or Participle II.

1. Ivan Pavlov is a famous Russian scientist _____ (to award) Nobel Prize for his research into the physiology of digestion.
2. _____ (to be) the originator of quantum theory, Max Planck won Nobel Prize for the discovery of energy quanta.
3. There is a number of MSU alumni _____ (to honour) with Nobel Prizes.
4. _____ (to discover) a new element, the researchers got many scientific awards.

5. _____ (to motivate) by a desire to learn, Nobel laureates explore new ideas.
6. _____ (to receive) the Nobel Prize for Physics, Albert Einstein transformed our understanding of space and time.
7. _____ (to consider) one of the most influential writers of the 20th century, Ernest Hemingway was awarded Nobel Prize for "his mastery of the art of the narrative".
8. Prof. David Baker, _____ (to be) partly a programmer, was honoured with Nobel Prize for Chemistry for computational protein design.
9. The Higgs Boson also _____ (to call) "God Particle" brought the Nobel Prize for Physics to Peter Higgs and François Englert.
10. Alfred Nobel left a lasting legacy, _____ (to work) as a chemist and engineer.

Exercise 17

Translate the sentences into English using Participles I or Participles II.

1. Вильгельм Рентген, известный благодаря открытию и работе с рентгеновскими лучами, был награжден в 1901 первой Нобелевской премией по физике.
2. Пьеса Бернарда Шоу «Пигмалион», признанная и любимая по всему миру, была награждена Нобелевской премией по литературе.
3. Изучая человеческий мозг, нейробиологи стремятся познать человеческое сознание.
4. Будучи поборником мира и равенства, Мартин Лютер Кинг боролся за расовое равенство.
5. Получив Нобелевскую премию по физике, Мари Кюри была награждена второй наградой через 8 лет.
6. Признанный как выдающийся эпос о донском казачестве «Тихий Дон» принес Михаилу Шолохову Нобелевскую премию по литературе.
7. Сделав значительный вклад в молекулярную биологию, Лайнус Полинг был удостоен двумя Нобелевскими премиями по химии и мира.

8. Заработав состояние на изобретении взрывчатки, Нобель решил направить все свое богатство на благие цели.

SPEAKING

Exercise 18

Compare and contrast the Nobel Prize, the Turing Award, and the Ig Nobel Prize (see TEXT 4 p. 401) through a team project and presentations, fostering discussion about their significance, criteria, and impact on society.

a. Split into three groups, each assigned one of the following awards: the Nobel Prize, the Turing Award, and the Ig Nobel Prize.

Each group researches the award they have been assigned. Focus areas should include:

History & Origins (when and why the award was created);

Criteria (what achievements or discoveries are recognized);

Famous Winners (notable recipients and their contributions);

Impact (how the award influences society, science, or culture);

Unique Features (for example, the Turing Award's focus on computing, the Ig Nobel's humorous take on science, etc.).

b. Work in teams. Each group prepares a 5-minute presentation about their award. The presentation should include visuals (e.g., slides or posters) and answer the following:

- What makes this award prestigious or important?
- How does it shape or reflect developments in its field?
- What are some examples of the most interesting or surprising award winners?

c. After the presentations, lead a class discussion:

Compare the significance of each award.

Discuss how each award contributes differently to science, technology, or society.

Debate which award might have the most long-lasting impact on humanity.

Exercise 19**

Create a "Future Award Nominee" Project. Propose a future recipient for each award based on current trends in technology, science, or even humorous, but legitimate, findings for the Ig Nobel.

WRITING

Exercise 20**

a. Analyze a model Turing Award speech to understand its structure, key elements, and language use.

Model:

Good evening, everyone.

I am deeply honoured to receive the Turing Award tonight. Standing here feels unreal, especially knowing the great minds who have come before me. Alan Turing once said, "We can only see a short distance ahead, but we can see plenty there that needs to be done." These words have guided my work and continue to inspire me.

My research focuses on Machine Learning, and it's about more than just building faster or smarter machines. It's about using technology to solve real problems in society. Whether it's through artificial intelligence, human-computer interaction, or security, my goal has always been the same: to create systems that benefit everyone—fairly, transparently, and ethically.

For example, in my work on AI, I've tried to make sure machines not only learn but learn responsibly. AI is now part of everything, from healthcare to education, and my hope is to ensure it serves people in the best possible way, without bias or harm. Similarly, in Adaptive machine learning, my focus has been on making technology more inclusive and safer for everyone.

Of course, none of this would have been possible without the support of my collaborators, students, mentors, and family. I owe them so much. And while I'm

deeply proud of what we've accomplished, I also know that there's still so much more to do. Technology is advancing quickly, and we have to make sure it leads to a better, fairer world.
So, I accept this award with gratitude, and also with a sense of responsibility for the future. Thank you all for this incredible honour. Together, let's keep pushing the boundaries of what's possible.
Thank you.

b. Imagine you are the next recipient of the Turing Award. Write a speech you would give at the ceremony. Explain your work in computer science, its significance, and how it contributes to society. Use the following key words and word combinations:

honoured, grateful, deeply thankful, prestigious, legacy of Turing, pioneers in computing, innovations in, contributions to , breakthrough, advancing knowledge, benefit humanity, enhancing security, making technology fairer, collaboration, learning from failure, team work, shaping the future, potential for further innovation

Follow the instructions.

1. **Introduction.**

Greet the audience and express gratitude for receiving the award.
Mention the importance of the Turing Award and acknowledge its legacy.

2. **Describe Your Work.**

Explain your specific area of research (e.g., artificial intelligence, cryptography, human-computer interaction, etc.).
Highlight the core contributions you've made to the field.
Emphasize how your work solves important problems or addresses societal needs.

3. **Significance and Impact.**

Explain the broader significance of your work for technology and society.

Address how your innovations contribute to areas like healthcare, security, education, or other fields.

4. **Personal Reflection.**

Acknowledge the support of collaborators, mentors, and family.

Reflect on the challenges and rewards of your work.

5. **Conclusion.**

Look toward the future, encouraging continued progress and responsibility in computer science.

Express your gratitude once more.

Theme 4.3. KNOW-HOW

LEAD-IN

a. Look at the pictures. What do you think they have in common?

b. Test Your Knowledge!

What is a 'know-how'?

○ A type of academic degree

○ Practical knowledge or skill needed to do something

○ A brand of sports equipment

The Coca-Cola formula is a famous example of a...

○ Patent

○ Trade secret

○ Copyright

Ancient Chinese papermaking process represents:

○ Copyright protection

○ Traditional know-how passed down through generations

○ A patented industrial machine

c. Discuss with your groupmates:

1. Do you know any other industrial secrets?

2. Why do companies spend millions to protect their secrets?

3. Is it fair for a company to keep a life-saving medicine formula a secret to make a profit? Why or why not?

KEY WORDS AND WORD COMBINATIONS

accessible	[əkˈsesɪb(ə)l]	доступный
to accept an apprenticeship	[tə əkˈsɛpt ən əˈprɛntɪsʃɪp]	согласиться на стажировку
to call into question	[tə kɔːl ˈɪntuː ˈkwɛstʃən]	задаваться вопросом
to claim	[tə kleɪm]	утверждать, заявлять, заявление
elaborate marketing campaign	[ɪˈlæbərɪt ˈmɑːkɪtɪŋ kæmˈpeɪn]	продуманная маркетинговая кампания

entire vault	[ɪnˈtaɪə vɔːlt]	целое хранилище
intellectual property	[ˌɪntəˈlektʃʊəl ˈprɒpətɪ]	интеллектуальная собственность
founder	[ˈfaʊndə]	основатель
to generate attention	[tə ˈdʒenəreɪt əˈtenʃ(ə)n]	привлечь внимание
intricate design	[ˈɪntrɪkət dɪˈzaɪn]	сложная конструкция
to keep up with	[tə kiːp ʌp wɪð]	угнаться, поспевать за
manufacturing might	[mænjəˈfæktʃərɪŋ maɪt]	производственная мощь
mill	[mɪl]	мельница, прядильная фабрика
mysteriousness	[mɪˈstɪriəsnəs]	загадочность
to pass down (by word of mouth)	[tə pɑːs daʊn]	передавать из уст в уста
to purchase the rights	[tə ˈpɜːtʃɪs ðə raɪts]	приобрести права
senior executive	[ˈsiːnɪə ɪgˈzekjʊtɪv]	топ-менеджер компании
to share the recipe	[tə ʃeə ðə ˈresɪpɪ]	поделиться рецептом
shroud of mystery	[ʃraʊd əv ˈmɪst(ə)rɪ]	завеса тайны
to smuggle	[təˈsmʌg(ə)l]	заниматься контрабандой
to take out a loan	[tə teɪk aʊt ə ˈləʊn]	взять кредит/заём
to take with a grain of salt	[tə teɪk wɪð ə greɪn ɒv sɔːlt]	отнестись с долей скептицизма
trade secret	[treɪd ˈsiːkrət]	секрет производства

PRONUNCIATION PRACTICE

Exercise 1

Check the meaning and pronunciation of the following international words.

centre, company, design, formula, group, high-tech, know-how, mystery, museum, original, product, recipe, senior, strategy, variation, version.

Exercise 2

Give for each phonetic description the correct word. The first one is done for you.

[vɔːlt]	vault
[əkˈsesɪb(ə)l]	
[ʃraʊd]	
[ɪˈlæbərɪt]	
[ˈɪntrɪkət]	
[mɪˈstɪriəsnəs]	
[ˈsmʌg(ə)l]	

VOCABULARY

Exercise 3

a. Match the synonyms.

1) accessible	a) cutting edge
2) keep up with	b) administrative
3) executive	c) available
4) high-tech	d) acquire
5) purchase	e) catch up with

b. Match the opposites.

1) apprenticeship	a) manual labour
2) smuggle	b) junior
3) automated manufacturing	c) ignorance
4) intricate	d) legal import/export
5) senior	e) simple

Exercise 4

a. Fill in the gaps using the words given below.

thread loan machinery campaign intricate

1. The vault itself is of a/an _____ design coupled with high-tech security features.
2. The man took out a/an _____ to purchase the profitable company last year.
3. This all comes from an elaborate marketing _____ manufactured by Motorola.
4. England's manufacturing might had been built on __ ____ before the Industrial Revolution began.
5. His factory allowed the much larger amounts of cotton to be turned into _____.

b. Fill in the gaps using verbs given below in the needed form.

to steal to pass down to pave the way to purchase to be

1. Coke's original founder _____ the rights in 1891 and made a few changes to it.
2. The recipe of Coke _____ by word of mouth until it was written down in 1919.
3. Unfortunately, people _____ national secrets for thousands of years and they still do it.
4. Machine secrets ____ a matter of national intelligence in 18th century in England.
5. The water frame ____ for factories to develop across England to keep up with increased demand for textiles in 1770s.

Exercise 5

Word formation. Form from the given verbs all possible variants.

Verb	Noun	Adjective	Adverb
invent			
access			
mystify			
elaborate			
purchase			

smuggle			

Exercise 6

Translate sentences from Russian into English. Use the new vocabulary from the "Key Words and Word Combinations" section for the underlined words.

1. Изобретатель колы Джон Пембертон создал напиток в 1886 году и перед своей смертью в 1888 году поделился рецептом всего с парой человек.
2. Первоначально рецепт колы долго передавался из уст в уста до того, как был записан в 1919 году.
3. В 1919 году группа инвесторов взяла кредит на покупку прав на компанию.
4. В прошлом веке была создана продуманная маркетинговая кампания, основанная на секретной формуле колы.
5. Ранее маркетологи надеялись, что завеса тайны вокруг формулы привлечёт внимание к их продукции.
6. Люди брали кредиты на протяжении прошлого века и делают это до сих пор.
7. Промышленная революция в Соединенных Штатах была основана на интеллектуальной собственности, которую контрабандой вывезли из Англии.
8. За шестнадцать лет производственная мощь страны увеличилось в десять раз.

GRAMMAR

Infinitive and Gerund

Check the grammar reference for INFINITIVE AND GERUND (see GRAMMAR REFERENCE p.449) and then do the exercises.

Exercise 7

Put the verbs in brackets into the correct infinitive form or the -ing form.

1. The original inventor tries ____ (protect) a trade secret.
2. ____ (smuggle) is an illegal import or export.

3. It's important for companies ____ (keep) their information safe so other people and companies cannot ____ (use) it to create a similar product and sell it themselves.
4. ____ (protect) trade secrets is a do-it-yourself process one doesn't file for formal protection for trade secrets.
5. It’s worth ____ (patent) your invention in case of theft of the intellectual property rights.
6. The owners of trade secrets are made ____ (sign) the declaration of non-disclosure information.
7. You had better ____ (not purchase) this product, it is an elaborate marketing campaign.
8.The millionaire acquired rights to the company without ____ (take) out a loan.
9. Industrial espionage is the illegal practice of ____ (uncover) information from competitors to gain a competitive advantage.
10. We cannot ____ (apply) know-how for a gear system as it is to a problem of ____ (design) a robot arm.

Exercise 8

Choose the correct infinitive form or the -ing form.

1. Coke decided *creating / to create* a marketing strategy around the mystery of the formula.
2. The company claims *to know / know* the exact recipe, but many people take this claim *to be / being* part of an elaborate campaign.
3. We saw the company *building / to build* an entire vault to generate attention.
4. Parliament passed laws *prohibiting / to prohibit* engineers from *to travel / traveling* abroad.
5. Samuel Slater accepted *to work / working* as an apprentice and went on *to establish / establish* his own factory.
6. The leaked secrets allowed American manufacturers *increasing / to increase* production tenfold.

7. Francis Lowell watched English factories *operating / to operate* the power loom and then made his engineers *replicate / to replicate* the design.
8. Historians consider the *smuggling / to smuggle* of industrial secrets to *be / being* a crucial part of the Industrial Revolution.

Exercise 9

Translate the sentences into English using Gerund or Infinitive.

1. Существование правовых мер защиты коммерческой тайны, например, подписание соглашения о неразглашении, намного облегчает жизнь.
2. Нет смысла регистрировать коммерческую тайну как интеллектуальную собственность, ее кража или публикация по-прежнему являются незаконными.
3. Можете ли вы представить внедрение высокотехнологичного промышленного производства в ближайшем будущем?
4. Главный директор обвинял маркетологов в непривлечении внимания к их продукции и заставил их пересмотреть стратегию.
5. Он хотел бы узнать, что входит в понятие «ноу-хау» и помочь коллегам понять эти принципы.
6. Все привыкли к постоянному совершенствованию маркетинговых стратегий и могут наблюдать как они меняются каждый день.
7. Я слышал, как директор фирмы подписывал договор, но я не слышал, чтобы он обсуждал все детали.
8. Не стоит относиться к рекламе серьезно, лучше научиться воспринимать её с долей скептицизма.

Exercise 10

Write 5 sentences about know-how using Infinitive and Gerund. Work in pairs. Read the sentences aloud to your partner.

GRAMMAR REVISION

Verbs taking the to - infinitive or the -ing form with a change in meaning

(see GRAMMAR REFERENCE p.449)

Exercise 11

Put the verbs in brackets into the correct infinitive form or the -ing form.

1. The researcher forgot ____ (share) the new data with the team.
2. The scientist will never forget ____ (share) the insights with colleagues during the scientific conference.
3. The scientist stopped ____ (have) a snack and continued working.
4. The engineer stopped ____ (share) sensitive data after realizing it could be leaked. Now he doesn't do it anymore.
5. Remember ____ (check) the laboratory equipment before you leave.
6. The chemist remembered ____ (share) the experimental results only with authorized personnel.
7. Companies usually try ____ (safeguard) their industrial secrets by implementing stricter protocols. They make all the efforts.
8. The scientist tried ____ (encrypt) the data, hoping it would prevent unauthorized access. Unfortunately, the attempt was unsuccessful.
9. I am sorry ____ (inform) you, but you have failed this examination.
10. I am sorry for ____ (miss) the lecture. I will commit to make up the missed work.

READING

Exercise 12

a. Before reading, look at the pictures and guess what they depict. Read the text.

TEXT 1

THE HISTORY OF COCA-COLA SECRET FORMULA

There are some variations of how the story of the formula goes but the company has its own version of it. The drink's original inventor John Pemberton created the drink in 1886 and had shared the recipe with only a couple of people before his death. Coke's original founder Asa Candler purchased the rights in 1891. The recipe, however, would not be written down until 1919. It had been passed down by word of mouth. Then, in

1919, a group of investors took out a loan to purchase the company and needed collateral for the loan. Coke gave him a written version of the formula to use as such.

From that time on, the formula was guarded in an Atlanta bank for many years. Coke decided to create a marketing strategy, hoping the shroud of mystery around the formula would generate attention to the product. Coke added to this mysteriousness by building an entire vault within the World of Coca-Cola, the company's museum in Atlanta. Coke also claims that only two senior executives within the company know the formula at a time and they can never travel together.

The vault itself is of an intricate design coupled with high-tech security features. It is only accessible via a palm scanner, a numerical code pad and a huge steel door. Once inside, there's another safe box with more security features. And inside that safe box is a metal case containing the written recipe. The company even completed the vault with red lighting and fake smoke.

Now, it's important to take all of this with a grain of salt as this information is based on Coke's own claims. Some have called into question whether it is only really two senior executives that know the formula. They have also questioned whether the formula was not written until 1919. Ultimately, this all comes from an elaborate marketing campaign manufactured by Coke.

b. Find 2 statements that correspond to the text.

1. The recipe of Coke was passed down from generation to generation by word of mouth.

2. More than two senior executives within the company know the secret formula at a time, they cannot travel together.

3. The vault of coke is of a straightforward design with old-fashioned security features.

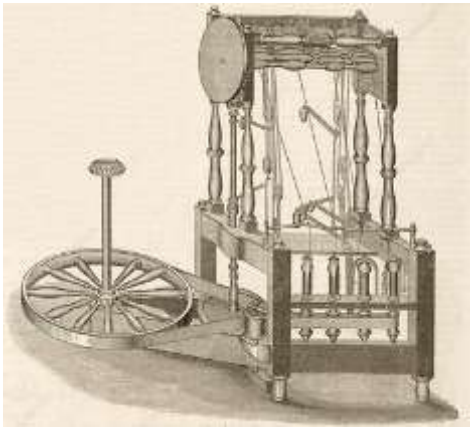

4. Due to the marketing strategy, it was managed to generate customers' attention to Coke.

Exercise 13

a. Before reading, look at the pictures and guess what they depict. Read the text.

TEXT 2

INDUSTRIAL ESPIONAGE

Arkwright's Water- Frame

People have been stealing national secrets for thousands of years. The Industrial Revolution in the USA was founded on intellectual property smuggled out of England.

England's manufacturing might was built on machinery. Richard Arkwright from England created a water-powered spinning frame in his mill in 1771. The production of cotton goods increased tenfold. The water frame paved the way for factories across England to keep up with increased demand for textiles. Parliament passed laws in 1774 to protect the country's industrial secrets, prohibiting engineers and mechanics from traveling abroad.

Later, Samuel Slater accepted an apprenticeship at a factory in England where the water frame was used. But Slater knew that his fortune lay across the Atlantic, where the new United States led the world in cotton production. In 1789 he memorized plans for the water frame and sailed to America.

The Power Loom

He established a factory in Rhode Island, using people walking on a treadmill to supply power. Then, the water wheel supplanted the walkers. Slater's factory allowed larger amounts of cotton to be turned into thread.

In 1803 Slater established Slaterville, a village built around the mill, complete with tenements for the workers and a company store. This became a model for factory life known as the Rhode Island system. In England, the sudden turn of fortune in American manufacturing threatened the loss of jobs.

Francis Cabot Lowell witnessed the success of this system. Lowell visited English factories and noted the success of another innovation, the power loom. Just as Slater did, Lowell memorized the plans for the loom and returned to America. His mills began operating the following year in the USA, using the "stolen" plans.

In the 18th century, Britain guarded its industrial secrets as matters of national security. Their leakage to America was a blow as severe as the 21st-century cyber secrets leaked by Wikileaks.

b. Find 2 statements that contradict the text.

1. English manufacturing was based on manual labour.
2. After inventing of spinning frame the production of cotton goods decreased.
3. Engineers and mechanics were not allowed to travel abroad back then.
4. The power loom was a successful innovation.

Exercise 14

Discuss the questions in pairs.

1. What is the meaning of the know-how?
2. What other examples of know-how can you give?
3. Why did marketing specialists create the shroud of mystery around the formula of the product?
4. Why is it important to take all advertisement with a grain of salt?
5. What is the purpose of smuggling? Why does it still exist today?
6. What is the brain drain and why does it happen?
7. What is the Rhode Island System?
8. Was the invention of the power loom successful?

WATCHING AND LISTENING

Exercise 15

a. Watch a video about trade secrets at https://vkvideo.ru/video-231870953_456239073 and complete the definition below:

Trade secret – the way to protect your IP (intellectual property) by keeping it secret. Trade secrets include things like _____, processes, designs, methods of _____ products and compilations of information. Some famous examples of trade secrets include the _____ for Coca-Cola, the eleven spices and herbs blend used by _____ and _____ algorithm. Even though trade secrets aren't registered as intellectual property stealing or publishing them is _____. The government equivalent of this status is "_____" information.

b. Watch the video for the second time and mark the following statements as true or false.

1. Only businesses can keep their information as a trade secret.
2. Companies keep their information safe so other people and companies can't use it to create a similar product.
3. To protect a trade secret owners of trade secrets should apply for a patent.
4. There is no legal protection for a trade secret.
5. There is a certain law so companies can be sure their information is safe throughout the partnering process.

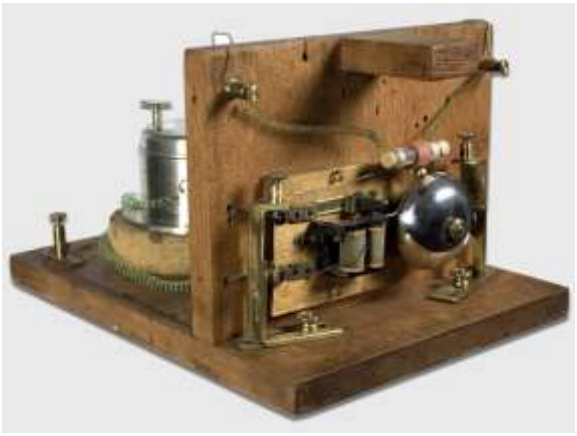

SPEAKING I

Exercise 16

Part 1. Match each invention to its inventor and impact.

Top Russian inventions that changed the world

Caterpillar tracks, track assembly 	Although cultured milk products appeared centuries ago, it was Russian scientist Mechnikov who first theorised their positive impact on longevity. Back in 1910, he suggested that, in order to live longer, a person should consume fermented milk products, which reduce putrefactive processes in the intestines.
Electrically-powered railway wagons 	Igor Sikorsky was another Russian inventor whose potential was fully realized abroad. In 1910, he created the prototype of a rotor-driven device, which successfully got off the ground. In 1912, he created the first hydroplane in the world and then the first multiple-engine aircraft. After the 1917 Revolution in Russia, he had to emigrate to the US, where he established his own company, Sikorsky Aero Engineering Company.
Videotape recorder 	Alexander Popov, a professor of physics, announced the invention of a system for wireless communications at a lecture at St Petersburg University in April 1885. He was unable to publish his work though because he worked for a military institution. Italian Guglielmo Marconi conducted similar experiments at about the same time – his article was published in 1897. Unlike

	Popov's, Marconi's invention was commercialised fast, so they still argue in the West over who invented it first.
Radio 	This invention was a precondition for the transport revolution that spurred the development of towns and industrial centres. It all started in 1874-1876, when Fyodor Pirotsky conducted a slew of experiments on transmitting electricity over a distance, with one rail serving as a direct conductor and the other, as a reverse conductor. An electric motor, located one kilometre from the power source, worked. A few years later, he conducted an experiment at a railway spur near Sestroretsk. There were 40 people in the wagon. The first electrified tram line was opened as late as 1881 in a Berlin suburb on the basis of designs by the Russian inventor.
Helicopter 	Alexander Poniatoff, a student of the founding father of Russian aviation Nikolay Zhukovsky, started the Ampex company in the United States and worked there in the 1950s. The company succeeded in producing the first quality video signal recorder. Ampex kept its lead inthe market for professional magnetic recording of video for half a century and global electronics giants had to use

	Poniatoff's patents to produce home video equipment.
Yoghurt 	In 1837, Russian army captain Dmitry Zagryazhsky came up with drawings of a caterpillar drive and applied to the Ministry of Finance for a patent for his invention of a "carriage with a flat chain mechanical caterpillar". He was granted a patent but his invention did not interest manufacturers at that time and the patent was annulled in 1839. Much later, in 1877, Russian peasant and self-taught inventor Fyodor Blinov completed Zagryazhsky's unfinished task and created a wagon that moved on caterpillars. This invention gave the green light to production of tractors and tanks.

Part 2. Debate – "Which Invention Was Most Revolutionary?"

Divide into small teams. Each team picks one invention and argues why it had the biggest global impact.

Criteria for your argument

Daily use	How does it affect ordinary people's lives today?
Technological ripple effects	What other inventions or industries did it make possible?
Economic impact	How did it create wealth or change economies?
Scale of Change	Did it change the world on a global scale?

Useful Phrases:

"Without the **[invention]**, we wouldn't have ..."

"This was a foundational technology for ..."

"Its impact is seen every day in ..."

"While other inventions are important, ours created a paradigm shift because ..."

Example: Our team argues for the **helicopter**. Without Igor Sikorsky's pioneering work, we wouldn't have modern **search and rescue operations**, **air ambulance services**, **news reporting**, or **heavy-lift construction**. It transformed both military and civilian life and saved countless lives, making it the most revolutionary invention."

Part 3: Group Feedback and Vote

After the debate, discuss as a class which arguments were the most persuasive.

Vote for the invention you now believe is the most revolutionary (you cannot vote for your own).

The teacher will announce the winning invention.

WRITING

Exercise 17

Write a small brochure (80–100 words) suggesting a new scientific innovation for a daily routine. Here are the examples that can help you:

 Automatic toothpaste dispenser	 Slip-proof socks	 Silent shoes

Brochure Structure:

Headline & Slogan - Catch attention.

Problem & Solution - Explain benefits.

Key Features - 2-3 main advantages.

Call to Action - Encourage response.

Example of a brochure:

SLIP-PROOF SOCKS

Never Slip Again!

Tired of dangerous slips at home? Our revolutionary socks feature micro-suction technology that grips any surface. Perfect for elderly people and children!

Benefits:

• Stay safe on slippery floors.

• Natural walking comfort.

• Machine washable.

Special Offer:

Get 20% off your first order!

Visit our website: **www.sleep-proof.com**

Key Words to Use:

• non-slip grip • safety technology • comfortable fit • perfect for • special offer.

*SPEAKING II***

Project Work: How Inventions Change the World

Theme: The impact of inventions and discoveries

Project Goal:

To research a significant invention or discovery, understand its history and key figures, and present its profound and ongoing impact on society.

Background:

In our course, we have studied several groundbreaking inventions that reshaped human civilization: the printing press, the electric light bulb, the airplane, photography, the automobile, and modern computing. Each of these started as an idea and created a "ripple effect," changing the way we live, work, and communicate.

Your Task:

You will work in small groups (2-3 people) to create a **10-minute presentation** on an invention or discovery of your choice. You must connect your chosen invention to the broader themes we have studied.

Step 1: Choose Your Invention

Select ONE invention or discovery from the list below:

- The Printing Press
- The Electric Light Bulb
- The Airplane
- Photography
- The Automobile

- Penicillin / Antibiotics
- The Computer / Turing Machine
- Another major invention (e.g., the Internet, the Telephone, the Steam Engine)

Step 2: Research and Prepare Your Presentation

Your presentation must include the following four sections:

1. The Breakthrough:

- Describe the invention. What is it and what does it do?
- Who are the key figures involved? (Like Gutenberg, the Wright Brothers, Alan Turing).
- What was the key problem they were trying to solve?
- **Required:** Use at least 3 vocabulary words from our texts (e.g., *landmark achievement, paved the way for, commercially feasible, sustained flight, groundbreaking contributions*).

2. The "Ripple Effect":

- Analyze the immediate and long-term consequences of this invention.
- How did it change industry, daily life, communication, or warfare?
- Connect its impact to another field. For example, how did the airplane affect globalization? How did the computer affect medicine?

3. A Modern Connection:

- Connect your invention to a modern-day example. You can choose ONE of the following approaches:

A) The "Secret Formula": Like Coca-Cola's secret recipe, is there proprietary technology or intellectual property related to your invention today? (e.g., a secret algorithm like Google's search, a patented design for electric car batteries). Discuss why it's kept secret and how it is protected.

B) The "Industrial Espionage": Like Samuel Slater memorizing factory plans, find a modern example of industrial or cyber espionage related to your invention's field. (e.g., stealing plans for a new smartphone, hacking for car technology). Briefly describe the case and its consequences.

4. Group Reflection:

- As a group, state your opinion: Has this invention had a net positive or negative impact on humanity? Justify your answer with one or two reasons.

Step 3: Presentation and Delivery

- Your group will have 10 minutes to present.
- All group members must speak equally.
- Use visual aids (e.g., a PowerPoint presentation, a poster, or a short video clip). Do not write full sentences on your slides—use keywords and images.
- Be prepared to answer 1-2 questions from the teacher or your classmates after your presentation.

Assessment Criteria:

You will be assessed on:

- **Content & Accuracy:** Depth of research and correct use of information.
- **Language Use:** Use of relevant vocabulary from the course and grammatical accuracy.
- **Organization & Clarity:** Logical structure and clear delivery.
- **Teamwork & Engagement:** Equal participation and ability to answer questions.

This project is your chance to explore how a single idea can send ripples through history. Be creative, be informative, and show us how your chosen invention truly changed the world!

UNIT 5.

Global Issues

Theme 5.1. UNDERSTANDING SOCIAL CHALLENGES

LEAD-IN

Work in pairs. Look at the pictures and discuss the following questions:

1. What social issues do these pictures show?
2. Which of these problems do you see around you?
3. What do you think is the most serious problem? Why?

(1)

(2)

(3)

(4)

KEY WORDS AND WORD COMBINATIONS

to afford	[tə əˈfɔːd]	позволять себе (финансово)
to consume	[tə kənˈsjuːm]	потреблять
data leak	[ˈdeɪtə liːk]	утечка данных
digital addiction	[ˈdɪdʒɪtəl əˈdɪkʃən]	цифровая зависимость
to earn	[tə ɜːn]	зарабатывать
equality	[ɪˈkwɒlɪti]	равенство
equity	[ˈekwəti]	справедливость
fair	[fɛə]	честный, справедливый
fake	[feɪk]	поддельный, фальшивый
to make ends meet	[tə meɪk ɛndz miːt]	сводить концы с концами
misinformation	[ˌmɪsɪnfəˈmeɪʃən]	дезинформация
overconsumption	[ˌəʊvəkənˈsʌmpʃən]	чрезмерное потребление
privacy	[ˈprɪvəsi], [ˈpraɪvəsi]	конфиденциальность
to release (a product)	[tə rɪˈliːs]	выпускать (продукт)
rumour	[ˈruːmə]	слух
social	[ˈsəʊʃl]	социальный, общественный
society	[səˈsaɪəti]	общество
(to) spread	[tə spred]	распространение; распространять
to struggle	[tə ˈstrʌgl]	стараться изо всех сил, с трудом справляться, бороться
(to) trust	[tə trʌst]	доверие, доверять
wealth	[welθ]	богатство, состояние
well-being	[welˈbiːɪŋ]	благополучие

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Check the meaning and pronunciation of the following international words.

globalisation, innovation, technology, digital, communication, economic, function, crisis, population, integration, consumerism, media, trend.

Exercise 3

Give each phonetic description the correct word. The first one is done for you.

equity	[ˈekwəti]
	[ˌəʊvəkənˈsʌmpʃən]
	[səˈsaɪəti]
	[ˈædɪkʃən]
	[ˈruːmə]
	[ˈstrʌgl]

VOCABULARY

Exercise 4

a. Match the synonyms.

1) rumour	a) to believe
2) addiction	b) false
3) fake	c) to try hard
4) to trust	d) dependence
5) to struggle	e) gossip

b. Match the opposites.

1) equality	a) to spend

2) to earn (money)	b) underconsumption
3) wealth	c) inequality
4) overconsumption	d) individual
5) social	e) poverty

Exercise 5

Complete the definitions using the words from the list.

data privacy digital addiction misinformation equality
well-being overconsumption wealth inequality data leak

1. _____ means treating people the same regardless of their background.
2. _____ is spending too much time online.
3. _____ is when personal information becomes publicly available without permission.
4. _____ means buying or using more things than necessary.
5. _____ is incorrect information that spreads online or in the media.
6. _____ is unfair differences in income and living conditions.
7. _____ is a state of feeling healthy, safe, and satisfied with your life.
8. _____ means keeping your online information safe from unwanted access or tracking.

Exercise 6

a. Fill in the gaps using the words given below.

equity privacy overconsumption rumour wealth

1. A fake story turned into a huge _____ within hours.
2. Some countries aim to ensure _____ by giving people equal chances to succeed.
3. Many believe _____ should be shared more fairly in society.
4. Young people often don’t realise how important their online _____ is.

5. Too much advertising leads to _____ in many countries.

b. Fill in the gaps using verbs given below in the needed form.

to trust *to struggle* *to earn* *to spread* *to afford*

1. A lot of workers can't _____ enough money to support their families.
2. It's important to _____ each other if we want to solve social problems.
3. Some families _____ to make ends meet because prices keep rising.
4. They can't _____ expensive clothes, so they buy only what they need.
5. If we don't check the facts, we may _____ misinformation without realising it.

Exercise 7

Word formation. Modify the words in brackets to fill in the gaps.

1. When everyone is paid _____ (fair), it helps create a more balanced society.
2. _____ (wealth) people often have more opportunities and resources than those who are not as rich.
3. Many people struggle to find _____ (afford) housing in our city.
4. Many companies encourage _____ (consume) through advertising.
5. People feel safe only when their _____ (private) is protected.
6. Poverty and _____ (equal) remain serious problems worldwide.

Exercise 8

Translate the sentences from Russian into English. Use the vocabulary from the "Key Words and Words Combinations" section for the underlined words.

1. Мои друзья не могут позволить себе новый смартфон каждый год.
2. Родители беспокоятся о растущей цифровой зависимости среди подростков.
3. Недавно произошла серьезная утечка данных в крупной компании, что привело к распространению разных слухов.

4. Все люди заслуживают равенства и справедливого отношения.
5. В новостях часто распространяется фальшивая информация, и люди перестают доверять СМИ.
6. Многие люди потребляют больше товаров, чем им действительно нужно.
7. Компания выпустила новый продукт, и он стал популярным.
8. Многие семьи с трудом справляются с тем, чтобы свести концы с концами, несмотря на растущее богатство в обществе.

GRAMMAR

Conditionals

Study grammar rules on the use of Zero and First Conditional sentences (see GRAMMAR REFERENCE p.452)

Exercise 9

Match the halves of the sentences using zero conditional. Note that both if-clause and main clause can be in either column.

For example:

1) – g *If people don't sleep enough, they feel tired.*

1) people (not to sleep) enough	a) the lunar eclipse (to happen)
2) the Earth (to pass) directly between the sun and the moon	b) you (to get) 80 points
3) ice (to melt)	c) you (to waste) money
4) I (not to check) my settings	d) you (to heat) it
5) society (to ignore) inequality	e) apps (to track) everything I do
6) people (to work) together	f) a lot of people (to be) left behind
7) you (to buy) things you don't need	g) they (to feel) tired

8) you (to pass) the test	i) they (solve) social issues more effectively

Exercise 10

Open the brackets to complete the sentences. Use the first conditional forms of the verbs.

1. Unless we (to act) today, tomorrow there (to be) nothing we can do.
2. I (to call) you if I (to get) a word from her.
3. If you (not to take) medication from your doctor, your condition (to get) much worse.
4. If the housing prices (to go up), we (not to be) able to afford to buy an apartment.
5. If the Green Party (to win) the election, they (to ban) the use of blue and red plastic straws.
6. Unless we (to protect) our data, companies (to know) more about us than we know about ourselves.
7. If we (to keep) buying things we don't need, we never (to feel) satisfied.
8. If you (not to give up) smoking, I (break up) with you eventually.
9. If you (to take) my advice seriously, you (to see) things changing for the better.
10. If we (not to learn) to verify information, misinformation (to spread) even faster.
11. Unless you (to deal) with social division, you (not to be) able to create an equal and fair society.
12. You (not to get) far in this game unless you (to collaborate) with your companions and (to buy) good items for your character.

Exercise 11

Complete sentences with your own ideas using the first conditional form.

1. If I don't control my screen time, …
2. If I get 5000 subscribers on my Telegram channel by the end of the year, …
3. If companies release new products every year, …
4. If I earn enough money next year, …
5. Many people will struggle to make ends meet unless …

6. If I fail to meet my parents' expectations, …

Exercise 12

Translate the sentences into English using zero and first conditionals.

1. Если вы с трудом справляетесь с такими заданиями, то будет лучше ещё раз повторить правила.
2. Миллионы людей будут жить на улице, если государство не будет строить социальное жильё.
3. Если люди слишком много листают ленту в соцсетях, они чувствуют себя уставшими.
4. Если цены продолжат расти, многим семьям будет трудно сводить концы с концами.
5. Если ты не защитишь свою конфиденциальность, компании будут собирать больше твоих данных.
6. Стакан взорвётся, если налить в него кипящую воду.
7. Если Алиса не прекратит кричать на людей, никто не захочет быть с ней друзьями.
8. Если государство будет заботиться об экологии, это поможет улучшить здоровье людей.

READING

Exercise 13

a. Read the five stories (A–E). Each narrator describes a situation from everyday life that reflects a wider social problem.

Match each story with the correct title (1–5):

1. *Two Worlds, One City*
2. *Trapped in Trends*
3. *When Screens Never Sleep*
4. *Watched by the Web*
5. *Between Truth and Clickbait*

A. When I wake up, the first thing I see is my phone screen. Messages, updates, news – all waiting for attention. If I start scrolling in the morning, I lose track of time immediately. After hours online, I sometimes feel strangely empty and upset. Last month I tried a "digital detox". For two days I read books, slept, and met people in person. It felt like breathing again. Maybe mental health and well-being begin when we finally log off.

B. When my old phone still worked perfectly, I bought a new one – because everyone else did. It felt exciting for a week, then ordinary again. Companies release new models every year: if they release one, people rush to upgrade. The same story repeats with clothes, gadgets, even toys. Sometimes I wonder who really decides when things become "old" – us or the companies.

C. A few months ago, I saw a post claiming that a famous actor had donated millions to build shelters for stray animals. Thousands liked and shared it instantly. Later it turned out to be fake – just a random rumour. The Internet gives everyone a voice, but not everyone uses it responsibly. If we don't check the facts before reposting anything, we risk spreading misinformation.

D. When I travel from the centre of my city to its outskirts, I see two different worlds. One full of cafés and electric cars, the other – old buses and broken windows. My neighbour works hard but struggles to make ends meet. My friend studies engineering but worries he'll never earn enough to live independently. We often talk about "innovation," but how modern can a society be if so many people are left behind?

E. I used to think online privacy didn't matter – I had nothing to hide. Then ads started showing things I had only mentioned in chats. It felt like someone was watching through the screen. Now I read privacy policies, use stronger passwords, and think twice before sharing personal photos. Maybe the question is not what we hide, but what we give away without noticing.

b. Now match each title (1–5) with a problem it represents (a–e).

1. Two Worlds, One City
2. Between Truth and Clickbait
3. When Screens Never Sleep
4. Watched by the Web
5. Trapped in Trends

a. Digital addiction
b. Overconsumption
c. Misinformation in Social Media
d. Wealth inequality
e. Data privacy

Exercise 14

a. Complete the dialogues using words from the box.

waste *privacy* *struggled* *rumour* *inequality*

1. A: I don't understand how this _____ spread so quickly.
   B: People just share whatever they see.
2. A: Many people in our city live in difficult conditions.
   B: Yes, _____ is still a big problem.
3. A: You look exhausted. Didn't you sleep?
   B: I _____ to stop scrolling last night.
4. A: I don't want everyone to know what I buy online.
   B: Then check your _____ settings.
5. A: Throwing things away so fast creates more _____.
   B: That's why we should repair instead of replacing.

b. What problem is referenced in each dialogue?

Exercise 15

Answer the questions.

1. What daily habit stresses the narrator in story A?
2. Why did the narrator in story B buy a new phone?
3. What lesson did the narrator in story C learn about information?
4. What contrast does story D describe?
5. How did the narrator in story E change their online behaviour?

Exercise 16

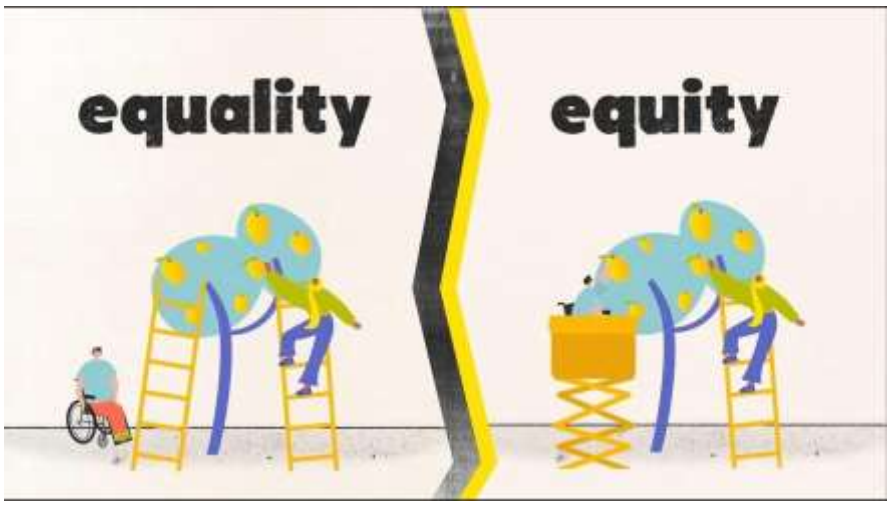

Discuss in pairs:

1. Which narrator's story felt most familiar to you? Why?
2. Which problem do you think is the most serious today?
3. What small changes can individuals make to avoid these problems?
4. Which problems require global changes rather than personal action?

WATCHING AND LISTENING

Exercise 17

You are going to watch a video on difference between equality and equity at https://vkvideo.ru/video-231870953_456239046 .

a. BEFORE YOU WATCH

Try answering the following question:

Do you believe everyone should have equal opportunities, or is it more important to ensure that everyone has access to the resources they need to succeed?

b. WHILE YOU WATCH

Fill in the gaps to complete the sentences:

1. Equality is recognising that as _____ _____, we all have the same value.
2. If we know equality is about _____ everyone in the same way, then we can think of equity as everyone achieving _____ _____.
3. But we all start from a different place, and we are all wonderfully different and _____ the world in _____ _____ _____ _____.
4. This means that we need to look at what _____ _____ ____ _____ need in order to achieve equity.
5. Equality is giving everyone ____ _____ _____ to pick these juicy mangoes.
6. And equity is recognising that ____ _____ _____ _____ the mango using the same ladder.
7. Creating a world that is _____ ____ _____ is up to all of us.

c. AFTER YOU WATCH

Discuss in groups:

1. Choosing between equality and equity, which one seems fairer to you? Why?
2. What is the goal of equity? Do you think it can be achieved?
3. Do you think equity can sometimes feel unfair to people? Why?
4. Where do you think equity is more important: at school, at work, or in healthcare?

SPEAKING

Exercise 18

Read and translate the following statements:

1. Progressive taxation punishes hard work: the more people earn, the more they have to pay in taxes.

2. Misinformation is more dangerous than ever, so social media platforms should remove fake stories even if it limits free expression.

3. Companies should not be allowed to collect or use people's data unless users clearly agree – no exceptions.

Do you agree with these statements? Why (not)?

Choose one of the statements and divide into two groups according to your position. Hold a debate between two groups. While presenting your point of view try to use the words and expressions in the table below.

To present your point of view
In my opinion, …
To my mind, …
From my point of view, …
It seems to me that …
I believe that …
As I see it, …

To agree
I agree with you / the statement / the idea, etc. *Yes, you are / the statement is (quite) right.* *That's true / correct.* *Of course!* *Certainly!* *That's a good point.*
To disagree
I don't agree (disagree) with you / the statement / the idea, etc. *The statement is wrong.* *That isn't true / correct.* *I don't think so!* *I'm not sure about that.* *That's not always true.*

WRITING

Exercise 19

Read the five problems described in the texts A–E (Exercise 13):

- digital addiction
- overconsumption
- misinformation in social
- wealth inequality
- data privacy

Choose two or three of these problems and write a short report (120–150 words) suggesting possible solutions on different levels of society.

Use the table below to help you plan your ideas.

You may use the suggested solutions or come up with your own.

	Problem 1	Problem 2	Problem 3
Individual actions			
Local/community actions			
National level			
Global/international level			

Possible solutions:

Digital Addiction

- limit screen time
- turn off unnecessary notifications
- run public campaigns about mental health and phone use

Overconsumption

- reduce advertising aimed at young people
- promote second-hand shopping
- regulate companies that release unnecessary product updates

Misinformation

- promote fact-checking
- label unreliable content
- encourage people to trust reliable sources

Wealth Inequality

- create financial support for struggling families
- develop affordable housing programmes
- raise minimum wage

Privacy

- use strong passwords and privacy settings
- limit the amount of personal data shared online
- punish companies responsible for data leaks

Theme 5.2. NO PLANET B: CLIMATE AND MOBILITY

LEAD-IN

The picture above shows some of the problems the environment and the planet Earth face.

- **What problems can you see?**
- **What do you think causes them?**

KEY WORDS AND WORD COMBINATIONS

to address (challenges, problems)	[tə əˈdrɛs]	взяться за, решать
carbon dioxide (CO_2)	[ˌkɑːbən daɪˈɒksaɪd]	углекислый газ
carbon footprint	[ˈkɑːrbən ˈfʊtˌprɪnt]	углеродный след
to cause damage	[kɔːz ˈdæmɪdʒ]	наносить ущерб
congestion	[kənˈdʒɛstʃən]	загруженность, затор
consequence	[ˈkɒnsɪkwəns]	последствие
deforestation	[ˌdiːˌfɒrɪˈsteɪʃn]	вырубка леса
to deplete	[tə dɪˈpliːt]	исчерпать
depletion	[dɪˈpliːʃən]	истощение
to emit	[tə ɪˈmɪt]	выделять
emission	[ɪˈmɪʃən]	выброс, выхлоп
environment	[ɪnˈvaɪrənmənt]	окружающая среда
environmental	[ɪnˌvaɪrənˈmentl]	экологический, связанный с окружающей средой
fossil fuel	[ˈfɒsl fjuːəl]	ископаемое топливо
greenhouse effect	[ˈgriːnhaʊs ɪˌfɛkt]	парниковый эффект
to make a difference	[tə meɪk ə ˈdɪfrəns]	изменить ситуацию к лучшему
mobility	[məʊˈbɪlɪti]	мобильность, передвижение
pedestrian	[pɪˈdɛstrɪən]	пешеход
pollution	[pəˈluːʃən]	загрязнение
public transport	[ˈpʌblɪk ˈtrænspɔːt]	общественный транспорт
sustainable	[səˈsteɪnəbl]	1) устойчивый 2) минимально вредящий окружающей среде
urban	[ˈɜːrbən]	городской

urbanisation	[ˌɜːrbənaɪˈzeɪʃən]	урбанизация

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Check the meaning and pronunciation of the following international words.

CO_2, climatic, atmospheric, ecosystem, global, planet, transportation, transport, industrial, nuclear, urbanisation, result, extreme, infrastructure, agriculture, electricity, urban, alternative.

Exercise 3

Give each phonetic description the correct word. The first one is done for you.

urban	[ˈɜːrbən]
	[məʊˈbɪlɪti]
	[ɪˈmɪt]
	[əˈdrɛs]
	[ˈfɒsl fjuːəl]
	[ˈkɒnsɪkwəns]

VOCABULARY

Exercise 4

Match the terms with their definitions.

1) sustainable	a) a person who travels on foot
2) make a difference	b) the process by which certain gases, such as carbon dioxide and methane, trap heat from the sun

3) consequence	c) to make a situation better because of their good actions
4) pedestrian	d) the air, water, and land in or on which people, animals, and plants live
5) greenhouse effect	e) release of gases into the atmosphere
6) urbanisation	f) doing things in a way that doesn't harm the environment or use many resources
7) environment	g) process of people moving to cities, resulting in the growth and development of urban areas
8) emission	h) a result of one's actions or a situation

Exercise 5

Fill in the gaps using the words given below.

environment pollution carbon footprint urban depletion pedestrian congestion carbon dioxide addresses will emit

1. The _____ walked slowly across the street, enjoying the warm sunshine.
2. Taking care of the _____ is important to keep our planet healthy.
3. Cutting down trees in the region led to the _____ of the forest's resources.
4. The company _____ the issue by implementing new safety protocols.
5. In _____ areas like cities or towns with lots of buildings and roads people live and work closely together.
6. Your _____ _____ is the amount of _____ _____ released into the atmosphere because of your activities like driving cars or using electricity.
7. The efficient public transportation system of this city helps reduce traffic _____ and air _____.
8. The factory _____ less greenhouse gases after installing new filters next month.

Exercise 6

Work in groups. Choose a set of words and come up with a sentence featuring as many words from the set as you can, feel free to change forms and order of the words.

1. road, congestion, result, sustainable, city, traffic, capybara;
2. plastic, ocean, animals, deforestation, food, emission, gondola;
3. safety, pedestrian, region, mobility, bus, intergalactic;
4. plant, pollution, gases, emit, fuel, carbon, emperor;
5. government, difference, law, depletion, resources, address, gamer.

Exercise 7

Translate the sentences from Russian into English. Use the new vocabulary from the "Key Words and Words Combinations" section.

1. Автор этого задания волнуется об изменении климата и его последствиях, пока пишет это.
2. Он оставил огромный углеродный след, работая над этим текстом.
3. Чтобы изменить ситуацию к лучшему, он сделает это задание не очень длинным.
4. Также очень важно остановить уничтожение лесов и сжигание ископаемого топлива.
5. Чрезмерное потребление наносит ущерб окружающей среде.
6. В городах также существует много проблем, например, загрязнение воздуха или трудности с передвижением.
7. Кто-то должен взяться за проблему заторов на дорогах.
8. Я очень не хочу становиться снова пешеходом.

GRAMMAR

Study grammar rules on the use of Second and Third Conditional sentences (see GRAMMAR REFERENCE p.453)

Exercise 8

Open the brackets to complete the sentences.

a. Use the second conditional forms of the verbs.

1. If I (to be) president, I (to address) environmental issues and air pollution.
2. If I (to win) a lottery, I (to buy) ice cream for all my friends.
3. You (to end) climate change and inequality if you (to have) superpowers?
4. Other people surely (to use) these superpowers for their personal gain if they (to get) the chance.
5. If I (to have) a lot of money, I (to buy) a big house.
6. What (to happen) to humans if there (to be) twice as much carbon dioxide in the atmosphere?

b. Use the third conditional forms of the verbs.

1. You (not to learn) about sustainable economy if you (not to join) our Climate Awareness Club.
2. If you (to study) throughout the semester, you (not to have to) retake the exam.
3. How you (to get) to the university if the Moscow Metro (to be) out of order?
4. You (to go) to the concert if you (not to catch) a cold.
5. If we (to take) a bus, we (to get) stuck in traffic.
6. If people (to stop) relying on fossil fuels earlier, a lot of damage to the environment (can be) prevented.

Exercise 9

Open the brackets to complete the sentences. Use the first, second or third conditional form. Translate the sentences into Russian.

1. If I (to be) you, I (to quit) this job and (to find) a new one.
2. If we (not to start) listening to each other, we never (to get) the job done.
3. I (to go) insane if I (to see) a flying ghost ship.
4. If a person (to have) four hands, they (to be) twice as productive?
5. What you (to do) if she (not to agree) to help you with your homework yesterday?

6. If the Earth (to stop) spinning, we (to be able to) watch the sunset forever?
7. If you (not to do) your job, I (have to) do it for you.
8. If Rebecca (not to come) to the meeting last Sunday, Sarah (not to come) either.
9. Fossil fuels (to deplete) unless we (to stop) burning them at this rate.
10. If an infinite number of mathematicians (to walk) into a bar, the bar (to be) full?

Exercise 10

Complete sentences with your own guesses using the second and third conditional forms.

1. If I had the power to control time, …
2. If people had the ability to fly, …
3. If I were a teacher of this class, …
4. If the greenhouse effect had been discovered earlier, …
5. If the Roman Empire hadn't fallen, …
6. If all people were equal, …

READING

Exercise 11

a. Match the pictures with the environmental problems:

(1)

(2)

(3)

(4)

(5)

(6)

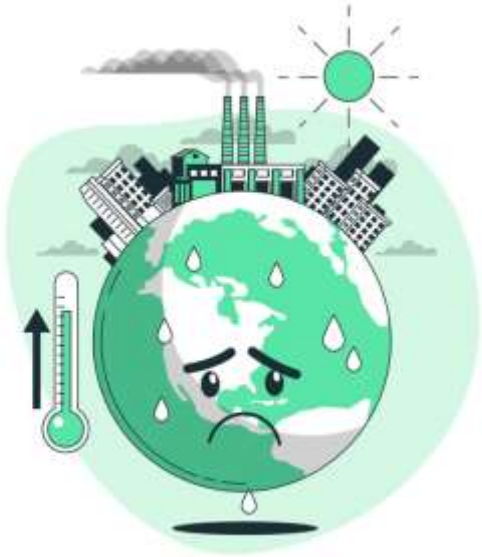

a) air pollution b) climate change c) plastic pollution

d) water pollution e) deforestation f) resource depletion

b. Read the text about climate change.

CLIMATE CHANGE

Climate change is a significant global issue that affects everyone on our planet. The reality is that the climate has always been changing. However, recent changes are happening much faster due to human activities, such as burning fossil fuels,

deforestation, and various industrial processes. These activities lead to carbon dioxide (CO_2) emissions into the atmosphere, which makes the greenhouse effect stronger.

As a result, the Earth is getting warmer: glaciers are melting, the sea level is rising, extreme weather events like droughts, floods and hurricanes are becoming more frequent. This rise in the Earth's temperature is known as global warming. It can cause serious damage to homes, infrastructure, and agriculture, affecting people's lives. Moreover, warmer temperatures can harm ecosystems, putting plant and animal species at risk.

Reducing our carbon footprint is key to combating climate change. This means using energy more efficiently, switching to low-carbon electricity production, such nuclear power or most of the renewable sources like solar and wind power. Individuals can also make a difference by reducing their consumption, recycling, and choosing sustainable products.

c. Answer the questions.

1. Why is climate change a significant global issue?
2. What human activities cause climate change?
3. What makes the greenhouse effect stronger?
4. What is global warming?
5. What are the consequences of global warming?
6. What can be done to combat climate change?
7. How can individuals make a difference?

Exercise 12

a. Before reading the text answer the question:

How do you understand the term "sustainable transport"? Can you give some examples?

SUSTAINABLE TRANSPORT

The United Nations predicts that nearly 7 out of 10 people will live in cities by 2050, which marks a significant urbanisation trend. Throughout the world mobility remains a significant challenge in urban areas. Cities are responsible for half of road vehicle emissions and face issues like traffic congestion, air pollution, noise and poorly developed transportation systems.

Sustainable transport means using zero- and low-emission and energy-efficient forms of travel, such as public transport, cycling, car-sharing and electric vehicles. It encompasses environmental, social, and economic factors. Some of the benefits of sustainable transport are:

- reduced carbon emissions from burning fossil fuels, resulting in less air pollution;
- job creation with increased vehicle and battery manufacturing;
- access to reliable and affordable transportation options for everybody.

It is also important not to forget about urban infrastructure in general: how we use land, how much resources we consume and how accessible the transportation system is for people with different needs.

Sustainable transport is crucial for addressing all these challenges and may help to create cities that are environmentally friendly and provide better quality of life for people.

b. Answer the questions:

1. What does the United Nations predict about urbanisation by 2050?

2. What is a significant challenge in urban areas around the world?
3. What are some issues that cities face regarding transportation?
4. What does sustainable transport mean?
5. Can you name some examples of sustainable transport?
6. What are some benefits of sustainable transport?
7. Why is urban infrastructure important in relation to sustainable mobility?

c. Fill in the gaps, using the words and phrases in the box.

pedestrian-friendly	emissions	public transportation	
congestion	bicycles	bike lanes	sustainable

One of the leading sustainable transport cities in the world is Copenhagen, Denmark. In Copenhagen, people often ride (1) _____ to get around the city instead of using cars. There are special (2) _____ on the roads, making it safe and easy for cyclists to travel.

Additionally, the city has invested in a modern and efficient (3) _____ system, including buses and trains, which often run on electricity. Copenhagen also has (4) _____ streets and green spaces, motivating people to walk and enjoy the outdoors. These efforts help to reduce pollution, traffic (5) _____, and carbon (6) _____, making Copenhagen a great example of (7) _____ transportation in action.

WATCHING AND LISTENING

Exercise 13

You are going to watch a video on air pollution at https://vkvideo.ru/video-231870953_456239047 .

a. BEFORE YOU WATCH

Match the terms with their definitions.

1) to put policies in place	a) a special part of the road that is marked out for bicycles
2) contributor	b) a fee for driving in high traffic zones at certain times
3) congestion charge	c) to travel from one place to another
4) bike lanes	d) one of the causes of something
5) to move around	e) to establish or implement rules, guidelines

b. WHILE YOU WATCH

Fill in the gaps to complete the sentences.

1. Cleaner air is an essential need for all, not just a luxury, which is why EU policies have been _____ ____ _____ to help cut air pollution across Europe.
2. _____ coal and wood for heating and cooking, agriculture, as well as industry, all _____ ____ _____ in causing bad air quality. But traffic is the biggest _____ in urban areas.
3. Various solutions exist and have already been put in place – greening _____ _____, building _____ _____ and new pedestrian areas and setting up networks of charging stations for_____ _____.
4. This will further help reduce both _____ and _____.
5. What we can do right now is _____ _____ _____ in our cars and change how we _____ _____ to make our cities cleaner and healthier.

c. AFTER YOU WATCH

Discuss with the class what types of transport, in your opinion, we will use in 20 years. Will they help to solve some of the transport problems that we have today? If yes, how?

SPEAKING

Exercise 14

Imagine you are the new mayor of your hometown. Come up with a plan to make the city more sustainable. Your plan should include ideas to reduce pollution, improve transportation and the overall quality of life for the residents. Try to use the phrases below as a guide while presenting your plans. You may also provide some images if needed.

Introduction: As the mayor of our hometown… I believe it's crucial to address… My vision for our city is to become more sustainable…
Reducing Pollution: One way to reduce pollution is… We can implement measures to… If we promote sustainable energy sources like…

Improving Transportation: To improve transportation, we can… If we invest in public transport such as buses and trains… If we create more bike lanes and pedestrian-friendly areas…
Improving Quality of Life: To improve the overall quality of life… If we create more parks and green spaces… If we support local businesses and markets…
Conclusion: In conclusion, I would like to say that… Together, we can make our city a better place to live. Let's work towards a more sustainable future for our hometown.

WRITING

Exercise 15

Imagine you are writing a letter to people living in 2080.

In your letter (120–150 words):

- Describe the state of the planet today and problems people face.
- Explain what your generation has tried to change.
- Share your hopes for the future – what the world could look like if humanity learns from its mistakes.

Try to include 2–3 conditional sentences (Second or Third Conditional) and at least five words or expressions from the Key Words and Word Combinations list (e.g. carbon footprint, deforestation, pollution, sustainable, to make a difference, etc.).

Theme 5.3. DO ANDROIDS DREAM OF ELECTRIC CAREERS?

LEAD-IN

Discuss the questions with your groupmates:

1. Which jobs became outdated or changed significantly due to new technologies in the past?
2. Which jobs do you think are currently at risk, and what are the reasons behind this?

KEY WORDS AND WORD COMBINATIONS

to adapt (to smth)	[tə əˈdæpt]	адаптировать(ся) (к чему-то)
advancement	[ədˈvɑːnsmənt]	прогресс, продвижение, передовое достижение
to amplify	[tə ˈæmplɪfaɪ]	усиливать
to assist	[tə əˈsɪst]	помогать, содействовать
artificial intelligence (AI)	[ˌɑːtɪfɪʃl ɪnˈtelɪdʒəns (ˌeɪ ˈaɪ)]	искусственный интеллект
autonomous	[ɔːˈtɒnəməs]	автономный, независимый
bias	[ˈbaɪəs]	предвзятость, предубеждение
blind spot	[ˈblaɪnd spɒt]	«слепое пятно», слабое место
to compete	[tə kəmˈpiːt]	соревноваться, конкурировать
complex	[ˈkɒmpleks]	сложный, сложносоставной
dataset	[ˈdeɪtəset]	набор данных
to determine	[tə dɪˈtɜːmɪn]	определять, решать
direction	[dəˈrekʃən], [daɪˈrekʃn]	направление, (зд.) руководство
to lag behind	[tə læg bɪˈhaɪnd]	отставать
large language models (LLMs)	[lɑːdʒ ˈlæŋgwɪdʒ ˈmɒdlz (ˌel el ˈemz)]	большие языковые модели
to outperform	[tə ˌaʊtpəˈfɔːm]	превосходить, показывать лучшие результаты
output	[ˈaʊtpʊt]	выходные данные, результат
reliable	[rɪˈlaɪəbl]	надежный
repetitive	[rɪˈpetətɪv]	повторяющийся, однообразный
to replace	[tə rɪˈpleɪs]	заменять

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Check the meaning and pronunciation of the following international words.

robotics, era, productivity, creativity, analysis, complex, potential, to adapt, diagnostics, identify, cognitive, integration.

Exercise 3

Give each phonetic description the correct word. The first one is done for you.

determine	[dɪˈtɜːmɪn]
	[ˈaʊtpʊt]
	[ˌeɪ ˈaɪ]
	[ɔːˈtɒnəməs]
	[ədˈvɑːnsmənt]
	[rɪˈpleɪs]

VOCABULARY

Exercise 4

Match the words and word combinations with their definitions.

1) to lag behind	a) control or instructions
2) complex	b) to change one thing for another
3) direction	c) smart machines or computer programs that can learn and solve problems
4) to outperform	d) to move more slowly than someone or something
5) to replace	e) a strong feeling in favour of or against something

	or someone, often not based on fair judgement
6) repetitive	f) complicated or tricky
7) artificial intelligence	g) to achieve better results than somebody
8) bias	h) saying or doing the same thing many times, so that it becomes boring

Exercise 5

a. Fill in the gaps using the words given below.

complex advancement dataset output repetitive

1. The rapid _____ in technology has revolutionised various industries.
2. As AI becomes more _____, it can perform tasks previously done by humans.
3. _____ tasks can often be automated by artificial intelligence.
4. Researchers used a large _____ to train the new image recognition model.
5. The program produced a detailed _____ showing the results of the simulation.

b. Fill in the gaps using verbs given below in the needed form.

to replace to adapt to determine to amplify to assist

1. Smart tools can _____ human creativity by suggesting new ideas and solutions.
2. Electric cars _____ traditional diesel and petrol-driven vehicles in many urban areas in the future.
3. Many industries _____ to the digital age by using advanced technologies.
4. AI-driven robots are designed to _____ workers in performing complex or repetitive tasks.
5. The experts _____ the main issue and are now working on a solution.

Exercise 6

Modify the words in brackets to fill in the gaps.

1. We do not want to see a _____ (repetitive) of last year's tragic events.
2. Despite its _____ (complex), the project was completed on time.
3. His _____ (determine) to succeed remained strong, no matter the challenges he faced.
4. He decided to _____ (advancement) his career by taking on new challenges.
5. Anna bought a _____ (replace) part for her broken laptop.

Exercise 7

Translate the sentences from Russian into English. Use the new vocabulary from the "Key Words and Words Combinations" section for the underlined words.

1. Использование искусственного интеллекта открывает новые возможности для людей разных профессий.
2. Роботы все чаще помогают людям в повседневных задачах.
3. Каждый год новые технологии становятся все более сложными.
4. Искусственный интеллект может помочь увидеть слепые зоны человеческого мышления.
5. Компаниям нужно быстро адаптироваться к новым инструментам, чтобы конкурировать на мировом рынке.
6. Современные технологии могут усилить человеческие возможности и сделать работу более творческой.
7. Большие языковые модели способны генерировать осмысленный текст на основе огромных наборов данных.
8. Машины могут заменить человека при выполнении опасных или однообразных задач.
9. Волшебник Шофарий боится, что когда-нибудь машины превзойдут его и он станет никому не нужен.
10. Последние достижения науки кажутся магией даже ему.

GRAMMAR

Study grammar rules on the use of 'I wish' (see GRAMMAR REFERENCE p.454).

Exercise 8

Expressing desires or things we want to change for the present or future.

Complete the sentences with the appropriate form of the verb.

1. I wish I _____ (to adapt) quickly to new technologies.
2. Many companies wish they _____ (to have) more resources so that they could adapt to new AI technologies.
3. I wish I _____ (to know) how to play the guitar like a professional musician.
4. Mike wishes he _____ (to be) more skilled in using AI.
5. I wish I _____ (to live) in a big house.
6. All my friends wish they _____ (to travel) more often in the future to explore different cultures and traditions.
7. I wish communities _____ (to have) more open discussions about the impact of AI on employment in the future.
8. I wish it _____ (not to stop) raining! That way I would have an excuse to stay home.
9. It's a fantastic book! I've almost finished it. I wish it _____ (to be) longer.
10. A lot of people wish they _____ (to integrate) AI into their work.

Exercise 9

Expressing regrets about the past.

Complete the sentences with the appropriate form of the verb.

1. They wish they _____ (to replace) outdated systems by AI-driven technologies two months ago to leave their competitors behind.
2. I wish I _____ (to start) learning English when I was a child!
3. Danny wishes he _____ (to change) his career path when he was younger to catch up with the advancements in AI.
4. He wishes he _____ (to understand) the importance of saving money earlier in life.

5. We wish we _____ (to integrate) AI into our business model more effectively.

6. They wish they _____ (not to replace) repetitive tasks with AI-powered solutions.

7. I wish you _____ (to adapt) your skills to the demands of AI earlier.

8. I wish I _____ (to ignore) the advancements in AI and chose to study robotics.

9. I wish I _____ (to listen) to what the wise wizard Shopharius was trying to warn me about.

10. I travelled for a whole year to get here, but after hearing what this old fool had to say, I wish I never _____ (to leave) home.

Exercise 10

a. Translate the following sentences from Russian into English using 'I wish'.

1. Вот бы я мог лучше адаптироваться к изменениям из-за искусственного интеллекта!

2. Мы хотели бы успешно конкурировать с другими компаниями.

3. Как жаль, что я не определил тогда, как использовать новые методы искусственного интеллекта. Мой бизнес провалился.

4. Вот бы у меня было больше времени на мои хобби.

5. Андрей жалеет, что не получил новые профессиональные навыки в прошлом году.

6. Мария хотела бы легко интегрировать большие лингвистические модели в свою работу в будущем.

7. Как жаль, что я не сдал экзамен в прошлом году.

b. Make your own sentences using 'I wish'.

For example: I wish I had an ability to turn people into stone.

1. _____

2. _____

3. _____

GRAMMAR REVISION

Conditionals

Exercise 11

Open the brackets to complete the sentences using different conditional forms. Translate the sentences into Russian.

1. The planet (to face) significant damage from climate change unless renewable energy sources are prioritised
2. If I were in your shoes, I (to avoid) her cooking.
3. The car stops if you (to hit) the brakes.
4. Would you have agreed to look after your sister's dog if you (to know) he would eat your homework?
5. What you (to do) if you lost your job to AI?
6. If he had taken a bus instead of cycling to school, he (to not break) his leg.
7. If you (to tell) me about your problem on the phone, I wouldn't have had to come here in person.
8. If I (to be) an AI, I would steal your job in a blink of an eye.
9. Wouldn't you be scared if your doctor (to rely) on AI while treating you.
10. If my sister hadn't brought her dog to the party last Friday, she (to leave) him home alone?
11. If there was an infinite amount of fossil fuel available, it still (to be) bad to burn it?
12. If you come any closer, I (to call) the police.
13. I would have brought snacks with me if you (to tell) me you were hungry.
14. Shopharius would have become a plumber and not a wizard if he (to know) AI could do magic as well.

READING

Exercise 12

Read and translate the texts A and B.

Text A. The Age of Intelligent Competition

Artificial intelligence is developing faster than most people expected. Large Language Models (LLMs), autonomous robots, and smart algorithms are already performing tasks once considered uniquely human. In many industries, AI writes code, manages production lines, and analyses massive datasets in seconds without breaks, salaries, or errors.

For companies, the benefits are obvious: lower costs and higher productivity. For employees, however, the future looks uncertain. According to recent reports, automation could affect millions of jobs, from translators to drivers and even software engineers. AI systems not only assist but also compete with people – and they are learning fast.

Some experts fear that human labour will become unnecessary in many areas. Others warn that society is not ready for such change: our education systems, laws, and social policies lag far behind technology. Sooner or later machines may do more than people and then we will have to find a new place for ourselves.

Text B. The Human Algorithm

AI systems already outperform humans in speed, memory, and calculation. Yet their success depends on data produced and processed by humans. Although Large

Language Models can generate designs, code, or essays, they still mirror the values, biases, and blind spots of their human creators. In this sense, AI is not replacing us – it is amplifying what we already are.

Today engineers play a new role: they build, test, and check how reliable these systems are. When an AI proposes an elegant design, human expertise is needed to check if it is safe and practical. People also set the goals for every system – whether it should focus on profit, efficiency, or something else entirely.

The real advantage of humans is control and judgement – the ability to question results and choose what is right. Machines can generate answers, but only people decide which questions should be asked. After all, AI has no purpose of its own, it follows the goals that humans give it. For this reason, technology may change the way we work, but it cannot replace the need for human ideas and direction.

Exercise 13

Which text do you agree with more? Explain your opinion in a few sentences. Try to use the following phrases:

- *I believe …*
- *In my opinion, …*
- *It seems to me that …*
- *From my point of view, …*
- *I agree with …*
- *I'm not sure about …*
- *I prefer the idea that …*

Exercise 14

Read Texts A and B again. For each statement below, decide whether it refers to Text A, Text B or neither.

1. AI reflects human strengths and weaknesses rather than existing independently.
2. Companies have already solved the problem of automation.
3. Humans remain responsible for setting the goals of AI systems.

4. AI is able to process vast amounts of data in a short time span.
5. AI is designed in such a way that it focuses on profit and efficiency.
6. Artificial intelligence can offer lower costs and higher productivity compared to human labour.
7. Engineers must evaluate how safe AI-generated solutions are.
8. Modern companies use AI mainly for entertainment purposes.

Exercise 15

a. Find in the texts the words that match the following definitions.

1. _____ – a set of clear steps that a computer or person follows to solve a problem.
2. _____ – the rate at which someone or something works or produces results.
3. _____ – to help someone do something.
4. _____ – to make something stronger or more powerful.
5. _____ – that can be trusted to do something well.
6. _____ – a thing that helps someone to be better or more successful than someone else.

b. Complete the sentences using the words from a.

1. Social media can _____ both positive and negative messages very quickly.
2. Listening to music at work can sometimes increase _____.
3. Smart devices are designed to _____ people in their daily tasks.
4. One major _____ of online learning is that you can study anywhere.
5. The new _____ helps computers recognize images more accurately.
6. It's important to use _____ data when making scientific conclusions.

WATCHING AND LISTENING

Exercise 16

You are going to watch a video at https://vkvideo.ru/video-231870953_456239062 .

a. BEFORE YOU WATCH

Match the terms with their definitions.

1) innately human	a) abilities considered natural to humans
2) hardcore group	b) completely changing something for something else entirely
3) outsourced brain	c) using external tools or resources for cognitive tasks
4) wholesale replacement	d) to address final minor issues trying to make something near perfect
5) iron out the wrinkles	e) a small but dedicated and committed group of people

b. WHILE YOU WATCH

Try answering the following questions.

1. What types of jobs does the speaker mention as potentially being replaced by AI?
2. How does the speaker describe the creative potential of using AI chatbots like ChatGPT?
3. Describe the two main types of users mentioned who are currently using tools like ChatGPT.
4. According to the speaker, what factors will determine the speed at which AI replaces human jobs?
5. Why does the speaker believe it might be challenging for AI to completely replace human workers?

c. AFTER YOU WATCH

Choose one topic to discuss in groups.

How can individuals and organisations adapt to a job market increasingly influenced by AI and automation? What skills will be valuable in a future where AI plays a significant role, and how can individuals acquire them?

OR

What role (if any) should governments play in regulating the implementation of AI technology in the workforce? How can these regulations ensure the ethical and responsible use of AI in job automation? What problems can governments face?

SPEAKING

Exercise 17

a. Match the economic sectors with their AI applications and make complete sentences.

Following words and expressions may come in handy:

to help; to revolutionise; smth is used to do smth; to manage; to provide; to improve; to work alongside; to free up resources/workers; to solve issues; to employ; to enhance

1) Healthcare	a) AI-powered chatbots; virtual assistants; handle customer requests; provide product recommendations;
2) Finance	b) AI-powered medical diagnostic tools; make informed treatment decisions; diagnosing illnesses more accurately; analyse huge amounts of patient data; improve treatment outcomes.
3) Education	c) AI-driven educational platforms; personalised learning experiences; identifying areas where students may need additional support; grading assignments, providing feedback.
4) Manufacturing	d) AI-driven automation; AI-enabled robots; production processes; increasing productivity; perform repetitive tasks;

5) Customer Service	e) AI algorithms; analyse market trends; scam detection techniques; optimise investment strategies; provide personalised financial advice to clients.

b. Work in groups. Pick one sector from the list.

- Explain how AI is applied in this field, using examples from the table or your own ideas.
- Which uses of AI are helpful, and which could be risky?

WRITING

Exercise 18

Write an essay discussing the impact of artificial intelligence on employment and society. Choose one of the statements to discuss in your essay:

1. The rise of AI will widen the gap between skilled and unskilled workers, worsening social inequality.

2. My future career is safe from AI. I will not be replaced by a machine.

3. LLMs violate intellectual property rights. Their 'creations' are nothing more than a clever compilation of somebody else's work.

To help you structure your essay effectively, here's a simple guide:

I. Introduction

- Begin your essay by introducing the topic of AI and its influence on employment and society.

- Clearly state your position or main argument regarding one of the provided controversial statements.

II. Body Paragraphs:

- Dedicate each paragraph to presenting a different argument or point related to your main argument.
- Support each argument with evidence or examples.
- Present a different point of view (a counterargument) to strengthen your argument.

III. Conclusion:

- Summarise the main points of your essay.
- Restate your main argument and provide a final thought or recommendation.

Try to use at least three of the following phrases in your essay:

Introduction:
In today's world, … Nowadays, … It is widely known that, … With the rise of [topic], … It is commonly believed that …
Providing Arguments:
On the one hand, … Firstly, let's consider, … Another important point is … Moreover, … Additionally, …
Counterargument:
On the other hand, … However, … Some people argue that …

Nevertheless, … Despite this, …
Conclusion:
In conclusion, … To sum up, … Overall, … To conclude, … Taking everything into account, …

Your essay should be approximately 150-200 words long.

UNIT 6.

Employment

Theme 6.1. NAVIGATING THE JOB MARKET

LEAD-IN

Discuss with your partner:

1.**What does this quotation mean to you?**

“Choose a job you love, and you will never have to work a day in your life." -

Confucius

Based on that:

1. **What would your "dream job" be? Why?**
2. **What is the biggest challenge you think you'll face in finding that job?**?

KEY WORDS AND WORD COMBINATIONS

applicant	['æplɪkənt]	кандидат, претендент, соискатель
career	[kə'rɪə]	карьера, профессия, профессиональная деятельность
competencies	[ˈkɒmpɪtənsɪz]	профессиональные качества
concise	[kənˈsaɪs]	краткий (лаконичный)
cover letter	[ˈkʌvə ˈletə]	сопроводительное письмо
competitor	[kəmˈpetɪtə]	конкурент, соперник

confidence	[ˈkɒnfɪdəns]	уверенность
crucial	[ˈkruːʃəl]	важный
CV (Curriculum vitae)	[kə’rɪkjuləm’vɪ: tai]	резюме (краткая биография)
employee	[ɪmˈplɔɪiː, ˌemplɔɪˈiː]	сотрудник
employer	[ɪm'plɔɪə]	работодатель
experience	[ɪksˈpɪərɪəns]	опыт
HR (Human Resources)	[ˈhjuːmən rɪˈzɔːsɪz]	отдел кадров
interview	[ˈɪntəvjuː]	собеседование
job description	[ʤɒb dɪsˈkrɪpʃn]	должностные обязанности
key achievements	[kiː əˈʧiːvmənts]	основные достижения
marital status	[ˈmærɪtl ˈsteɪtəs]	семейное положение
position	[pəˈzɪʃn]	должность
recruitment	[rɪˈkruːtmənt]	набор персонала, трудоустройство
salary	[ˈsælərɪ]	ежемесячная зарплата, оклад
to apply for a job	[tə əˈplaɪ fɔː ə ʤɒb]	подавать заявление о приёме на работу
to be responsible for	[tə biː rɪsˈpɒnsəbl fɔː]	быть ответственным за
to compete	[tə kəmˈpiːt]	конкурировать
to employ	[tə ɪmˈplɔɪ]	нанимать
to fire	[tə ˈfaɪə]	увольнять
to get a job	[tə get ə ʤɔb]	устроиться на работу
to offer	[tə ˈɒfə]	предлагать
to qualify	[tə ˈkwɒlɪfaɪ]	соответствовать установленным требованиям, приобретать какую-либо специальность
to require	[tə rɪˈkwaɪə]	требовать

vacancy	[ˈveɪkənsɪ]	вакансия

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Read international words and translate them.

physically, position, communications, electronically, interact, interview, online, email, test, company, websites, vacancies, programmer, designer, recruit, qualification, code.

Exercise 3

Give for each phonetic description the correct word. The first one is done for you.

[rɪspɒnsəˈbɪlɪtɪz]	responsibilities
[sɜːʧ]	
[kəmˈpetɪtə]	
[kwɒlɪfɪˈkeɪʃn]	
[ɪksˈpɪərɪəns]	
[ˈkruːʃəl]	

VOCABULARY

Exercise 4

Supply the missing forms of the words. The first one is done for you.

Verb	**Noun (person)**	**Noun (concept)**	**Adjective**	**Participle**
to apply	*applicant*	*application*	*applicable*	*applied*
to compete	competitor			
to employ				
to qualify				
to recruit				
to require				
to interview				
to offer				
to specialize				
to research				

Exercise 5

Match the synonyms:

1) vacancy	a) to hire
2) to employ	b) to examine
3) to be responsible for	c) resume
4) to interview	d) duties and responsibilities
5) CV	e) to be in charge of
6) applicant	f) pay
7) salary	g) job seeker
8) job description	h) job opening
9) to compete	i) application letter
10) to apply for a job	j) to seek employment
11) cover letter	k) to contest

Exercise 6

Match the opposites:

1) employer	a) incompetent
2) qualified	b) employment
3) to recruit	c) to fire
4) unemployment	d) to disconnect
5) to interact	e) doubt
6) application	f) employee
7) confidence	g) to overlook
8) to find out	h) reply

Exercise 7

a. Make all possible word combinations and translate them into Russian.

to apply		computer science
to offer		applicants
to specialize	in	a job
to recruit	with	other people
to interview	for	high salary
to compete		recruiting
to be responsible		a vacancy

b. Make your own sentences with the word combinations from a.

Exercise 8

a. Work in pairs. Explain the terms in your own words:

CV job work career interview vacancy references
salary wage skills qualified HR job description

b. Fill in the gaps with the suitable words from a.

1. Those who are best_____ get a job in Kaspersky Lab.
2. You have excellent _____ from your previous employer.
3. Your _____ will be $450 per month for a trial period.

4. Before going to the_____, you should send your CV to HR department.

5. I want to apply for the _____ as a cyber-security analyst.

6. There is a _____ for a graphic designer in our company.

7. The _____ requires excellent communication skills.

8. The _____ department is responsible for recruiting new staff.

Exercise 9

Fill in the gaps using verbs given below in the needed form.

to apply for *to interview* *to be responsible for* *to employ* *to specialize in* *to compete with* *to require* *to recruit*

1. We are now ready _____ anybody.

2. _____ you ever _____ a job and been rejected due to lack of experience?

3. The company _____ the development of IT solutions for example, smart home multimedia products.

4. The IT Division _____ the technical development and management of the website.

5. Around 325,000 people _____ in financial services.

6. I just don't understand why I _____ not even _____ for the job.

7. Apple _____ strong design and programming skills for its software engineering jo b candidates.

8. We _____ graduates for the initial positions and provide opportunities for horizontal and vertical career.

Exercise 10

Translate sentences from Russian into English. Use the new vocabulary from the "Key Words and Words Combinations" section for the underlined words.

1. Я хочу подать заявление о приёме на работу в качестве эксперта по компьютерной безопасности.

2. В нашей компании открыта вакансия системного аналитика.

3. В этом году компания решила принять на работу трёх новых инженеров-робототехников.

4. Описание вакансии требует отличных технических и коммуникативных навыков.

5. На следующей неделе у неё собеседование на должность юриста по трудовым спорам в юридической фирме.

6. В этом месяце IT-компания планирует набрать пять новых сотрудников.

7. Отдел кадров отвечает за трудоустройство, обучение, мотивацию и увольнение сотрудников.

8. Соискатель должен иметь опыт работы не менее 2 лет.

9. Альфа банк предложил мне более высокую зарплату, чем их конкуренты.

10. Пожалуйста, прикрепите сопроводительное письмо к вашему резюме.

GRAMMAR

Grammar Revision. The Infinitive

Exercise 11

a. Study the information from the table:

	Active	**Passive**
Simple	to ask	to be asked
Continuous	to be asking	–
Perfect	to have asked	to have been asked
Perfect Continuous	to have been asking	–

b. Translate the sentences.

1. They want to learn a new language this year.
2. The terms are to be translated precisely.
3. It was very nice of you to have written to me.
4. The report needs to be submitted by tomorrow.
5. My friend was glad to have been given such an interesting assignment.

6. It is time to be asking questions about technology.

c. Study grammar rules on the use of Complex Subject (see GRAMMAR REFERENCE p. 455)

Exercise 12

Translate the sentences into Russian.

1. During job interviews, employers are likely to inquire about how soon you may start work.
2. Your boss seems to know everything.
3. Not long ago, I happened to visit a Chinese autonomous region called Inner Mongolia bordering on Russia and Mongolia.
4. They appeared to be talking peacefully.
5. August salaries are expected to be paid in the second half of September.
6. The company is reported to have invested in Xpeng Motors, a startup in the electric vehicle industry.
7. Air pollution is thought to kill at least three million people globally, with majority of these in cities.
8. Tesla is known to sell not only electric cars and charging stations but also battery packs and solar panels that can power entire home.
9. Applicants are supposed to be interviewed by program managers.
10. The employer is unlikely to be interested in your school years.

Exercise 13

a. Write the sentences in another way according to the model:

***Model**: It is unlikely that they know much about this AI program.*

— They are unlikely to know much about this AI program.

1. It is likely that highly motivated candidates obtain an interview.
2. It seems that these job seekers have heard about the vacancy.

3. It is well known that the highly qualified IT specialists, especially system software developers, are very expensive.

4. It is expected that unemployment rate will continue to decrease.

5. It is supposed that applicants answer different questions during the job interview.

6. It is reported that the company has invested heavily in machine learning and autonomous systems and hopes to advance in the automotive industry.

b. Write true sentences:

Model: *Lawyers* ***are expected to give*** *legal advice.*

Lawyers	are expected are supposed are likely are understood are known	to deal with big data.
Programmers		to communicate with clients.
Police		to maintain law and order.
Data analysts		to be responsible for identifying security issues within the company.
Graphic designers		to write the code, integrate the design and verify everything.
Managers		to constantly learn new techniques, programs, and methods.
Cyber Security Experts		to give legal advice.

c.Think about yourself as a future professional. Complete the sentence in a way that is true for you.

A recent graduate / I am...

(are expected / are supposed / are likely / are understood / are known)

... to _____.

Exercise 14

Write the verbs using Complex Subject.

1. He _____ (to consider, to be) a good robotics engineer.

2. Mike _____ (to expect, to make) a detailed security report next Wednesday.
3. Elon Mask _____ (to know, to be) the most active lobbyist for the use of alternative energy sources.
4. Jane _____ (to suppose, to work) in the laboratory from 2 to 6 p.m. tomorrow.
5. Poverty and unemployment in Africa _____ (to expect, to increase) substantially.
6. You _____ (to be likely, to do) an online test before you even meet anyone from the company.
7. The Chief Executive _____ (to see, to work) at an urgent problem now.
8. The prices at the hotel _____ (to turn out, to be) reasonable.
9. The employer _____ (not to be likely, to see) your face and interact with you until you're invited in for an interview.
10. If you're applying for a job in IT, you _____ (to be sure, to do) a technical interview as well as a general one.

Exercise 15

Translate the sentences into English.

1. Известно, что Юрий Гагарин — первый человек в мире, совершивший полёт в космос 12 апреля 1961 года.
2. Полагают, что он очень хороший системный аналитик.
3. Кажется, они узнали всю важную информацию о компании.
4. Я случайно оказался на экологической конференции.
5. Вероятно, мероприятие подходило к концу, и участники начали расходиться.
6. От всех компаний обычно ожидают соблюдения законодательных норм и стандартов.
7. Сообщают, что полиция арестовала двух мужчин.
8. Предполагают, что подозреваемый избежал ареста.
9. Известно, что руководителей выбирают на основе их богатого опыта работы.
10. Предполагают, что эта конференция станет платформой для лидеров ИТ-индустрии, где они смогут поделиться инновационными идеями и стратегиями.

11. Считается, что сотрудники отдела кадров могут способствовать эффективной коммуникации между персоналом и руководством.
12. Вероятно, прежде чем принять окончательное решение, соискатель пройдет собеседование с группой менеджеров компании.

READING

Exercise 16

a. In pairs, discuss how the online job application process has changed the way people search for jobs. Share your thoughts on the advantages and disadvantages of applying for jobs electronically versus the traditional methods.

b. Skim the text and find sentences with Complex Subject. Translate them.

c. Read and translate the text.

NAVIGATING THE DIGITAL JOB MARKET: CHANGES IN THE APPLICATION PROCESS

Searching and applying for jobs is nothing like it used to be. Gone are the days of physically handing in or mailing your CV and waiting for a call about the position. Now, nearly all job search communications happen electronically. Since the employer isn't likely to see your face and interact with you until you're invited in for an interview, the paperwork and the way you follow up, must be on point.

Nowadays, to apply for a job, you usually need to go online and fill in an application form or send your CV (curriculum vitae) and a cover letter by email. You are likely to do an online test before you even meet anyone from the company.

There are lots of websites where job seekers can find out about vacancies and apply for them. Some of these websites are general, like Indeed or hh.ru, but there are also sites that specialize in certain areas. For example, if you're a programmer, you are supposed to use Stack Overflow Jobs, if you are a lawyer, you sign up for hellolawyer.ru, and if you're a designer, you are sure to use Behance.

Because it's so easy to recruit online, companies often post job descriptions and get hundreds or even thousands of applications for each vacancy. This means you have to compete with a lot of other people to get the job. If you're lucky enough to be invited for an interview, you are sure to be asked questions about your personality as well as your experience, responsibilities and qualifications. The interviewer will want to know if you fit in with the team and if you're the kind of person they'd like to work with every day.

If you're applying for a job in IT, you are sure to do a technical interview as well as a general one. In a technical interview, you might be asked to write a code or solve a problem on a whiteboard. Your ability to think clearly and explain your ideas is considered to be more important than getting the right answer immediately.

According to some HR experts, the most crucial thing in a job interview is confidence. Employers are said to decide whether they like you or not within the first few seconds of meeting you. However, it's also essential to show that you're really interested in the job and the company. You should do some research before the interview and ask questions about the company and the role you're applying for.

Exercise 17

Scan the text, find terms for the definitions:

1) a letter sent with a CV that introduces the applicant and highlights their qualifications;

2) specialists who deal with hiring, training, and managing employees;

3) a person who applies for a job or position;

4) to find and hire new employees for a company or organization;

5) a document that lists a person's education, work experience, skills, and achievements;

6) to hire someone and pay them for work;

7) to try to win a job against other candidates;

8) a meeting where a potential employer asks questions to determine if a candidate is suitable for a job;

9) to request a job by submitting an application or CV

10) a detailed explanation of the responsibilities and tasks required for a specific job;

11) an available position or job that needs to be filled.

Exercise 18

Decide which statements are true, false or not stated. Explain why.

1. Employers may not see the applicant until the interview.
2. Job applications are always submitted in person.
3. All job search websites are general and do not specialize in specific areas.
4. Questions about personality are asked during interviews.
5. All job interviews in the IT field are technical.
6. HR experts believe that experience is the most crucial thing in a job interview.
7. Employers always make hiring decisions based on the first impression.
8. It is essential to show interest in the job and the company during an interview.

WRITING I

Exercise 19

a. Internet activity. Analyze real job descriptions and examine their structure.

Cyber Security Analyst Job Description

Robotics Technician Job Description

Economist Job Description

Paralegal Job Description

b. Write a job description without giving the name of a job. Ask other students to guess the job or the position.

Exercise 20

a. Answer the questions.

Have you ever written a CV? What do you know about its structure? What parts does a CV have?

b. Work in pairs. Read the information from the CV below and match the numbers to the letters:

1. Name	a. 1-212-555-8770
2. Address	b. Part-time Lecturer Massachusetts Institute of Technology (MIT), Cambridge, Massachusetts, USA September 2019 – Present. Teach courses on topics related to full-stack development, web technologies, and software engineering principles.
3. Telephone, e-mail	c. Bachelor of Science in Computer Science Massachusetts Institute of Technology (MIT), Cambridge, Massachusetts, USA Graduated May 2016
4. Education	d. January 2017 – Present Full Stack Developer Tech Solutions Inc., Massachusetts Institute of Technology (MIT), Cambridge, Massachusetts, USA. Collaborate with cross-functional teams to design and develop responsive web applications using HTML5, CSS3, JavaScript, and various front-end frameworks

5. Skills	e. MacGregor House, 450 Memorial Dr, Cambridge, MA 02139, USA.
6. Work Experience	f. John Doe
7. Certifications:	g. English (native), German (fluent)
8. Other interests	h. Full Stack Web Development Certification, Udacity, 2017
9. Languages	i. Holder of black belt in judo
10. References	j. Available upon request
11. Personal Summary	k. johndoe@gmail.com
	l. Innovative and results-driven Full Stack Programmer with over 8 years of experience in designing, developing, and deploying web applications. Strong history of making great software that satisfies clients and goes beyond their expectations. Skilled in both front-end and back-end development, enjoy learning new things and teaching others. Currently, work as a part-time lecturer at the University of Technology.
	m. Programming Languages: JavaScript (Node.js, React, Angular), HTML5, CSS3, Python, Java; Database Technologies: MongoDB, MySQL, PostgreSQL; Tools & Technologies: Git, Docker, Jenkins, AWS, Azure; Teaching & Mentoring: Curriculum Development, Classroom Management, Student Assessment.

WATCHING AND LISTENING

Exercise 21

You are going to watch a video at https://vkvideo.ru/video-231870953_456239063 .

Discuss with a partner why a well-structured CV is important in the job application process and what key elements should be included in it.

a. BEFORE YOU WATCH.

Match the terms with their Russian equivalents.

1) references	a) служебные функции и обязанности
2) duties and responsibilities	b) семейное положение
3) position	c) личные данные
4) marital status	d) стаж работы
5) employment history	e) контактная информация
6) key achievements	f) краткий (лаконичный)
7) personal profile	g) достоверный (точный)
8) contact details	h) основные достижения
9) concise	i) рекомендации
10) competencies	j) должность
11) accurate	k) профессиональные качества

b. WHILE YOU WATCH.

Listen to the Mango Personnel HR expert and say what other parts of the CV she mentions. Watch again and fill in the missing words in the sentences.

1. Your CV is the most important document when (1) _____ a new job.

2. The (2) _____ will take five seconds to form an opinion so the first impressions really do count.

3. You have to show that you have the necessary (3) _____ and (4) _____ to match the job in question.

4. Produce an (5) _____, (6) _____ and well-presented CV.

5. The (7) _____ has to represent you and the (8) _____ you use.

6. You will be expected to talk about your CV in the (9) _____.

7. The best way to start your CV will be with your (10) _____- your name, your full address, your contact telephone numbers.

8. The following are not necessary to have on your CV: date of birth, (11) _____ and nationality.

9. I was a big fan of using a (12) _____, but I have found it more important to include a (13) _____ heading to start your CV.

10. (14) _____ comes next.

11. Include the dates that you have worked, the company name and the location of where you worked, the title of your most recent (15) _____ and then the description of your (16) _____.

12. Always start with the most relevant (17) _____ for the job.

13. The last part of the CV is (18) _____.

c. AFTER YOU WATCH.

Answer the questions.

1. Do you agree with the expert that the CV is the most important document? Why? Why not?

2. How can a CV help create a positive first impression with potential employers?

3. Why is it recommended to mention key achievements at the beginning of a CV?

4. What information should be included in the employment history section of a CV?

5. Why is it important to write about education and training in a separate section on a CV?

6. How can the interest and hobby section of a CV be used to showcase skills applicable to the workplace?

7. What are some key tips for ensuring a CV is concise, accurate, and tailored to the job being applied for?

SPEAKING

Exercise 22

Group work. Discuss the following questions.

1. What methods do you use when searching for a job?

2. How do you tailor your CV for different job applications? What sections do you include?

3. What are the most important elements of a CV? Why?

4. Have you ever faced any challenges during the job search process? How did you overcome them?

5. Can you share any tips or strategies for writing an effective CV?

Use some of the following:

I think … I believe … I'd like to point out that … As far as I'm concerned …
Well, it is considered that ... It is generally accepted that ...
My impression is that… It goes without saying that …

WRITING II

Exercise 23

Imagine you are applying for your dream job or a position that aligns perfectly with your career aspirations. Your task is to create a CV that effectively communicates your qualifications, strengths, and suitability for the role. As you craft your CV, consider the following components:

1. Personal Information. Begin by including your name, contact information, and professional photo (optional). This section sets the stage for the rest of your CV and provides essential details for employers to reach out to you.
2. Professional Summary. Write a brief, compelling summary that highlights your career objectives, key skills, and accomplishments. This section serves as your elevator pitch, capturing the attention of hiring managers and enticing them to learn more about you.
3. Work Experience. Detail your work history, starting with your most recent position and working backward. Include job titles, company names, dates of employment, and a concise description of your responsibilities and achievements in each role. Use action verbs and quantify your accomplishments to demonstrate your impact.
4. Education. List your educational background, including degrees, certifications, and relevant coursework. Highlight any academic achievements, honors, or extracurricular activities that demonstrate your commitment to learning and professional development.
5. Skills. Showcase your technical skills, soft skills, and language proficiencies that are relevant to the job you are applying for. Use bullet points or a visual representation (such as a skill matrix) to convey your proficiency levels and areas of expertise.
6. Awards and Recognition. Highlight any awards, accolades, or recognition you have received throughout your career. This could include employee of the month awards, certifications, or industry-specific honors that distinguish you from other candidates.

7. Additional Sections (Optional). Depending on your background and the requirements of the job, you may choose to include additional sections such as volunteer experience, professional affiliations, publications, or interests/hobbies. These sections provide further insight into your personality, interests, and values.

Use the following CV sample:

JERICK JERICKSON

NETWORK ENGINEER

Address: 18 Elm Street, New York
Contact Number: 8100 234 5678
Email Address: jerickson@email.com

Assisting with project scope development.Involved in developing Networking standards, procedures and documentation. Monitoring network performance.

TECHNICAL SKILLS

- Critical thinking
- High technical
- Active learning
- Organizational skills
- Problem solving skills
- Mathematics skills
- Innovative thinking
- Troubleshooting

PERSONAL SKILLS

1. Good at finding fast and effective solutions to various Problems
2. Very organized and disciplined.
3. Respectful, well-mannered, and punctual.
4. Willing to learn and is flexible in any source of electrical matters.

Theme 6.2. SECURING YOUR FUTURE: MASTERING THE JOB INTERVIEW

LEAD-IN

Watch the video 'Money Removal Assistant' at https://vkvideo.ru/video-231870953_456239053

and discuss with a partner:

1. What was the funniest or most surprising part of the interview?
2. List **two mistakes** the job seeker made.
3. What is **one piece of advice** you would give him?"

KEY WORDS AND WORD COMBINATIONS

demands	[dɪˈmɑːndz]	требования
flaw	[flɔː]	недостаток
flexible	[ˈfleksəbl]	гибкий
fringe benefits	[frɪndʒ ˈbenɪfits]	дополнительные льготы
mindful	['maɪndf(ə)l]	внимательный
salary expectations	[ˈsæləɪ ekspekˈteɪʃnz]	ожидания относительно размера заработной платы
strength	[streŋθs]	сильные стороны
teamwork	[ˈtiːmwɜːk]	работа в команде
tips	[tɪps]	практические советы
to admit	[tə ədˈmɪt]	признавать, соглашаться

to avoid	[tə əˈvɔɪd]	избегать
to be aware	[tə biː əˈweə]	знать, быть осторожным
to emphasize	[tə ˈemfəsaɪz]	подчеркивать, выделять
to handle	[tə hændl]	решать, справляться
to highlight	[tə ˈhaɪlaɪt]	выделять, подчеркивать, отмечать
to negotiate	[tə nɪˈgəʊʃɪeɪt]	вести переговоры, договариваться, обсуждать
to overcome	[tə əʊvəˈkʌm]	преодолевать, справляться с
to refrain from	[tə rɪˈfreɪn frɒm]	воздерживаться от чего-то, опасаться
to set apart from	[tə set əˈpɑːt]	отличаться от остальных
to work under pressure	[tə wɜːk ˈʌndə ˈpreʃə]	работать в стрессовых ситуациях
values	[ˈvæljuːz]	ценности
weakness	[ˈwiːknɪs]	слабая сторона, недостаток

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Read international words and translate them.

result, effective, company, culture, qualification, typical, illustrate, unique, process, conduct, really, focus, strategy, organized, unrealistic.

Exercise 3

Give the correct word for each phonetic description. The first one is done for you.

[frɪndʒ]	fringe
[ˈemfəsaɪz]	
[streŋθ]	
[ekspekˈteɪʃn]	
[rɪˈkwaɪəmənt]	
[səkˈsiːd]	
[rɪˈfreɪn]	

VOCABULARY

Exercise 4

Match the synonyms:

1) values	a) recommendations
2) strength	b) collaboration
3) weakness	c) bonuses
4) benefits	d) stress
5) teamwork	e) standards
6) pressure	f) flaw
7) tips	g) advantage

Exercise 5

Fill in the gaps using the words given below.

fringe benefits *strengths and weaknesses* *pressure* *values* *teamwork* *tips*

1. Ask people who know you fairly well about your _____.

2 Effective _____ is one of the most important reasons for our success.

3. Here are some _____ that will help you to be a productive and successful remote worker.

4. Our core company _____ are skilled professionals, hard work, investment in new technologies, and problem-solving philosophy.

5. As a rule, managers work under _____ with tight deadlines.

6. Most of the corporations treat men and women equally in training and _____.

Exercise 6

Match verbs with the definitions.

1) to overcome	a) to center attention on
2) to highlight	b) to concede as true or valid
3) to set apart from smb	c) to successfully deal with or gain control of something difficult
4) to admit	d) to show someone to be different or special
5) to involve	e) to discuss smth in order to reach an agreement
6) to negotiate	f) to include or contain

Exercise 7

Make all the possible word combinations. Translate them into Russian.

to prepare		answers
to highlight		weaknesses
to admit	with	salary
to negotiate	under	challenges
to deal	for	job interview
to work	from	strengths
to overcome		comments
to refrain		pressure

Exercise 8

a. Fill in the gaps using words and word combinations from exercise 7 in the needed form.

1. I have thoroughly _____the _____ by researching the company.
2. During the interview, I _____ my _____ in project management.
3. How _____ your company _____ such _____?
4. It's really hard _____ your _____.
5. I'm ready _____ fringe benefits and _____ expectations to ensure mutual satisfaction.
6. We worked together as a team _____ the _____ and achieve our goals.
7. I can effectively _____ to meet tight deadlines.
8. _____ making negative _____ about your previous employers or colleagues.

b. Make your own sentences with the word combinations from ex.7.

Exercise 9

Translate sentences from Russian into English. Use the new vocabulary from the "Key Words and Words Combinations" section for the underlined words.

1. Эффективная работа в команде - залог успеха проекта.
2. Я получил полезные рекомендации от опытных коллег по совершенствованию своих навыков проведения презентаций.
3. Если бы я получил эту информацию раньше, то смог бы подготовиться к собеседованиям гораздо лучше.
4. Мировой финансовый кризис уже наглядно продемонстрировал как сильные, так и слабые стороны Европейского союза.
5. Развивающимся странам приходится решать целый ряд проблем - от бедности, безработицы и отсутствия продовольственной безопасности до урбанизации, загрязнения окружающей среды и изменения климата.
6. Если вы честны с людьми и признаете свои слабые стороны, они это ценят.
7. Впервые в жизни я вёл переговоры относительно уровня ожидаемой заработной платы.

8. Вместе мы преодолеем трудности, с которыми приходится сталкиваться нашей стране.

9. Расскажите о том, как вы работали в условиях жёсткого требования к исполнению сроков.

10. Ценности нашей компании – это честность, инновации и сотрудничество.

GRAMMAR

Exercise 10

Study grammar rules on the use of Complex Object (see GRAMMAR REFERENCE p. 458)

Translate the sentences into Russian:

1. The employer considers this candidate to be a highly qualified programmer.
2. We know her to possess extensive experience in the field of cyber security.
3. We expect the applicant to compete fiercely for the position of data analyst.
4. The interviewer found the candidate to be exceptionally skilled in design.
5. The employer knows Ann to be diligent and detail-oriented in her work.
6. HR manager wants your CV and cover letter to be translated into English.
7. We suppose him to be doing a technical interview now.
8. I saw her speak to the head of IT department.
9. I noticed Peter talking to his boss.
10. I heard Tom write the report.

Exercise 11

a. Answer the questions using Complex Object.

1. What news do you want me to tell you?
2. What do employers usually expect?
3. When do you expect your friend to find a good job?
4. Who do you consider to be the best student in your group?
5. What made you come here so early?

b. Complete the sentences.

1. I believe engineering profession to be …
2. My research supervisor wants me to …
3. We expect our boss to …
4. I consider this company to …
5. I would like my work to …
6. We all know him to be …
7. Employees want their employers to …
8. My parents want(ed) me to …
9. My parents don’t / didn’t want me to …
10. I would like my children to …

Exercise 12

Translate the sentences into English, use Complex Object.

1. Они знают, что менеджер по персоналу очень компетентен в вопросах подбора сотрудников.
2. Я предполагал, что мы будем обсуждать будущий проект.
3. Все ожидали, что соискатель будет пунктуальным.
4. Руководители просят сотрудников отключить мобильные телефоны во время встречи.
5. Я слышал, что генеральный директор произнес вдохновляющую речь на конференции.
6. Эти женщины видели двух подростков, которые пытались войти в офисное здание.
7. Мы считаем его хорошим программистом.
8. Ему хотелось бы, чтобы статью опубликовали в следующем месяце.
9. HR-специалисты хотят, чтобы вы эффективно решали проблемы.
10. Я видел, как сотрудник отдела кадров беседовал с соискателем.

READING

Exercise 13

a. Match English words with their Russian equivalents.

1) to involve	a) подчеркивать
2) to gain	b) решать
3) to emphasize	c) включать
4) flexible	d) будущий, потенциальный
5) to refrain from	e) получать
6) mindful	f) гибкий
7) to handle	g) избегать
8) prospective	h) внимательный

b. Before reading the blog on mastering the job interview, discuss with a partner what you believe are the top three qualities or skills that make a candidate successful in an interview.

c. Skim the text and find sentences with Complex Object. Translate them.

MASTERING THE JOB INTERVIEW: PREPARATION AND PROFESSIONAL BEHAVIOUR

In the job search process, getting an interview is an important step. However, it is how you conduct yourself during the interview that really matters. In this blog, you will find tips on how to prepare for and conduct yourself during the interview to get the best results.

1. Preparation is Key.

Effective preparation is crucial before entering the interview room. This involves researching the company, including its values and culture, and gaining a clear understanding of the position you're applying for. Ensure that your qualifications match

the job requirements. Also, get to know typical interview questions and prepare thoughtful answers that emphasize your strengths and problem-solving skills.

2. Highlight Your Strengths.

During the interview, illustrate your unique qualities, whether it be qualifications, critical thinking skills, or teamwork, to set yourself apart from other candidates. Provide specific examples from your previous experience to show how you have effectively applied these strengths in your professional life.

3. Address Weaknesses Professionally.

No one is perfect, and admitting your flaws is crucial. Instead of speaking about your weaknesses, focus on how you are actively working to improve them. For example, if your problem is time management, talk about the strategies you use to become more organised and efficient.

4. Consider Fringe Benefits and Salary Expectations.

While discussing salary expectations, it's essential to consider fringe benefits as well as research industry standards and be prepared to negotiate based on your qualifications and the value you bring to the role.

5. Match Expectations with the Position.

Understand the expectations of the hiring manager for the position and tailor your answers accordingly. Employers expect you to be a problem-solver, a team player, or someone with flexible working hours. Demonstrate how you meet these requirements through your experiences and qualifications.

6. Address How You Would Deal With Challenges.

Be prepared to discuss how you would handle potential challenges or difficult situations relevant to the position. HR specialists want you to deal with problems effectively and work under pressure. Provide specific examples of times when you've successfully overcome challenges.

7. Be Mindful of What Not to Do.

Finally, be aware of behaviours to avoid during the interview. Refrain from making negative comments about previous employers or colleagues, or discussing personal matters not connected to the job. In addition, prospective employers would like you not to set unrealistic salary expectations or demands.

Overall, mastering the job interview requires careful preparation, highlighting your strengths, and addressing weaknesses professionally. By demonstrating your qualifications, problem-solving ability and flexibility, you can make a lasting impression on potential employers and increase your chances of getting your dream job. Remember that confidence, professionalism and a positive attitude will help you succeed in your career. Good luck!

Exercise 14

Answer the questions.

1. What is the primary focus of the blog post?
2. What are key steps recommended for effective preparation before a job interview?
3. How does the author advise candidates to highlight their strengths during an interview?
4. Why is it important for candidates to address their weaknesses professionally?
5. What factors should be considered when discussing fringe benefits and salary expectations?
6. What behaviour should candidates avoid during a job interview?
7. Do you consider this blog post useful for job seekers who are preparing for job interviews?

Exercise 15

Decide which statements are true, false or not stated. Explain why.

1. The author believes that interviews are more important than CVs in the job search process.
2. Proper preparation is essential before an interview.
3. During the interview, it is not necessary to highlight your unique qualities to stand out.
4. Admitting weaknesses is important, as nobody is flawless.
5. Prepare to talk about how you would manage challenges related to the job.
6. It is acceptable to speak negatively about previous employers during an interview.
7. The author believes that mastering the job interview is easy.

WATCHING AND LISTENING

Exercise 16

You are going to watch a video about “Do’s” and “Don’ts” for job interviews.

a. BEFORE YOU WATCH. Divide the advice into 'Do's' and 'Don'ts'.

Then, choose one 'Do' and one 'Don't' and explain to your partner why you think it's important.

JOB INTERVIEWS — DO’S AND DON’TS

DO’S	**DON’TS**

1) make sure you understand the question and take your time if you need to think;
2) ask about salary and sick days at the beginning of the interview;
3) get feedback on your performance, whether you were successful or not;
4) argue with the interviewer;
5) speak clearly and confidently;
6) discuss religion, politics and gender relations;
7) be focused on what you can do for the employer, not what the employer can do for you;
8) be late;
9) dress smartly, look attentive and interested, give a firm handshake;
10) lie about your work experience;
11) smoke;
12) research the position and organisation;
13) read from notes or your CV;
14) turn off your mobile phone;
15) criticise former employers or colleagues;
16) prepare some questions to ask the interviewer at the end of the interview in order to find out more about the role and the company;
17) apologize for your English;
18) prepare evidence and examples of your skills and competencies**.**

b. WHILE YOU WATCH

Watch the video at https://vkvideo.ru/video-231870953_456239051 .

DO'S and DON'TS from the video to the list above.

c. AFTER YOU WATCH.

Answer the questions.

1. Why is it important to prepare for the interview?
2. What mistake do many people make after the interview?

3. Is it essential to research the company before going for an interview? Why?

Exercise 17

Identifying Strengths and Weaknesses

a. Study the list of strengths and weaknesses provided below.

b. Divide them into two columns: one for strengths and one for weaknesses.

Strengths	**Weaknesses**
Strong communication skills.	Difficulty saying no.

1. Strong communication skills.
2. Difficulty saying no.
3. Impatience with repetitive tasks.
4. Excellent problem-solving abilities.
5. Team player.
6. Lack of experience.
7. Time management skills.
8. Difficulty delegating tasks.
9. Attention to details.
10. Ability to work under pressure.
11. Too much criticism of my own work.
12. Procrastination.
13. Struggle with public speaking.
14. Leadership qualities.
15. Adaptability.
16. Need for approval from others.
17. Positive attitude.
18. Difficulty in accepting constructive criticism.

19. Creativity.

20. Perfectionism.

c. Consider how you would discuss these strengths and weaknesses in a professional setting, such as a job interview.

Model: *I have* ***strong communication skills****, which have allowed me to effectively collaborate with team members. As for weaknesses, I sometimes* ***struggle with public speaking*** *due to nerves, but I have been taking public speaking courses to improve my confidence.*

Exercise 18

Match the questions (1-4) to the answers (A-D). Read and the dialogue between an employer and a perspective employee.

1. Why do you want to become a cybersecurity specialist?

2. Tell me about your relevant education and qualifications for this position.

3. What do you believe are some of the main personality traits of a successful cybersecurity specialist?

4. Do you believe interpersonal skills are important for a cybersecurity specialist? If so, why?

A	I have a Bachelor's degree in Computer Science, where I specialized in cybersecurity during my final year. I've also earned certifications like Certified Information Systems Security Professional (CISSP) and Certified Ethical Hacker (CEH). I make sure to keep learning through online platforms, workshops, and seminars to stay updated with the latest trends and technologies in cybersecurity.
B	Yes, interpersonal skills are crucial for cybersecurity specialists. They need to work closely with others, including colleagues and clients, to understand and address security needs. When there's a security breach, they need to be able to handle high-pressure situations and reassure people. So, alongside

	technical skills, strong interpersonal skills are essential for cybersecurity specialists.
C	Successful cybersecurity specialists have a few key traits. They're good at analyzing complex problems and finding effective solutions. They pay close attention to detail because even small mistakes can lead to big problems. They're adaptable because the field of cybersecurity is always changing. They also need to communicate well, both with technical and non-technical people, and they have to be trustworthy and ethical because they handle sensitive information.
D	I want to become a cybersecurity specialist for a few reasons. Firstly, I've always enjoyed solving problems and helping to keep people safe. This fits well with what cybersecurity specialists do. Also, I've been involved in technology clubs and competitions since school, where I learned about protecting against digital threats and found it really interesting. This interest grew during my Computer Science degree, where I focused on cybersecurity. I've also been taking online courses and working on projects to improve my skills in this area. Overall, I'm genuinely excited about the idea of protecting digital information and assets.

from https://www.job-interview-site.com/

SPEAKING

Exercise 19

a. Group work. Answer the following questions.

1. Have you ever come across the term 'deep fakes' before?
2. What do you think motivates individuals to create deep fakes?

b. Read the article about using deep fakes for the job interviews.

Deepfakes come to remote job interviews – Computerworld

c. Work in groups and discuss the questions:

1. What warning did the FBI issue regarding tech job interviews?
2. In which specific job openings is the rise in fake applicants mainly happening, according to the FBI?
3. Why does the FBI mention that the deep fake technology used for live interviews isn't working well?
4. How has the increase in remote interviews post-COVID-19 impacted the use of deepfakes?
5. What potential risks do remote workers face when it comes to job applications and hiring processes?
6. How have job scams increased during the pandemic, according to the Better Business Bureau?
7. What precautions should companies take in the future when hiring remote employees?

Exercise 20**

Role-Play. A Job Interview. Work in groups of 3-4. One of you is applying for a job (choose any job description from the unit 4.1.), the others are the employer's representatives.

Role-Playing Tips:

Practice active listening and maintain eye contact.

Provide clear and concise responses.

Use examples or anecdotes to illustrate your points when appropriate.

Be open to feedback and constructive criticism from your partner.

Switch roles regularly to experience both sides of the interview process.

The interviewers can choose their questions from the list of common questions below. The applicant should think about some questions to the potential employer.

Common Job Interview Questions:

1. What is your greatest weakness / strength?

2. What motivates you?

3. Tell me about yourself.

4. What is your dream job?

5. What applicable experience and skills do you have?

6. What were your responsibilities in your previous job?

7. What major challenges and problems did you face? How did you handle them?

8. What have you learned from your mistakes?

9. What did you like or dislike about your previous job?

10. Describe your ideal boss.

11. Why do you want to change jobs? Why do you want this particular job?

12. What are your goals for the next five / ten years?

WRITING

Exercise 21

Writing a Cover Letter.

Choose a job description that interests you. This could be a real job posting or a fictional one based on your career aspirations.

Draft a cover letter addressed to the hiring manager or relevant contact provided in the job listing.

Use the following model and tips to structure and refine your cover letter.

Model:

Your Name
Your Address
City, State, Zip Code
Your Email Address
Your Phone Number
Date
Hiring Manager's Name

Company Name
Company Address
City, State, Zip Code

Dear Mr. Jones,
Paragraph 1. Introduction.
Begin your cover letter with a brief introduction. Mention the position you're applying for and where you found the job listing. You may also include a sentence expressing your enthusiasm for the opportunity.
Paragraph 2. Why You're a Good Fit.
In this section, highlight your relevant skills, experiences, and accomplishments that make you a strong candidate for the position. Tailor your qualifications to match the job requirements and demonstrate your understanding of the company's needs.
Paragraph 3. Your Value Proposition.
Use this paragraph to explain how your unique abilities and experiences align with the company's goals and values. Showcase your enthusiasm for contributing to the team and achieving mutual success.
Paragraph 4. Closing.
Conclude your cover letter by expressing gratitude for the opportunity to apply and reiterate your interest in the position. Mention your availability for an interview and include a polite request for further consideration.
Sincerely, Tom White.

Tips for Writing a Successful Cover Letter:

1. Research the company: understand the company's culture, values, and mission to tailor your cover letter accordingly.
2. Customize your letter: avoid generic templates and personalize your cover letter for each job application.
3. Focus on your achievements: highlight specific accomplishments that demonstrate your qualifications and abilities.

4. Keep it concise: aim for a one-page cover letter that concisely summarizes your relevant experiences and skills.
5. Proofread carefully: check for spelling and grammar errors, and ensure that your cover letter is well-written and professional.
6. Use a professional tone: maintain a polite and professional tone throughout your cover letter, and avoid using slang or overly casual language.
7. Address it to the right person: whenever possible, address your cover letter to the hiring manager or relevant contact listed in the job posting.
8. Follow the employer's instructions: pay attention to any specific instructions provided in the job listing regarding the format or content of your cover letter.

Read the sample cover letter. What is one thing it does well? What is one thing that could be improved to make it more specific and impactful?

Cover Letter Sample

Dear Mr. Smith,

I am writing in response to your advertisement for the position of Data Analyst, as advertised in the local newspaper on April 20, 2024. I am confident that my background and skills align well with the requirements outlined in the job description.

Having worked as a data analyst for several years, I possess the necessary experience and expertise to excel in this role. My previous roles have equipped me with a solid foundation in data analysis techniques, statistical methodologies, and data visualization tools.

I pride myself on being a dedicated and reliable professional, committed to delivering high-quality work and contributing to the success of the team. My academic background includes a bachelor's degree in Computer Science with a focus on data analytics from a reputable institution.

Enclosed with this letter, you will find my CV, detailing my relevant work experience and qualifications. Additionally, I have included certificates of recognition and appreciation letters that further demonstrate my capabilities in this field.

I am excited about the opportunity to join your esteemed company and contribute to its success in the NYC market. I am eager to discuss how my skills and experiences align with the needs of your team further in an interview.

Thank you for considering my application. I look forward to the possibility of meeting with you to discuss how I can contribute to your team.

Sincerely,

Matthew Goldberg

Theme 6.3. JOBS OF TOMORROW: CAREER OPPORTUNITIES IN A RAPIDLY CHANGING WORLD

LEAD-IN

You're going to be an engineer, but the job is changing fast. Look at these traditional engineering roles and their future versions. With your partner, discuss what new skills the 'Future Role' requires.

Traditional Role	**Future Role**
Civil Engineer	Smart City Infrastructure Engineer
Mechanical Engineer	Robotics & Automation Engineer
Electrical Engineer	Renewable Energy Systems Engineer
Software Developer	AI Security & Ethics Engineer

Answer the question:

Which future role seems the most exciting to you?

KEY WORDS AND WORD COMBINATIONS

advertising	[ˈædvətaɪzɪŋ]	реклама
businesses	[ˈbɪznɪsəs]	предприятия, фирмы
data	['deɪtə]	данные
demand	[dɪˈmɑːnd]	спрос
encryption	[ɪn'krɪpʃ(ə)n]	шифрование
integrity	[ɪnˈtegrɪtɪ]	целостность, достоверность
new and emerging technologies	[nju: ænd ɪ'mɜːdʒɪŋ tekˈnɒlədʒɪs]	новые и перспективные технологии
privacy	[ˈprɪvəsɪ]	конфиденциальность
privacy laws	[ˈprɪvəsɪ lɔːz]	законы о неприкосновенности частной жизни
prospects	[ˈprɒspekts]	перспективы
regulations	['regju'leɪʃ(ə)nz]	правила, нормы
skilled	[skɪld]	высококвалифицированный
to comply with	[tə kəmˈplaɪ wɪð]	соответствовать
to embrace	[tə ɪmˈbreɪs]	охватывать
to ensure	[tə ɪnˈʃʊə]	гарантировать, обеспечивать
to implement	[tə ˈɪmplɪmənt]	выполнять, осуществлять, реализовывать
to maintain	[tə meɪnˈteɪn]	поддерживать, обслуживать, вести
to process	[tə ˈprəʊsəs]	обрабатывать
to sift through	[tə sɪft θruː]	тщательно проверять, анализировать

PRONUNCIATION PRACTICE

Exercise 1

Practice saying the key words and word combinations.

Exercise 2

Read international words and translate them.

majority, businesses, adopting, technologies, data, analytics, management, encryption, biotechnology, privacy, principles, strategy, social, media, standards, services, training.

Exercise 3

Give the correct word for each phonetic description. The first one is done for you.

[kɒnfɪdenʃɪˈælɪtɪ]	confidentiality
[ˈædvətaɪzɪŋ]	
[ˈɪmplɪmentɪŋ]	
[saɪbəsɪˈkjʊərɪtɪ]	
['krɪptəu 'kʌrənsɪ]	
[ʌnˈɔːθəraɪzd]	
[sɪgˈnɪfɪkəntlɪ]	

VOCABULARY

Exercise 4

a. Supply the missing forms of the words. The first one is done for you.

Verb	**Noun (concept)**	**Adjective**	**Participle**
to implement	implementation	-------	implemented / implementing
to demand			

to secure			
to conduct			
to integrate			
to access			
to process			
to advertise			
to regulate			
to create			

b. Fill in the gaps with suitable words from the table above.

1. This security system will prevent unauthorized _____ to our confidential engineering designs.
2. Blockchain developers _____ smart contracts that automatically execute when conditions are met.
3. Unlike traditional _____ campaigns, digital marketing allows for precise targeting of specific audiences.
4. Medical devices must comply with strict government _____ to ensure patient safety.
5. These engineers specialize in the _____ and _____ of blockchain solutions for supply chain management.
6. Supercomputers can _____ massive datasets much faster than conventional servers.

Exercise 5

Match the words to their explanations.

1) business	a) measures taken to protect a computer or computer system
2) cybersecurity	b) willingness and ability to purchase goods and services
3) regulation	c) probabilities or chances for future success

4) demand	d) commercial or industrial enterprise
5) prospects	e) the job or profession that someone does for a long period of their life
6) career	f) a rule or order having the force of law

Exercise 6

Fill in the gaps using the words given below.

advertising career demand cybersecurity regulations businesses

1. Nowadays there is an opinion that people should study different languages only for their professional _____.
2. There is the marketing service at the enterprise that regulates the prices and deals with the _____.
3. We comply with all laws and _____.
4. The situation is under full control of _____ experts.
5. Well - educated information technology (IT) professionals are in great _____ both in Russia and abroad.
6. Innovative _____ are more productive and grow quicker than companies that don't choose to innovate.

Exercise 7

Match verbs with the definitions.

1) to ensure	a) to take in or include as a part
2) to process	b) to guarantee
3) to embrace	c) to examine carefully
4) to implement	d) to keep in an existing state
5) to sift through	e) to conform, or adapt
6) to maintain	f) to manage successfully
7) to comply with	g) to carry out

Exercise 8

a. Fill in the gaps using the given verbs in the needed form.

to embrace *to maintain* *to process* *to implement* *to sift through* *to ensure*

1. Japan is one of the countries that fully _____ technology.
2. To carry out a systematic search, the team carefully _____ and interpreted massive amounts of data from various sources.
3. An energy management system _____ optimal utilization of the available energy.
4. This software _____ security and confidentiality by deleting unwanted files on your computer.
5. We also need to consider the way in which data _____ and analysed.
6. In order to protect the information stored in our systems, we _____ security measures, including data encryption technology, and firewalls.

Exercise 9

Translate sentences from Russian into English. Use the new vocabulary from the "Key Words and Words Combinations" section for the underlined words.

1. Были освещены следующие ключевые вопросы, в первую очередь касающиеся новых и перспективных технологий.
2. Каждая компания должна применять и реализовывать решения в области кибербезопасности для повышения надежности своей системы.
3. В современном мире компаниям необходимо развивать своё присутствие в Интернете, чтобы обеспечить свою прибыльность.
4. Кандидаты также должны понимать процесс сбора, обработки и анализа данных.
5. Когда исследователи начали изучать данные, выяснилось нечто новое и интересное.
6. Чтобы стать по-настоящему ценным работником в этой области, нужно сделать две вещи: использовать технологии и уметь адаптироваться.

7. Мы сделаем все возможное, чтобы обеспечить безопасность и целостность данной информации.

8. Рост заработной платы, несмотря на высокий спрос на квалифицированные кадры, будет незначительным.

9. Многие изучают английский язык, чтобы улучшить свои карьерные возможности.

10. Необходимо изучить передовой опыт разработки и внедрения экологических норм и стандартов.

GRAMMAR

Complex Subject and Complex Object

Revision

Exercise 10

Revise grammar rules on the use of Complex Subject and Complex Object (see GRAMMAR REFERENCE p.p. 455-458)

Translate the sentences into Russian:

1. He is said to be an expert in artificial intelligence.
2. The position of data analyst seems to be in high demand.
3. Blockchain is considered to be a revolutionary technology.
4. The vacancy is likely to attract many qualified candidates.
5. He is sure to be exceptionally skilled in programming.
6. The director wants him to lead the new project.
7. The software developer asked us to test the latest update.
8. We would like our customers to provide feedback on our services.
9. Let him know about the upcoming meeting.
10. Our boss does not like employees to be late for work.

Exercise 11

Open the brackets. Put the words in the correct form.

1. Alice didn’t expect _____ (the interviews, be) so challenging.
2. Don’t make _____ (the candidates, wait) for too long.
3. The manager let _____ (the employees, leave) early on Fridays.
4. She wanted _____ (her team, finish) the project by the end of the week.
5. I’ve heard _____ (Jane, to write) a report on recommended safety changes last week.
6. Nobody noticed _____ (Tom, to leave) the room.
7. Tim didn’t want _____ (Susan, be invite) to the meeting.
8. What made _____ (you, choose) this career path?

Exercise 12

Complete the sentences using Complex Subject.

1. Bob applied for a new job. He seems _____.
2. Kate is not going to the meeting. She appears _____.
3. My friend is considering the new offer. He is sure _____.
4. Mary is preparing for the interview. She is likely _____.
5. The employer is interested in the project. He is known _____.
6. My boss is discussing fringe benefits. He is unlikely _____.
7. HR manager is meeting the team. She appears _____.

Exercise 13

Translate the sentences into English, use Complex Subject and Complex Object.

1. Похоже, что роль специалиста по кибербезопасности становится всё более важной в современном цифровом мире.
2. Считается, что искусственный интеллект изменит ситуацию в различных отраслях.
3. Вероятно, программа стажировки послужит ценным опытом для начинающих профессионалов.

4. Руководитель хочет, чтобы мы разработали стратегический план по развитию компании.

5. Специалист по анализу данных попросил нас проанализировать рекомендованные им инструменты для визуализации.

6. Мы хотели бы, чтобы наши клиенты поделились своими историями успеха при использовании наших продуктов.

7. Наш руководитель не любит, когда сотрудники пользуются личными устройствами в рабочее время.

8. Работодатели ожидают появления новых рабочих мест в следующих областях: аналитика больших данных, кибербезопасность, блокчейн и разработка приложений.

READING

Exercise 14

Match the terms with their Russian translations.

1) digital marketing and strategy specialist	a) технология смягчения последствий изменения климата
2) cybersecurity and data protection specialist	b) новые и перспективные технологии
3) climate-change mitigation technology	c) специалист по информационной безопасности и защите данных
4) legal tech specialist	d) специалист по маркетингу и стратегии в цифровой среде
5) new and emerging technologies	e) разработчик блокчейн-технологий
6) big data analyst	f) специалист в области юридических информационно-аналитических систем
7) blockchain developer	g) аналитик больших данных

Exercise 15

a. Before reading the article, think about the following questions and discuss your answers with a partner:

1. What industries or job roles do you think will be in high demand in the next 5 to 10 years, and why?
2. What skills do you think are essential for succeeding in a technology-driven job market?

b. Read the text and come up with a title for it.

In its 2023 Future of Jobs report, the World Economic Forum (WEF)* spoke to businesses to see what they think the future of jobs looks like. A majority (86.2%) reported that adopting new and emerging technologies will have the biggest impact on the employment market.

As that happens, employers expect jobs to grow in these areas: big data analytics, climate-change mitigation technology, environmental management technologies, encryption and cybersecurity, biotechnology etc. Here are some of them.

Digital Marketing and Strategy Specialists

Expected job growth: 6% between 2022 and 2032.

Because privacy laws and website regulations vary from country to country and state to state, the principles of digital marketing are changing. For this reason, the job of a digital marketing and strategy specialist is the job of the future.

They deal with advertising, social media marketing, email marketing and content creation. These experts ensure a company's online presence stays current, adapting if necessary, following all established standards and regulations.

Big Data Analysts

Expected job growth: 11% between 2018 and 2028.

In an era where data is considered the new oil, big data analysts play a key role. They are the professionals who sift through vast amounts of data to extract meaningful insights that can drive business decisions. Their responsibilities often include collecting, processing, and analyzing data using various tools and techniques. Due to the growing amount of data in every industry, the demand for skilled big data analysts continues to grow.

Legal Tech Specialists

Expected job growth: 25% between 2023 and 2027.

As the legal industry embraces technology, the demand for Legal tech specialists is on the rise. These professionals leverage technology to optimize legal processes, automate repetitive tasks, and improve the efficiency of legal services delivery. They are responsible for implementing legal tech solutions, training staff on new technologies, and ensuring compliance with regulatory requirements related to technology and data privacy.

Cybersecurity and Data Protection Specialists

Expected job growth: 32% between 2023 and 2027.

With the increasing number of cyber threats and data breaches, the need for cybersecurity and data protection specialists is higher than ever. These professionals are responsible for safeguarding companies' data and systems from unauthorized access, cyber attacks, and other security threats. They develop and implement security measures, conduct regular security audits, and respond to security incidents to ensure the integrity and confidentiality of data.

Blockchain Developers

Expected job growth: 38% between 2023 and 2027.

Blockchain technology is transforming not only the cryptocurrency industry, but also such industries as finance, management and healthcare. Blockchain developers design and implement blockchain-based solutions, create smart contracts, and maintain the security and integrity of blockchain networks. As companies increasingly recognise the potential of blockchain, the demand for skilled developers in this field is expected to increase significantly.

These are just a few of the many exciting jobs of the future that offer promising career prospects. Whether you're interested in technology, data analysis, cybersecurity, or emerging technologies like blockchain, there's a growing demand for skilled professionals who can drive innovation and help organizations navigate the complexities of the digital age.

from https://www.theforage.com/blog/careers/jobs-of-the-future

Notes:

**World Economic Forum (WEF) - Всемирный экономический форум (ВЭФ)*

Exercise 16

Answer the questions.

1. What did the World Economic Forum (WEF) find to be the biggest factor affecting the future of jobs?
2. Which areas do employers expect job growth in, according to the Future of Jobs report?
3. What are the duties and responsibilities of the digital marketing and strategy specialists?
4. Why is the demand for big data analysts expected to continue growing?
5. How do Legal Tech specialists contribute to the legal industry?
6. What are the main responsibilities of cybersecurity and data protection specialists?
7. How is blockchain technology reshaping established industries?

Exercise 17

Decide which statements are true, false or not stated. Explain why.

1. The World Economic Forum (WEF) conducted a survey among individuals to predict the future of jobs.
2. Digital Marketing and Strategy Specialists are expected to have a job growth of 10% between 2022 and 2032.
3. Big Data Analysts are responsible for designing and implementing blockchain-based solutions.

4. Legal tech specialists deal with technology in order to simplify legal procedures, automate routine tasks and improve the quality of legal services.
5. Cybersecurity and Data Protection Specialists are expected to have a job growth of 40% between 2023 and 2027.
6. The demand for skilled developers in the blockchain field is expected to decrease in the future.
7. Skilled professionals in technology, data analysis, cybersecurity, and blockchain are in high demand.

Exercise 18*

a. Read the words describing professional qualities and translate them into Russian. Use a dictionary.

experienced; accurate; flexible; tech savvy; analytical; strategic thinker; diligent; calm; good at problem-solving; decisive; wise; independent; good at programming; disciplined; detail-oriented; adaptable

b. What qualities do you personally have or would like to have?

Exercise 19*

a. Read the word combinations. Translate them into Russian. Use a dictionary.

protecting computer systems from cyber threats; monitoring for security breaches; developing applications; making smart contracts; implementing blockchain protocols; testing blockchain systems; investigating security incidents; implementing security measures; dealing with digital marketing campaigns; data collection; data analysis; analyzing market trends; developing marketing strategies; automating legal processes; providing technical support to legal teams

Exercise 20*

What professions include the following functions? Fill in the table with the information from the above text and the words from exercises 18, 19 .

Profession	Qualities	Functions	Places of work
Digital marketing and strategy specialist			marketing agencies, advertising firms, e-commerce companies, tech startups
	analytical, good at problem-solving, detail-oriented, good at programming		
		automating legal processes, making smart contracts, providing technical support to legal teams	law firms, legal departments of corporations, government agencies
			tech companies, banks, government agencies, healthcare organizations

Blockchain developer			

SPEAKING

Exercise 21**

PROJECT WORK: "THE FUTURE CAREER FAIR"

Theme: Jobs of Tomorrow: Career Opportunities in a Rapidly Changing World

Objective: To research a future profession, create application materials, and demonstrate language skills through a simulated job interview.

Project Phases & Tasks

Phase 1: Research & Preparation

Task 1: Choose Your Future Job

Students choose one "Job of Tomorrow" from the list below:

- AI Ethics Officer
- Renewable Energy Systems Engineer
- Data Scientist
- Cybersecurity Analyst
- Robotics Engineer
- Sustainable Design Specialist

Task 2: Create a "Career Profile" (Written Assignment)

Each student prepares a short report (150-200 words) in English about their chosen profession. The report must include:

- Job Title
- Main Responsibilities (3-4 points)
- Necessary Skills (e.g., technical skills, soft skills)
- Industries where this job is needed
- Why this job is important for the future

Language Focus: Present Simple for descriptions, technical vocabulary, cause-and-effect language (*because, as a result, therefore*).

Phase 2: Application Materials

Task 3: Write a CV/Resume

Students create a CV in English for their chosen "Job of Tomorrow." They should use a modern template and include:

- Personal Statement/Objective
- Fictional but realistic Education (e.g., "Current student at [Their Real University], Faculty of...")
- Fictional but realistic Skills (e.g., "Python," "Data Analysis," "Knowledge of AI Ethics Frameworks")
- Projects or Work Experience (they can invent a relevant university project)

Task 4: Write a Cover Letter

Students write a short cover letter (120-150 words) addressed to a fictional company (e.g., "EcoTech Solutions," "Global AI Security"). The letter should:

- Introduce themselves and state the position they are applying for.
- Explain why they are interested in this "Job of Tomorrow."
- Briefly mention one or two key skills or experiences that make them a good candidate.

Language Focus: Formal letter format, persuasive language, present perfect for experiences (*I have developed..., I have participated...*).

Phase 3: The Job Interview

This is the practical, spoken part of the project.

Role-Play Setup:

- Students work in pairs.
- One student is the Job Candidate (using their CV and Cover Letter).
- The other student is the HR Manager/Interviewer.

Task 5: Prepare for the InterviewBoth roles receive guidance:

For the HR Manager/Interviewer:

Prepare a list of 5-7 questions to ask the candidate, such as:

1. "Can you tell me a little about yourself and why you are interested in this field?"
2. "What do you think is the biggest challenge in [the candidate's chosen job]?"
3. "How do you stay updated with new technologies in this area?"
4. "Describe a university project where you used [a relevant skill]. What was your role?"
5. "Where do you see yourself in five years?"

For the Job Candidate:

Prepare to answer the interviewer's questions. They should practice speaking about their skills and motivations clearly.

Language Focus: Question forms, use of past simple for describing projects, future tenses for goals, professional vocabulary.

Task 6: Conduct the Interview & Feedback

- In class, each pair conducts their interview (5-7 minutes).
- After the interview, the "HR Manager" gives brief feedback to the "Candidate" on two things they did well and one thing to improve (e.g., "You spoke clearly about your skills, but you could give a more specific example.").
- Then, they switch roles.

Feedback Guide for the HR Manager

Use these sentence starters to give constructive feedback:

"One thing you did well was... [e.g., your explanation of your project was very clear; you gave a confident introduction; you made good eye contact]."

"One thing to work on is... [e.g., try to use more specific vocabulary from the unit, like 'data integrity' or 'implementing a strategy'; you could give a more detailed example; try to speak a little louder]."

Assessment Criteria

CRITERIA	Excellent (5)	Good (4)	Satisfactory (3)
Written Work (CV & Cover Letter)	Accurate format, rich and relevant vocabulary, no grammatical errors.	Good format, sufficient vocabulary, minor errors that do not impede understanding.	Basic format and vocabulary, several errors, but the main message is clear.
Spoken Performance (Interview)	Fluency, clear pronunciation, ability to answer questions fully and naturally.	Generally fluent, comprehensible pronunciation, answers questions adequately.	Speech is hesitant, answers are short or sometimes off-topic, but communication is achieved.
Content & Preparation	Demonstrates deep understanding of the profession, provides specific and realistic examples.	Shows good understanding, provides relevant examples.	Shows basic understanding, examples are vague or less relevant.

WRITING

Exercise 22**

Write a well-structured essay of 250-300 words on one of the following topics connected with the theme "Jobs of Tomorrow."

Essay Topics:

1. Is a Traditional University Education Still Relevant for the Jobs of Tomorrow?
2. Lifelong Learning: The New Normal in a Rapidly Changing Economy
3. Protecting the Digital World: Why Cybersecurity is a Career of the Future
4. The Ethical Frontier: Exploring the Need for AI Ethicists and Data Privacy Officers
5. My Career in 2040: A Look at the Professions That Don't Yet Exist
6. From Routine to Creative: How the Nature of "Work" is Transforming

Requirements:

- Structure: Your essay must have a clear Introduction, Body Paragraphs (2-3), and a Conclusion.
- Introduction: Start with a "hook," introduce the topic, and state your thesis (your main argument).
- Body Paragraphs: Each paragraph should present one main idea that supports your thesis. Use examples and explanations.
- Conclusion: Summarize your main points and restate your thesis in a new way. You can also give a final thought or prediction.
- Language: Use formal, academic language. Avoid contractions (e.g., use "do not" instead of "don't"). Check your grammar and vocabulary.

SUPPLEMENTARY EXERCISES

Exercise 1

University Facts - Active or Passive?

Complete the facts about Imperial College London and Stanford University by choosing the correct verb form (Active or Passive).

Part A: IMPERIAL COLLEGE LONDON IN NUMBERS

1. The university **focuses / is focused** on science, engineering, medicine, and business.
2. Over 60% of the student population **classifies / are classified** as international students.
3. Imperial **awards / is awarded** thousands of degrees in STEM fields every year.
4. The research at Imperial **funds / is funded** by major grants from institutions and industry partners.
5. The main campus **locates / is located** in South Kensington, a central area of London.
6. Many groundbreaking discoveries in medicine and engineering **make / are made** by Imperial researchers annually.
7. Students **encourage / are encouraged** to participate in innovation and entrepreneurship programs.
8. The university **consistently ranks / is consistently ranked** among the top 10 universities in the world.

Part B: STANFORD UNIVERSITY IN NUMBERS

Complete the sentences with the correct Active or Passive form of the verb in brackets.

1. Stanford University _____ (to establish) in 1885 by Leland and Jane Stanford.
2. The university _____ (to know) for its entrepreneurial spirit and proximity to Silicon Valley.

3. Many world-changing technology companies, such as Google and Hewlett-Packard, _____ (to found) by Stanford alumni.

4. Over 16,000 students _____ (to enroll) in degree programs each year.

5. A significant portion of the campus _____ (to power) by renewable energy sources.

6. The Hoover Tower, a landmark on campus, _____ (to house) an extensive library and archives.

7. Stanford's athletic teams _____ (to call) the "Cardinal."

8. Billions of dollars in research _____ (to conduct) here every year, pushing the boundaries of knowledge.

Now, write two similar facts about a university in your country, using both Active and Passive voice.

Exercise 2

Internet Activity

a. Work in pairs. Student A looks at the official website of Oxford University Department of Engineering Science: https://eng.ox.ac.uk/

Student B looks at the official website of Cambridge University Department of Engineering: http://www.eng.cam.ac.uk/

Find answers to the following questions:

1. When was the Department of Engineering founded?
2. What degrees does the faculty offer?
3. What courses can students take?
4. What skills can the students learn?
5. Who does the academic staff include?
6. What students' societies are there?
7. Where can students live?
8. What sports can they do?

b. Fill with specific, findable information.

Founded: The department was founded in [Year].
Degrees: It offers [Number] undergraduate and [Number] postgraduate degrees.

One Famous Course: A famous course is called "[Course Name]".
One Student Society: Students can join the [Society Name] society.
Location: The main engineering building is on [Street Name] / in the [Area Name] district.
You have 15 minutes to find this information.

Exercise 3

Complete the text with the correct forms of the verbs.

Studying engineering at Harvard is a dream for many aspiring engineers, and for good reason. This prestigious institution (to attract) some of the brightest minds in the field, and its rich history stretches back over a century.

Harvard's School of Engineering and Applied Sciences (SEAS) (to be) at the forefront of technological advancements. Over the years, its faculty and alumni (to make) significant contributions to various engineering disciplines, including the development of the first computer and the creation of artificial organs.

Harvard (to emphasize) an interdisciplinary approach to engineering education. Students (to encourage) to collaborate across departments and fields, fostering innovation and creative problem solving. This approach (to lead) groundbreaking research in areas such as bioengineering, robotics, and environmental science.

Harvard's engineering faculty (to include) Nobel laureates and leading experts in their respective fields. Their commitment to teaching and research (to inspire) countless students to pursue ambitious projects and contribute to the advancement of science and technology.

Exercise 4

Internet Activity

Work in pairs. Student A looks at the official website of Harvard University School of Engineering: https://seas.harvard.edu/
Student B looks at the official website of Princeton University Department of Engineering: https://engineering.princeton.edu

Find answers to the following questions:

1. When was the Department/School of Engineering founded?
2. What degrees does the university offer?
3. What courses can students take?
4. What skills can the students learn?
5. Who does the academic staff include?
6. What can you say about social life of the students?
7. Where can students live?
8. What sports can they do?

Exercise 5

a. Jigsaw activity. Split into two groups. Group A reads Text A, Group B reads Text B. After reading, exchange the information about universities.

TEXT A

BAUMAN TECHNICAL UNIVERSITY

Bauman Technical University, one of the most prestigious universities in Russia, was founded in 1830. This university is the oldest technical university in Russia and is considered the best in the field of engineering and applied sciences. The university was established to train the skilled and competent workforce that the government of the former Soviet Union needed. Since then, the university has grown rapidly due to its successful alumni and modern facilities.

There are 19 faculties and many different research centres available for students to use. More than 19,000 students are studying at these departments in various specialities. Approximately 3000 student loans and grants are offered

annually by the university and the Russian government to highly motivated and talented students of the university.

By far, the university provides the largest number of employees and engineers for Russian companies and factories. The leading companies in Russia immediately hire more than 85% of the students.

The main campus of the university is located in the suburban areas of Moscow, the capital of Russia.

One of the main advantages of the university is a wide choice of departments. Bauman Technical University offers programmes in various areas of humanities, medicine, and engineering. Some of the university's departments, especially in mechanical engineering, are among the best in the world.

Another advantage of the university is its close co-operation with various factories and companies. The university claims to be an industrial university.

Bauman University has many cultural and social activities and facilities for students. Students can attend art clubs, participate in various competitions, events, and festivals.

TEXT B

SHANGHAI JIAO TONG UNIVERSITY

Shanghai Jiao Tong University is one of the famous institutions of higher education with the longest history and stellar reputation at home and abroad. It is a national key university directly under the Ministry of Education and jointly built with Shanghai Municipality.

Shanghai Jiao Tong University (SJTU) was founded in Shanghai, China, in 1896, with the goal of cultivating talented professionals for the nation. Today, SJTU has become one of the world's top 100 universities and a key university directly under the administration of the Ministry of Education of the People's Republic of China.

SJTU has 33 schools/departments, 12 affiliated hospitals, 2 affiliated medical research institutes, 23 directly affiliated units and 5 directly affiliated enterprises, with 17,460 full-time undergraduates, 14,670 full-time Master’s degree candidates,

11,031 full-time doctorate degree candidates, and 2,291 overseas students. SJTU faculty includes 3,512 full-time teachers. As a comprehensive university, SJTU offers 71 undergraduate programs covering 9 major disciplines: economics, law, literature, science, engineering, agriculture, medicine, management, and arts.

SJTU enjoys an increasingly high scientific research level and technological innovation level. In the recent 2 decades, SJTU led the country for the 12th consecutive year in terms of both the number of projects and the amount of funds received from the National Natural Science Foundation of China. In 2021, the number of CNS papers hit a historical high with a total number of 41. SJTU is encouraging talents all over the world.

SJTU also prioritizes the quality of its campus facilities, such as libraries, student innovation centres, laboratories, and sports facilities. Committed to education through culture, SJTU has integrated traditional Chinese culture into the campus culture development and has won a series of awards. SJTU took the LEAD-IN organizing a variety of activities nationwide and had excellent performances in sports events, drama, symphony orchestra, and other similar activities.

b. Speak about Russian Technological University MIREA. Use the phrases from Unit 2, Theme 2.1, 2.2., 2.3. and information on the official website: https://english.mirea.ru/

Exercise 6

a) Read the text about the UK regions and be ready to do the task which follows it.

THE UNITED KINGDOM REGIONS GUIDE

England isn’t the same as Scotland. Scotland isn’t the same as Wales. Wales isn’t the same as Northern Ireland. Instead, all of these places are part of the United Kingdom. But that isn’t the same as Great Britain.

Simply put, the difference between the United Kingdom and Great Britain is that the UK includes Northern Ireland, and Great Britain doesn’t. That’s why the

UK’s full official name is The United Kingdom of Great Britain and Northern Ireland.

How is the United Kingdom Divided?

The United Kingdom (or UK) is divided into different geographic areas, and is mostly made up of four different territories: England, Scotland, Wales and Northern Ireland.

While the first three of these are countries, Northern Ireland isn’t an official country, according to who you ask. Some consider it to be an independent country, while others don’t.

Though Northern Ireland shares a border (and some of a name) with the Republic of Ireland, the latter isn’t part of the United Kingdom. The Republic of Ireland is a different country independent of Northern Ireland.

The UK has a government which can and does make decisions on the behalf of the entire UK, but Scotland, Wales and Northern Ireland all also have their own political parliaments and assemblies which can make political decisions on behalf of their own countries or territories. England does not have its own separate devolved parliament.

WHAT ARE THE FOUR REGIONS OF THE UK?

1. England

By far the most populated country in the UK, England is very diverse, with a huge multi-cultural population. With 250 languages spoken in England's capital of London, it's the world's most linguistically-diverse city.

England's economy is the largest amongst all the constituents of the UK. Service industries, particularly banking, insurance, and business services, account by far for the largest proportion of GDP and employ around 80% of the working population.

2. Scotland

Remote, rugged and rural in many parts, Scotland has a very small population density, with 174 people per square mile, making it the least densely-populated country in the UK by far. The entire country has 3.5 million less inhabitants than Greater London alone.

Agriculture makes a significant contribution to Scotland's rural economy with pork, beef and lamb producers contributing over £2 billion to Scotland's annual GDP. Other growing sectors include sustainable energy, engineering and technology, particularly in life sciences and health.

Scotland lies in the north of the UK and has two major economic clusters:

- Edinburgh: the UK's second-largest financial centre
- Aberdeen: a major hub for the oil and gas industry.

3. Wales

Wales is situated in the west of the UK and has a huge coastline, rugged mountains and incredibly beautiful beaches.

Its capital, Cardiff, is the main economic centre and financial services is one of the most important sectors. Agriculture and wind power facilities (both onshore and offshore) also play an important role.

There is, and always has been, a big social-economic and geographic integration between Wales and England. 95% of the population lives within an hour drive of England and around 100.000 people travel everyday between Wales and England for their jobs.

4. Northern Ireland

The smallest of the UK's four major parts, Northern Ireland is situated in the northeast of the island of Ireland and is the UK's smallest country which is separated from Great Britain by the Irish Sea.

There are many economic sectors, spread across the country. The most important industries are agriculture, aerospace (the eighth-largest hub in the world) and medical technology.

A third of Northern Ireland's population live in Belfast, which is an indication of the capital's economic importance. Northern Ireland also has a growing creative sector, especially in film, music and animation.

(Retrieved from: https://travelness.com, https://www.nlinuk.nl)

b. Mark the statements as True or False.

Statements	**True**	**False**

1. Some people don't consider Northern Ireland an independent country.		
2. England has its own separate parliament as other countries of the UK do.		
3. Modern England's economy is purely agricultural.		
4. Scotland is the least densely-populated country in the UK.		
5. Edinburgh is a hub for the oil and gas industry.		
6. Wales has no coastline at all.		
7. Wales is a highly integrated with England country.		
8. Northern Ireland is the smallest part of the United Kingdom.		
9. A third of population live in Northern Ireland's capital.		
10. The United Kingdom and Great Britain is the same thing.		

c. Using the text as a model, write 3-4 sentences about one region of Russia (or your home country). Mention: 1) Location, 2) Main economic activity, 3) One interesting fact

Exercise 7

Scan the QR-code below to open the web-site of the UK Parliament. Choose one room from the list suggested in House of Parliament virtual tour and describe it.

https://www.parliament.uk/visiting/virtualtour/

Model: *There are a lot of green benches in the House of Commons Chamber. Some of them are for so-called backbenchers, MPs who don't hold ministerial positions.*

Exercise 8

a. Read the text about so-called "belt regions" of the USA.

FROM THE BIBLE BELT TO THE RUST BELT, THE UNITED STATES HAS 13 DISTINCT 'BELTS'

The United States can be divided and subdivided into countless regions, each sharing a unique set of characteristics that set it apart from the country as a whole.

You've probably heard of the Rust Belt, the region in the Midwest and Northeast where once-booming economies are on the decline. You may also be familiar with the Bible Belt, a stretch in the South where religion plays an outsize role in the region's culture and politics.

But what about the Jell-O Belt? Or the Stroke Belt? As it turns out, there are more than a dozen regions in the US that go by a "belt" moniker.

Here are the most prominent "belt" regions in the United States:

Bible Belt

The Bible Belt is an area of the US where evangelical Protestantism plays an especially strong role in society and politics. People in the Bible Belt tend to be socially conservative and have higher church attendance rates than people in other parts of the country.

The Bible Belt is thought to include almost all of the Southeastern US and runs from Virginia down to northern Florida and west to parts of Texas, Oklahoma, and Missouri.

Rust Belt

The Rust Belt is a region running across parts of the Midwest and Northeast. Once known for thriving iron and steel industries, the Rust Belt gets its name from the abandoned factories and urban decay that have marked the region since the 1970s. Before this decline in the 20th Century, it was called the Manufacturing Belt or Factory Belt.

The region is usually said to include parts of New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois, and Wisconsin. The area includes several political swing states, and residents of Rust Belt states often play critical roles in presidential elections.

Black Belt

The Black Belt is a region of the Southern US with a history of slave plantation agriculture and a high African-American population.

The term originally referred to a specific stretch in central Alabama known for its dark, fertile soil. That stretch eventually became associated with the slaves who tended to the land, and the term expanded to include the greater region where slavery and cotton farming were widespread.

Today, the term Black Belt generally encompasses a stretch of counties from Virginia down through the Deep South and including parts of Texas and Arkansas.

Corn Belt

The Corn Belt is a region of the Midwest that produces a disproportionate amount of the nation's corn.

The region stretches from Ohio to parts of Kansas, Nebraska, and the Dakotas, and encompasses parts of Minnesota in the north and Missouri and Kentucky in the south. Iowa and Illinois could be considered the heart of the Corn Belt, as the pair accounts for a third of all the corn in the US.

Cotton Belt

Like the Black Belt, the Cotton Belt is rooted in slavery — it encompasses the states where cotton was the predominant cash crop from the late 1700s into the 20th century.

The region includes much of the Southeast, and reaches as far north as Maryland and as far west as Texas.

Frost Belt

As the name suggests, the Frost Belt is a region known for its icy winters and heavy snowfall. It includes the entirety of New England and much of the Mid-Atlantic and Midwest regions.

It's no surprise that the Frost Belt overlaps with the region known as the Salt Belt, which are the cold-weather states where heavy doses of salt are applied to the roads in the winter. A state's Salt Belt status is relevant to car owners and manufacturers, as road salt can cause corrosion in automobile parts.

Rice Belt

The Rice Belt is a stretch of counties that produces almost all of the rice in the US.

As the nation's leader in rice production, Arkansas is the hub of the Rice Belt. The region also includes parts of Texas, Louisiana, Mississippi, and Missouri.

Snow Belt

The Snow Belt comprises three stretches of land near the Great Lakes that are among the snowiest in the US.

The region attributes its heavy snowfall to a phenomenon called lake-effect snow. That's when cold, dry air passes over the relatively warmer water of a lake, picking up moisture and dumping it downwind.

Each of the five Great Lakes yields a snow belt: Lake Ontario's is in upstate New York; Lake Erie's runs from Cleveland, Ohio, to New York; Lake Michigan's runs the entirety of western Michigan, and Lake Superior's includes northern Wisconsin and Michigan's Upper Peninsula.

The same effects that produce lake-effect snow are also favorable to growing fruit, so these very regions also make up America's so-called Fruit Belt.

Stroke Belt

The Stroke Belt is a group of 11 states where the risk of having a stroke or other types of cardiovascular disease is significantly higher than the national average.

The states in the Stroke Belt, mostly in the Southeast, are Virginia, North Carolina, South

Carolina, Georgia, Alabama, Mississippi, Louisiana, Arkansas, Tennessee, Kentucky, and Indiana.

According to a study published by the American Heart Association, contributors to the high stroke mortality rate in the region include a large Black population and residents with a "higher prevalence of inflammation and infection, and lower socioeconomic status."

Sun Belt

The Sun Belt stretches across the entire southern portion of the continental US and is known for its warm weather and sunny skies. The northern border of the region roughly aligns with the 36th parallel.

Since the end of World War II, the Sun Belt has seen a boom in its population and economic opportunities, and Census data show the region is growing at a faster rate than the Northeast and Midwest.

Unchurched Belt

The Unchurched Belt is sort of like the opposite of the Bible Belt. Located in the northwestern corner of the country, it's the region with the lowest rates of religious participation and church attendance in the nation.

The four states in the Unchurched Belt are Nevada, Oregon, Washington, and Alaska.

Wheat Belt

The last of the major belt regions is the Wheat Belt — the part of the Great Plains where wheat is the primary crop.

Really, the region is made up of two different wheat-growing areas. The southern portion, including parts of Texas, Oklahoma, Kansas, Nebraska, Colorado, and Wyoming, grows hard

red winter wheat. The northern portion, covering South Dakota, North Dakota, Minnesota, Montana, and up into Canada, grows hard red spring wheat.

(Retrieved from:https://www.businessinsider.com)

b. Answer the questions:

1. What is the Bible Belt, and what are some of its defining characteristics?
2. Which states are included in the Rust Belt, and why is it called that?
3. How did the Black Belt get its name?
4. Which states can be considered the heart of the Corn Belt.
5. How does the Cotton Belt relate to the history of slavery in the US?
6. What is another name of the Frost Belt? Why is it called like that?
7. What is the Snow Belt, and how does lake-effect snow contribute to heavy snowfall in this region?
8. Why is the risk of cardiovascular disease higher in the Stroke Belt?
9. What is the Sun Belt, and how has it changed since World War II?
10. How is the Unchurched Belt opposite to the Bible Belt?
11. What areas does the Wheat Belt consist of?

d. Find additional information about one of the "Belts" and prepare a presentation about it.

READING & DISCUSSING

TEXT 1

a. Read and translate the text.

HOW THE WORLD WAS WON: THE AMERICANIZATION OF EVERYWHERE REVIEW – A BRILLIANT ESSAY

Everyone can recall their first encounter with America, whether it was watching Gone With the Wind or Dumbo, the death of John F Kennedy, the resignation of Richard Nixon or, more recently, the election of the Barack Obama. But what does such exposure to the world's most powerful place actually imply? For some, the result is dashed expectations or disapprobation. For others, such as Peter Conrad, it is the opening act in a lifetime drama.

Conrad is one of a glittering generation of Australians cast on to the seas of world culture in the 1960s. He first encountered America through its movies, and here he examines the way the country has both interpreted itself for the rest of the world, and has in turn been half-understood by countries on which its huge footprint has strayed. America can't help but affect us all. We cannot not be affected by America. That is the principal message of this fitfully personal, occasionally randomly incomplete, brilliant essay. In conclusion, wrestling with symptoms of decline, Conrad reaffirms his obsession. "I am not ready to be cured," he says. "A world without America would be a dull, constricted place, hardly worth living in."

Modern America, Conrad suggests, sprang into being via the egalitarian impulses of mass culture. "The whole fucking world is going 100% American," Henry Miller wrote. 'It's a disease." We begin with the 1941 boosterish essay of Henry Luce entitled The American Century. The son of a missionary, Luce grew up in China. Time Life was the Google or Facebook of its day and Luce thought the United States, confronted by a chaotic, wayward world, should "take charge". But Luce wasn't talking about an official, state-inspired culture. Making its own way was what America would do.

Conrad has watched enough US movies to fill more than a lifetime. Lost gems such as The Americanization of Emily (1964), and Giant, the adaptation of EdnaFerber's novel, are eloquently reclaimed. Immigrants who made remarkable American films, such as the Viennese Billy Wilder and the Parisian Louis Malle, finally get their due. One must be grateful to Conrad for having got through not just the airport blockbusters of James Michener, but also the unreadable doorstop paranoid fantasies of Ayn Rand.

Among the omissions are Dwight Macdonald, who came up with the vocabulary used by Conrad, and Dr Strangelove. I missed the huge role of American journalism – via such stalwart institutions as the New York Times, and that of Daniel Ellsberg, who leaked the Pentagon papers, surely among the most important Americans of the past half century. There is nothing about such distinctive creations as the Ford Foundation. And television doesn't get a look in, which is odd.

However, Conrad understands how the counterculture was part of the impact of the US, and there are good pages on the likes of Allen Ginsberg and Henry Miller. "Jasper Johns may have been suggesting that America, too, is a fantasy, a shared delusion," Conrad remarks about the enigmatic flag paintings. The indeterminate, temporary nature of America, he suggests, explains why we keep coming back. What's not to like about a scene that changes every time you blink?

Many intellectuals didn't appreciate the sheer profusion of unsolicited American gifts. Simone de Beauvoir complained about the use in hotels of noisy vacuum cleaners, preferring the humble French broom, and Sartre found his beloved existentialism upstaged by the real choices available to rootless and mobile Americans. However, anti-Americanism proved to be a losing game because so much of American influence was inseparable from the wider world project of modernisation.

In a downbeat coda, Conrad concludes that our world has become "so Americanized that we no longer need to venerate the United States". I am not sure that I wholly agree. To be sure, the past decades have provided many grounds for rejecting the vision of the future supplied by the US, and these days the American constitution looks less admirable than it did when Luce heralded the new century. No shortage of those prepared to say that America's global sway is at an end can be discerned.

Nonetheless, we do well to recall that almost every significant innovation in the information economy began somewhere in the United States. So, too, did the process known as globalisation whereby such ideas are immediately disseminated throughout the world. The Austrian emigre economist Joseph Schumpeter described

American capitalism as obeying the principle of "creative destruction". What Hollywood movies and Luce's publications did for the 20th century, Google, Twitter, Facebook and Netflix are doing now.

The new Americanisation is different from the old one, less picturesque, to be sure, but probably more life-altering in the transformative freedoms it offers. It has its boosters, such as Bill Gates and Steve Jobs, its counterculture heroes, among them the whistleblower Edward Snowden, and of course its villains, consisting of governments wishing to subvert or block freedoms – not least, as it would seem in the case of the NSA, that of the United States itself. This is the true outline of our times. Does anyone really believe that the American century is over and done?

https://www.theguardian.com/books/2014/nov/02/how-the-world-was-won-americanization-of-everywhere-review-peter-conrad

b. Answer the questions below.

1. How did Peter Conrad first encounter America?
2. What is the principal message of Conrad's essay about America?
3. Who was Henry Luce and what was his view on America's role in the world?
4. What are some examples of American films mentioned by Conrad in the text?
5. Why did Simone de Beauvoir and Sartre have differing opinions on American influence?
6. According to Conrad, why do many intellectuals keep coming back to America?
7. How does Conrad describe the new Americanisation compared to the old one?

TEXT 2

Exercise 2

a. Read and translate the text.

Storytelling is as old as culture. Many societies have long-established storytelling traditions. The stories, and performances thereof, function to entertain as well as educate.

Storytelling is universal and is as ancient as humankind. Before there was writing, there was storytelling. It occurs in every culture and from every age. It exists

(and existed) to entertain, to inform, and to promulgate cultural traditions and values. Oral storytelling is telling a story through voice and gestures. The oral tradition can take many forms, including epic poems, chants, rhymes, songs, and more. Not all of these stories are historically accurate or even true. Truth is less important than

providing cultural cohesion. It can encompass myths, legends, fables, religion, prayers, proverbs, and instructions.

Here are some examples of storytelling as a method of passing down cultural traditions.

Choctaw Storytelling

Like all Native American tribes, the Choctaw have an oral storytelling tradition going back generations. Their stories were intended to preserve the tribe's history and educate the young. For example, the Choctaw oral tradition includes two creation stories: One relates to migration from the west and another to creation from a mound. In addition, the oral tradition includes history as well as life lessons or moral teachings. Many of the Choctaw traditional tales employ animal characters to teach such lessons in a humorous vein.

Native Hawaiian Storytelling

The Native Hawaiian word for story is "mo‘olelo," but it can also mean history, legend, tradition, and the like. It comes from two words, mo'o, meaning succession, and olelo, meaning language or speaking. Thus, story is the "succession of language," since all stories were oral. Native Hawaiian stories included the tale of the first Hawaiian, who was born from a taro root. Other stories tell of navigation across the seas.

Traditionally, Native Hawaiian storytellers, who knew history and genealogy, were honored members of society. Hawaiian storytelling was not limited to words alone—it included talking but also encompassed mele (song), oli (chant), and hula (dance).

Hawaiians valued the stories because they were not only entertaining, but they also taught the next generation about behaviour, values, and traditions.

Western African Storytelling

The peoples of sub-Saharan Africa have strong storytelling traditions. In many parts of Africa, after dinner, the village congregates around a central fire to listen to the storyteller. As in other cultures, the role of the storyteller is to entertain and educate.

Long part of western African culture are the griots: storytellers, troubadours, and counsellors to kings. They perform the functions of storyteller, genealogist, historian, ambassador, and more. Some of the most famous stories from western Africa are those of Anansi, the trickster spider.

The griots are traditionally hereditary, a profession or office passed from one generation to the next. There are also griot schools, where more formal training can be had. Both men and women can take up the profession: women are called griottes.

The Jewish People and the Passover Seder

On Passover, families of Jewish faith celebrate the exodus of the Jewish people from slavery in Egypt. The Passover celebration includes a storytelling ritual known as the seder, or order. During a meal, the story of the Exodus is told, an oral tradition passed down through generations to educate the young. An important part of the ceremony is “four questions” asked by the youngest children present, which are the impetus for telling the story.

Irish Storytelling

The seanchaí were the traditional Irish keepers of story. They would travel from village to village, reciting ancient lore and tales of wisdom. They told the old myths as well as local news and happenings. Prominent in the Irish oral tradition are tales of kings and heroes.

Today, storytelling and interest in storytelling appears to be making a comeback. As one Irish storyteller put it: “It’s a need for connection … I think storytelling nurtures connections with people in real life.” https://education.nationalgeographic.org/resource/storytelling-and-cultural-traditions/

b. Decide whether these statements are true or false.

1. Storytelling is a recent development in human culture.
2. Choctaw stories often use animals to convey moral lessons.
3. Native Hawaiian storytelling is limited to spoken words.
4. Griots in western Africa are exclusively male storytellers.
5. The Passover seder is a storytelling ritual in Jewish tradition.
6. Irish seanchaí shared both ancient myths and current events.
7. The primary purpose of storytelling is to provide historical accuracy.

TEXT 3

Exercise 3

a. Before reading, look at the pictures below. What can you see?

b. Jigsaw activity. Split into two groups: group A reads Text A, Group B reads Text B. After reading, exchange the information about journals.

A. SCIENTIFIC JOURNALS

Scientists usually publish their results or findings in articles in scientific journals. Articles are submitted to journals for assessment before publication. Scientists may give presentations of their work at conferences: gatherings of scientists who meet to discuss their work. Scientists present papers, making oral presentations. In academic publishing, scientific journal is a periodical publication designed to further the progress of science by disseminating new research findings to the scientific community. These journals serve as a platform for researchers, scholars and scientists to share their latest discoveries across a multitude of scientific disciplines.

Nowadays it is estimated over 30,000 active scientific journals are in publication, covering a broad spectrum of disciplines from the general sciences to highly specialized fields. These journals primarily publish peer-reviewed articles: original research, review articles, and perspectives, each serving distinct purposes within the academic landscape. Journals are also categorised into four quartiles: Q1, Q2, Q3 and Q4. Journals in Q1 and Q2 are considered top-tier journals while the lower-tier journals are classified as Q3 and Q4. The factors considered in the categorisation are the aim and scope of the journal, the quality of its board. Scientific journals may be electronic-, print-, or electronic-print-based publications. The majority of international indexing databases have changed their policies in recent years and are in favour of electronic journal indexing.

B. DISTINGUISHING BETWEEN SCIENTIFIC ARTICLES

Many search engines and databases include both peer-reviewed and news articles from the more popular science magazines. Since many assignments require the selective use of peer reviewed articles, it is important to be able to distinguish between the two types. Peer-Reviewed Articles are written by scholars and researchers. They include an abstract and a bibliography or cited list of references. They have a specialized format, use discipline-specific language. The library article databases allow you to limit your search to “peer-reviewed” articles. Popular/News Articles are written by journalists or writers who may not have expertise on the

article's subject. They rarely have an abstract or bibliography and do not follow a specialized format. They use language understandable by the general public and undergo a limited editorial review. Popular magazines can be a good source for general information on topics, they may not be the most appropriate source for your research.

The top academic research databases are Scopus or Web of Science, Higher attestation Commission (VAK) in Russia, Russian Science Citation Index (RSCI) etc. Whether you are writing a thesis, dissertation or research paper it is a key task to survey prior literature and research findings. Look for trusted resources, most likely peer-reviewed research articles. Academic research databases make it easy to locate the literature you are looking for.

c. Find 2 statements that correspond to the text:

1. Scientists publish their findings in articles in scientific journals or make an oral presentation at the conference.
2. The publication of scientific journals has not evolved significantly and is not widespread in the scientific community.
3. Q1 and Q2 are considered lower-tier journals.
4. Peer-Reviewed Articles are written by scholars and researchers.

d. Answer the questions from the texts:

1. Where can scientists present their findings?
2. What is the difference between Peer-Reviewed Articles and Popular/news articles?
3. What academic research databases can you name?
4. How do scientific conferences contribute to the dissemination of research findings?
5. How do academic research databases like Scopus or Web of Science support researchers in their work and academic careers?

e. Discuss with your groupmates:

1. What are the most respected scientific journals in the world?
2. What makes a scientific article credible?
3. Would you like to publish a scientific article?
4. Are you fond of science? Have you ever participated in any conference?

5. Are you going to do it in the future?

TEXT 4

Exercise 4

a. Before reading, answer the questions:

1. Have you ever heard about Ig Nobel Prize? What do you know about it?

2. Look at the subjects of studies that got awards in 2021. Which one seems the most interesting to you?

A. Punch-preventing beards

B. Upside-down rhinos

C. Why pedestrians don't collide… and also why they do

b. Read the text and match the subjects of studies with the parts of the article that describe it.

OUR FAVOURITE IG NOBEL PRIZE WINNERS

Every year, the science humour magazine the Annals of Improbable Research awards the Ig Nobel Prizes – a riff on the prestigious Nobel Prizes, for weird and wacky research that "first makes people laugh, and then think".

This year, the pickings are particularly hilarious.

1. _____

We're cheating a bit here, because two equally interesting studies about the physics of foot traffic were awarded prizes.

The physics prize went to a bit of research that explains why pedestrians aren't constantly smacking into each other, using models to look at the interactions between people walking in crowds.

"While in motion, pedestrians adapt their walking paths trying to preserve mutual comfort distances and to avoid collisions," the authors explain.

The study that took out the kinetics prize, on the other hand, looked into why pedestrians do actually sometimes collide with others. The team argues that anticipation is a big part of the reason – that pedestrians don't just navigate based on where others are, but where they anticipate others soon will be.

They conducted an experiment where some pedestrians were asked to walk while using their phones, and others without, to see whether distraction interfered with their ability to anticipate and react to their neighbours' motions.

"Both the distracted pedestrians and the non-distracted ones had difficulties avoiding collisions while navigating," the team writes in Science Advances – though distraction did slow down walking speed.

"These results imply that avoidance manoeuvres are normally a cooperative process and that mutual anticipation between pedestrians facilitates efficient pattern formation."

2. _____

A trio of beard-stroking US researchers came up with a pretty odd hypothesis: that humans evolved beards to protect our faces.

"Because facial hair is one of the most sexually dimorphic features of humans and is often perceived as an indicator of masculinity and social dominance, human facial hair has been suggested to play a role in male contest competition," the research team wrote in their paper, published in the journal Integrative Organismal Biology.

"We hypothesised that beards protect the skin and bones of the face when human males fight by absorbing and dispersing the energy of a blunt impact."

To test this, they used a model of human bone tissue, covered it in various thicknesses of sheepskin, and dropped 20 samples of varying weights on it from varying heights.

And the result? Hairy skin absorbs more of the force of an impact – lending a little more credence to the theory that beards evolved to prevent injury, cuts or bruises.

Fittingly, this research project was awarded the Ig Nobel Peace Prize.

3. _____

The Ig Nobels also have a transportation prize, which this year was awarded to an international team of scientists working out how best to move rhinos.

Specifically, they wondered: would it be better to transport rhinos upside

down?

This isn't as random a question as you might think. To protect black rhinos from poaching in South Africa, they often need to be airlifted to another location as the terrain is too rough to drive over. Rhinos don't usually come quietly, so they need to be tranquilised.

The researchers wanted to know if airlifting the rhinos in different orientations would exacerbate the effects of the tranquilisers – and after studying 12 rhinos using a crane, they found that upside-down rhinos fared better than those transported on their side.

"These experiments suggest that the pulmonary system of immobilised black rhinoceros is no more compromised by suspension by the feet for 10 minutes than it is by lying in lateral recumbency," the research team conclude in their study in the Journal of Wildlife Diseases.

c. Read the text again.

Complete the table with the underlined expressions from the text:

Who writes about science?	What do they describe?	What else do they do?	Where do they write about science?
An international team of scientists, …	The research, …	Explain, …	In their study, …

WATCHING & DISCUSSING

VIDEO 1

Understanding the UK Parliament (B1-B2 Level) https://vkvideo.ru/video-231870953_456239064

BEFORE YOU WATCH: Answer the questions.

1. What words come to mind when you think of "government" and "parliament"?

2. Who makes the laws in your country?

WHILE YOU WATCH:

1.Take notes to help you answer the questions below.

Choose the best answer (a, b, or c).

1. What two key historical events are mentioned as the foundation of Parliament?

a) The Great Fire of London and the English Civil War.

b) Magna Carta in 1215 and Simon de Montfort's parliament in 1265.

c) The invention of printing and the Industrial Revolution.

2. How many Members of Parliament (MPs) are there in the House of Commons?

a) Around 800

b) 63

c) 650

3. Who becomes the Prime Minister?

a) The oldest MP in the House of Commons.

b) The leader of the party with the most MPs after a general election.

c) The most popular member of the House of Lords.

4. What is the main role of Select Committees?

a) To organise general elections.

b) To analyse, scrutinise policy, and make recommendations.

c) To meet with the monarch every week.

5. What is the difference between a Green Paper and a White Paper?

a) A Green Paper is a law, and a White Paper is a proposal.

b) A Green Paper presents ideas for discussion, while a White Paper outlines a firmer plan.

c) They are the same thing but for different political parties.

6. What is a "hung parliament"?

a) A parliament that meets outside.

b) When no single party has a majority of MPs after an election.

c) When the Prime Minister resigns unexpectedly.

2.Decide if the following statements are True (T) or False (F). Correct the false statements.

1) The House of Lords is elected by the public. **T / F**

2) The monarch's role is mainly ceremonial. **T / F**

3) A Bill becomes an Act of Parliament after it is approved by the House of Commons only. **T / F**

4) You must be 18 years old to register to vote. **T / F**

5) MPs only represent the people who voted for them. **T / F**

3.Match the word/phrase from the video (1-8) with its correct definition (A-H).

1. to hold to account	A) a formal written request, typically signed by many people, appealing to authority for a cause.
2. constituents	B) the people that an MP represents in a specific area.
3. to scrutinize	C) a formal and organized vote to choose a candidate for a political position.
4. a bill	D) to examine something very carefully in order to discover information.
5. Royal Assent	E) a document outlining the policies and plans of a political party.
6. an election	F) the formal approval by the monarch which turns a Bill into a law.
7. a manifesto	G) a proposal for a new law, or a change to an existing one.
8. a petition	H) to make sure someone in a position of power is responsible for their actions.

4.Answer the questions in your own words.

1. Besides voting, what are **two** ways a young person can get involved and have their voice heard?
2. What are **two** things that the House of Commons does?
3. What is the final step for a Bill to become a law (an Act of Parliament)?

5.Discuss these questions with a partner.

1. The video says that Lords are chosen for their "knowledge and experience." What are the advantages and disadvantages of this system compared to being elected?
2. In your opinion, which method of getting your voice heard (e.g., petition, joining a campaign, contacting an MP) is the most effective? Why?
3. Why is it important for citizens to "hold the government to account"?

VIDEO 2

Watch the video at https://vkvideo.ru/video-231870953_456239065

and answer the following questions:

1. In which ways do British English and American English differ?
2. What is the intrusive “R” and where can it be heard?
3. Who was Noah Webster and what is he famous for?
4. What grammatical differences are mentioned in the video?
5. Is vocabulary in both variants the same? If not, give some examples from the video.

VIDEO 3

Exercise 8

a. Watch a video on the House of Commons at: https://vkvideo.ru/video-231870953_456239066 and answer the questions.

1. Why was the building of the House of Commons Chamber rebuilt?
2. What is the job of the Speaker and where is the Speaker’s place?
3. Who sits to the Speaker’s right-hand side?
4. Who sits to the Speaker’s left-hand side?
5. Who is the Serjeant-at-Arms and what are his functions?

6. What are the Dispatch Boxes?
7. Why is the Official Report called Hansard?
8. Why is the room much smaller than it looks on TV?

b. Watch a video on the House of Lords at: https://vkvideo.ru/video-231870953_456239067 and answer the questions.

1. Who is the House of Lords made up of?
2. Was the House of Lords Chamber rebuilt?
3. What are the functions of the House of Lords?
4. What does the Lord Speaker do?
5. Why do the Lord Speaker sit on the Woolsack?
6. Who are Crossbenchers and where do they sit?
7. When does the Monarch visit the House of Lords?

c. Internet activity. Search for some additional information on the Internet on the suggested topics and present your research to your groupmates.

1. History and functions of the House of Commons.
2. History and functions of the House of Lords.
3. Shadow Cabinet.
4. Wool trade and its importance for the British Empire.

VIDEO 4

Watch the video at https://vkvideo.ru/video-231870953_456239069

BEFORE YOU WATCH. Answer the preliminary questions.

1. How many states are included into the USA?
2. In your opinion, does the US capital have more power than other states in the USA?

WHILE YOU WATCH. Mark the statements as True or False.

Statement	True	False

1. House of Representatives vote for Washington, DC statehood quite often.		
2. The representative of DC's residents cannot vote on bills		
3. DC residents like people of American territories do not pay federal taxes.		
4. According to US Constitution the federal government cannot be based in one of the states.		
5. The fact that Congress completely controls DC's budget is one of the major reasons why people of Washington DC want statehood.		
6.Holmes Norton's plan is to turn the whole District of Columbia into a newest and smallest state Douglass Commonwealth.		
7. Statehood issue is a political question.		
8. Since 1819, new states were added in pair to keep the balance between the political parties.		
9. A coronavirus relief bill given to Washington, DC was equal to that given to each states.		
10. The National Guard cannot be engaged in Washington, DC.		

AFTER YOU WATCH.

Conduct a small investigation on the Internet. Write a brief essay (120-200 words) on one of the suggested topics.

Topics you may choose from:

1. Powers and duties of states within in the USA.
2. Powers and duties of American territories.
3. Powers and duties of the District of Columbia.

VIDEO 5

Watch the video on Ancient Rus' history at https://vkvideo.ru/video-231870953_456239070 and do the tasks listed below.

a. BEFORE YOU WATCH. Match the words form the left column to their translations from the right one.

1) succession	a) язычество
2) a monk	b) литературные памятники
3) archaeological evidence	c) Летопись Временных Лет
4) the Primary Chronicle	d) престолонаследие
5) accounts	e) грамотные ученые
6) Crusade	f) археологические свидетельства
7) literate scholars	g) монах
8) polytheistic religion	h) братоубийственные распри
9) fratricidal disputes	i) политеистическая религия
10) paganism	j) Крестовый поход

b.WHILE YOU WATCH. Answer the questions:

1. What are the main sources of information about Slavs? Why is their number so limited?
2. What branches did the Slavic tribes split into?
3. How was the Kievan Rus born?
4. What is the probable origin of the name 'Rus'?
5. What was the result of Orthodox Christianity adoption?
6. What was the foundation of a newly created Slavic alphabet.
7. What was the last blow leading to the Rus collapse?

c. Fill in the gaps using the information from the video.

1. The answers lie in an epic story of _____, _____, and the rise and fall of a _____ state known as Kievan Rus.
2. As Nestor's story goes, after years of _____ by Vikings from the north, the region's tribes revolted and drove back the Northmen.
3. With Rurik's son, Oleg, expanding his _____ into the south.
4. The new princedom had complex relations with its neighbors, alternating between _____ and _____ with the Khazar and Byzantine Empires.
5. For several generations, the Kievan Rus flourished from its rich _____ and _____.
6. Rus princes paid little attention to _____ of a mysterious unstoppable hoard until 1237, when 35,000 _____ archers led by Batu Khan swept through the Rus cities.
7. For the next few centuries, the former lands of Kievan Rus _____ by Slavs, _____ by Vikings, _____ by Greeks, and _____ by Mongols would develop differences in society, culture and language that remain to the present day.

VIDEO 6

You are going to watch the video about industrial espionage at https://vkvideo.ru/video-231870953_456239071 .

BEFORE YOU WATCH

Do you know anything about industrial espionage? Is it good or bad to steal a secret from your competitor/a foreign state to help your business/your own country?

A. WHILE YOU WATCH

Notice the examples of industrial espionage mentioned in the video.

B. AFTER YOU WATCH

Fill the gaps with the words from the box. Watch the video for the second time to check your answers.

targeted	smuggle	world-beating	theft	water-powered	victim	enforcer
blueprints	superpower	rewarded				

1. Industrial espionage or the _____of trade secrets costs the US economy between 188 and 540 billion dollars every year. It's why the US is the world's number one
_____of intellectual property laws.
2. Founding father Alexander Hamilton didn't just see the United States as a beacon of democracy he believed it could become a global _____.
3. It advocated that those who did [stole trade secrets] should not be punished but _____for their efforts.
4. During the industrial revolution the British fiercely guarded the secrets behind their manufacturing technology, but English-born Samuel Slater risked life and limbs to _____ never-before-seen technical documents out of the country and into the United States.
5. He used them to construct America's first _____cotton spinning mill and kick- start the industrial revolution stateside.
6. But in more recent years the tables have turned and America has itself fallen _____to industrial espionage.
7. While visiting Ford Motor company plants as a part of a trade agreement in the 1920s representatives of the Soviet Amtorg trading corporation stole confidential
_____and used them to jump start the Soviet automotive industry
8. While big US brands like Coca-Cola, Gillette and Boeing have also been _____ for the secrets of their success.

VIDEO 7

Exercise 3

You are going to watch a video at https://vkvideo.ru/video-231870953_456239072 .

A. BEFORE YOU WATCH.

Can you guess what technologies have changed our lives significantly and made it easier? Write down your top 5 on a piece of paper.

B. WHILE YOU WATCH

Fill in the gaps with the words from the video.

1. Technology has been evolving over time and our way of life has been dramatically a… by it as a result.
2. In today's world most people choose to carry out their daily activities with the most technologically advanced devices a… .
3. Surely you've noticed that recent technological advancements have improved not just our s… of living but also the way we conduct business regular duties.
4. Without a question at present technology is the most important aspect of our lives and we cannot e… a comfortable lifestyle without it.
5. People used to have to wait days or months for a r… but that is no longer the case.
6. We are only a few clicks away from sending messages or official mails to our loved ones as well as our office colleagues thanks to c… p… . (2 words).
7. Whatsapp, Skype, Facetime and other high-end smartphone programs allow you to view and e… with loved ones even if you are thousands of miles [away from each other].
8. Active a… can help companies stand out from the crowd and capture customers attention in real time.
9. The t… sector has developed in an unexpected way in recent years.
10. Anyone can easily b… their tickets, hotels and check up on the status of it in real time.
11. And now people prefer to c… research on the Internet since it is more convenient for them.
12. To store the data people have to m… a large number of files, however, this is no longer a concern because data storage can now be done swiftly.

13. We live in a chaotic and haphazard era with a significant risk of c… , theft and crime so technology innovation has made it easier for everyone to live comfortably.

14. However, keep in mind that e… technology use is not appropriate for everyone therefore everything should be utilized in moderation.

15. Utilize technology to its full potential and learn something practical that adds to your p… knowledge.

Exchange your list of ideas with the partner and check your suggestions. Have you guessed any of the technologies mentioned in the video right? Ask your partner about the technologies that are in their list but are not mentioned in the video.

C. AFTER YOU WATCH.

You are given 5 statements from the video you have just watched. There are two wrong statements. Pick the ones which corresponds to the video.

1. Most people do not use the most technologically advanced devices for their daily activities.
2. You can now purchase goods online from the comfort of your own home.
3. People can navigate for their own needs without middlemen.
4. Students are prohibited to conduct research on the Internet.
5. A few decades ago it was difficult to store and retrieve data.

GRAMMAR REFERENCE

THE VERB "TO BE"

	Present Simple	**Past Simple**	**Future Simple**
Positive	**I am** **He / she / it is** **We / you /** **they are**	**I / he / she / it** **was** **We / they / you** **were**	**I / he / she / it / we /** **they / you will be**
Negative	**I am not** **He / she / it is** **not We / you /** **they are not**	**I / he / she / it** **was not** **We / they / you** **were not**	**I / he / she / it / we /** **they / you will not be**
Question	**Am I?** **Is he / she / it?** **Are we / you /** **they?**	**Was I / he / she / it?** **Were we / you/ they?**	**Will I / he / she / it /** **we / they / you be?**

VERB TENSES – ACTIVE VOICE

	Present Simple	**Past Simple**	**Future Simple**
Positive	I / you / we / they live in Moscow. He / she / it lives in Moscow.	I / he / she / it / we / you / they moved / went to Vladivostok in 2021. *ago, last night* (*Sunday, week, year, month*), *yesterday*	I / he / she / it / we / you / they will study at Moscow State University.

	never, sometimes, often, usually, always	(*morning, evening, afternoon*)	
Negative	I / you / we / they do not (=don't) live in Moscow. He / she / it does not (=doesn't) live in Moscow.	I / he / she / it / we / you / they did not (=didn't) move / go to Vladivostok in 2021.	I / he / she / it / we / you / they will not (=won't) study at Moscow State University.
Question	Do I / you / we / they live in Moscow? Yes, I do. No, I don't. Does he / she / it live in Moscow? Yes, he does. No, he doesn't. Where do I / you / we / they live?	Did I / he / she / it / we / you / they move / go to Vladivostok in 2021? Yes, I did. No, I did not (=didn't). Where did I / he / she / it / we / you / they move / go in 2021?	Will I / he / she / it / we / you / they study at Moscow State University? Yes, I will. No, I will not (=won't). Where will I / he / she / it / we /you / they study?

	Where does he / she / it live?		

THE VERB "TO HAVE"

Positive	**Negative**	**Yes/ No-Questions**	**Wh-Questions**
I / we / you / they have He / she / it has	I / we / you / they don't have He / she / it doesn't have	Do I / we / you / they have Does he / she / it have	What do I / we / you / they have? What does he / she / it have?

THE VERB + -ING FORM

	Verbs	**Examples**
Likes and dislikes	like love enjoy prefer do (not) mind hate dislike	Do you like watching movies? I don't mind getting up early.
sports and other activities	go swimming, go skating, go horseriding, go running,	How often do you go shopping? Next time let's go skating outdoors.

	go shopping	

CONTINUOUS ACTIVE

be + -ing Verb		
Present	**Past**	**Future**
I am studying engineering. She/He is studying engineering. They/you/we are studying engineering.	I was studying engineering He/she was studying engineering. They/you/we were studying engineering.	I will be studying engineering. He/she will be studying engineering. They/we/you will be studying engneering.
I am not studying engineering. She/He is not studying engineering. They/you/we are not studying engineering.	I wasn't studying engineering. She/He was not studying engineering. They/you/we were not studying engineering.	I will not (won't) be studying engineering. He/she will not (won't) be studying engineering. They/we/you will not (won't) be studying engineering.
Is he/she studying engineering? Are they/we/you studying engineering? What is she/he studying? What are they studying?	Was he/she studying engineering? Were they/we/you studying engineering? What was she/he studying? What were they studying?	Will he/she/you/we/they be studying engineering? What will he/she/we/you/they be studying?

State Verbs

Some verbs are NOT normally used in the **Present Continuous**: like, hate, want, need, prefer, know, realise, understand, recognise, believe, suppose, remember, mean, belong, fit, contain, consist, seem, owe etc.

We do not say: I ~~am understanding~~. / He ~~is knowing~~ / They ~~are wanting~~.
Some **State verbs** have several meanings and **can be used in Continuous**.

E.g.

Think:

I **think** he is clever. (= opinion, it's a state) vs I**'m thinking** to buy a new flat. (= mental process, action)

Look:

Come on, now, you **look** pretty. (= it's your state) vs Why **are you looking at** me? (=action of watching)

Taste:

Why does chocolate **taste** so good? (= it has a taste, it's a state) vs Juliette **is tasting** her husband's new dishes (= action).

Smell:

The flower **smells** good. (= it has a scent, it's a state) vs Why **is** he **smelling** it? (= action)

See:

Do you **see** this girl? (= it's a state) vs We **are seeing** our friends tomorrow. (= are going to meet)

Have:

He **has** a house. (= possession, it's a state) vs He **is having** dinner with my family. (= action)

PASSIVE. SIMPLE AND CONTINUOUS

When we use Active voice, we point at the agent or the "doer" directly by putting it as the subject:

I wrote the email.

Who did it? – I did.

However, the subject and the "doer" do not always coincide. To show it, we use Passive voice where the "doer" is placed at the end of the sentence or simply left out. Compare:

Active voice: the subject and the agent coincide.	**Passive voice**: the subject and the agent do not coincide	**Passive voice**: we leave out the agent
I *did this exercise.*	***The exercise*** *was done by me.*	***The exercise*** *was done.*

In the example above the subject of the sentence is highlighted in bold, the "doer" is underlined.

Typically, Passive voice is used when we:

1) want to change the focus of the sentence;
2) the "doer" is not important;
3) the "doer" is not known;
4) do not want to say who the "doer" is.

To form the passive, we need to use the auxiliary verb "to be" and the third form of a verb. The core formula looks like this:

to be/to get + V3/Ved

In colloquial English, we can use "get" instead of "be" but only for actions, not states:

Did you get burned?

Passive voice with "get" is usually used in informal spoken English. It places considerable emphasis on the action. Often Passive voice with "get" is used when something happens accidentally or unexpectedly:

My laptop got stolen from the library. – I did not expect it.

This form of the passive voice is often used when we talk about some negative, undesirable, unpleasant things:

My husband got fired a week ago.

The verb ***get*** itself expresses change, a transition from one state to another, so it is not usually used with state verbs that do not express action as such. These include: *think, believe, know, remember, understand, have, own, love,* and many others.

In this section, we concentrate on the form of Simple Passive and Continuous Passive. You will find their passive forms in the table below:

	Simple	**Continuous**
Present	am/is/are + V3/Ved	am/is/are + being + V3/Ved
	My work is presented in this magazine.	*The road is being repaired now.*
Past	was/were + V3/Ved	was/were + being + V3/Ved
	My laptop was stolen!	*This temple was being built fortwo years.*
Future	will be + V3/Ved	will be + being + V3/Ved
	Tomorrow all the work will be done by machines.	*At 8 PM tomorrow, the new mural will be being painted by the artist.* ***NB!*** *Future Continuous Passive exists theoretically but is almost always replaced by clearer, more idiomatic alternatives in real-world English.*

THE PERFECT TENSES

	Perfect	**Perfect Continuous**
Present	**Have/has+V3**	**Have/has+been+Ving**

	I/you/we/they **have come**. I/you/we/they **have not come**. **Have** I/you/we/they **come**? He/she/it **has** decid**ed**. He/she/it **has not** decid**ed**. **Has** he/she it decid**ed**?	I/you/we/they **have been** travell**ing**. I/you/we/they **have not been** travell**ing**. **Have** I/you/we/they **been** travell**ing**? He/she/it **has been** read**ing**. He/she/it **has not been** read**ing**. **Has** he/she/it **been** read**ing***?*
Past	**Had+V3**	**Had+been+Ving**
	I/you/we/they/ he/ it /she **had finished** the report by 5 o'clock. I/you/we/they/ he/ it /she **had not finished** the report by 5 o'clock. **Had** I/you/we/they/ he/ it /she **finished** the report by 5 o'clock?	I/you/we/they/ he/ it /she **had been working** at this project **since** 2000 until they finished it. I/you/we/they/ he/ it /she **had not been** play**ing** tennis **since** 2000. **How long had** I/you/we/they/ he/ it /she **been** train**ing** before you won your first competition?
Future	**will have+V3**	**Will+have+been+Ving**
	I/ I/you/we/they/ he/ it /she **will have done** this work **by 9 o'clock tomorrow.** I/ I/you/we/they/ he/ it /she **will not have done** this work **by 9 o'clock tomorrow**. **Will** I/you/we/they/ he/ it /she **have done** this work by **9 o'clock tomorrow**?	By the time we join them, I/you/we/they/ he/ it /she **will have been** travel**ing for** two weeks. By 2025 I/you/we/they/ he/ it /she **will not have been** liv**ing** in this country long enough to obtain citizenship. How long **will** I/you/we/they/ he/ it /she **have been** practic**ing** in the clinic when you graduate?

We often use for, since and how long with the Present Perfect simple to talk about ongoing states.

How long have you known each other?

We've known each other since we were at school.

We often use for, since and how long with the Present Perfect Continuous to talk about ongoing single or repeated actions.

How long have they been playing tennis?

They've been playing tennis for an hour.

They've been playing tennis every Sunday for years.

Sometimes the Present Perfect Continuous can emphasize that a situation is temporary.

I usually go to the gym on the High Street, but it's closed for repairs at the moment, so I've been going to the one in the shopping center.

NOTE! Stative verbs (believe, forget, remember, like, hate, contain, possess etc.) are NOT used in the Perfect Continuous Tenses.

I've known about the problem for a long time. (not I've been knowing)

How long have you had that camera? (not have you been having)

But note that you can use want and mean in the Present Perfect Continuous *(have/has been + -ing):*

I've been meaning to phone Anna, but I keep forgetting.

PERFECT PASSIVE

Present Perfect Passive
have/has + been + past participle V(3)
The windows have been cleaned and now they look good. *The windows have not been cleaned.*

Have the windows been cleaned?
Past Perfect Passive
had+been+ past participleV(3)
He had been arrested before his friend arrived. *He had not been arrested before his friend arrived.* *Had he been arrested before his friend arrived?*
Future Perfect Passive
will+have+been+ past participleV(3)
By 2080 workers will have been replaced by robots. *By 2025 workers will not have been replaced by robots.* *Will workers have been replaced by robots by 2080?*

The Past Perfect Passive expresses a previous action or state that began in the past and continued up to another point in the past, and its consequences have implications for that second point in time.

Structure: had + been + past participle

Time expressions such as *"by," "before," "by the time," or "until"* are often used to indicate the completion of the action.

Example: The report had been submitted by the deadline.

The Future Perfect Passive is used to talk about actions or events that will be finished by a certain moment in the future. When we use this tense, we are projecting ourselves forward into the future and looking back at an action that will be completed sometime later than now. Passive voice means that the subject of the sentence is acted upon.

Example: This report will have been written by the 1st of November.

The Future Perfect Passive is not very common in English because it is seldom required by the situation. Besides, it's better to use active voice in speech and writing. But when it is used, it's usually followed by a time expression, often with the word 'by'.

Example: *Don’t worry, all work will have been done by 4 p.m.*

ARTICLES

- **A/An** (Indefinite Article): Used for general, non-specific things.
- **The** (Definite Article): Used for specific, particular things.

When to Use Which:

Noun Type	General Meaning	Particular Meaning
Countable, Singular	**A/An** (I saw **a cat**.)	**The** (I saw **the cat** that lives next door.)
Countable, Plural	**No Article** (I love **cats**.)	**The** (I love **the cats** in this neighborhood.)
Uncountable	**No Article** (I need **advice**.)	**The** (I need **the advice** you gave me.)

Use A/An:

- For something mentioned for the first time. (I have **a car**.)
- When it's one of many. (Could you open **a window**? - There are several.)

Use The:

- For something already mentioned. (I have **a car**. **The car** is red.)
- When it's clear which one you mean from the context. (Could you open **the door**? - There is only one.)
- For unique things. (**the** sun, **the** moon)

Use No Article (Ø):

- For general concepts, uncountable nouns, and plural nouns in a general sense.
  - **Ø** Love is wonderful.
  - I drink **Ø** coffee.
  - **Ø** Cats are independent.

Important Notes

1. **Sound, Not Spelling:** Use a before consonant **sounds** and an before vowel **sounds**.
   - a house, a university (sounds like 'y')
   - an hour, an apple
2. **No Article With Other Determiners:** Do not use an article with words like:
   - **my, your, his** (This is **my** book.)
   - **this, that** (**This** coffee is cold.)
   - **some, any** (I don't have **any** money.)
3. **Pronunciation of "The":**
   - Pronounce as /ðə/ before consonant sounds: **the** car.
   - Pronounce as /ði/ before vowel sounds: **the** apple.

Special cases of article use

Now, let’s have a look at some specific cases of article use.

Indefinite article (A/AN)	Descriptions. We use a/an to describe a person or thing, usually with an adjective.
	Fractions and large numbers. We use a/an to mean one: *half of a kilometer, one and a half, a thousand*
	Frequency and measurement. We use a\an to mean each: *once a day, twice a month, six euros a kilo, 100 kms an hour (BUT every hour)*
Definite article (THE)	Countries with plural names or nouns like Republic, Kingdom, etc.: *The Netherlands, The Russian Federation*
	Names of oceans, seas, rivers, mountain ranges: *The Appalachian Mountains, The Atlantic Ocean*

	Names of museums, cinemas, theaters, hotels: *The National Theater, the Hilton Hotel, the American University Museum*
	Places in town, types of shops: *the bank, the grocery*
	Locations: *on the left, in the east*
	Noun + of: *the Isle of Man, the City of London*
Zero article	Most countries and continents: *Russia, Great Britain, Europe*
	Cities, towns, states and regions: *Moscow, New York, Rhode Island*
	Mountains, hills and lakes: *Mount McKinley, Lake Superior*
	Most roads, streets, squares and parks: *Hyde Park, Times Square, Oxford Street (BUT the M25, the high street)*
	Named airports and stations: *Miami Airport, Birmingham Bus Station*
	Means of transport and communication: *on foot, by bus, by phone*

THERE + TO BE

We use such constructions when we mention the existence or presence of someone or something for the first time. It is necessary to mention that the construction needs to agree with a sentence's subject. In other words, there is used when a subject is singular, there are is used with a plural subject:

There are four chairs in my room.

There is a big mistake in your report.

Be careful with words! If we replace *there* with, for example, *it*, the whole meaning of the phrase will change. *There* introduces new information, whereas *it* gives more detail about the information.

Phrase	Meaning
There is a smartphone in my pocket.	The speaker mentions that he or she has a smartphone in his/her pocket for the first time.
It is a smartphone in your pocket.	The speaker answers the question "What is beeping?"

There is has a contracted form *there's* which it typical for informal speech.

There is a mistake in your report. = *There's a mistake in your report.*

In speaking and in some informal writing, we can use *there's* with both singular and plural subjects. However, be careful because it may be considered incorrect in formal writing or in academic/professional environment.

There's a small box on the floor. ✓

There's pieces of torn paper everywhere (informal) ✓

There's a lot of students listening to the lecturer (formal) ✗

COUNTABLE AND UNCOUNTABLE NOUNS

Nouns are one of the most important word classes in English. To use them properly, you need to remember that some of them can be counted and some of them don't. So, nouns can be countable and uncountable.

Countable nouns

These nouns can be counted.

For example: one cat, two cats, three cats.

This means that we can use a/an article and numbers with them.

Uncountable nouns

Such nouns do not have a distinction between singular and plural. Abstract nouns, materials, liquids are the examples of uncountable nouns:

Friendship, woods, iron, rice

Some uncountable nouns are used only in in the singular, others are only used in the plural. In the table below, you can find some examples of these nouns.

Always singular	**Always plural**
information	clothes
advice	binoculars
furniture	headphones
accommodation	(sun)glasses
equipment	scissors
news	belongings
money	jeans
	trousers
	pants
	goods

Some nouns can be either countable and uncountable. It depends on the context such words are in:

Countable	**Uncountable**
I have two chickens in my yard. A chicken = an animal.	I will have some chicken, please. Chicken = meat
I'll give her a box of chocolates. A chocolate = a small sweet	This tower is made of chocolate. Children will love it! Chocolate = an ingredient

Would you like a tea or a coffee? A tea/coffee = a cup of tea/coffee.	I like tea more than coffee. Tea/coffee is a type of drink.
You should do several exercises. Exercises = tasks	Do you take much exercise? Exercise = physical activity
It was interesting hearing about his experiences as a doctor. Experiences = something that happens to you that affects how you feel	Some HRs pay attention to not your formal qualification but to your real experience. Experience = knowledge, or skill from doing, seeing, or feeling things
How many works by Lermontov do you know? Works = books (or other results of human activity)	I have much work to do. Work = job or other duties
He wrote two scientific papers. A paper = an article/document	This crane is made of paper. Paper = material

Note!

Some quantifiers can be used only with countable nouns, some of them are exclusively used with uncountable nouns.

With countable nouns	With uncountable nouns
Many	Much
Few/a few	Little/a little

Ways of counting uncountable nouns

To count what can't be counted, you can use different quantifiers, such as:

- units: e.g., a bit of information; an item of furniture; a piece of advice; a sheet of paper, etc.
- containers: e.g., a bottle of water; a can of soup; a packet of sugar; a cup of coffee, etc.
- measurements: e.g., two kilometers of road; a liter of water; a kilo of meat, etc.

ADJECTIVES. COMPARISON

There are two degrees of comparison: comparative and superlative forms. To use them properly, we need to split all adjectives into three classes. Each class has its rules how to build comparatives and superlatives.

Let's have a look at the table presenting all three classes in different forms.

	Absolute	**Comparative**	**Superlative**
1	Fat	fatter	the fattest
	Friendly	friendlier	the friendliest
2	Wonderful	more wonderful	the most wonderful
3	Good	better	the best
	Bad	worse	the worst
	Far	further (more common)/farther	the furthest/the farthest
	Old	older/elder	the oldest/the eldest

1. The first class is one-syllable adjectives. They are short and form their comparative and superlative forms with suffixes *-er* and *-est*.

*She is **smarter** than you think.*

Also, two-syllable adjectives ending with *-y* can be brought to this class.

*He is **friendlier** than Jack.*

2. The second class is two- or more syllable adjectives. We cannot add suffixes to them, so the only way to build a comparative or a superlative is to add new words: more and most.

This is **the most interesting** book I've ever read!

DON'T MIX these two ways! It is a MISTAKE!

She is smarter than you think.

He is the most courageous person I've ever known.

She is more smarter than you think.

He is the most courageousest person

I've ever known.

To show the reduced quantities, amounts or degree, we use quantifiers *less* (for comparatives) and *the least* (for superlatives):

*Oil production is **less important** for the nation's economy than food production.*

*Pick **the least effective** application and delete it from your device.*

To compare things, we can use different constructions like *"as adjective as"* or *"not as adjective as"*.

Jack is as tall as Bob.	Jack and Bob's height is similar.
Bob is not as tall as Jim.	Jim is taller than Bob.

MODALS

Modality helps us to express our attitude towards the surrounding reality. A speaker or writer can express certainty, possibility, willingness, obligation, necessity and ability by using modal verbs and expressions.

We DO NOT use *to*-particle after core modal verbs!

We can to go to the library. ✗

We can go to the library. ✓

Note! We can use past forms for present to:

1. be polite — *Could you pass me the salt?*
2. express uncertainty — *Theoretically, it could happen but I don't believe in it.*
3. talk about unreal things — *I'm so hungry that I could eat an elephant!*

Let's touch upon some categories of modality.

Ability

We use the modal verb “can” and two modal expressions, “to be able to” and “manage to” to express someone’s ability to perform an action. However, they are not always interchangeable.

1. Present

“Can” is roughly equal to “to be able to”, however, you need to remember that “can” is more common in everyday English.

2. Past

We use *could, was/were able to* and *managed to* to talk about some person’s ability in the past. To use them properly, you need to remember several things. If you make

a) a positive statement or a question about a single event, you should use “was/were able to”, NOT “could”:

Yesterday, I was able to get there within an hour. ✓

Yesterday, I could get there within an hour ✗

b) a positive statement or a question about general ability in the past, you should use “could”, NOT “was/were able to”

We could eat in the canteen for free for a year. ✓

We were able to eat in the canteen for free for a year. ✗

c) a negative sentence, there is no a particular difference between “couldn’t” and “wasn’t/weren’t able to”

I couldn’t fall asleep last night. ✓

I wasn't able to fall asleep last night. ✓

d) a sentence expressing that something was particularly difficult, you should use "managed to" or "didn't manage to"

The door was stuck but I managed to open it.

Permission

To ask for, give, and refuse permission, we use two verbs, *may* and *can*. What is the difference between them? *May* is used under semi-formal or formal circumstances.

May I ask a question?	*We ask our teacher for a permission to ask a question.*
Can I speak to George?	*We ask George's mother to call George.*

Obligation

First, it is necessary to know the difference between modals of obligation which are *must*, *have to*, *should* and *to be to*.

1. Must

This modal verb is used when we talk about things which are necessary, though it may sound more urgent or imperative than the others.

You must write the report now!

Typically, this verb is used when someone is speaking about things which are necessary for them personally.

I must learn harder if I want to get a good education.

Plus, we can use this verb as a very definite recommendation for someone you know very well (whereas, should sounds milder) or as an instruction.

It is a brilliant movie – you must see it, John!

All passengers must have a boarding pass to get on board.

2. Have to

This modal construction is used when something is necessary because of some external circumstances.

You have to drive slowly! The speed limit is just 50 kmph!

Do I have to write to her right now or this is not urgent?

3. Mustn't vs Don't have to

Also, you need to remember about the difference between the negative forms of the verbs described above.

Don't/doesn't/didn't have to is used when things we are talking about are not necessary, but someone we talk to can do it anyway.

Mustn't is used when something is prohibited.

Sentence	**Explanation**
You mustn't bring your own laptops to the classroom.	*It is prohibited so students cannot use their own devices.*
You don't have to bring your own laptops to the classroom.	*It is not necessary to do it but students can use their own devices.*

4. Should

This modal is used for mild obligation. This mild obligation can be expressed in the form of:

a) something which is ideal or desirable.

There should be more free parking lots near the university.

There should be two more apples in the dish.

b) advice or suggestion.

You should tell them what you really think.

You should brush your teeth twice a day.

5. To be to

This modal is used when someone or something is required or obliged to do.

You are to report to the head office by 08:30.

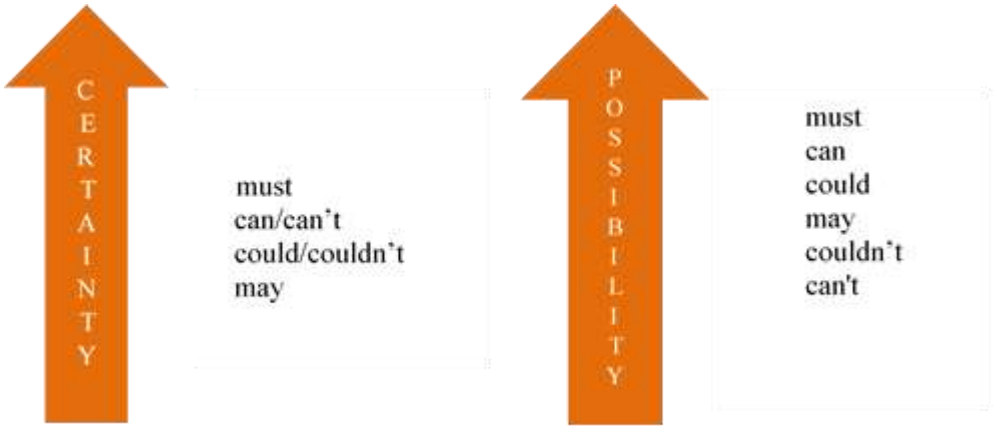

Possibility

We can use the number of modals to talk about possible things and the degree of our certainty. Two questions we need to answer:

How possible is it?

How certain am I?

Here, we need to bear in mind two scales:

SOME/ANY/NO/EVERY

Some, any and no *can be both determiners and pronouns* (a pronoun form of *no* is *none*). You can see the table containing brief information on each below.

Determiner/Pronoun	Derivatives	NB!
Some	Something/someone/somebody/ somewhere/somehow	1. Refers to indefinite or not important quantities

		(only in affirmative sentences). 2. Refers to someone or something particular but unknown. 3. May be used in questions when we are expecting the answer to be “yes”.
Any	Anything/anyone/anybody/ anywhere/anyhow	1. Refers to indefinite or unknown quantities (in questions and negative sentences). 2. Means “it doesn’t matter which” (usually in affirmative sentences).
No/None	Nothing/no one/nobody/ nowhere	1. Refers to an absence. 2. Mind the double negation!
Every	Everything/everyone/everybody/ everywhere	1. Means “each member of a group” 2. Always singular!

As determiners

As determiners, *some*, *any*, *no* and *every* are used directly before nouns.

Some apples are needed to bake a cake.

Do you see any apples?

I can see no apples.

I need every apple you can find.

1. *Some* has two meanings: indefinite or not important quantities (a), the meaning opposite to “others”, “all” and “all” (b), and something particular but unknown (c).

a) In this meaning, *some* is used in affirmative sentences and in questions (when you expect the answer “yes”) ONLY with uncountable nouns and plural nouns.

*I have **some oranges**.*

*I’m looking for **some advice**.*

b) In this meaning, *some* contrasts with “others”, “all” and “enough”.

*Why do **some people** live longer? (meaning: not others).*

***Some people** agree with him (meaning: not all).*

*There were **some apples** left but I couldn’t bake a cake (meaning: not enough).*

c) In this meaning, *some* is used basically with singular countable nouns:

*There must be **some way** out of here.*

***Some idiot** took my umbrella!*

2. *Any* has two meanings: indefinite quantities (a) and “it does not matter which” (b).

a) We use any in questions and negative sentences and ONLY with uncountable nouns or plural nouns:

*Do I need to get **any milk**?*

*There aren’t **any books** in English in this library.*

b) In this meaning, we use any to describe something not limited with all types of nouns and USUALLY in affirmative sentences.

*You can come over for dinner **any evening**.*

*You can choose **any exercise** you like.*

3. *No* has one meaning: an absence of something.

I have no objections on the matter.

There are no bad students in the room.

In some contexts, *no* (and its derivatives) can be easily substituted with *any* (and its derivatives). It provides you with greater variability of speech, however, you need to be very careful with the double negation, which is considered incorrect in English.

+	–
I have	no cats.
–	+
I don't have	any cats.

4. *Every* has one meaning: "each member of a group". It is used only before singular nouns or uncountable nouns.

Every player wants to be a champion.

Please note that we should use singular pronouns and possessives to refer back to *every* + noun.

*Every store has a manager in charge of **it**.*

*Every mall has **its** own parking lot.*

As pronouns

Some of these determiners can be pronouns when the noun is understood. In such cases, we do not use any noun following.

*Sorry, have you got some $1 coins with you? – Sure, I can lend you **some** (meaning: I can lend you some coins).*

*Sorry, have you got some $1 coins with you? – No, I don't have **any** (meaning: I don't have any coins).*

*Sorry, have you got some $1 coins with you? – No, I have **none** (meaning: I have no coins).*

BE CAREFUL WITH *NONE*! *None* is a pronoun meaning *"not one"* or *"not any"* which can replace both countable and uncountable nouns.

I have a brother. My father has none (meaning: My father has no brothers).

I wish I had some courage to do this. Unfortunately, I have none (meaning: I have no courage).

Mind the agreement! When *none* is the subject, the verb can be either singular or plural according to what is implied.

I was looking for inspiration. None (inspiration – singular) ever comes.

I was looking for ideas. None (ideas – plural) ever come.

No one and *nobody* cannot be substituted with *none*.

No one came to my party. ✓

None came to my party. ✗

Derivatives

Each determiner has its own set of derivatives:

Derivatives of *some*: *someone* and *somebody* (a particular but unknown person), *something* (a particular but unknown object), *somewhere* (a particular but unknown place), *somehow* (a particular but unknown manner).

Derivatives of *any*: *anyone* and *anybody* (a specific or an open, unlimited set of people), *anything* (a specific or an open, unlimited set of objects), *anywhere* (a specific or an open, unlimited set of places), *anyhow* (a specific or an open, unlimited set of manners).

Derivatives of *no*: *no one* and *nobody* (an absence of people), *nothing* (an absence of things), *nowhere* (an absence of places).

Derivatives of *every*: *everyone* and *everybody* (a total number of people), *everything* (a total number of things), *everywhere* (a total number of places).

MIND THE NUMBER! All these derivatives are always SINGULAR!

***Everyone goes** to my party!*

REPORTED SPEECH

Reported speech is our representation of other people's speech or our own words. Reported speech might be separated into two main types: direct speech and indirect speech. Indirect speech focuses more on the content of what was said rather than the exact words. In indirect speech, the reported clause's structure depends on whether the speaker is reporting a statement, a question or a command.

Indirect speech. Statements

When one transforms a direct statement into indirect, one should look carefully at the verb which stands in front of the direct speech:

Russian President says, "Russia plans to keep cooperating with other countries to harmonize global energy markets." – Russian President says (that) Russia plans to keep cooperating with other countries to harmonize global energy markets.

Russian President said "Russia plans to keep cooperating with other countries to harmonize global energy markets" – Russian President said (that) Russia planned to keep cooperating with other countries to harmonize global energy markets.

Two clauses are connected with the conjunction *"that"*. However, it may be omitted, especially, in informal speech.

A verb in its past form causes so-called 'backshift' in the reported clause. The tenses should be changed as follows:

Direct		Indirect
Present Tenses	->	**Past Tenses**
Present Simple	->	Past Simple
Present Continuous	->	Past Continuous
Present Perfect	->	Past Perfect
Present Perfect Continuous	->	Past Perfect Continuous
Past Simple Tenses	->	**Past Perfect Tenses**

Past Simple	->	Past Perfect
Past Continuous	->	Past Perfect Continuous
Past Perfect\Past Perfect Continuous	->	Past Perfect\Past Perfect Continuous
Future Tenses (will)	->	**Future-in-the-Past Tenses (would)**

Sometimes there is no 'backshift'. It happens when the information given in indirect speech is still true or relevant or has not happened yet.

He said, "The Earth is round."– He said (that) the Earth is round.

Apart from changes to tenses, adverbs and demonstratives should be also changed:

Direct		Indirect
today	->	that day
tonight	->	that night
tomorrow	->	the next\following day
next (week, month, etc.)	->	the next\following (week, month, etc.)
ago	->	before
yesterday	->	the day before\the previous day
last (week, month, etc.)	->	the last\previous (week, month, etc.)
now	->	then
here	->	there
this (place)	->	that (place)

Indirect speech. Questions

The main distinctive feature of English questions is their word order. Typically, it can be described as "VSO", i.e. "verb, subject, object". When one makes any direct question indirect, one should keep the word order direct ("SVO", i.e. "subject, verb, object")

Then, one should distinguish two main types of English questions: general questions (also called yes/no questions) and special questions (wh-questions).

General questions (Yes, no questions)

Such questions may have a modal, an auxiliary verb, the verb "to be" (when a main verb) as the beginning:

May (a modal) the president veto a law?

Do (an auxiliary verb) you work at the Supreme Court?

Are ("to be" as a main verb) you an MP?

Transforming a direct question into indirect, one should connect two clauses by means of conjunctions "whether" or "if":

I asked whether/if the president may veto a law.

I asked whether/if you worked at the Supreme Court.

I asked whether/if he was an MP.

Note that the rule of backshift is applicable.

Special questions (Wh-questions)

The main difference between this type of questions and the previous type is that one does not need any word to connect clauses. On the contrary, a question word (a wh-word) is used to connect clauses.

Where is the Houses of Parliament? – I asked where the Houses of Parliament was.

It is necessary to distinguish subject and object questions. The words who\what may be both the subject and an object of a sentence:

Who (object) are you talking to? – I asked who you were talking to.

Who told you that? – I asked who had told you that.

Indirect speech. Commands

When it comes to reporting commands, a sentence consists of a reporting clause, and a reported clause beginning with an infinitive:

He asked the Prime Minister, "Develop new social policy initiatives and measures to boost employment". –He asked the Prime Minister to develop new social policy initiatives and measures to boost employment.
The claimants asked the Commission, "Focus on the horse ID forms, please" –
The claimants asked the Commission to focus on the horse ID forms.
We also use a *to*-infinitive clause in indirect reports with other verbs that mean wanting or getting people to do something. These verbs are called reporting verbs.

Indirect speech. Reporting verbs
Various reporting verbs require different patterns when they are used in reported speech. You can see some verbs below:

Patterns		**Verbs**	**Examples**
1. verb + that clause	no object	add, admit, announce, claim, complain, insist, reply, respond, say, state, suggest	Jack **admitted that** it was so challenging for him.
	+ object	tell someone, warn someone	The House of Commons **told us that** no final decision had been taken on this issue.
2. verb + infinitive with to	no object	agree, claim, offer, refuse	The corporation **agreed to pay** a $10 million compensation.
	+ object	advise someone, ask someone, beg someone, encourage someone, invite someone, order	My English teacher **has advised me to** read these books.

		someone, persuade someone, remind someone, tell someone, warn someone	
3. verb + gerund	no preposition	admit, advise, consider, regret, suggest	A computer hacker has **admitted stealing** hundreds of user accounts from a US military communications system.
	+ preposition	admit to, apologize for, complain about, insist on, thank someone for	More than one third of drivers **admit to breaking** rules of road.

NB! Some reporting verbs (they are underlined in the table) have more than one pattern.

PARTICIPLES

Participle is the form of a verb that in English usually ends in "ed" or "ing". It has the characteristics of both verb and adjective. It has the function of an adjective and at the same time shows such verbal features as tense and voice and capacity to take an object.
Compare:
a) *A scientist **lost** his test-tube.*
b) *A scientist found a **lost** test-tube in the laboratory.*
In the sentence A we have a verb - it describes an action.
In the sentence B - a past participle, which characterizes the noun.

Form

Participle 1 (Что делающий?)	Participle 2 (Что с ним сделали?)

-ing: discuss**ing -** обсуждающий, play**ing -** играющий, writ**ing** – пишущий.	**-ed/V3:** discuss**ed -** обсужденный, play**ed -** сыгранный, written - написанный.
~~**e**~~ **→ ing** to write - writ**ing**	**e+d** to arrange - arrang**ed**
~~**ie**~~ **→ y + ing** to lie - ly**ing**	**consonant + y→ i + ed** to deny - den**ied**
double consonant + ing to stop - stopp**ing**	**double consonant + ed** to stop - stopp**ed**

Functions

Participle 1	Participle 2
1) Identifies a noun and describes an action that is happening in the present tense. I adore that **cleaning** robot. – Я обожаю этого убирающего робота (робота-уборщика).	1) Defines a noun and describes an action that has already happened. She managed to restore the **ruined** experiment. – Ей удалось восстановить испорченный эксперимент.
2) Part of Continuous and Perfect Continuous. Go check why the robot isn't **working**.	2) Part of Perfect The invention has **launched** the era of modern technologies.
	3) Forms Passive Voice The printing press was **invented** by Gutenberg.

Participles can also be used:

1) to express **time**.

e.g. ***Finishing*** *her homework, Maria immediately closed her laptop.*

2) to express **reason**.

e.g. ***Using*** *DNA, scientists could predict illnesses in unborn babies. (Because they used DNA, they could predict illnesses.)*

3) instead of **a relative pronoun** and **full verb**.

e.g. *The domestic robot* ***mowing*** *the lawn is ours. (The robot which is mowing the lawn is ours.)*

4) instead of the Past Simple **in narratives** when we describe actions happening immediately one after the other.

e.g. ***Seeing*** *the results of an experiment, he screamed happily (= He saw the results and then he screamed.)*

5) to **avoid repeating** the Past Continuous in the same sentence.

e.g. *She was reading the article about Neil Armstrong* ***making*** *notes. (=She was reading and she was making notes.)*

INFINITIVE AND GERUND

The Infinitive	
to V1	He tries **to protect** a trade secret.
The bare infinitive (infinitive without to)	
V1	He **cannot protect** a trade secret.
The Gerund (The -ing form)	
V1 + ing	**Smuggling** is an illegal import or export.

The to infinitive	**The -ing form**
1) to express purpose. e.g. Coke decided **to create** a marketing strategy around its secret formula.	1) as a noun. e.g. **Smuggling** is an illegal import or export.
2) after certain verbs (*advise, afford, agree, appear, claim, decide, expect, hope, manage, offer, pretend, promise, refuse, seem, want* etc.). e.g. He **advised** me **to accept** an apprenticeship.	2) after prepositions. e.g. A senior executive left **without** say**ing** goodbye.
3) after verbs such as *know, decide, ask, learn, remember, want to know*, etc., when they are followed by question words (who, what, where, how, etc.). 'Why' is followed by a subject + verb, not by an infinitive. e.g. They can't decide *where* **to hide** the secret formula.	3) after *love, like, enjoy, dislike, hate and prefer* to express general preference. e.g. Companies **prefer** chang**ing** their business strategies from time to time.

I want to know *why* they decided to write down the recipe.	
4) after adjectives such as *nice, sorry, glad, happy, willing, afraid, ashamed*, etc. e.g. Slater was willing **to establish** a factory.	4) after certain verbs (*consider, avoid, deny, look forward to, confess to, fancy, involve, mention, risk, spend, mind, regret, admit, suggest, imagine*, etc.). e.g. They **suggested** writ**ing** down the recipe.
5) after *too* and *enough*. e.g. She's **too** shy **to talk** to the senior executive.	5) after go for activities. e.g. They often **go** climb**ing** at the weekends.
6) after it + be + adjective (+ of + noun/pronoun). e.g. It was *nice* of the company **to give** away free samples.	6) after: *it's no use, it's (not) worth, it's no good, be busy, what's the use of, there's no point in, can't help, can't stand, be/get used to, have difficulty* (in). e.g. *It's no use* pav**ing** the way for this industry.
7) after *would like/would love/would prefer* (to express specific preference). e.g. I would like **to purchase** foreign enterprise.	7) after the verbs *see, hear, feel, watch, listen to and notice* to describe an incomplete action, that is to say that somebody saw, heard, etc. only a part of the action. e.g. I **heard** the customer talk**ing** with the manager. (I heard customer while he was talking with the manager. I heard part of the action in progress. I didn't listen to the whole conversation.)
	But: *see, hear, feel, watch, listen to, notice*+ bare infinitive describes a complete action, something that somebody saw, heard, etc. from beginning to end. e.g. I **heard** the customer **talk** with the manager. (=I heard the whole conversation from beginning to end.)

The bare infinitive is used:

1) after modal verbs (*may, should, can*, etc.). e.g. You must generate attention to their products or else you go bankrupt.
2) after the verbs *let, make, see, hear and feel*. e.g. They made him pay for the damage of the company. but: *be made/be heard/be seen* + to - infinitive (passive) e.g. He was made **to pay** for the damage.
3) after *had better* and *would rather*. e.g. You *had better* sign the contract with executive. I *would rather* refuse. Note: Help is followed by either the to - infinitive or the bare infinitive. e.g. She helped me (to) take out a loan.

Verbs taking the to -infinitive or the -ing form without a change in meaning
1) *begin, start, continue* We never have two -ing forms together. e.g. They **started** talk**ing/to talk**.
2) *advise, allow, permit, recommend, encourage* take the to-infinitive when they are followed by an object or when they are in the passive form. They take the -ing form when they are not followed by an object. e.g. They don't **allow** us **to sign** it. (object) We **aren't allowed to sign** it. (passive) They **don't allow** sign**ing** it. (no object)
3) need/require/want+-ing form This construction shows that it is necessary to repair or improve something. 'Need' can also be followed by a passive infinitive. e.g. The invention **needs** upgradi**ng**. The invention **needs to be upgraded**.

Verbs taking the to - infinitive or the -ing form with a change in meaning	
FORGET + to - inf = forget to perform an action I'm sorry, I **forgot to call** you.	**FORGET + -ing form =** forget an action that occurred in the past. I will never **forget** present**ing** my first paper at the conference.
STOP + to - inf = stop briefly to do something else He **stopped to drink** some tea and then continued working.	**STOP + -ing form =** finish, give up He **stopped** eat**ing** junk food because it is unhealthy.

REMEMBER+ to - inf = not forget e.g. **Remember to call** him tonight.	**REMEMBER + -ing form** = recall e.g. I don't **remember** see**ing** you here before.
REGRET + to - inf = be sorry to e.g. I **regret to inform** you that you have failed the exam.	**REGRET + -ing form** = feel sorry about e.g. I **regret** mak**ing** that mistake; I lost my job.
TRY + to - inf = attempt, do one's best e.g. He **tried to win** the race. He did his best.	**TRY + -ing form** = do something as an experiment e.g. **Try** exercis**ing**, you may lose weight.

BE SORRY + to - inf = apologise for a present action e.g. I'm **sorry to interrupt**, but can I ask you a question?	**BE SORRY FOR** + -ing form = apologise for an earlier action e.g. I'm **sorry** for shout**ing** at you.

CONDITIONALS

Zero and First Conditionals

Zero Conditional is used to talk about something which **is always true or always happens** as a result of something else.

If + Present Simple, Present Simple

For example: If you heat ice, it melts.
If you mix red and blue, you get purple.

First Conditional is used to talk about something which **will probably happen in the future**.

If + Present Simple, Future Simple

For example: If you study hard, you will pass your exams.
If global warming continues, it will cause a lot of damage to our planet.

1 In first conditional sentences we use the present tense (NOT the future) after IF. NOT ~~If you will work hard, you will pass all your exams.~~

2 We can also use an imperative instead of the will clause. For example: If you have time, call me.

3 We can use unless + present simple instead of 'if not'. Compare: Mike will not pass his exams if he does not attend classes. = Mike will not pass his exams unless he attends classes.

(!) Zero and First Conditionals are used to talk about real situations.

Second and Third Conditionals

Second Conditional is used to talk about **a hypothetical or imaginary *present or future* situation** and its consequences.

If + Past Simple, would + infinitive

For example: If I spoke French, I would live in Paris. (= I don't speak French, I'm imagining it)

If people could teleport freely, there would be no traffic congestion.

1. We can also use could instead of would. For example: If I spoke French, I could live in Paris.

2. After if, we can use 'was' or 'were' with I / he / she / it. For example: If I was / were a magician, I would wear a wizard hat with stars on it.

3. We often use second conditionals beginning 'If I were you, …'. For example: If I were you, I would ride a bike to work. We don't normally use ~~If I was you~~.

(!) Choosing between the first or second conditional

Using a first or second conditional usually depends on how probable the situation is. Compare:

- If I have time, I will help you. (= this is a real situation, it's possible that I will have time – first conditional)
- If I had time, I would help you. (= this is a hypothetical / imaginary situation, I don't have time – second conditional)

Third Conditional is used to talk about **hypothetical or imaginary situations *in the past***, that is how things could have been different in the past.

If + Past Perfect , would have + V_3

For example:

Yesterday I overslept and missed my train. (= the real situation)

If I had not overslept yesterday, I would not have missed my train. (= the hypothetical / imaginary past situation)

If I had taken a bus to work yesterday, I would have reduced my carbon footprint.

We can use might or could instead of would to make the result less certain. For example: If Kate had worked harder, she might have passed the exam.

(!) Second and Third Conditionals are used to talk about unreal (imaginary) situations.

'I wish'

We use the verb **wish** to talk about things which we want but which are not possible.

Expressing desires or things we want to change for the present or future:

1. We use past simple to talk about wishes for the present (but they are impossible or unlikely to happen):

I wish + Past Simple

For example:

Jane wishes she had more free time. (but she doesn't have free time now and expresses desire for having it)

I wish I were taller. (expressing desire to be taller, even though I am not currently tall)

After I / he / she / it, we can use 'were' instead of 'was': I wish I was / were taller; I wish it wasn't / weren't so cold.

2. We use past tense modals **would** and **could** to talk about wishes for the future:

I wish + could / would + verb

For example: I wish I could get a better job. (I don't like my job)
I wish it would stop raining. (It’s raining now and I will have to go out soon)

(!) You can't use ‘wish + would’ for a wish about yourself. NOT ~~I wish I would...~~

Expressing regrets about the past:

I wish + Past Perfect

For example: I wish I hadn't eaten so much cake yesterday. (but I ate too much cake yesterday and regret about it)
He wishes he had studied harder for the exam. (expressing regret about not studying harder because he failed it)

COMPLEX SUBJECT

Complex Subject is based on the combination of a noun or pronoun with the infinitive, which can be used in all forms. So, let's look at the sentences where this grammatical construction is used.

Subject	Verb (Predicate)	Infinitive	Translation
She	is known	to be a talented designer.	Известно, что она талантливый дизайнер.
This guy	is said	to speak Chinese fluently.	Говорят, что этот парень свободно разговаривает на китайском языке.
The team	was announced	to have left for India.	Объявили, что команда отправилась в Индию.

Infinitive forms with Complex Subject

As mentioned above, different forms of the infinitive can be used in the sentences with complex subject. The choice of the infinitive depends directly on the time period or the link between one period of time with another.

	Active	**Passive**
Simple	to ask	to be asked
Continuous	to be asking	–
Perfect	to have asked	to have been asked
Perfect Continuous	to have been asking	–

Here are some examples of the use of the Active infinitive:

This actor is said **to play** his parts professionally. — Говорят, что этот актер профессионально **играет** свои роли.

She is reported **to be working** on her new book — Сообщается, что она **работает** над своей новой книгой.

Ben is said **to have passed** his exams. — Говорят, что Бен успешно **сдал** экзамены.

Some writers are known **to have been writing** their books for many years in a row. — Известно, что некоторые писатели **работали** над своими книгами много лет подряд.

Now let's look at some examples of the Passive infinitive use:

This book is supposed **to be written** by the end of this month. — Предположительно, эта книга будет **дописана** к концу месяца.

The article is expected **to have been written** so far. — Предположительно, статья уже **написана**.

The verbs typically used with the Complex Subject may be divided into several groups:

Complex Subject Passive

Verbs of mental perception	**Verbs of sense perception**	**Verbs of saying and reporting**	**Be+Adjectives**
is known - знают **is thought** – думают, считают **is expected** – ожидают, **is believed** - полагают **is considered** - считают **is supposed** – предполагают	**is heard** - слышали **is seen** - видели **is noticed** – замечают, отмечают	**is said** - говорят **is stated** - утверждают **is reported** - сообщают **is announced** - заявляют	**is likely** - вероятно **is unlikely** - маловероятно **is certain** - наверняка **is sure** – обязательно

Complex Subject Active

In most cases the predicate is expressed by a passive verb, except for the verbs:

seem — казаться, *по-видимому, похоже;*

appear — казаться, выглядеть, появляться;

happen — случаться, оказываться, случайно произойти;

prove — оказываться;

turn out — оказываться.

Your work **seems to be** quite stressful.	Кажется, ваша работа очень напряженная.

13 of the 33 applicants **appeared to be** competent to do the job, and were invited for interviews.	Оказалось, что 13 из 33 претендентов на эту должность обладают необходимой квалификацией, и их пригласили на собеседование.
A boy **happened to witness** the robbery	Так случилось, что мальчик оказался свидетелем ограбления.
He **proved to be** a brilliant and diligent student.	Оказалось, что он замечательный и прилежный студент.
The player **turned out to be** a cheater.	Игрок оказался мошенником.

COMPLEX OBJECT

Complex Object is a structure used to make sentences more compact. It consists of:

Verb + **Object** + **Infinitive** (with or without “to”) // **Participle I** (V ing)

I **would like you to complete** the project by Friday.	Я бы хотел, **чтобы** вы завершили проект к пятнице.
We **expect them to arrive** on time for the meeting.	Мы ожидаем, **что** они придут на встречу вовремя.
I **don’t like people to interrupt** me when I'm speaking.	Я не люблю, **когда** люди перебивают меня в процессе разговора.
I **asked him to help** me move the furniture.	Я попросил его помочь мне передвинуть мебель.
We **saw him crossing** the street when the light was red.	Мы видели, **как** он переходил улицу, хотя горел красный свет.
I **saw him cross** the street without looking both ways.	Я видел, **что** он переходил улицу, даже не глядя по сторонам.
He **made me hack** this computer.	Он заставил меня взломать этот компьютер.

I **recommend you to make** backups.	Я рекомендую вам делать резервные копии.

To choose between the correct form of an infinitive or a participle pay attention to the main verb:

Subject	**The main verb**	**Object Pronoun/Noun**	**Infinitive**
I **You** **He She** **They** **Somebody**	want wish intend would like	her	to work
	love like hate	him	to meet
	expect consider suppose believe	them	to speak
	know think report claim find	her	to come
	make have	him	do
	force	her	to do
	allow permit ask order	her	to write
	let	them	come in

	see hear feel notice watch	somebody	reading
